U. Trustees Approve $150,000 to Continue Quad Renovation Plans

By JEFF RENBAUM
Architectural design work on the last and final of the four college houses to be built on the University’s main campus will receive a $150,000 allocation approved Tuesday by the Executive Board of the University Trustees.

Said University President John Marshall Tuesday that the report made by the University’s renovation committee on the opening of each college house will be presented to the Executive Board for final decision after each college house is completed.

During this week’s meeting, Marshall said, the committee decided to go ahead with planning design plans for the four college houses, or proceed with the university’s building program proceeding further evaluation.

The committee’s report, he said, reiterates the need for $150,000 to get the construction of the four college houses under way.

A drinking club for University students and graduate students will be housed in a newly renovated building in the upper Quad.

Coffey said the renovation is not only for the benefit of the Trustees but also for the benefit of the students.

For this reason, he explained, the proposed college house plan will be absorbed by gifts. He said he hopes that the trustees and the University will accommodate the "get a donor to give a college house" as the University of Pennsylvania's movement.

Disruption: The Only Avenue?

By Michael Friedman

The Great Pennsylvania Waiting Game...we've probably played it without realizing it, without knowing the greater rules or even recognizing the playing field. But that didn't stop students, faculty, friends or even the administration from playing the game yesterday. The campus was a kaleidoscope of students, faculty members and administrators throughout all parts of the university.

Let's use a metaphor of one of my own creations to help us understand what happened here. Let's say that you are standing in front of a street light. You are looking straight ahead at the street light. Now imagine that you are standing at the base of the street light and that you are standing on a platform. Now imagine that you are standing on a platform at the base of a street light and that you are looking straight ahead at the street light. Now imagine that you are standing on a platform at the base of a street light and that you are looking straight ahead at the street light.

The only difference is that you are standing on a platform at the base of a street light and that you are looking straight ahead at the street light. Now imagine that you are standing on a platform at the base of a street light and that you are looking straight ahead at the street light. Now imagine that you are standing on a platform at the base of a street light and that you are looking straight ahead at the street light. Now imagine that you are standing on a platform at the base of a street light and that you are looking straight ahead at the street light. Now imagine that you are standing on a platform at the base of a street light and that you are looking straight ahead at the street light. Now imagine that you are standing on a platform at the base of a street light and that you are looking straight ahead at the street light. Now imagine that you are standing on a platform at the base of a street light and that you are looking straight ahead at the street light. Now imagine that you are standing on a platform at the base of a street light and that you are looking straight ahead at the street light.

**Ford Says New Middle East War Possible**

TOPEKA, Kan. (UPI) — President Ford said Tuesday that unless progress is made toward Middle East settlement, "there is a very serious prospect of another war in the Middle East and the possibility that this country will be called upon to go to war."

"We believe that the possibility exists for a negotiated Arab-Israeli settlement, but there is no certain that the bill would be well received. I think that many people who could do a far better job governing the city than the present administration..."

**Candidate**

(Continued from page 1)

Mr. Byrnes declined to give an interview in the museum because he is in poor health. He said he was in Philadelphia for a personal engagement and would return to New York on Thursday afternoon.

Foglietta was the youngest elected councilman in Philadelphia history and was instrumental in the establishment of community service day in the city of Philadelphia.

**Progress**

(Continued from page 1)

...and a penultimate round is completed and a victory has been achieved. But was it a just victory? Was it a moral victory? Was it a victory that would bring peace to the region? Was it a victory that would benefit the people of Israel and the Palestinian people? Was it a victory that would strengthen the United States' position in the Middle East?

The President told a news conference that he was "very confident that the bill would be well received. I think that many people who could do a far better job governing the city than the present administration..."

"We believe that the possibility exists for a negotiated Arab-Israeli settlement, but there is no certain that the bill would be well received. I think that many people who could do a far better job governing the city than the present administration..."

**CLF Chief Unaware Of Domestic Spying**

WASHINGTON, D.C. — James J. Angleton, director of the Central Intelligence Agency, denied that he was aware of any domestic spying activities by the agency.

"I am not aware of any such activities," Angleton said. "I have no knowledge of any such activities and I would like to be kept informed of any such activities that might occur."

"I am not aware of any such activities," Angleton said. "I have no knowledge of any such activities and I would like to be kept informed of any such activities that might occur."

Frosh Cagers Nail 'Nova; Greene Leads Way with 27

By STEVE HALPERN

Middletown, N.J. — The frosh men's basketball team, under the guidance of Coach Bob Crocker, defeated the University of Pennsylvania 79-61 yesterday to extend its winning streak to three games.

'Nova was led by 27 points from the redshirt freshman Greene, followed by 13 from Datko and 11 from sophomore Spinney. The Quakers were led by 12 from the junior with four assists and six rebounds, six from the senior with three assists and five rebounds, and seven from the senior with four assists and six rebounds.

Inconsistency, guess what's been coach Bob Crocker and his icemen, The Quakers roared off over the Rink's public address system could he heard, "the two years ago, everything was icy cool for then-first year machine aren't we alli down al the Class of '23 right'..."

... and Blue against bona fide nationally-ranked schools. It's been a great night for fattening up on the Quakers' 272-11 season, which has included wins over the University of Pennsylvania, Temple University, and the New Jersey Institute of Technology.

The Quakers scored four times while the Wissahickon players viewed the game as a preliminary step in their preparation for the NCAA Tournament. They are currently ranked 16th in the nation, and should have the homecourt advantage as the Class of '23 Rink Monday night as the Quakers host the University of Pennsylvania.

"The Quakers are in a great position to make themselves heard, loudly, all around the gymnasium," said Coach Crocker. "We're off to a great start and are looking forward to the next game, which will be against the University of Pennsylvania."
