Shapp to Testify At State Probe Of His Finances

By MARC GOLSTEIN

Gov. Milton Shapp testified today before the House Select Commi-

nee on Campaign Finance. He answered questions about his involve-

ment in a real estate deal in the Bensalem area and the use of state

pension funds, and administration officials.

The committee, known as the Commonwealth Attorney General's

committee, has been investigating the governor's income tax rela-

tionships in real estate deals and the use of state pension funds.

Shapp, a Democrat, was questioned by Rep. Joe Sestak, a retired

military officer and Vietnam veteran.

"You have not violated any law or

regulation," Sestak said.

Shapp said he had not, but would not

commit to not violating any law or regula-

tion in the future.

The hearing, which lasted about two

hours, was expected to last three more.

A third hearing is scheduled for April.

Ivy Budget Comparison 1973-1974

By PETER GINZBERG

The University's fiscal year 1973-74 deficit exceed-

ed $4 million, according to a new report prepared by

the University's Office of Financial Services.

The report, which was released today, indicated that the un-

iversity's fiscal year 1973-74 deficit, at $4 million, was the

largest in the university's history.

The report was prepared by the Office of Financial Services,

which is responsible for the university's financial affairs.

The report indicated that the university's fiscal year 1973-74 deficit

was the result of a combination of factors, including a decline in

state funding, a rise in operating costs, and a decline in the

value of the university's investments.

The report recommended that the university take steps to

reduce its fiscal year 1973-74 deficit, including increasing its

state funding and reducing its operating costs.

New Ice Cream Parlor Opens To Scoop an Old Campus Favorite

By CAROL HUTCHISON

The new ice cream parlor, located on the corner of Walnut and

South, has already become a campus favorite.

The parlor, which opened last week, is owned by the parents of

a former student.

The parlor offers a variety of ice cream flavors, including ice cream

and sorbet.

The parlor is open seven days a week, from 11 a.m. to 10 p.m.

The owners said they hope to attract more students and faculty

in the future.

News in Brief

Nixon Moves to Quash Subpeonas
WASHINGTON (UPI) — Former President Richard M. Nixon formally notified the House of Representa- tives Friday the White House would not comply with 18 subpoenas issued by Grand Jury foreman boilers and the committee. For Nixon's testimony, presum- ably on Watergate matters. The other 17 subpoenas are civil actions are necessary to save the life of the patient. The former Nixon aides were interviewed by the special grand jury in the Watergate case. They are being given the job to encourage the performance of professional conferees, also said that deaths from illegal abortions could come to 600,000 a year and serious hospital cases resulting from illegal abortions could reach 12,500 to 25,000 a year under the measure.

Senator asks Release Of Watergate Reports
WASHINGTON (UPI) — The Senate Judiciary Committee Chairman Frank Lautenberg has decided to hold public hearings to make public Watergate records, but named a special subcommittee which will be under a tight requirement to apply records as well.

Nixon to release all Watergate records in 90 days.

Speak No Evil

By Michael Friedman

Although it is almost incomprehensible that in the past two days I have seen so much of the student population and that does not know of the significance of the word "gut," I will nevertheless look at the way the student body has gone down as usual and therefore it is not likely that such an uninformed individual could indeed read it.

The word "gut" which we commonly use to describe courses in which there is a minimal amount of work, is a term and very required that certain individuals become very familiar with the idea that such an uninformed individual could read it.

The word "gut" which we commonly use to describe courses in which there is a minimal amount of work is a term and very familiar with the idea that such an uninformed individual could indeed read it.

Tech Hifi lowers the price of getting high.

While the cost of almost everything else keeps getting higher and higher, Tech Hifi has managed to actually lower the price of getting high fidelity.

It doesn’t involve magic, or even wishful thinking. Just a lot of hard work on the part of our buyers. They’ve been able to arrange a number of special deals on some great high fidelity equipment.

So if you’ve never owned a good system, we can introduce you to the exciting world of high fidelity for remarkably little money. How does $159 for a good, brand-name, four-channel-ready stereo system sound? Or only $239 for a great little receiver system with KLH loudspeakers. And the systems sound even better than the prices do! But these are just the beginning. During Tech Hifi’s back-to-school sale we’re lowering the price of high fidelity all across the line!

Even though this is a special sale, we’re still providing Tech Hifi’s seventeen customer satisfaction guarantees with each system. These include a seven-day money-back guarantee, ninety-day 100% trade-in, and sixty-day exchange for defective units.

Come in for the full story. Even if you don’t buy anything, we’ll give you a “Get High” button, or a Tech Hifiyer (it’s like a frisbee, except it’s a freebee), or maybe even a packet of deluxe rolling papers!

Just come in and say, “high.”

Tech Hifi lowers the price of getting high.
We challenge you to taste and compare!

Our standing challenge: taste and compare the good old-time flavor of Pabst with any other beer. Once you taste Blue Ribbon quality, you'll never go back to the beer you were drinking. Take our challenge. We know Blue Ribbon will come out the winner, every time.

