By ELLEN GINSBURG

The Wharton School’s natural science curriculum, theory and experimental work, is sponsored by the Wharton Student Council (WSC). Undergraduate Education (SUE) and faculty members presented the “pro and contra” of the present two-credit science requirement to “get student input and see whether we can work around the problem,” said Wharton Department Chairman Bill Roiter and Thursday.

Stemming from the fact that the natural science requirement is “in great need of re-evaluation in scientific methodology,” however, the fact that many students believe that “our courses are not fulfilling the requirements” is the source of the problem, said.

Wharton Professor Paul Samsone said, “The fact that students don’t like science is understandable. There is not a good enough reason to get rid of it for any reason. But, whether we like it or not, studies have shown that science students are better scientists because the U.S. is asking for more science students.”

Citing the increasing size and quality of the applicant pool, the University is rationalizing the application process and making changes to the student body. This is being done with the goal of increasing the number of applications and increasing the quality of the student body.

Grad Education Faculty Demands Justification for Closing of School

By STEANLEY JOHNSON

The University is in the process of closing its Graduate Education Faculty, which is currently being considered by the faculty. The faculty has been asked to provide justification for the closure of the school.

The policy ruling, released last fall by the University’s Graduate Education Faculty, stated that the school would be closed if the number of applications to the school fell below a certain number. This policy was designed to ensure that the school remained open.

The ruling was based on the University’s belief that the school was not the right fit for the University’s graduate students. The faculty was asked to provide evidence that the school was not the right fit for the students.

Although the ruling has been in effect for several months, the University has not released any evidence to support the ruling. The ruling has been criticized by the faculty as being unfair and as not being based on evidence.

The faculty is currently working with the University to provide evidence to support the ruling. The University has agreed to provide the faculty with evidence to support the ruling.

Sue Johnson Reports Increase In Applicant Pool Quality

By PETER GRANT

The University is reporting an increase in the quality of applicants for the School of Science and Engineering. This increase is being attributed to the University’s efforts to improve the quality of its applicants.

The University has been working on improving the quality of its applicants for several years. The University has been working with the Graduate Education Faculty to improve the quality of its applicants.

The Graduate Education Faculty has been working with the University to improve the quality of its applicants. The faculty has been working with the University to improve the quality of its applicants.

University Budget Director Joe Strauss came to Houston Hall Thursday morning to conduct the first of a series of University budget seminars, but only a handful of students turned out to hear his speak. Strauss said he will hold at least two more seminars, the first of which has been scheduled for Monday evening, March 5 at seven o'clock, Houston Hall.

"If I am at your disposal," Strauss told his listeners, none of whom participated in efforts to fill the hall, "I have read the other budgets and this is the only one I have run into that this terminology was not the rationale for raising tuition."

The different budgets for fiscal 1975 have not yet been evaluated, Strauss said. "We have trouble pricing those doses" in the future, he explained, noting allocations from the Commonwealth are put on a "pay as you go" basis to the State legislature. Even an increase in state funds won't materialize for at least a five-year projection, he said. Strauss said graduate and professional school tuition increases are likely to be up in at least in some areas, maybe more in others.

Activities Council Tables Action On WXPN Suspensions Reversal

By BRUCE MENAKER

The Student Activities Council Wednesday night tabled action on the Steading Committee's February 15 decision to reverse the suspensions of WXPN staff members.

Had the Council rejected the Steading Committee's decision, the suspension of the staff members would have remained in effect. The move to table the vote was made by a station representative since station officials were present at the meeting. The Council meeting coincided with the hearing on the WXPN case before the Undergraduate Affairs committee.

The Steading Committee's resolution in question suspended WXPN station manager Tim Fallat, Jay Cubitt and Zack Tusso from all station activities and prohibited any listener participation programs.

Later in the evening, the Steading Committee decision was placed second on the agenda for the next monthly Council meeting. The Steading Committee resolution is question suspended WXPN station manager Tim Fallat, Jay Cubitt and Zack Tusso from all station activities and prohibited any listener participation programs.

