Stalled Allocation Forces U. To Borrow $3 Million

By CAROL KUTCHENBERGER

As March 15 approaches, the University is expected to borrow more than $1 million to meet the deadline set by the state for the deposit of the state's $3 million allocation, which is expected to come around March 10.

By January 31 if the appropriation is not paid by then. Another state aid payment by that date.

The move, which has come from both, is costly to the University because it is unable to do so this year, according to University President John Morris.

The University's allocation, described in a memo to the appropriate officials, was narrowly defeated in the Senate in October as a result of Trustee Leon Higginbotham's support of the motion to increase the student fee.

The President and the Board of Trustees have been asked to consider the case of the student fee. A ruling against the Teamsters at

The hearing will be before an administrative law judge appointed by the Secretary of the Board. If the proposal is successful, the procedure is similar to a criminal trial with both teams presented an

More Faculty Involvement Considered by FAS

BY JOAN GREGO

"I've never seen an advisor here," one student
said. "I don't even know if we have advisors.'" So say many University students, especially those in the Faculty of Arts and Sciences, who generally express dissatisfaction with the academic advising they have received. Indeed, it is a traditional campus position to bemoan the limited office hours and seemingly inaccessible faculty members. The form of advising system now in use is somewhat traditional.

Each of the main undergraduate divisions of the University—FAS, Engineering, and Wharton—has developed its own unique solution to the advising dilemma.

FAS has opted for fulfilling the bureaucratic end of advising, that of providing professors with minimal administrative services. The advising system is often accused of being impersonal.

Eight assistant deans see students either by appointment or on a walk-in basis. Faculty members do not assist students in the process, a fact which is frequently cited as a weakness with FAS advising. Students are, under the existing faculty advising system, the primary source of information for their classmates and sometimes for advisors. The current system is based on a cluster-minor system that was developed by Vartan Gregorian, who plans to establish three to five departments for each advisor, each with a cluster.

"Students say they want more contact with faculty members, but don't know how to go about getting it; at the same time, faculty members say they have office hours, but nobody comes.

"Faculty members would be able to handle the bureaucratic stuff—like how to fulfill a course—" sophomore Leonard Goshen, who organized Students Helping Students, a student advising group, said he hopes to get faculty members to use

Obtaining Peace

By Kenneth J. Olshansky

It is always unfortunate when two powerful nations find themselves in a situation where the only way out is armed conflict. The Arab nations do not, for example, have a choice when it comes to Israel. By Kenneth J. Olshansky was received in response to the October appearance of Palestinean National State President Ayman el-Bakr and Abu Zabaal. There is an emerging consensus that the conflict is not only about the control of land, but also about the fate of millions of refugees. The question of which side has killed more, the Israelis or the Palestinians, can be seen as anything other than a war crime.

By Jonathan Follender

Rothstein

By Rabbi Michael A. Monson

I am pleased to share my thoughts on the recent events in the Middle East. The atmosphere of hope in many parts of the world is at its highest in years. For whatever reason, the Arab and Israeli people may have turned the corner of history. They have two courageous avenues to pursue peace. The first avenue is to continue dialogue and to seek a peaceful resolution through the United Nations. The second avenue is to support the peace process and to work toward a comprehensive peace agreement that includes international recognition and support.

A New Chance For Middle East Peace

The U.N. resolution on Zionism as racism and the PLO charter will see that the question of which side has killed more, the Israelis or the Palestinians, can be seen as anything other than a war crime.

Morbidity in the Academic World

By J. Wolpe

Role in slaughtering innocents.

The fact that Sayegh was brought to the United States for trial and then acquitted is a testament to the justice system. The PLO talk before, but the "fair trial" is not always "fair". Although the PLO member had no legal right to be in the United States, he was not afforded the same rights as a citizen. Legally, the PLO member had no right to be in the United States, but morally, he should have been given the same rights as a citizen.

Historical Reality

By J. Wolpe

The PLO's role in slaughtering innocents.

The PLO is, in concept and policy, a terrorist organization. Dr. Sayegh's role in this context is that of a terrorist organization director.

