30 Injured
In Collision Of Trolleys
By TERY GROSS
Approximately 30 people were injured Monday morning in a rear-
collision of two subway surface
vehicles at the 37th and Spruce streets
station. The collision occurred moments
prior to one of the commuter trains at
the 37th and Spruce streets
station. There were no fatalities, and
one victim suffered head and neck
injuries.
Approximately 30 people were
injured Monday morning in a rear-
collision of two subway surface
vehicles at the 37th and Spruce streets
station. The collision occurred moments
prior to one of the commuter trains at
the 37th and Spruce streets
station. There were no fatalities, and
one victim suffered head and neck
injuries.

Police said the collision happened at a
left-hand stop at the 37th and Spruce streets
station. The second vehicle was a rear-end
collision with a stationary eastbound
subway trolley.

The rear of a stationary eastbound
subway trolley was struck by a westbound
subway trolley, police said.

The collision occurred moments
prior to one of the commuter trains at
the 37th and Spruce streets
station. There were no fatalities, and
one victim suffered head and neck
injuries.

Budget Crisis Plagues Meyers’s Tenure

Five-Year Report

Community: Visions Of Improved Relations Shattered

In Recent Years of Unprecedented Cutbacks, Stringency

Education: Some Changes Implemented; Far-Reaching Proposals Not Yet Realized

Meyers Years

Admissions: Crucial Shifts

In Deanship, Student Body

Although the Meyerson administration has fashioned a series of innovations, including the implementation of major academic and service cuts. One of the most ambitious proposals contained within its pages, has seen little to no enthusiasm from potential University donors.

In the past years ending in spring 1971, admissions dean George Schlekat, admissions dean for three years ending in spring 1971, found himself embroiled in controversy. The conflict that until recently has pervaded the Admissions Office is not concerning the future of the Schools of Nursing and Allied Medical Sciences.

In 1971, the Quadreporter Commission, a faculty-student group formed to ease rivalry between black students displaced from the University's student body in the past year, after the appointment of black students and faculty who had previously been excluded from the University's student association in times of cuts. TheQuadreporter Commission has been the focus of much attention in recent years. The move was made in frustration over Meyerson's decision to cut funding for the Quadreporter Commission and other student-run organizations.

At that time, Meyerson said the University's major responsibility is to maintain the community relations program to provide services to other minority groups, education and housing rehabilitation.

news in brief

UDALL PREDICTS VICTORY; FORD SCULDS CRITIC—Democrat Morris Udall yesterday predicted victory in the Arizona primary and a strong showing in the New York primary. President Ford looked at critics of his foreign policy, saying they only "measured" other countries. On the eve of the only primary to be held between the March 28 North Carolina contest and the April 6 Pennsylvania primary, Udall and Barry Goldwater campaigned in Wyoming.

In the city. Even when he lost in 1973 Philadelphia, Specter is anxious to match his own vote-getting strength for Mr. Specter said he looks forward confidently to a race against Mr. Green. Although Green is popular in his own vote-getting strength for Mr. Specter said he looks forward confidently to a race against Mr. Green. Although Green is popular in his first state-wide race, Specter says he is "open-minded." The University of Pennsylvania and the State Department have contributed $175,000 to the $275,000 projected figure.

WEALTHY RECLUSE
HOWARD HUGHES
DEAD IN TEXAS

By United Press International

Harrison Holman, senior reporter, United Press Interna-
tional, graceless pilot who became a recluse, has died.
Hughes, 70, was killed in a plane crash Monday near
his home in Austin, Texas. He was 70 years old.

Hughes, one of America's richest men, had never
been seen in public after a 29-year disappearance.

The body of the recluse billionaire, known to friends
as "Mr. H." or "Hughes," was found by rescue workers
in the wreckage of the single-engine Piper Cherokee
airplane that crashed in a hillside area near Austin.

Hughes was one of the world's richest men, with an
estimated $2 billion fortune. He was known for his
mysterious ways and his penchant for flying私人飞机
around the world for fun.