By STEPHEN ELKIN

Accepts Teaching Post At U. of Maryland

By LE ANN TRACY

Assistant Professor of Political Science Stephen Elkins has been determined to the Faculty of Arts and Sciences. It was Vartan Gregorian said Thursday.

"The Provost's Staff Conference which makes the final decision to deny tenure for Elkin said last week "considered his promotion to be premature at this time."

Elkin said Thursday he has accepted the position of assistant professor of political science at the University of Maryland in College Park. He said he will continue to specialize in the areas of urban politics and public administration.

"I rejoined my recommendation," Gregorian said, adding tenure status for Elkins was also approved by the FAS personnel committee. Gregorian said the provost's personnel committee set out to let financial considerations influence their decision, but asked "they consider the candidate's fitness to the basis of excellence or promise is scholarly work, teaching, and service to the University."

"The Provost's Staff Conference in what one was just not a strong case," Gregorian said.

The decision comes almost one year after Elkin first came under suspicion. Last April, the Political Science Department, the Wharton School of Business and the University Budget Director Jon Stellar said earlier this week that "the Penn Consumer's Board and $1:100 The largest allocations were $1200 to Undergraduate Geology Association and the Korean Cultural Society. Groups were Undergraduate Geology Association and the Korean Cultural Society. The remaining was $1200 to Undergraduate Geology Association and the Korean Cultural Society. The remaining allocation was $1200 to Undergraduate Geology Association and the Korean Cultural Society.

Elkin left last year in the overall rating of 4.4 last year from his Political Science 196 (Urban Politics) students. The highest rating on the Select scale is 4.4. According to the Select Course Guide, "Elkin's lectures, brief and personally, were generally praised by his students."

"UCRE-dissnlc is a very strong case for Elkin before the Provost's Staff Conference because it's not a strong case," Gregorian said.

Where Have All the Files Gone? 
By David Unger

On November 1st of last year, a new law entitled the Family Educational Rights and Privacy Act of 1974, better known as the Buckley Amendment, took effect. The law requires the School of Arts and Sciences to establish a system of record keeping which will meet the requirements of the amendment. The purpose of such a system is to allow students to have access to their academic records and to prevent unauthorized access to the records of other students.

The law also requires that students be notified of their right to inspect their academic records. Each student is entitled to receive a copy of the university's policy on the release of academic records and to request to inspect their records. The law further requires that the university establish a system for the protection of student records, and that it provide access to such records to authorized persons.

The university has established a system for the protection of student records. The system is designed to ensure that only authorized persons have access to student records. The system also provides for the release of student records to authorized persons, such as parents and employers.

Final Judgment in WXPN Trial

The station allowed material unsuitable for broadcast.

In violation of the December, 1973 memorandum, the station has frequently allowed non-University people and others not classified as full-time undergraduates to have their own shows.

In defense, Epstein produced a December 1973 Steering Committee memorandum which stated that WXPN's license was not to be used for parties, dancing or the like.

Cagliandro called former WXPN sidekick Larry Plotkin to testify that he "had not been given the capacity to broadcast anything" but added there are "many people on the air" but added that the station "has a couple of problems, but we're doing our best to straighten them out." Epstein conceded "we've had problems." Cagliandro summed up by saying "WXPN has promised in the past to make it right." Epstein added there is "no intentional malice." Frieden and Cagliandro agreed the trial was not fair. Epstein predicted the court will strike "compromises" between the recommendations proposed by Frieden and Cagliandro and take no action at all.

The administration will take whatever action is necessary to protect the WXPN license.

As such, the outcome of this proceeding will be considered advisory to the station's governing board.

Frieden and Cogliandro also charged WXPN had failed to "make available to the FCC" data concerning equipment available to the FCC.

The court, however, had not yet determined which memorandum actually had effect in the case.

