Skiing is Best in the East

BY GREG MANNING

Spring breaks are in the last chance of the ski season to big a whole week at the slopes before the snow melts. Even though we in Philadelphia have nothing to worry about; we can still make the most of it.

The Philadelphia Art Museum, the Philadelphia Civic Center, and the Philadelphia Museum of Art are the best ski resorts in the area for skiing. The Philadelphia Art Museum offers a great view of the surrounding mountains and the Philadelphia Civic Center offers a pleasant atmosphere.

If you haven't yet visited the Philadelphia Art Museum, the Philadelphia Civic Center, or the Philadelphia Museum of Art, you should make a trip there soon. They are all within a short drive of Philadelphia, and offer a great view of the surrounding mountains.

Even if you are not terribly excited by the prospect of skiing, there are still many other activities to enjoy. For example, you could visit the Philadelphia Art Museum, which offers a great view of the surrounding mountains.

If you are interested in skiing, you should consider making a trip to Philadelphia, where you can enjoy the beauty of the surrounding mountains and the great skiing conditions.

Dissertation Dilemma

By Neil Frisvat
Thursday March 10, President Martin Meyerson will propose to the University Trustees that the dissertation fee be raised from the current $30 per semester to $60 per semester. The proposal will not affect any graduate courses or administrative services. The proposed increase will not affect any fine arts center or the construction of a Fine Arts Center of Pennsylvania. The most common reaction to this proposal is that it is a blowtorch and creating nothing but smoke. The DP is trying to boil water with a gas burner. The DP has bellowed that this is a blowtorch and creating nothing but smoke. The DP has bellowed that this is a blowtorch and creating nothing but smoke. McCoy Tyner
His Time Has Come.

Tyner is a living legend whose powerful musical vision is constantly expanding. In the Sixties he came to early fame as John Coltrane's pianist. In the Seventies he has emerged as a major innovator, composer, arranger, and bandleader. Tyner has become a seminal jazz influence, and the most acclaimed acoustic keyboard artist of our time. On his latest Milestone album, Focal Point, he deepens and broadens the scope of the legend that has produced such monumental records as the trailblazing Fly with the Wind ("the strings album"—with Hubert Laws, Billy Cobham, Ron Carter) and the evocative Trident (the trio album—with Ron Carter and Elvin Jones).

Also on Milestone: Fly with the Wind (M-9067), Trident (M-9063), Sama Layuca (M-9056), Echoes of a Friend (M-9055), Song of the New World (M-9048), Song for My Lady (M-9044), Sahara (M-9039). Two record sets: Atlantis (M-55002), Enlightenment (M-55001).

Relaxed Tichacek Regains the Fencing Touch

By GREG GROVE
Coach Dave Micahnik believes a top fencer produces a winning product, and Jack Tichacek would certainly prove his theory correct. In the first year of varsity competition, according to Micahnik, "a fencer has acquired a lot more knowledge from the previous year's experience. Tichacek's second season of varsity competition proved to be a different story. In the second season of experience, explained Micahnik, "a fencer has acquired a lot more from his theories.

The tendency to second-guess increases and a fencer always sticks to his basic game plan. The opponent often capitalizes on the indecision. According to Micahnik, this is a common trend which, he feels, cannot be fixed. The oft-enforced sunshine steps out and works to make the Tichacek a true fencer.

"It was all mental," noted Tichacek. "I'm sure there were people trying to make me nervous. I would do things wrong in a game which he described as "more mental than chess," those things that Penn has this season is a key factor in relieving those pressures and improving individual performances.

This weekend, Tichacek and the entire squad moved to Columbia for a top full team tournament of the season. The winners of this tournament will travel to the NCAA tournament which national college champions will crown.

The often-cursed sophomore slump usually sees the fencer revert back to practice. "It was all mental," noted Tichacek. "I'm sure there were people trying to make me nervous. I would do things wrong in a game which he described as "more mental than chess," those things that Penn has this season is a key factor in relieving those pressures and improving individual performances.

Enthusiasm, Progress Highlight Year

What can you say about the women's gymnastics and swimming teams this season? They did what they were supposed to do, and the fans were never too disappointed. Apparently both of these teams didn't exactly have perfect premieres with teams in trouble, although both teams had successful Premieres, getting 14 and 12, respectively.

Apparantly all of the women's gymnastics is the individual's talent. Things have been well this season. His concentration is back and so is the confidence necessary to compete successfull.

The biggest reason for the success of the team was Jean's enthusiasm and high energy level," complemented Pedro Ferraz. "Jean's enthusiasm and high energy level contributed to a strong bond between the two of us and the others. It is an attitude we provide with that important ingredient.

The second time was when we faced our rub-up referring to the Quaker's issues of getting a number of the things we started to work on last year and to look to the future and to the progress we started.

The final time was that the fencers were hampered by the poor and relative prospecs of the season and the team this year which provided us with an important ingredient. The final year that we needed to work on was the first three times we got their seasons together. "It was all mental," noted Tichacek. "I'm sure there were people trying to make me nervous. Women's Gymnastics, Swimming Wrap-up

How can the coaching staffs of the gymnastics and swimming squads of the Eastern get any more satisfaction from back-to-back No. 2 finishes in the final Top 25 polls? As a matter of fact, they can get one last big boost from the sports public.Beginning with the Eastern championships next week in Providence, the Eagles will be fighting to win a national title.

There will be several important factors that will make this season's Easterns the Easterners' most important meet of the season. First, the meet will coincide with the final Top 25 polls and the NCAA meet. This means that the Easterners will have a chance to prove their worth to the national community. Second, the meet will be held in Providence, a city that the Eagles have not been able to beat in recent years. Finally, the Easterners will have a chance to prove that they can compete with the best in the country.

Eastern Swimming & Men's Gymnastics wrap-up: Staff writer Bob Glasscot has a great number of people attracted to the Eastern programs. "The adjustment our new swimmers made to our season was phenomenal, I think we've won 22 meet this year, 13 of which were in the Eastern Championships, which is an important factor in relieving those pressures and improving individual performances.
