**Trustees to Hear Plan Suggesting Creation of Resident Life Administrator**

[By JOHN MURPHY]

A special Provost's Committee assigned to evaluate residential programs has recommended that the office of Vice-President for University Life be created to coordinate overall control of the campus.

The committee's report notes that the current director of residence is not able to make decisions without the approval of the Finance and Graduate School, and without the input of the faculty.

The committee also recommended that the office be staffed by individuals who have a background in student affairs and are familiar with the needs of both students and faculty.

The foundation, formed in 1967 as a non-profit organization, has received grants from the National Institute of Mental Health and the National Science Foundation.

The foundation's current project, "The Development of the Child's Socialization System," is expected to last for five years.

**Filibuster Delays Vote On Campaign Reforms**

[By STEVE EISENBERG]

The Senate's failure to pass a bill to reform campaign finance on May 6, 1975, is the latest in a series of defeats for the issue in Congress.

The bill was introduced by Senator John Dingell, a Democrat from Michigan, and was endorsed by the Democratic leadership.

The bill would have limited campaign contributions to $500 per person and $5,000 per campaign.

The bill was defeated, but the issue is expected to resurface in future sessions of Congress.

A special Provost's committee was established to investigate the heist, which occurred when the building was closed.

The committee's report notes that the heist was not a result of internal theft, but was likely due to external factors.

The report urges Congress to pass legislation to address the problem of art theft.