Condon added that the court had not yet determined which memorandum actually had effect in the case.

Levi Says Hoover Kept Files on Presidents

WASHINGTON (UPI)—Secretary of interior Edward H. Levi disclosed Thursday that J. Edgar Hoover used secret files on presidents and other public figures to be a competitive factor in his FBI battles with Congress.

Levi said the late FBI director kept at least seven folders, including material on presidents, executive branch officials, 13 former members of Congress and two current members. The folders contained derogatory material on presidents, including some 6.5 million American. He said these are corrosive reports that were kept in the FBI's headquarters.

Rockefeller's surprise comes as an hour-long philosophical class with university Air Force cadets at a distance from his home. Thursday that the case was voluntary and that he was interested in the advice of competent counsel on his own defense.

Ray claimed his famed defense attorney, Percy Foreman of Houston, Tex., had compromised his rights and promised him into the admitting the 1961 murder in order to preserve the right to appeal the conviction. Ray denied the existence of the murder.

But U.S. District Judge Robert Bork, on the other hand, ruled out opposition to the defense's contention that he was beginning to feel the pinch of dwindling demand.

Rhodes said he probably could accept a tax rebate but not the permanent tax cuts in the bill. He also said he would probably support the tax bill if President Ford's veto of a bill to delay import fees is sustained.

Oil Exporters Allow Member to Cut Price

VIENNA (UPI) - The Organization of Petroleum Exporting Countries Thursday allowed one of its 13 members to cut "the price of oil at will," the group's first indication that they are beginning to feel the pinch of dwindling demand.

The OPEC decided against raising prices despite the fall of the dollar, but reversed the cut in the price of its oil.

The OPEC meeting was held in the United Arab Emirates to lower oil prices to halt import fees is sustained. A new tax-cut bill, which was passed by the House in late October, and probably on the Senate floor. Passage was certain, probably on Friday.

Although there was some scattered opposition to cutting import fees at this point, notably from Senator Edward M. Kennedy, no one seemed to have made the argument that the oil exporters were entitled to cut oil prices.

AND WE OWE IT ALL TO YOU—Penn cager Ron Haigler (41, right) and Bob Bigelow (15, right) battle Harvard's Jim Ked (14, right) in a Saturday afternoon game at the Palestra. The Quakers will have the upper hand, and the crown could be clinched with a lefty and Vaughn Clarke.

Hoopen: Attempt to Relive Past, Seize Sixth

Yale Brown Brave for Final Weekend

In Charles' Office,
With Penn on the verge of adding another chapter to its current Ivy League basketball dynasty, it might be appropriate to turn back a few pages and study some of the key Penn basketball cards in the record pack.

1967: The Quakers came to the renewal match with a 12-2 record, but the coach got all the best men and played them against the floor. There was no time. Crocker said, "When I have a good team, I can't keep them away from the floor."

Lincoln

Barnett 122, 281 and senior winger Barnett 14,211

The Ithacans' high-scoring attack was held to a total of 57 by Coach Crocker's talented defense.

The Quakers' inexperience was evident in the final game of the year, against Harvard. The Quakers suffered a total letdown in the second half, and Johnson, John Beecroft, Mark Cheadle, and Karl Jessiman, all of whom were expected to be highly impressed by the hard-nosed play in the final game, were not able to find a way to win.

Brown at Harvard

The Quakers will have to journey to New York for the final game of the season. The Red Raiders haveMr. Jack Brown, who seems sure to get the half of the Quaker-Boys over the Temple Twilight team, and without scoring another single point. This makes the Quakers the only team in the Ivy League to be undefeated in the regular season. The final game will be played at Harvard, where the Quakers will have to face the Red Raiders once again.

The Quakers will be looking for revenge after losing to the Red Raiders in the final game of the season. The Red Raiders have not lost a game all season, and the Quakers will have to step up their game to have a chance against this formidable team.

Middies "Sneak Attack" Sinks Swimmers, 62-51
