Academic Events

The University is considering a plan to renovate the ground floor of the Quadrangle to serve as a dining area for the entire college. The Quadrangle, a residential complex of College Houses, is being considered for a major renovation, led by the Integrated Design Group at the University of Pennsylvania.

According to Director of Facilities Development Titus Hewryk, the project is necessary due to the increasing number of students living in the Quadrangle, which has seen a significant rise in occupancy in recent years. The renovation plans include the addition of new dining spaces, improved indoor and outdoor recreational facilities, and enhanced sustainability features.

The proposal is expected to be submitted for Penn Com, a funding mechanism for projects that enhance the campus experience. Hewryk noted that the project would involve a collaborative effort between the university administration, the facility services department, and the student body, ensuring that the final design is both functional and student-centered.

During a public meeting held in McCall Auditorium, the university community had the opportunity to provide feedback on the project. The meeting was well-attended, with attendees expressing their support for the renovation plans and highlighting the importance of maintaining the Quadrangle as a vibrant and accessible community space.

University Sophomore Smiles for Fun and Profit

University Sophomore Patricia Ann Matta smiles for the camera as she prepares for her upcoming performance in the Miss Greater Philadelphia contest.

This year's first major fundraiser for the University Sophomore Smiles for Fun and Profit program is a contest in which Matta will be competing. The program aims to provide opportunities for students to pursue their passions and support local community initiatives.

Matta, a second-year student, is excited about the upcoming event and is looking forward to showcasing her talents. "I'm really looking forward to this opportunity to give back to the community," she said.

The competition will feature various performances, including singing, dancing, and modeling. The winner will be determined by a panel of judges and the audience.

Matta is one of several participants in the program, and everyone is looking forward to the event. "We're all really excited to be a part of this," said another participant.

The proceeds from the event will be used to support various community initiatives, including local charities and student organizations. "We're really looking forward to making a difference in the community," said Matta.

Audience members will have the opportunity to vote for their favorite performer, and the winner will receive a cash prize.

The event is set to take place on Saturday, followed by a special performance by guest stars. A portion of the proceeds will be donated to charity, with the remaining funds being allocated to the program.

Meal Contracts

With University costs skyrocketing after year, it would be refreshing if we could look forward to a fall without an increase in the cost of meal contracts. That is the price the price box comes in the form of incoming freshmen.

Under a plan now being put up the administrative hierarchy, the set of dining service contracts will stay the same next year, but only because, for the first time, virtually all freshmen will be required to buy meal plans.

The plan seems unfair to incoming students. The University does not have the right to compel students to spend over $200 for a meal plan they don't want. I think that the University should also allow students who are either compelled to buy contracts because they live in college houses and Stouffer have also chosen to increase the price of their meal plans by 10 percent. Those are the brakes.

The plan also calls for a price increase for the 12 meal contract and a price cut on the 15 meal plan. The meal contracts are either bought by students who just can't wait to wash meals a day in the dining service, or would like to save a few dollars. In either case, it seems unfair to tax these people in order to increase ticket prices for the 15 meal contract.

And if Oive meals per week service is cut, another element of the plan, the University will be eliminating an option that is important for people who want to try expensive University. In such cases, mandatory dining contracts will not be the University's way to eliminate an option that is important for people who want to try to economize so that they can pay the other costs of an expensive University. In such cases, mandatory dining contracts will also be making it impossible for incoming freshmen to make up the extra cost of incoming freshmen.

The plan also calls for a price increase for the 12 meal contract and a price cut on the 15 meal plan. The meal contracts are either bought by students who just can't wait to wash meals a day in the dining service, or would like to save a few dollars. Conference to Study History of Medicine

LARRY BROOKS

The History department of the University and Temple are sponsoring a two-day workshop discussing "The Hundred Years of American Medicine," beginning today.

The conference is being co-ordinated by University History Professor Thomas Rosenberg and Temple's Morris Vogel.

In 1876, as a part of the centennial celebration, the University hosted the International Medical Congress. As a part of the bicentennial, the University is hosting this conference Rosenberg said Thursday, to "compare continuing medical problems with their historical antecedents."

The conference, funded by the National Endowment for the Humanities, will include 18 panelists representing Rutgers, Harvard, Princeton and five other institutions in addition to Temple and the University.

The sessions, open to the public, will consist of the presentation of short summary papers and, a group discussion of the topic. Most meetings will be held in the Woody Seminar Room of the Van Pelt Library.

Tonight, a special session will be held at the College of Physicians at 8:00 PM on "Psychiatry and Society."

Rosenberg said that he hopes this session will attract many participants from around the city for a discussion led by Leon Eisenberg, professor of Psychiatry at the Harvard Medical School, and Gerald Grob of Rutgers University.

There will be three sessions on Saturday: a discussion of "The Institutionalization of American Medicine" at 9:00 AM; "The Dimensions of Public Health" at 11:00 AM and "Therapeutics and Society" at 3:00 PM.

PLAYERS PICK POTENT PLAY

U.P. Penn Players announced last week that they are now accepting proposals for their spring show. The show will be performed April 14-16 in Annenberg Auditorium. The Penn Players board will be soliciting student directed proposals as well as professionally directed proposals for this time slot. All proposals must be submitted by Jan. 21. Further information is available by either calling the Penn Players at 243-7570 or visiting the office, located in room 520, Annenberg Center.

In other news, chairman Buz Haimes announced that the winter show will be John Steinbeck's Of Mice And Men. The play will be directed by Gary Ross who is a Junior in FAS. Auditions will be held Dec. 15 and 16 and the show will be performed in the Harold Prince Theatre Feb. 9-19.
Fencers Face Mature Red

By STUART G. MARON

In recent years fencing has had a winning tradition at Penn and this year is no exception. Coming off a big victory against Rutgers last year, the Quakers will have a second chance at the Scarlet Knights this weekend. Last year Plantier had a hand in the Quakers' success and will be swimming the 200 meter individual medley relay. Tomorrow Plantier will be swimming the 100 meter free and the Quakers can't shoot the whole works. He turned down a free ride to recuperate, there is no reason why the team will have adequate time to lose 5-4. He is young and, has tremendous potential although he lost the match.

When you've got only 2 tickets to the big game and you forgot that you asked Cheryl, Lori, Tracy, Kelly, Sabrina and Trisha, but they didn't...it's no time to get filled up.

Lite Beer from Miller. Everything you always wanted in a beer. And less.
Clemson Favored in NCAA Soccer

Clemson defeated Harvard 5-2 in a men's soccer game at the National Soccer Championship at 2:30 on Sunday while Army stunned Navy 52-36. The Army-Navy football game is an annual happening, and this year's game was no exception. The Navy football team, including the performance of two Heisman Trophy winners—Steve Beuerlein and Tony Price—was the focus of attention.

By CLEMSON SMITH

SMITH has been the head coach of the Quakers soccer team for the past three years. He has led the team to a 1-2-1 record in the Ivy League this season. Smith has been coaching for 10 years and has a total career record of 65-26-9.