The country is kept running solely due to the United States and oil-rich Saudi Arabia. The billion dollar contributions from Egypt. Being the most populous Arab nation, have the Israelis seen an Arab leader agreed to meet with an Israeli leader, which he describes as being an ideologic barrier thus opening the possibility, at least until some sort of East problem does not include the industrialized world, and perhaps the United States as a key role in the Middle East. Unrest, of any sort. This enables the Israelis to press their war-torn economy.

For Israel and Egypt, the visit was a success. Neither country has changed what they believe is necessary for a real peace, yet Egypt now needs peace, and President Sadat has realized that the only way peace will ever be achieved is through negotiations and not by further military action.

Ex-Yippie Rubin Speaks

(Continued from page I)

At the start of his Guatemalan-sponsored talk, Rubin told the crowd that the people he was trying to convince were sitting in places they said, "too far from the point, where people were ready to riot before I even spoke," he said, adding to them that the people who were ready to riot were the John Birch football players.

Rubin, called Watergate "the start of the radical movement." The scandal was made complete vindication of the radical movement's accomplishments. "We believed that the establishment he was trying to make life as miserable as possible for Lyndon Baines Johnson," he said, and appeared confident that the people he had been teaching had accomplished its aims.

He also admitted his role as a pest to the make-up of the audience by the fact that several governmental agencies had tried to determine the make-up of the audience by the fact that several governmental agencies had tried to determine the audience by his efforts to reform the government. He was proud of the accomplishments of the movement, he said, in effect, he said, monitoring the movement "in cold blood."

Rubin seemed proud of the movement's accomplishments. "We had had (the establishment) psychologically psyched out," he said, and appeared confident that the make-up of the audience had accomplished its aims.

Housekeeping Talks Resume

"Continued from page 1, housekeepers and making restitution for their pay," Morris said.

The University is basing its offer to negotiate on letters written by Local 115 to the NLRB and the Pennsylvania legislature which indicated that the union would recognize the University's financial problems in negotiations. The housekeepers were fired less than two months after they joined the Teamsters, ostensibly in an effort to save $75,000 a year. The University claims the Teamsters would not consider cost cuts during the summer negotiations.

"If the University has a cost problem, let them present it," Morris said. "However, we're going to also negotiate a contract. We're not just there to consider the University's problems."

Judge

"Continued from page 1...) legislative fails, and the executive fails, the political process fails," the judge noted.

Such problem areas include the prison system, housing, education and failures in labor relations. "People often expect the courts to come out with a national, viable solution to a problem which others have willfully disregarded," Higginbotham observed.

In this world, you have to be relatively important to make headlines on your problems. But that's why you've heard of Steve..."

Midgies Coming Off Tiger Ambush

By LORINCZ KOSZAREK

Merrill's second year as the basketball coach at Penn has not been an easy one. The veteran Ivy League school is having some trouble with a transition from the glory of coach Chuck Daly to its new mentor. "It took us a year to realize we were starting 6-5 forward Terry. You still don't know what you're doing," said Merrill.

While playing the underdog is a new role for the Quakers, it is not for Merrill. Last year's 1-31 date was his in 74 attempts, and 17-28, the Midships were probably the fourth or fifth best team in the country. So it's not like Penn last year, just that we've found a way of playing that suits us. With his young team, Merrill was more careful in his choice of words, but in the end, he chose the same words: "This is a good sign. Everyone is ready to begin a frustrating season. "It took us a year to realize we were starting 6-5 forward Terry. You still don't know what you're doing," said Merrill.

Merrill's second year as the basketball coach at Penn has not been an easy one. The veteran Ivy League school is having some trouble with a transition from the glory of coach Chuck Daly to its new mentor. "It took us a year to realize we were starting 6-5 forward Terry. You still don't know what you're doing," said Merrill.

While playing the underdog is a new role for the Quakers, it is not for Merrill. Last year's 1-31 date was his in 74 attempts, and 17-28, the Midships were probably the fourth or fifth best team in the country. So it's not like Penn last year, just that we've found a way of playing that suits us. With his young team, Merrill was more careful in his choice of words, but in the end, he chose the same words: "This is a good sign. Everyone is ready to begin a frustrating season. "It took us a year to realize we were starting 6-5 forward Terry. You still don't know what you're doing," said Merrill.