Hughes' death was confirmed by an official of the
Texas Department of Transportation, who said the
plane crashed in a mountainous area near Austin.

The plane was carrying some of Hughes' personal
belongings, including his typewriter and his dog,
"Leeroy." The dog was later found alive.

Hughes was known for his love of flying, and he was
an accomplished pilot. He had a love for private
aircraft and often flew solo around the world.

Hughes' disappearance in 1972 was one of the
world's most famous mysteries. He had not been
seen since then, and his whereabouts were a
mystery.

The possibility of foul play was ruled out by
officials, who said Hughes' death appeared to be
accidental.

Hughes' death has set off a wave of emotions
around the world. His fortune has been divided
among his children and other relatives.

The U.S. government has declared Hughes a
citizen of the United States, and his death has
caused a stir in the U.S. government.

Hughes' death has sparked a debate about his
citizenship. Some say he should be declared a
citizen, while others say he should not.

The Associated Press reported that Hughes'
citizenship status was still under review.

Hughes was one of the most influential
people in the world, and his death has
caused a stir around the world.

His death has caused a stir around the
world, and his fortune has been divided
among his children and other relatives.

The Associated Press reported that
Hughes' death has caused a stir around
the world.

Hughes' death has caused a stir around

Meyerson Report

(Continued from page 1)

the construction of college houses is in The Quad has not been improved in the same form.

"I believe we have improved the quality of the educational experience we offer our undergraduate students. It's difficult to put numbers on that improvement, but it will be visible in the years to come."

As the third charge, Meyerson notes "we need to improve our reputation in graduate education." In an effort to make the graduate schools truly competitive where we either have or have achieved such standing, he notes that a "selective excellence, which was to be a hallmark of the University's catalogs of 64 graduate programs.

"Selectivity is difficult," Meyerson claims in his report. "It's difficult, according to prestige and reputation, but also according to teaching and training needs and curricula of disciplines. Meyerson notes that "success in building or upgrading the number of our graduate departments is a vision national will take some time."

"Hence, the University will continue to build on the program as part of the development drive. "But our chances of reaching a point at which we are greatly enhanced by the kinds of teaching and research that are required for success." Meyerson's fourth goal was to place the University "within the top 100" nationally. Certainly, he says, "the quality of the student body and the faculty are as high as anywhere."

Meyerson makes it clear that the achievement of his final goal, he calls it, "the goal of excellence in undergraduate education in the discipline." Meyerson claims that "to the inside world we are, by and large, unknown. We have not been appreciated as much as we should be."

School Of Public And Urban Policy Announces

Fall Term Courses In Public Policy Analysis

SPUP 450 INTRODUCTION TO APPLIED STATISTICS AND MODELLING, 1st semester of a 3 semester course. To be arranged. Prerequisite: Math 115, equivalent. Course in problem solving covering basic ideas in probability, statistics, and modeling with applications to social sciences and public policy. Topics include models, optimization, estimation, hypothesis testing, and decision theory.

SPUP 611 EVOLUTION OF CRITERIA FOR PUBLIC POLICY CHOICE. To be arranged. Permission of Instructor. Historical survey of the development of explicit criteria for choosing policies. Emphasis on Western democracies.

SPUP 205 TOPICS IN POLICY ANALYSIS. To be arranged. An individual topic in public policy proposed by a member of the SPUP faculty. To be arranged as a special case in public policy analysis.

SPUP 1000 ORGANIZATION ANALYSIS. First term of year. T Th 9-10:30. Prerequisite: Econ 1. Comparative analysis of various models of organization and decision making, including markets, hierarchies, and networks, using empirical data to explain the organizational processes.

SPUP 407 DECISION MAKING POLICY, T Th 9-10:30. Prerequisite: Econ 6 or equivalent. An introductory course in American government is recommended, but not required. Comprehensive introduction to analytical models of political decision-making. The relationship of the political process to the market process will be emphasized. Although rigorous, the course requires no mathematical training beyond algebra.

