Four alarms were fired at an apartment building at 400 Avenue Avenue Sunday night after a fireman was found dead in his apartment.

The fire broke out in the basement of the building about 10:30 P.M. according to John Chapman, the fireman's father. The fireman had been on duty earlier in the day and had to leave his home to attend a meeting on campus.

The fire was contained and there were no injuries to firefighters. However, the damage to the building was extensive, with the top floor of the building totally destroyed.

The cause of the fire has not been determined, but authorities are investigating.

W. Philly Apartment Blaze Injures Five

By CAROL BIRNBAUM

A four-alarm blaze at an apartment building at 400 Avenue Avenue Sunday night killed a fireman and injured five people. The fire was contained and there were no fatalities at the scene.

At 10:30 P.M., a fireman was found dead in his apartment on the top floor of the building. The fire broke out in the basement, and the flames quickly spread to the upper levels. The fireman had been on duty earlier in the day and had to leave his home to attend a meeting on campus.

Fire Commissioner Joe Rizio, and was finally declared under control at 10:05. The fire caused extensive smoke and water damage and disrupted utility service in an apartment, carrying his two children.

The fire commissioner said he knew of no fire code violations in the building, a 1973 fire code that had been revised in the building, and found that the first floor was not in the building.

A letter to incoming School of Allied Medical Professions students on July 22, Stellar told his colleagues and university administrators, "It's important that the university administrators and students we work for "because the university is a source of comfort and a place of learning." Stellar added that the university is "a special place where we can come together to learn about the world and to learn from each other." Stellar's letter was mailed 17 days before he left his position at the university.

By CAROL BIRNBAUM

"Without first consulting the university administrators, it's important to have a letter to incoming students," Stellar said. "The university is a place where we can come together to learn about the world and to learn from each other." Stellar's letter was mailed 17 days before he left his position at the university.

Letters Supporting SAMP

By DANIEL M. AKST

The University's purpose appears to be broad enough to permit such diverse activities as the National Collegiate Athletic Association's track and field events and the Cavalcade of Bands.

PHEAA Finds More U. Students In Off-Campus Work-Study Jobs

BY ELIZABETH RANGERS

The Pennsylvania Higher Education Assistance Agency (PHEAA) has published a study showing that more University of Pennsylvania students are participating in off-campus work-study programs.

In the past, work-study was provided only to Pennsylvania residents during the summer months. However, PHEAA has expanded its program to include work-study opportunities for all eligible students.

PHEAA will student employees in summer jobs if they meet certain eligibility criteria. To be eligible, students must have completed at least one semester of study.

In addition, PHEAA seeks to ensure that students have access to quality work-study jobs. It has established partnerships with local businesses and organizations to provide job opportunities.

The study also highlights the importance of work-study programs for students. Work-study provides students with valuable work experience, financial aid, and a sense of responsibility.

For more information, please visit PHEAA's website at pheaa.org/work-study.
news in brief

Compiled from United Press International

VIKING II TAKES FIRST SOIL SAMPLES—The first Martian soil samples were taken by Viking II yesterday on the Plains of Utopia, and were poured into a 25-foot-deep silo. The soil is expected to provide valuable data on the planet's geology.

KENNEDY PLOT FOILED—Two men and a woman, charged with conspiracy to murder, tried and convicted yesterday. The three were arrested Saturday after the assassination of President Kennedy. The trial was held in New York City and lasted five days. The defendants were found guilty and received McVittie sentences of 10-20 years each.

UNIVERSITY OF PENNSYLVANIA

The Recreation Department service programs and services you may enjoy as an student, faculty and staff who reside on campus and to help in the community. If you have any questions or need further information, please contact us at 215-824-2644. We welcome all of Penn employees to join our community. We encourage participation in our various programs and activities.

Step 1 Faculty, Staff and Students must have Photo I.D. validated by Recreation Department (see above).

Step 2 All dependents desiring cards should be accompanied by the member of the faculty and staff ID. Registration Procedures for those needing Photo I.D. Cards will be issued to dependents at those times. Fee required.

Step 3 Take this card to registrar for photograph. Register will issue U of P Photo I.D. card (Franklin Building). Faculty and Staff I.D. Registration Procedures for those needing Photo I.D. card begins:

Step 4 Take photo I.D. card to Dept of Recreation office of building where you choose to have your locker (Gimbels, Hutchinson). Hutchison 3:00-4:00, Th 10:00-12:00, Williams 219

Step 5 After September 15 take photo I.D. card to Dept of Recreation office of building where you choose to have your locker (Gimbels, Hutchinson). Hutchison 3:00-4:00, Th 10:00-12:00, Williams 219

Step 6 Register for Classes - Instructions in Life Time Activities

Step 7 Get Information on Sports Clubs and Intramurals

Step 8 After September 15 take photo I.D. card to Dept of Recreation office of building where you choose to have your locker (Gimbels, Hutchinson). Faculty and Staff I.D. Registration Procedures for those needing Photo I.D. card begins:

Step 1 Go to personnel office and request photo I.D. data card (Franklin Building)

Step 2 Take this card to registrar for photograph. Register will issue U of P Photo I.D. card (Franklin Building)

Step 3 Take Photo I.D. card to Hutchinson Gym on Tuesday September 14 and Wednesday September 15 for Recreation Registration. To register for Recreation classes and club activities, locker reservations, and towel service.

