Security, Dorm Officials Discuss Lo-Rise Burglary

By RUN GINNBERG

Residence officials and campus security personnel have expressed concern over the recent series of burglaries on the Residence Hall complex.

In that incident intruders broke into the dormitory on the third floor of the Hall complex, and then moved to the second and first floors. They also reported that they had discovered that the phone lines were gone, suggesting that the intruders may have been aware of the existence of the phones.

The administrator declined to identify the dormitory involved, explaining that the dormitory was identified by numbers rather than by name. She also noted that the dormitory was one of the larger dormitories on the campus.

The administrator also noted that the dormitory was one of the more heavily trafficked dormitories, with a large number of students living in close proximity to each other. She also noted that the dormitory was one of the more active dormitories on the campus, with a large number of social events taking place regularly.

The administrator also noted that the dormitory was one of the more heavily trafficked dormitories, with a large number of students living in close proximity to each other. She also noted that the dormitory was one of the more active dormitories on the campus, with a large number of social events taking place regularly.