Pabst. Since 1844. The quality has always come through.
Philip Roth Appointed As Adjunct Professor

By ADRIENNE A. FREIS

Novelist and guest lecturer Philip Roth has been appointed Adjunct Professor of English, pursuing a five-year association with the University.

English Department chairman Joel Conarroe said recently, "Roth has demonstrated throughout his career the qualities of an excellent teacher. Both his novelisticoutput and his essays are characterized by the same elements of power and insight. He is a writer whose work is often as exhilarating as it is troubling."

Conarroe said that Roth's work with the University will take place this fall, and that Roth has been examining his own writing and the work of others, and that he will be teaching his first book, Goodbye Columbus.

Roth's contract was negotiated every semester per academic year. Roth has been teaching at the University since 1966, while he was writing When She Was Good. He previously taught at Princeton University.

Before his affiliation, Roth was the National Book Award in 1960 for his first book, Goodbye Columbus. Roth is teaching two courses this year, dealing with fictional literature and the other with essays on modern fictional works. In the essay course, students will write essays about what they are reading with a "high degree of critical approach," Conarroe explained.

"Philip Roth is a writer whose work is often as exhilarating as it is troubling," Conarroe said.

"There aren't many Philip Roth's around," said one student.

"He is a brilliant writer and gifted teacher," Conarroe said. "He is a source of great comfort for Penn because he could be anywhere he wants.

Most of Roth's students are seniors who were given first consideration for places. Students who desired to take either of the courses submitted samples of their writing and were later interviewed by the author.

Conarroe said he has a file of "unsolicited" letters by Roth's past pupils who 'found studying with him to be an important experience of their undergraduate life."

PCB

How to Get Rid of Your Roaches

Now that you're settled in your off-campus or apartment, you've discovered your landlord can't build up an immunity. Getting rid of your roaches is often more difficult than acquiring them. The most popular method of roach extermination is chemical. Not all chemicals are alike, however. Find out exactly what chemicals your exterminator uses.

Two rules of thumb can be used in evaluating most pesticides. First, an application of roach oil-based chemical is generally more lethal than one containing one pregnant female. The second rule is that you have a pest problem.

Finding this can untangle the problem. The first inspection of an exterminator can range from $10 to $122, but monthly or bimonthly visits afterwards will be much less. It is best to hire an exterminator who is a member of the Pest Control Association of Pennsylvania. The exterminator will also need to inspect your problem and inform you of the best way to proceed.

The cockroach walked this earth before other man was even in existence. With any luck by convention exterminating, this ancient animal will be extinct—at least in our lifetime. The cockroach will become immune to it. Carbamate insecticides will become immune to it. Carbamate insecticides such as are the best bet for effectiveness. Knowing this can eliminate the need for an exterminator. The first visit of an exterminator can range from $10 to $122, but monthly or bimonthly visits afterwards will be much less. It is best to hire an exterminator who is a member of the Pest Control Association of Pennsylvania. The exterminator will also need to inspect your problem and inform you of the best way to proceed.

Gridders Open Ivy Schedule Against Bruins

By CHARLIE SERVICE

(Berkeley) - I'm not quite sure what the final score was but it was
a big win for the Bruins. They beat the Quakers 28-17 in their
opening game of the Ivy League.

The game was played in front of a packed crowd at Harvard Stadium in
Cambridge, Massachusetts.

EMBEDDED PHOTOCAPTION: THE QUAKER DEFENSE

The Bruins' offense was led by junior quarterback Brad Mc-Grath, who
completed 12 of 20 passes for 168 yards and one touchdown. He was
outstanding and gave the Bruins a huge lead early on.

FOOTBALL COLUMNS

By MARK GAMBLE

(Berkeley) - The Harvard football team opened its season yesterday with a
9-7 victory over Colgate at Harvard Stadium.

The game was played in front of a packed crowd of 55,000 and
was broadcast on radio station WXPN-AM. The Bruins were led
by sophomore quarterback Mike McCardy, who threw three passes for
150 yards and one touchdown.

The game was an exciting one, with both teams playing well. The
Bruins' defense was outstanding, holding Colgate to just 7 points.

The Bruins' offense was led by senior running back Bill Smith, who
ran for 120 yards and one touchdown. He was outstanding and gave
the Bruins a huge lead early on.

(Berkeley) - The Harvard football team opened its season yesterday with a
9-7 victory over Colgate at Harvard Stadium.

The game was played in front of a packed crowd of 55,000 and
was broadcast on radio station WXPN-AM. The Bruins were led
by sophomore quarterback Mike McCardy, who threw three passes for
150 yards and one touchdown.

The game was an exciting one, with both teams playing well. The
Bruins' defense was outstanding, holding Colgate to just 7 points.

The Bruins' offense was led by senior running back Bill Smith, who
ran for 120 yards and one touchdown. He was outstanding and gave
the Bruins a huge lead early on.
