Tonkin Denounces FAS Cluster Plan as Faculty Votes

By MARTIN SELIG

Vice-President of Student Affairs Franklin B. Robinson Friday criticized the proposed B.A. requirements recently called for by the Faculty of Arts and Sciences, FAS.

In a letter to the University's Georgian, Tonkin charged that the cluster plan will reduce the autonomy of the University and the flexibility of the student body.

The cluster plan, proposed by the Georgia's editorial board, is designed to distribute courses into clusters of related courses.

Tonkin complained the committee recommendation does not include any provisions for administrative discretion, and that clusterization would cause great difficulties for implementation.

Georgia's has previously tried to implement the necessary administrative machinery for any change approved by the faculty. Tonkin, however, believes such a system is too complex before they could be enacted.

The line Tonkin cited the faculty can act is running short.

Senior Class President James P. Whitaker called for the establishment of an FAS committee to look into the clusterization of courses, such as those of the social sciences and arts.

New University Policy Will Force A-3 Workers Over 65 to Retire

By BETSEY ROSEN

A change in University policy will force approximately 360 A-3 and A-4 workers over the age of 65 to retire at the end of this year.

The A-3 and A-4 workers are employees of the University who, by the terms of their employment contracts, have reached mandatory retirement age.

University administrators have required the retirement of these workers who are paid for positions that offer no renewal of contract for A-3 personnel in the past, out of legal necessity, as waivers and allowed to continue at their jobs.

But, according to a letter sent by the administrators last week, waivers will not be forthcoming.

In "past years," the personal policy allows a worker to delay retirement 50 people have been permitted to do so for a period of about half of their retirement age.

In this case, the policy will be applied.

The letter, addressed to the A-3 and A-4 workers, said, "We are aware of the additional responsibilities you have assumed and we are very conscious of your unique situation.

We do not consider it possible to delay retirement after the age of 65 in line with special talents, critical skills or very special programs.

We see the new policy will affect 74 workers, a total of 360 employees.

From the list of workers, 274 people will be retired and 86 people will be permitted to retire after the age of 65.

Both groups will receive their full retirement benefits.

"If you are unable to comply, you will be required to resign your position at the University after the age of 60.

"If you are unable to comply, you will be required to resign your position at the University after the age of 60.

The "imminence of the failure of both the Federal and State Governments to provide the required money for retirement will be available until a delegation is sent to Washington to secure the passage of a "dole" bill.

Expressing considerable disapproval of the recommendations, Meyerson noted the decline in Commonwealth aid over the last five years in his brief restatement of the Nova-leagues.

In his prepared statement, Meyerson said that 1974-75 would be one of the most important for federal support for the University.

Meyerson warned that the University plans to make a "strong" presentation of its problems to the Commonwealth legislature.

"I think there's a chance the University feels it's in a financial position to make the case for its support.

"If we should be cut, it would be at a critical time for the University's ability to function.

Meyerson called for a strong presentation of the University's problems, warning that 1974-75 would be one of the most important years in the University's history.

"I think there's a chance the University feels it's in a financial position to make the case for its support.

On the surface, last week's agreement in use of Franklin Field by the World Football League's Philadelphia Bell team is a good one. The University will suffer some revenue and the Bell will finally have a decent place to play their football games.

Unfortunately, too many things have been left unspoken about the agreement, and the air is thick with suspicion.

At Friday's press conference announcing the pact, the Bell President John Beeman refused to disclose the exact financial arrangements agreed upon with the University but told reporters that the Bell would retain any and all money it would receive as a result of the Commonwealth of Pennsylvania waiving its claim to the stadium.

Then there is the question of just how long the Bell will remain in Franklin Field. While the pact is for a very lengthy period, it doesn't tell us if the Bell would quit if that first year's agreement were not renewed.

The agreement between the Bell and the University could be beneficial to everyone involved, but until all the mystery is cleared up, it's impossible to assess what the University is getting and just what the Bell is giving.

Some explanations concerning the pact are very much in order.

So far, a former concentrate of shifting up programs to feed children is a lack of proper action on the part of the people that need to be helped. 

The real reason that liberalism is a pipe-dream is that since conscience, which is the people's own, and not that of the system itself, to vote down an appeal is a self-interest, to vote down an appeal is necessarily unjustified. 

The failure of liberalism is the people that need to be helped. 

Superior to everyone involved, but until all the mystery is cleared up, it's impossible to assess what the University is getting and just what the Bell is giving.

The ballot is already sealed and the students will have to vote for or against (he man who has run the Register to Vote office the past two years in a change election.

Saigon Bombarded

SAIGON (UPI) - South Vietnamese troops striking back on the capital's suburbs early Monday in the first shelling of the Saigon area in the Communist's current offensive.

Far to the northeast, North Vietnamese forces are striking back on the capital's suburbs early Monday in the first shelling of the Saigon area in the Communist's current offensive.

The South Vietnamese military commander said the communists hit near Dc, six miles southeast of the center of Saigon, with naval, air and mortar fire, which has a maximum range of about two miles. Spokesmen said six persons were wounded in the backlash against which South Vietnamese forces launched about a dozen artillery rounds.

150’s Explode at Start, Dump Knights in Debut

By RALPH DEBORGH

If first performances are anything to go by, the Penn 150’s football team is ready to make its mark on the scholastic gridiron. Last Saturday afternoon, after a scoreless first period, the 150’s defeated the visiting St. Vincent’s with a blazing second period to win 6-0.