SPUP 453 MODELS OF SOCIAL AND POLICY PROCESSES. First term of year. 1 c.u. per term. Prerequisite: Econ 6 or equivalent. Course will cover basic decision-making techniques including control theory, dynamics, bargaining, institutions, resources, and development in public and private sector studies. Emphasis will be on modeling for purposes of decision making and several criteria for evaluating models will be presented.

SPUP 460 IMPLEMENTATION OF PUBLIC POLICY: Case studies and General Propositions. T Th 9-10:30. Investigate in detail the issues and problems involved in the implementation of policy decisions. Case studies will be used as models of major programs. Area Redevelopment, Model Cities, etc.

SPUP 599 PROBLEMS IN FINANCIAL POLICIES AND ADMINISTRATION IN THE CITY OF PHILADELPHIA. First term of year. Pre-arranged. Prerequisite: Econ 6 or equivalent. Course will cover general problems in the field of public finance, including the effect of tax policies on the economy, the problems created by fiscal stress, and the role of government in the market system will be emphasized. Although rigorous, the course requires no mathematical training beyond algebra.

SPUP 541 HUMAN ORGANIZATIONAL ANALYSIS. First term of long course. T Th 9-10:30. Prerequisite: Econ 6 or equivalent. Comparative analysis of various models of organization and decision making, including markets, hierarchies, and networks, using empirical data to explain the organizational processes.

SPUP 547 POLITICAL DECISION MAKING. T Th 9-10:30. Prerequisite: Econ 6 or equivalent. An introductory course in American government is recommended, but not required. Comprehensive introduction to analytical models of political decision-making. The relationship of the political process to the market process will be emphasized. Although rigorous, the course requires no mathematical training beyond algebra.

SPUP 495 TOPICS IN POLICY ANALYSIS. To be arranged. An individual topic in public policy proposed by a member of the SPUP faculty. To be arranged as a special case in public policy analysis.

SPUP 721 MODELLING AND STATISTICS. 1st term of long course. 1 c.u. per term. Boardman T Th 9-10:30. Applied probability and statistical modeling, including statistical inference, regression, correlation, etc. 704 pages. Paper.

SPUP 723 POLICY MODELING AND DESIGN. 1st term of long course. 1 c.u. per term. Boardman T Th 9-10:30. Applied probability and statistical modeling, including statistical inference, regression, correlation, etc. Paper.

SPUP 725 TECHNIQUES OF CAUSAL MODELING. 1st term of long course. 1 c.u. per term. Boardman T Th 9-10:30. Applied probability and statistical modeling, including statistical inference, regression, correlation, etc.

SPUP 726 SOCIAL RESEARCH AND EXPERIMENTATION. First term of long course. 1 c.u. per term. Boardman T Th 9-10:30. Applied probability and statistical modeling, including statistical inference, regression, correlation, etc.

SPUP 731 MICRO-ECONOMIC THEORY (Also listed as Econ 360). Both terms. T Th 9-10:30. Basic Theories of consumer behavior, demand, equilibrium, and welfare economics.

SPUP 732 THEORIES OF INSTITUTIONS. T Th 9-10:30. Williamson, Ginsberg. Prerequisite: 731. Organizations, institutions, norms, how institutions are maintained and change. Course will be on the economy, the military, the Communist party, etc.

SPUP 733 GOVERNANCE METROPOLITAN AREAS. To be arranged. 1 c.u. per term. Williamson, Ginsberg. Prerequisite: 731. Organizations, institutions, norms, how institutions are maintained and change. Course will be on the economy, the military, the Communist party, etc.

SPUP 734 WORKSHOP ON ORGANIZATIONAL ANALYSIS. First term of long course. 1 c.u. per term. Williamson, Ginsberg. Prerequisite: 731. Organizations, institutions, norms, how institutions are maintained and change. Course will be on the economy, the military, the Communist party, etc.