Step 4 After September 15

Step 5 Take photo I.D. card to Dept. of Recreation office of building where you choose to have your locker (Gimbels, Hutchinson). Hutchison 3:00-4:00, Th 10:00-12:00, Williams 219

Johnson (Continued from page 1)

Johnson has been active in various causes in the United States during his term in the administration. He has been a supporter of his initiative that his job is to carry out the administration's policies.

Another source of major controversy is previous / less frequent resolutions in the foreign policy. In the future, the University's policy will be to introduce a special committee to University communities to monitor the University's foreign policies. These special committees will be made up of faculty, students, and representatives of the University community, all of whom receive special consideration for admission.

Johnson and other members of the University, including the University's foreign policy advisors, have expressed concern that these special students composed 23 percent of the freshman class. As a result of the concern raised the Admissions Office attempted to reduce the number of these students. The number was decreased from 25 percent to 10 percent of the present freshmen class.

T-shirt's name is based on the freshman class quality as displayed by the College Board. Scores revealed relatively consistent although the score of the class increased and few applicants were rejected. However, not everyone was satisfied with the outcome. One student, who took place during his last year on campus, said: 'I am unable to do something in the freshman class.'

Johnson's tenure as dean of the freshman class increased at Penn.

On Tuesday night, ex-Central Intelligence Agency (CIA) Director William Colby discussed the Phoenix program of Intelligence in Vietnam, and its impact on the Phoenix operation. The program initially was motivated by the fact that the "primary interest" of the Phoenix operation was to "improve" the Vietnamese National Police, and that "the best way to do that is to have them keep accurate intelligence and to make sure that they are not being duped by the communists." Colby's colleagues were aware that the Vietnamese had a "tremendous amount of information" on the relative importance of various groups in the population. Colby's comments were published in the Philadelphia Inquirer on its articles to dispute this claim. While some of Colby's colleagues were defeated and also by winning its class victory in the Phoenix program, others were "improving" and others were "screwing up." Colby also mentioned that the Phoenix operation was a "long-standing policy of the United States," and that it was encouraged by quotes and records used in the Vietnamese National Police, and that the tactics used by the Vietnamese National Police were "good." According to Colby, the Phoenix operation was "very successful," and many were "very successful." A woman interviewed by Tom Fox for The Washington Post commented on the success of the Phoenix operation in July 1972, stating that the Phoenix operation was "a very successful program" and that it was "very successful." It is important to note that the Phoenix operation was a very successful program in Vietnam, and that it is still a very successful program in Vietnam. The Phoenix operation was very successful because of the corruption that existed in the Vietnamese National Police, and because of the corruption that existed in the United States. The Phoenix operation was very successful because of the corruption that existed in the Vietnamese National Police, and because of the corruption that existed in the United States. The Phoenix operation was very successful because of the corruption that existed in the Vietnamese National Police, and because of the corruption that existed in the United States. The Phoenix operation was very successful because of the corruption that existed in the Vietnamese National Police, and because of the corruption that existed in the United States. The Phoenix operation was very successful because of the corruption that existed in the Vietnamese National Police, and because of the corruption that existed in the United States. The Phoenix operation was very successful because of the corruption that existed in the Vietnamese National Police, and because of the corruption that existed in the United States.
INTERACTS

Communicating with the campus and community. If you're interested in public relations or arts management, register in Room 521, Annenberg Center.

First meeting: September 14, 11:00 Am, Room 221

CHILDREN'S THEATRE

Co-sponsored by the Center and Penn Players. Auditions for the Fall Term's travelling companies will be held in Houston Hall Rehearsal Room.

Wed. Sept 15 2:00-5:00 P.M.
Thurs. Sept. 16 7:00-10:00 P.M.

No previous experience necessary.

WORKSHOPS

I. Lighting
II. Theatre Crafts

No previous experience necessary. Register in Room 521, Annenberg Center, no later than Wednesday, September 15th.

THE FRENCH CONTEMPORARY ARTS FESTIVAL

A contribution of the French Government in Celebration of the U.S. Bicentennial

October 17-22

Peter Brook's International Center of Theatre Research

THE I. K

Based on anthropologist Colin Turnbull's THE MOUNTAIN PEOPLE, ran more than a year in Paris. October 17, 18, 19.

THE RIDICULOUS BAG: TALES FROM MOLIERE

An informal production aimed at finding through theatre a simple and direct way of communicating with the campus and community. If visiting artists, including Alain Robbe-Grillet, Iannis Xenakis, Yoshi Oida and Colin Tumbull.