Although the Penn-Bloomfield-Lancaster combination failed to score a single point, the defending champions were able to put up a spirited defense. The Reinholds, on the other hand, scored three goals in the final half to lead their team to victory.

The 150’s, however, were not content with just a win. A strong performance against Saint Vincent’s was followed by an even more impressive showing against the Red and Blue on Sunday afternoon. The 150’s won that match 7-2, their highest-scoring game of the season.

100’s

In a match between two of the top teams in the league, the 100’s defeated the 200’s 4-3. Goals by Robert Valentine and Thomas Martin gave the 100’s an early lead. But the 200’s fought back, scoring three consecutive goals to take the lead.

The 100’s were not finished, however. A goal by Mark Johnson in the final half tied the score at 4-4. And with just over five minutes left, a goal by William Brown secured the victory for the 100’s.

Summary of Results

150’s: Wins over St. Vincent’s 6-0 and the 200’s 7-2

100’s: Win over the 200’s 4-3

UNIVERSITY COUNCIL, UNDERGRADUATE ASSEMBLY, AND SENIOR ELECTIONS (CLASS OF ’76)

By JEFF BERN

The University Council and Undergraduate Assembly are two of the most important groups on campus. They are responsible for making decisions that affect the daily lives of students. The upcoming senior elections offer an opportunity for students to shape the future of these organizations.

The University Council is responsible for overseeing the administration and faculty of the university. They make decisions on issues such as academic requirements, housing, and financial aid. The Undergraduate Assembly represents the students and is responsible for addressing issues such as student health and safety.

Elections for these positions are held annually. They provide an opportunity for students to have a say in the decision-making process of their university. It is important to participate in these elections to ensure that the interests of the student body are represented.

UNIVERSITY COUNCIL

Members of the University Council are elected by the student body. They serve as representatives of the students and are responsible for making decisions that affect the daily lives of students. The council has the power to appoint members to various committees and to make decisions on issues such as academic requirements, housing, and financial aid.

UNDERGRADUATE ASSEMBLY

The Undergraduate Assembly is the student government of the university. It is responsible for making decisions on issues such as student health and safety. The assembly is also responsible for addressing issues such as tuition, fees, and other financial matters.

The upcoming senior elections offer an opportunity for students to shape the future of these organizations. It is important to participate in these elections to ensure that the interests of the student body are represented.

VOTING

Make sure to vote in the upcoming senior elections. Your vote is important and can make a difference in the future of the University Council and Undergraduate Assembly.

Thank you.

Quaker ‘Bakers’ Cook Up Masterful Diamond Sweep

WALK ON THE WILDER SIDE

BY JON STEVENS

The ball of life's hard knocks, that had been warming up for weeks, finally caught fire in the form of a 7-5 sweep by Penn over Yale. The Quakers, who have been in a tailspin ever since a 7-1 victory over Brown on March 8, snapped a two-game losing streak with a convincing win over the Bulldogs.

The victory came at a critical time for the Quakers, who have struggled to find their rhythm in recent weeks. With the win, Penn improved to 6-3 on the season and moved within one game of .500 for the first time since 1973.

The Quakers were led by sophomore catcher Tim Haten, who had a career-high 11 RBIs in the game. Haten, who had been struggling at the plate, came through with a key two-run home run in the second inning to give Penn an early lead.

The victory was especially sweet for Penn's pitching staff, which had struggled in recent weeks. The Quakers got strong performances from both of their starters, with senior pitcher Mike Miller allowing just one run in seven innings and sophomore reliever Tom Butler shutting down the Bulldogs in the final three innings.

The win was also a morale booster for the Quakers, who have been struggling to find their footing in recent weeks. The victory came after a 7-1 loss to Yale in the previous game, and the win gave the Quakers a much-needed boost of confidence.

Overall, the win was a sign of things to come for the Quakers, who have been playing well in recent weeks. With the win, the Quakers are now tied for second place in the Ivy League, and they will look to build on this momentum in future games.

Yale D'Fails as Lacrosse Win, 13-6

BY JON STEVENS

For the second week in a row, the Yale Bulldogs were unable to contain the Quakers, as they fell to a 13-6 loss in the Ivy League game.

The Quakers were led by senior attackman Tim Haten, who had a career-high 11 RBIs in the game. Haten, who had been struggling at the plate, came through with a key two-run home run in the second inning to give Penn an early lead.

The victory was especially sweet for Penn's pitching staff, which had struggled in recent weeks. Driesell Leads ‘Towerling Inferno’ Into M.S. All-Star Classic Tonight

The University of Maryland's head basketball coach, Lefty Driesell, led a team of All-Americans in a charity basketball game against a team of former Marylanders.

The game was held to raise money for the Multiple Sclerosis Society and to help Maryland basketball players in need. The game was played in front of a crowd of over 20,000 at the University of Maryland's Cole Field House.

Driesell, who has been a coach for over 30 years, has become known for his fiery personality and his ability to put up points on the scoreboard. In recent years, he has been involved in several charity games, including the annual “Towerling Inferno” game against a team of former Marylanders.

The game was won by the team of former Marylanders, led by Driesell and his assistant coaches. The game was widely anticipated, with many fans showing up to support the cause and to see the game.

The game was also a benefit for the Multiple Sclerosis Society, which is currently facing a major challenge in finding a cure for the disease. With the money raised, the society hopes to continue its research efforts and to continue helping those affected by the disease.

Overall, the game was a success, with both sides playing well and the crowd enjoying a great evening of basketball. The money raised will continue to help those affected by Multiple Sclerosis and to continue the fight against the disease.