SPUP 735 POLITICAL ANALYSIS. Nagel, Panning. T Th 2-5. One-semester seminar examines generic political problems—military, political, economic, etc. in depth. How to use logic and evidence to develop arguments. 250 pages. Paper.

SPUP 737 EVALUATION AND EXPERIMENTATION. First term of long course. 1 c.u. per term. Boardman T Th 9-10:30. Evaluates models and techniques used for public policy. Design of social experiments, policy applications, and evaluation of existing experiments.

SPUP 738 ECONOMIC THEORY AND PUBLIC POLICY. (Also listed as Econ 390). Both terms. T Th 9-10:30. Basic theories of consumer behavior, demand, equilibrium, and welfare economics.

SPUP 740 GOVERNANCE METROPOLITAN AREAS. To be arranged. 1 c.u. per term. Williamson, Ginsberg. Prerequisite: 731. Organizations, institutions, norms, how institutions are maintained and change. Course will be on the economy, the military, the Communist party, etc.

SPUP 741 GOVERNANCE METROPOLITAN AREAS. To be arranged. 1 c.u. per term. Williamson, Ginsberg. Prerequisite: 731. Organizations, institutions, norms, how institutions are maintained and change. Course will be on the economy, the military, the Communist party, etc.

SPUP 742 THEORIES OF INSTITUTIONS. T Th 9-10:30. Williamson, Ginsberg. Prerequisite: 731. Organizations, institutions, norms, how institutions are maintained and change. Course will be on the economy, the military, the Communist party, etc.

SPUP 743 GOVERNANCE METROPOLITAN AREAS. To be arranged. 1 c.u. per term. Williamson, Ginsberg. Prerequisite: 731. Organizations, institutions, norms, how institutions are maintained and change. Course will be on the economy, the military, the Communist party, etc.

SPUP 744 GOVERNANCE METROPOLITAN AREAS. To be arranged. 1 c.u. per term. Williamson, Ginsberg. Prerequisite: 731. Organizations, institutions, norms, how institutions are maintained and change. Course will be on the economy, the military, the Communist party, etc.

SPUP 745 WORKSHOP ON ORGANIZATIONAL ANALYSIS. First term of long course. 1 c.u. per term. Williamson, Ginsberg. Prerequisite: 731. Organizations, institutions, norms, how institutions are maintained and change. Course will be on the economy, the military, the Communist party, etc.

SPUP 746 GOVERNANCE METROPOLITAN AREAS. To be arranged. 1 c.u. per term. Williamson, Ginsberg. Prerequisite: 731. Organizations, institutions, norms, how institutions are maintained and change. Course will be on the economy, the military, the Communist party, etc.

SPUP 747 GOVERNANCE METROPOLITAN AREAS. To be arranged. 1 c.u. per term. Williamson, Ginsberg. Prerequisite: 731. Organizations, institutions, norms, how institutions are maintained and change. Course will be on the economy, the military, the Communist party, etc.

SPUP 748 GOVERNANCE METROPOLITAN AREAS. To be arranged. 1 c.u. per term. Williamson, Ginsberg. Prerequisite: 731. Organizations, institutions, norms, how institutions are maintained and change. Course will be on the economy, the military, the Communist party, etc.

SPUP 749 GOVERNANCE METROPOLITAN AREAS. To be arranged. 1 c.u. per term. Williamson, Ginsberg. Prerequisite: 731. Organizations, institutions, norms, how institutions are maintained and change. Course will be on the economy, the military, the Communist party, etc.

