Student Group Claims U. Neglects Chicanos

BY JENNY MULLACK

Laura Escareno, chairwoman of a Chicano student organization, charges that the University is ill-prepared to handle the demands of workers who have been "ill-prepared for Penn." In her letters to Provost Eliot, the University considers such suggestions as "rational, but not sufficient help" to the workers. The work contract to be negotiated should include a "first shot" at a living wage for the dining service workers. (Continued page 1)

Claude Lewis Calls Upon Blacks To Become Involved in News Media

By SETH ROSEN

Lewis also said there is need for people to become more involved in their community, government, and with the news media as concerned readers. One has to be involved in our society to have enough energy and desire to write a letter and let one's feelings be known.atively, he said the students, the media, and the government must be held accountable for the public's needs. People are not potential voters; we have to recognize our power and use our power.

Lewis discussed the involvement of the press in the Watergate affair and the Agnew resignation of 88 of The Sun's cases, he said, in which the Nixon administration failed to provide adequate information. As a result, the press has become the principal force for change and justice was ultimately served mainly because the press pressured the administration in its efforts to get to the truth.

The Urban League Speaker Program is designed as an effort to promote contact between residents of the house and active members of the community in small, informal groups. In the next few weeks, most speakers will include prominent Philadelphia lawyer Civil Moore, Judge Louis Hagstrom, television commentator Jack Jones, and University President Martin Meyerson.

The Americanization of England

By Steve Stockwell

Before I arrived in London, I read a story about how Americans had been replaced that the BBC show I was watching was "The Andy Griffith Show." I was watching a game show on American TV, the telly, or tulx-1 with Chicken outlets, with the Colonel or the king or should say the king or the president of the company that founded it in 1871, 'one' "the 'oldest restaurant. Among the topics recently debated was the question of grades. Each college has its own system of grading. At the University of California, for example, only the highest grades are awarded, as in the American system. At the University of Pennsylvania, grades are awarded according to a scale of 0 to 100, with 90 and above being the highest grade.

Students in the United States may also be required to take a standardized test, such as the SAT or ACT, in order to be admitted to college. These tests are used to assess a student's academic readiness for college-level work.

The University of Pennsylvania is a private institution located in Philadelphia, Pennsylvania. It was founded in 1740 and is one of the oldest universities in the United States. The university is known for its strong programs in business, engineering, and the liberal arts.
