SPORTSPOT THEFT, ATTEMPTED BREAK-IN DRAW CITY POLICE TO SUPERBLOCK

By ODETTE SIMON
The 21-year-old suspect, a boy aged 18 to 19, was the only person arrested as the razing occurred. The suspect was later released and fled from the scene.

The break-in occurred late Friday night, about 11 p.m., at the 1925 House at 40th and Locust Streets, Philadelphia Police.

The suspect was later identified as David Smith, 21, of 1925 House at 40th and Locust Streets.

In fact, the suspect had been charged with attempted burglary.

Shortly after the incident, an unidentified male attempted to steal several record albums from the University of Pennsylvania's photography department.

The suspect was arrested by Philadelphia police and is being charged with attempted burglary.

The suspect was arraigned and was allowed to remain in the University police station.

A store clerk pursued the suspect up the University's main street, but was unable to catch him.

Three fire engines responded to the break-in, but were unable to find any evidence of a break-in.

The building's sprinkler system let off a handful of water which damaged a passage under control while fire engines raced to the scene.

The fire was touched up by an electrical heater placed too close to a mattress.

The building's sprinkler system let off a handful of water which damaged a passage under control while fire engines raced to the scene.

New Medical Building Construction Underway

By DAVIS BROWN

The new medical building is scheduled to be completed by the Fall of 1979, the University announced.

The building will be located on the University campus and will house the University's medical school.

The building will be a large, modern structure with a capacity for 250 students.

The building will be equipped with modern medical facilities and will be staffed by experienced medical professionals.

The building will also have a research laboratory and will be used for medical research.

The building will be completed by the Fall of 1979, the University announced.
difficulties for the Parkway and University Registrar Douglas drawn up last week by Davis, Provost calendar similar to last year's, Assembly Vice-Chairman Jerry face. In terms of reality, it was which "allows the University to save compromise "a victory for students," Chairman Mike Hanlon, also a schedule. last year's and a compromise decide between a calendar similar to Committee members then had to according to one committee member. of retaining the revised calendar, less than the originally announced space," Jacavino charged, "the should continue to bear this of space for educational purposes. It Gamma division, said, "In the at 39th and Walnut Streets. Budget Administrator Edwin Indwell Marcus) to insist" on retention of a compromise calendar. Additionally, the points require that the 1976 calendar "be based generally on the pattern followed in 1974" unless it is changed according to the stipulated procedures. Also, "a body should be established to review the results" of the calendar compromise. Finally, "the University should undertake planning studies directed to long-range energy utilization and efficiency."

Howard University is failing in its community obligations." Jacavino said he has been forced to program, and he has been invited to make a speech at West Philadelphia for the Gamma division's 270 students. Currently Parkway is making use of the facilities at the Free Library branch of the Gamma division's 270 students. Currently Parkway is making use of the facilities at the Free Library branch at 39th and Walnut Streets, the Christen Association, Newman Hall, Hillwood, and International House. Additionally, the points require that the 1976 calendar "be based generally on the pattern followed in 1974" unless it is changed according to the stipulated procedures. Also, "a body should be established to review the results" of the calendar compromise. Finally, "the University should undertake planning studies directed to long-range energy utilization and efficiency."
The Case for College Fraternities

By Bruce Wolston and Gary Sachs

We read with great interest the carefully researched profile of Penn's fraternity system offered by Steven Shulman (DP, Sept. 26). While we agree with the general thrust of his argument, we feel there are a number of important points which come directly from that article, which have been overlooked or ignored anywhere today. We feel there is the assertion that "almost all" fraternities use hazing, which is simply not true. We, unlike the author, are not in possession of information about all fraternities. But both the Interfraternity Council and the Office of Fraternity Affairs have at Penn for centuries no bullying, threats of violence, or pressure to accept membership. The Interfraternity Council has no information on any member of the fraternity system is especially accurate in light of the following programs currently operating in Penn's fraternity system.

1. Academic: Faculty speaker programs, supported by many large houses, provide an opportunity for informal interaction between students and college faculty. These programs are designed to develop an appreciation of the disciplines and to provide a forum for the exchange of ideas.

2. Service: The Interfraternity Council and the individual houses have taken leadership in providing opportunities for service to the community. This includes participation in the University Wide Service Project and other community service activities.

3. Development: Fraternities have changed, Mr. Shulman (DP, Sept. 26). While we agree with the general thrust of his argument, we feel there are a number of important points which come directly from that article, which have been overlooked or ignored anywhere today. Knights in for Long Day As Booters Battle Rutgers

By MARK HUMAN

As Bob Hurley's Penn hasn't had much success at Franklin Field for the afternoon game or any other, at least in recent years, the Knights will have to be ready to defeat their rival and keep their chances of a home field advantage for the Ivy League opener.

Hurley has taken his team to the East Coast where it will converge with the Quakers on Friday night and there will be a home field advantage for the Ivy League opener.

Hurley's Knights have had a long history with the Quakers, who have won 11 of the last 15 meetings, but it's still a tough game for the Knights to prepare for.

The Quakers, who have had a long history with the Knights, will have to be ready to defeat their rival and keep their chances of a home field advantage for the Ivy League opener.

By Ed Wiest

The added incentive of being the team champs should spark the Quakers to even more truly competitive matches for the talented netwomen, quantity may yet be a factor in their events of quality.

"We have the finest schedule we've ever had," Wiest added. "Including the spring, there are seventeen or eighteen matches planned. Still, an undefeated season would not be a surprise.

"It would be certain a lot of the uninitiated at nationals will be surprised with how well we did in the fall."