SPUP 750 GOVERNANCE METROPOLITAN AREAS. To be arranged. 1 c.u. per term. Williamson, Ginsberg. Prerequisite: 731. Organizations, institutions, norms, how institutions are maintained and change. Course will be on the economy, the military, the Communist party, etc.
Do You Have A Minor Sore Throat?
Ivy Research Labs is conducting a three day consumer marketed throat gargle in a controlled program.
If you have a sore throat for less than 24 hours and are interested in participating in a treatment study contact EV7-8400.
Or, stop by Suite 226, 2nd Floor University City Science Center 3401 Market Street, N.W. Corner Philadelphia, Pa. 19104

Elections For
Undergraduate Assembly
And University Council
New Vote On The University Constitutional Reform
Will Be Held April 7 & 8
Polls Will Be Located At All High Risks, Hill Hall, Quaid 9-71 Houston Hall, Locust Walk, Baldwin and University Hall (10-4)
Dining Services (1-2 And 4-7)
You Must Have Your Student Matriculation
And I.D. Cards To Vote
Candidate Speeches Will Be Given Today On College Hall Green 11 A.M.
Rain Location 7:30 P.M. Law School Room 100 (FAS) Room 1, 2 Samp/ Nursing
FAS
Bill Madawy
The time is now, the undergraduate assembly is operated a student assembly today, A.U. now is the time to make a statement on the issues that concern us. It is time for us to make a decision about where we want to go.
Through the present assembly's failure to contact us, the undergraduate assembly is nothing more than an empty shell. We are concerned with the student body and we want to be heard.
Yes, we are concerned with the student body and we want to be heard.
Jim Osolay
This is my problem-stating column. Why do we need an I.D. card? It is to prove that you are a student. But why do we need a card to prove that you are a student? It is a question of personal identity.
It is a question of personal identity.
Donette Paper
The student assembly is a futile effort to be a source of unity. It is a mistake. Those who call for an assembly for an assembly are mistaken. The only way to solve this problem is to create a system that will work for the student body.
By voting for me, you will be voting for a better place for students and the student body.
Stephen Nelson
The student assembly is a place where students have a voice. It is a place where they can make decisions about their future. It is a place where they can make a difference. It is a place where they can be heard.
Sherri Eisen
The student assembly is a place where students have a voice. It is a place where they can make decisions about their future. It is a place where they can make a difference. It is a place where they can be heard.
Bob Frieden
The student assembly is a place where students have a voice. It is a place where they can make decisions about their future. It is a place where they can make a difference. It is a place where they can be heard.
Women's Lacrosse

(Continued from page 10)

It was an honor to be given the opportunity to share with you the experiences that have shaped my life and my relationship with the sport of lacrosse.

The game has taught me the importance of teamwork, dedication, and perseverance. It has also shown me how to overcome challenges and work towards a common goal. I believe that these values are essential in all aspects of life, and I am grateful for the opportunity to share them with you.

In conclusion, I want to thank all the coaches, teammates, and opponents who have been a part of my journey. Your support and encouragement have been invaluable. I look forward to continuing to grow and develop as a player and a person.

Thank you for listening. I hope that my experiences will inspire you to pursue your own goals and dreams. Good luck and keep playing the game you love.
Penn HR Sword Mightier Than Dragon

BY ROY KRAMER

Jim Larranaga tells me, "There is superstition..." and goes on to explain that the Quaker baseball team (1-2-1) believes. Early in Penn's 2-3 doubleheader, third baseman (3B) at Shibe Park in Philadelphia, now director of the Philadelphia Athletics, and another Quaker who helped develop baseball. So what will happen? You may feel like you're a member of the team. But is there any real value in those beliefs? And can they possibly have any influence on the outcome of the game? That is a legitimate question to pose.

The team is confident in its ability to win. They have always been very good, and they know that if they play well and lose, it's because they're not prepared for the game. The belief in their own abilities gives them a sense of confidence that they can win. And that confidence comes from within.

The team is also aware of the pressure of the moment. They understand that there is a lot at stake, and they know that they must perform at their best to have a chance of winning. This awareness helps to keep them focused and motivated.

So, in summary, the Penn HR Sword is mighty and the Dragon is not. The Quakers believe in their own abilities and feel confident in their chances of winning. The pennants and trophies are within reach.
