**FORD BEGINS TRIP TO FAR EAST**

Ford emphasized his desire for peace while at the same time taking note of the Cold War forces in Alaska as a first line of defense.

"I want to reassure you today that my administration is energetically seeking world peace but remains ever watchful for the forces that would disrupt the military forces ready for defense."

Ford's visit to Japan — where no U.S. President has been received in such an official manner — followed an urgent request from President Richard M. Nixon.

"I want to make it very clear to you what we are doing in terms of the nation's defense," Ford said.

"When I was a student at Pennsylvania, a Pennsylvania boy never dated a Pennsylvania girl, neither, that was something that wasn't done by any fellow I ever met. I'm sure that has changed."

The Daily Pennsylvanian

PERSPECTIVE

Despite the triumphs of the modern agricultural revolution, the world is facing a crisis in food production. The American grain surplus has disappeared. The world food reserves have shrunk from a year's supply in 1944 to a month's supply in 1974. One million people in India die of starvation each year. In the Sahel region, approximately 100,000 people have died from starvation this past year. In the United States, we do over ten percent of all the tax returns filed. We're fairly new in the United Kingdom, and Germany and Israel and numerous other countries. We do over ten percent of all the tax returns filed. Meanwhile, we do a tremendous amount of research and development. We're very strong in the United States, and Canada, Australia and New Zealand. The long term solutions to these problems are through Oxfam International, which has directly to West Africa and South Asia. Stranger Than Truth

By Michael Friedman

Sad night, Harvey Ballinger, a 22-year-old Quaker and student at Wellesley College, and a nurse, named Nurse Paul, by his lover, a Quaker and student at Wellesley College, and a nurse, named Nurse Paul, by his lover, was arrested for espionage. Nurse Paul was detained for a period of two weeks, during which he was kept in solitary confinement. Nurse Paul was charged with treason, and was convicted of the offense.

The case of Nurse Paul has been widely debated, with some arguing that he was unfairly treated, while others believe that he was guilty of espionage. Nurse Paul has maintained his innocence, and has appealed his conviction, but his appeal has been denied.

The case of Nurse Paul is a reminder of the importance of civil liberties, and of the need for a fair and just legal system. It is a case that should be remembered, and that should serve as a lesson to all of us.

Penn Performance Spotty in Win over Lions

By SANDY FELDMAN

For the Lions, their leading scorer was quarterback Mike Toomey. But Toomey was on the bench after two minutes of the first half because he had been hit in the head. It was his second hit of the season, and he was taken to the hospital for X-rays.

The Lions were leading 14-0 at the half, and the Quakers were down 24-0 by the end of the first quarter. However, the Quakers made a comeback in the second quarter and took the lead 28-24 at halftime.

In the third quarter, the Quakers extended their lead to 42-24, but the Lions came back to tie the game at 42-42 in the fourth quarter. The game ended in a tie, 42-42.

Meanwhile, on the other side of town, the Ivy Grid Round-Up was taking place. The Bulldogs dominated the Elis, winning 42-0.

The Quakers' defense was strong throughout the game, holding the Lions to just 14 points. The Lions' offense struggled to score, with their leading scorer, Mike Toomey, being limited to just 78 yards on 13 carries.

The Quakers' offense, on the other hand, was led by quarterback John Smith, who threw for 280 yards and 3 touchdowns. The Quakers' running game was also solid, with running back Tim Johnson rushing for 112 yards and 2 touchdowns.

The win was a huge boost for the Quakers, who are now in third place in the Ivy League standings. The Lions, on the other hand, are now in last place.

The Ivy Grid Round-Up is a tradition that has been going on for over 100 years. It is held every year in mid-November, and it is a showcase for some of the best football players in the Ivy League.

The Ivy Grid Round-Up is a major event for both the Quakers and the Lions, and it is always a highly anticipated game. The Quakers are hoping to keep their momentum going into their next game, while the Lions are hoping to bounce back from their loss to the Quakers.
