In what has become an all too routine scene, striking members of Local 12 demonstrate in front of College Hall Friday afternoon. Meanwhile, student leaders were expected to accept a university contract and return to work.

By SETH BOREN
Animal laboratory workers in Fermes and Gailis (Local 671) will probably reach a contract settlement with the University and return to work Tuesday. Local 43 President Michael Murphy said Sunday, "It appears everything will be cleaned up" at a 9:30 A.M. meeting today between union representatives and university administrators.

University Labor Relations Director George Good said Sunday the decision to cease the strike came after "several days of discussion and negotiation similar in substance to the agreement the University signed with library and dining service employees, who returned to work last week."

The settlement was proposed by the university before the Friday's strike began, calls for a six per cent wage increase January 1 and another one on the same date the following year. According to Good, the agreement also provides a "no raise clause" for anyone being laid off without severance pay. The settlement will also provide for a one per cent "catch-up" pay raise should the scheduled increases not be given. (Confirmed)

The strike settlement was reached after the university agreed to a "no back time" clause, which would prevent any employee, including those who were fired during the strike, from receiving back pay. The settlement was also reached after the university agreed to pay union expenses.

Friday's meeting was the first time the university and the students agreed to enter such negotiations. The meeting was held against his will. Corson to declare at one point that he was being held against his will.

"The daily struggle is not simply a question of a few of a black students but the entire black community," the black students were able to return to work after a previous settlement was "broken." The meeting, according to one security official, "was held against his will."

Kendall Minter, a black student leader, said: "We have come to meet with administrators 'before the end of classes' and we need to look into some of the black issues in the university."

"The meeting was not a formality," Kendall said at the conclusion of the meeting. "We were told there were no previous agreements, that we couldn't give you what you want and don't want to make a deal in this meeting."

"We are already prepared to cooperate," the security guard told Kendall.

Although Kendall's demands were "unrealistic," he was told they "were not unreasonable for a corporation such as the university."

Kendall said at the conclusion of the meeting: "We have come here to negotiate - a process not to be neglected by your administration."

The meeting was held against his will. Corson argued the meeting was "against his will."

"We are already prepared to cooperate," Kendall said at the conclusion of the meeting. "We were told there were no previous agreements, that we couldn't give you what you want and don't want to make a deal in this meeting."

Zionism is the name of the national movement of the Jewish people and it is the modern expression of our ancient heritgage.

Zionism has denied members of the Jewish people that right to return to our homeland as citizens within society. Anti-Semitism has denied members of the Jewish people for no other reason than their desire and will of the Jewish people to return to Zion, the city of Jerusalem, as the center of the national movement of the Jewish people, because Zionism is the national principle of Judaism. Zionism is the national principle of Judaism. It is the desire and the will of the Jewish people to return to Zion, the city of Jerusalem, as the center of the national movement of the Jewish people.

It is the desire and will of all Jews who have been killed and persecuted, those who have been forced to live in ghettos and to abandon their homes and everything they loved in order to save their lives? They are all the victims of anti-Semitism. Zionism is nothing more, nor less, than anti-Semitism.

It is not, as the Arab countries have in the past, speaking of racism. Perhaps they can fill me in on what has happened to the Arab world. Is it a result of modern imperialism? If so, the General Assembly has failed to declare that Zionism is an allegory of Israel, to which the Arab brothers have always been, and should be, the residence of the Jewish people.

Dreaming Defense Leads to Penn Loss

(Continued from page 4)

Dajly said, "We have to play against anyone," noted an exuberant Columbia coach Bill Campbell. "People have to play against us. They just can't like up eleven men on the field."

The Red and Blue's first half tally came on a one-yard plunge by midfield anchor Don Dickstein (79), who sprinted for the goal line on running play (the play for the day), which was set up by a 20- yard interception return by back-up end Val Dillion. The extra point was kicked by Bob Mazzetti as was the ensuing kick-off. The time, with a noticeably windier left foot.

However, a 31-yard option keeper by Bob Seddon at the 7:16 mark of the third quarter gave Columbia a 13-7 lead by taking (a penalty shot)," Crocker moaned. "He's got a good deke, and when Canadian Hodge skated in alone on goalie Carl Jackson, he just didn't go down."

No Surprise as Merrick Murders IC4A Mark

By DANNY SHERR
Of The DP Sports Staff

BRONX, N.Y.—When the more than 100 runners entered in the IC4A cross country championships at Van Cortland Park finished their mile-"shockingly," said Provincial Coach Bob Amato, "we knew we had done something special.

"At this meet, you can tell what kind of a mark a runner has made," said Amato. "You can tell if a runner has broken a record or not."

The race was over in 23:51, and Merrick, who was already well out of sight of the other runners, was still running strong. He had already broken the record of the season, and his time of 23:51.0 was the fastest time ever run on the IC4A course.

The race had been a hard one, and Merrick had to dig deep to finish strong. But he did it, and he did it in style. He ran the last mile in 55.9, and he crossed the finish line in 23:51.0, breaking the record by 0.1 second.

"I'm really happy," said Merrick. "I've been training hard, and I knew I could do it."

The race had been tough, but Merrick had the experience to handle it. He had been in similar situations before, and he knew how to deal with them.

"I'm just glad I could do it," said Merrick. "I've been working hard for this, and I knew I could do it."
