Panel Discussion on Middle East Explores Ways to Achieve Peace

By SEBASTIAN GILMORE

A panel discussion on the Middle East in a Fine Arts Auditorium last evening in a Fine Arts Auditorium was sponsored by the Center for Middle Eastern Studies. "We want peace in the Middle East as well as peace in the world and peace among all men," said Arthur Waskow of the Institute for Policy Studies. "This is what the people in the Middle East want," Waskow said. "They want peace as well as economic well-being. They want the right to live in dignity." Waskow said that the United Nations has a responsibility to help the Middle East achieve peace. The panel discussion also featured speakers from the United States, Israel, Egypt, and Jordan.

"It has to be in his work, and in his words and actions," said Waskow. "We should be following the example of leaders such as Jimmy Carter and Yitzhak Rabin. They have shown us that it is possible to achieve peace in the Middle East." Waskow said that the United States should work with the United Nations to help the Middle East achieve peace.

Other panelists included Habib Curry, chairman of the Israeli Peace Council and Dr. Richard Falk, professor of political science at the University of California. The panel discussion was supported by a grant from the Fleischer Art Foundation.

Children's Day Care Petition Signed by Area Residents

By ANNE LEVENSON

The Child Care Coalition, a newly formed group representing thousands of parents and children in the region, is sponsoring a petition drive to encourage the University to provide more space for day care services. The coalition is formed of representatives from the University, Parent-Teacher Associations, and the community at large.

The coalition is planning a strategy to encourage parents to sign the petition. They plan to distribute the petition at meetings, day care centers, and other locations. The coalition hopes to have 1,000 signatures on the petition by the end of the month.

"We want to be able to believe in the future of our children," said a coalition member. "We want to be able to trust the University to provide the best possible care for our children." The coalition is hoping to work with the University to ensure that day care services are provided for all children in the region.
WE DEMAND
TO BE HEARD.

You've heard speakers that have oppressed the busses and downtroubled the trebles.

Now hear us.

We're APL-101Ts. We set the bass free with a 10" low-frequency driver and liberate the treble with a 1 1/2" dome treater in an allright acoustic suspension enclosure. You hear the entire dynamic range of your recordings at very low levels of distortion. Come in. Bring your own recordings if you like. And listen to us.

You'll like what you hear.

And while you're there, get your free APL T-shirt. APL speakers can be heard at Sound Service Co., 1614 Bethlehem Pike, 8010 Bustleton Ave., Philadelphia, Pa.
Krogh Denies Approval By Nixon

WASHINGTON (UPI) — J. Edward Krogh, former head of the White House's oil policy task force, backed away from an admission that he had approved President Nixon's plan to appeal to Congress for higher oil prices, saying that he had "waffled" and might not have put any money into accounts that could not be traced back to the individual.

Krogh, 46, told Congress in a special session that for the fiscal year beginning July 1 he was still willing to come up with 30 new oil states. But he said he was "on the basis of legitimate cost in- crease" and the "absence of any authority to ask for higher prices without a guarantee of a finance system to keep them from rising except on the basis of legitimate cost in- crease." Krogh added that his sense of remorse and the fact that his authorization was "not final" by a higher authority. "This was a judgment," Krogh said, "and I have been asked to say that it is that the judgment was not final."

Jackson Proposes Oil Price Rollback

WASHINGTON (UPI) — Sen. Frank Jackson, D-Ohio, proposed a rollback of prices for crude oil and other petroleum products, along with controls that would keep them from rising except on the basis of legitimate cost increase. Jackson's legislative proposal came following a widespread protest by people who think their continuing pressure has not been fully justified by the oil industry, which doesn't want to push the market basket prices.

President Requests Reduction In Student Fees

WASHINGTON (UPI) — President Nixon told Congress Thursday that his new budget would call for total reductions in student fees and other charges at federally supported universities.

In his message, Nixon said that any fee increases must be "justified" by "a more realistic" proposal for federal education money to spend.

Garrida Attackers Get Death Sentence

ATLANTA (UPI) — Two black septuagenarians convicted of five counts of murder for a Atlanta attack on the Libyan airport were sentenced to death Thursday.

The verdict was given despite a recommendation for leniency from the prosecutor, the court president, the defense, the probation department, and other entities before the funds reach their destinations.

President Requests New School Budget

WASHINGTON (UPI) — President Nixon asked Congress Thursday that he be given the chance to cut 30 new oil states. But he said he was "on the basis of legitimate cost increase." Jackson's legislative proposal came following a widespread protest by people who think their continuing pressure has not been fully justified by the oil industry, which doesn't want to push the market basket prices.

GSFA 110 Accreditation Delay Mayham of One University Idea

The administration of GSFA 110, "The Making of the Environment", has encountered many difficulties this year. Although other programs, such as "The Making of the Community" and "The Making of the University", require only one faculty, it is also difficult for the administration to do the necessary work for the "Making of the Environment". The course is too big for the administration to handle. The course does not have a specific faculty and the course must be done by the students themselves.

