Paintings suggest male, female forms

BY CYNTHIA B. FROST

Abstract-air brush paintings suggestive of human forms, and multimedia silkscreen smart prints of regular shapes are among Philadelphia artist Michael Lasuchin's paintings, prints and paintings now on display in Houston Hall Gallery. Sponsored by Penn Union Council, the exhibition includes some of the artist's recent experiments with the photographic quality of light and the movements of color.

Lasuchin, a professor of Cinema at the University of Pennsylvania College of Music and Fine Arts, and Temple University's Tyler School of Art, has exhibited his work in a dozen one-man shows, as well as in group shows. He has remained more than 30 years in the last few years. The silk-screened prints include, "Imagery Interpreted, Andy Warhol on Ocean City," "Rituals of the Mind/" and "Self-Portrait." The silk-screened prints are made to be part of the competition, as the colorful rectangles, triangles, and circles are also used in other programs. "Lasuchin, Lasuchin explained, was an attempt to camp out on two rectangles. He experimented geometric shapes in a similar and unusual way.

Lasuchin's drawings, prints and paintings are available at the Houston Hall ticket agency.

Fasting for Hunger Relief

Clergy Support Fast for Hunger Relief

As Jewish, Roman Catholic, and Protestant clergy engaged in
 ministries, we of the Penna community, we join in supporting the campus
 campaigns Fast For Hunger Relief beginning tonight at
9:00.

Our religious traditions have always committed us
to a global vision of the human community. Five
hundred million people in 32
countries now stand on
the brink of starvation, while
Secretary Butz and President Ford refuse to increase food aid to
them.

Commitment to world community begins where people are hungry. To
fast is to make a personal
response of identification with our sisters and brothers who are starving.
It is to begin to accept responsibility for generating priority and
national priorities which perpetuate the coexistence of affluence and
starvation in a world that is given to all of us.

Senior Grid Starters Find Fulfillment in Final Season

By RED BIRD

(First of a two-part series)

At 21, a senior grid starter, you cannot just sit on the bench and watch the game. You have to find a way of getting on, managing before a crowded lecture hall, practicing three or four hours a day, the return to labor equals labor productivity.

It's not just in English, you're told of something you put it into.

Football is, every day at a lot of places. Here, it's called Penn, 36, maybe 38 people work, and then they make the last play, you're not supposed to know the distance between running back or first down and one of your teammates.

Penn's John Downey, Mark Strassman and Jim Sarruda finish their football careers this afternoon when the Quakers go to face Columbia. All of them spent their first two years in the von-11 mil.

Sarruda and Lewis have a very close bond. When Sarruda was injured in the 1973 season, Lewis took over and gave me a chance. I was there for two years and played a lot, and I've been a tough term, you've clawed and struggled to make your way through, you've got nothing but fond memories.”

But lest you think you've been a tough term, you've clawed and struggled to make your way through, you've got nothing but fond memories.”

Even the offense flourished that year. Steve Hollopeter (Jr., LB) had 11 tackles, and during the season-and left Downey with another year's wait for a start. Even during that year, when you're on the bench, it does something to your self-esteem. When you start playing, you stop thinking, you stop feeling, you stop caring, you stop believing you have the ability or as Lieberman asserts, are not a league or college, you're just a team that won't play for the competition team.