First meeting: September 14, 11:00 Am, Room 221

PLUS—LECTURES, WORKSHOPS, DISCUSSIONS, with many of the visiting artists, including Alain Robbe-Grillet, Iannis Xenakis, Yoshi Oida and Colin Tumbull.

HEW to Seek New Information
On DuBois Discrimination Charges

By BERENICE V. YEMAN

A Department of Education investigation of charges of discrimination by the University of California at Berkeley was reopened yesterday. The new investigation is the result of new information provided by lawyers for DuBois, an African American student who was expelled from UC last year.

Previously, lawyers for DuBois had called for federal intervention by the Education Department. Now, a new letter from the HEW attorneys requesting updated information on DuBois charges was received yesterday. The charge is that the University of California has discriminated against DuBois, a black student.

In a letter written to the University of California yesterday, the HEW attorneys wrote: "Due to new information, the department is reopening the case for further investigation." The HEW letter went on to say that new information was needed before the case could be closed.

The HEW attorneys suggested that the University of California would be consulted in order to update their files. The investigation is expected to begin within the next few weeks.

Hewlett-Packard wrote the book on advanced pocket calculators. And it's yours free!

Hewlett-Packard built the world's first advanced pocket calculator back in 1972. And led the way ever since.

Now the HP-21 scientific calculator.

Fast... — and

Easy to use.

HP-21 Scientific Calculator.

PERFORMS...

Full decimal display control.

12 selective clearing options give you flexible use of memories.

10 addressable memories-20 memories total.

28 pre-programmed exponential, log and trig functions. That's why we've dubbed it our Scientific/Plus.

Continuous memory capability.

Performs extended percent calculations, cash flows for investment analysis.

Computes including interest rates.

Performs rates of return and discounted cash flows for investment analysis.

PCs for business administration. The reason: It's programmable. We also offer the HP-25, (without the Continuous Memory) for $165.00.

HP-22 Business Management

The HP-22 easily handles the kinds of calculations you see in business courses today. From straight to business math calculations. Build existing business or engineering data even when it's turned off.

The HP-27 Scientific/Plus

3$165.00

An HP Extremely powerful scientific calculator. The HP-27 is for the science or engineer who wants complete in-control program writing, conditional or loop editing abilities. Also offers eight addressable memories, plus display editing. HP-25 Scientific Programmable with Continuous Memory.

HP-25C Scientific Programmable

$200.00

The HP-25C is our keystroke programmable scientific calculator that solves automatically the repetitive problems every science and engineering student faces. When more confident, Continuous Memory capability lets you enter programs and data even when it's turned off. With 32 built-in functions and operations, 22 built-in functions and operations. The HP-27 Scientific/Plus...

Despite the efforts of City Firemen, the blaze enveloped the building, causing rivers of water to lash the windows and doors in an attempt to control the fire. The rest of the adults sat dazed, wondering what the morning would bring. The firemen's ladder only reached to the third floor and I could see people at the window, calling out to them to get down. "Calm down," they commanded. "You can't go in there. Calm down," one said. The firemen's ladder only reached to the third floor and I could see people at the window, calling out to them to get down. "Calm down," they commanded. "You can't go in there. Calm down," one said.

An older woman had to be restrained by four policemen who were trying to keep her from going back into the burning building. "Oh, my God, my God, my God," she cried, a common refrain among the many residents who were either too tired, too dated or too confused to join the crowd watching the blaring building. The firemen's ladder only reached to the third floor and I could see people at the window, calling out to them to get down. "Calm down," they commanded. "You can't go in there. Calm down," one said.

Connecticut Kicks Quakers In Away Scrimmage, 2-1

The Quakers were not able to keep up with the Huskies' attacking prowess, as they succumbed to a 2-1 defeat in a tightly contested game. Connecticut's forwards were relentless, scoring two goals in the first half, while the Quakers could only manage a lone reply. Despite the results, the Quakers displayed solid defensive play and fought hard against their opponents. The game was played in front of a sold-out crowd at the Connecticut Stadium, and the atmosphere was electric.

Trackmen Awake at IC's, NC's

The track meet between IC's and NC's was a thrilling encounter, with both teams vying for victory. The meet was marked by exceptional performances and close races, leaving the spectators on the edge of their seats. The event was organized to boost the morale of the track team and prepare them for upcoming competitions.

Penn Adds New Sport, Coaches

Penn Athletics has announced the addition of a new sport, women's field hockey, to its athletics program. The move aims to provide more opportunities for female athletes and to enhance the overall athletic experience at the university. Additionally, new coaches have been appointed to lead the women's field hockey team, bringing fresh perspectives and expertise to the program.

DP Sports Scoreboard

The DP Sports Scoreboard is a comprehensive source for the latest updates and scores from various sports across different universities and conference championships. It covers a wide range of sporting events, ensuring that fans and enthusiasts have access to the latest results and highlights.

INTRAMURAL FALL BASEBALL NOTICES

There will be a mandatory meeting for all Intramural Baseball teams from 5-6 p.m. tomorrow in the Training House. All fall intramural games except football are requested by coach Bob Lint in order to proceed.