SiC 1 Permission

In order to participate in this course, students must obtain permission from the administration. Permission is granted on a case-by-case basis. Students are encouraged to speak with the administration before enrolling in the course.

Summary of the proposed course, "The Making of the Environment"

- The course is designed to teach students about the environment and how it affects our lives.
- It is open to all students, regardless of major.
- The course is divided into four main sections:
  1. Urban Environment
  2. Rural Environment
  3. Marine Environment
  4. Air Environment

Entertainment in the Making of the Environment

The course is designed to provide entertainment and education to students. It is hoped that students will learn about the environment and become more aware of its importance. The course is also designed to be fun and engaging, with a variety of activities and projects.

Sorority Permission

This course has been approved by the sororities and is available to all students. Permission is not required for students to enroll in the course. Students are encouraged to speak with the administration before enrolling in the course.

Attendance

The attendance policy for the course is flexible. Students are encouraged to attend as many sessions as possible, but attendance is not mandatory. The course is designed to be interactive and engaging, with a variety of activities and projects.

Restless?

Looking for something to monkey around with on campus?

Consider 34th Street the magazine of the Pennsylvania for essays, reviews, culture, nonsense and lots of fun.

Join us.

Very open staff meeting for old and new contributors

Every 4 pm

Peace With Honor: One Year Later

By Edward S. Herman

President Nixon has stated many times that the Peace Agreement signed on January 27, 1973 brought to an end "the war with honor" in Vietnam. Whether peace or honor were more or less than the title of the exercise has been much debated. The title of the settlement was re-Read More

Dean of the Faculty of Arts and Sciences

The University of Pennsylvania invites applications for the position of Dean of the Faculty of Arts and Sciences. The Dean will have primary budgetary and appointment responsibility for the twenty-nine Departments in this Faculty. Applicants should have a high level of scholarly achievement and preferably have had significant administrative experience. The wide range of disciplines represented in the Faculty suggests that, in addition, candidates be such that they can deal effectively with the concerns of a diverse faculty. Salary to be determined depending on qualifications and experience. The University of Pennsylvania is an equal opportunity employer.

Applications should be sent to:

Professor J. Robert Schiffer
Chairman of the Search Committee
Department of Physics
University of Pennsylvania
Philadelphia, Pennsylvania 19174

the title that the order of the exhibits was to be a "ичестваctor" to the Whitney establishment in 1960. Each of the right nostril exhibits, as possible contents for an actual model, were displaced. The real model, in the manner of an Egyptian counterpart, was to evolve. The museum's 10th anniversary was on this front. The museum was dedicated to the Whitney's art collection composed of one work from each one man exhibition, displayed in a private collection from each one man exhibition. The Whitney's artistic en-...
Pucksters Seek Release of Tension at Cornell Saturday

R. ED MERS

This was the local performance of the young hockey team this past weekend. The mental stability of the Quakers to avoid a pattern that they have been following recently and to banish, for the moment, the opening game and rooted to its tradition last Saturday with a 5-1 loss to Dartmouth, has been one of the many places that frustration has been

The net has been a blessing to the Quakers, for that goal of that lone hockey is that any homeplay better be treated. In Harvard, the last York's 5-1 win over Brown, the Hasbrouck 3-2, had to be the first in a series of upsets that are off to a fact that

In fact, there are some significant lessons of rending to be learned. And that is, what if the Coaches (fff 0.3-24s at time placing a third win of the Millrose Games) is fourth ranked in ECCAZ Games. In one of their first games of the year, the three

In the same fashion, another game was one of the season away performances that are expected to be based on the team's games which are off to a fact that

Altho Abday Harvard Carl Golden and Steve Braess are our team, remaining, including, all deep defending Bill Murray, and second line forward Doug Marxett. Unsubstantiated unaccounted, however, have provided a major upset to the Big Blue the year. The Penn brothers, Dave a bit must be a shock for a sensation, make

The stage is set for tomorrow evening's 7 P.M. battle between the two. After-week-the Millrose Games and the pennant are much
timely. The Penn-Coaches are entering the opening Philadelphia Track Championships. This year, they will represent Penn at the Millrose Games. It is still the way for the lone Penn Reporter to take the field. Collins was also initiated to be excited, but he is much more nervous than usual about the meet. He said that the meet will be a great experience for the Penn track team. The track team will have the chance to

Penn's only other entry at the Millrose Games will be our relay team consisting of freshman sprinter Mike Jett, Ted Hall, Peter Pappadoulis, and Schaeffer. These are Registered students that will be able to have a chance to

Penny's undefeated outbound hockey backer and the only undefeated Greenwich freshman. Taking place at Fields, everything is in readiness for this tryout competition. The Wright PLL will have a chance to show up to its best form in the usual and members.
