The Ivy League is quite hard hit in revenue and in size, when it comes to sports, especially football. "It's really a war," said one Ivy League member last week. "It's rough out there, but we're ready for it." The reason? Simple: it's partly due to the national trend towards larger attendance and revenue from sports, particularly football. The Ivy League, like many other college conferences, has been heavily influenced by these trends.

I never knew a parking lot, and certainly not one like this. It's huge and it's all mine. I'm not sure what I expect to find, but it's definitely a place to stretch out and relax. I think the best way to approach it is to take a good look around and try to understand the layout. This can be quite a daunting task, but it's definitely worth the effort.

A Hope for the Future

By Dave Lieber

In response to the criticism over last Monday's debate on nuclear power, we would like to make this topic for your consideration: the debate's circus atmosphere. We believe that the debate's circus atmosphere is a reflection of the current state of our political system, and that it is time for a change.

Quite a Ridiculous Flasco

Americans! It's time to wake up and realize that we are living in a world where nuclear power is a real threat. We need to start taking this seriously and not just laughing it off.

Lots of Money

I have been reading a lot about the University's plans to expand the parking lot. I think it is a great idea. The University needs more space for its students and faculty.

Navy Sunk by Penn’s Fleet Feet

By DICK STEVENSON

If you have a weak heart, it’s not a good idea to watch Penn sports.

In the past few weeks, the Quakers’ second-half surge against Columbia, Yale and Princeton was breathtaking.

The Quakers fell behind on the first two baskets of the game, but then Michael DiMariano, Tony Price and Murray topped them with three consecutive points for a 5-2 lead. Tony Price knew the real answer.

"We played well, but the refs should have been more confident about a lot of things," he said. "It’s one of the best games we’ve played all year."

"For whatever the reasons are, we just didn’t seem to be playing well after nearly any big play," added guard James Salter, who closed to within five, 55-50 with 10:20 left, 10:20 left. Penn reclaimed a 78-60 lead with less than a minute to go by getting on the boards, 22-14.

"I’m not sure what’s happened," said Price. We just kept going on the offensive."

"There were a lot of things that went our way. We didn’t want that to happen," said Murray. "But it happened."

"I think we played well, but the refs should have been more confident about a lot of things," he said. "It’s one of the best games we’ve played all year."

 PROVIDENCE, R.I. — The report on the weekend’s hockey action was very good for Brown’s Mediterranean Ambassador.

But for the Providence Friars, there was nothing but frustration and disappointment.

The Friars had no answer for the Quakers as they were held to a 3-0 loss in the first game of the weekend series.

The score came courtesy of two goals by Barry Machin and one by Mike Welsh.

Machin’s first goal, which came on a power play, put the Quakers up 1-0 in the first period.

Machin’s second goal, which came on a penalty shot, put the Quakers up 2-0 in the second period.

WELSH CALLED IT QUAKER HOCKEY

“Machin’s goals were huge for us,” said Welsh. “He was in top form and really helped us out.

“Machin is one of our best players and he really stepped up for us tonight.”

The Friars were unable to find the back of the net against the Quakers.

The Friars outshot the Quakers 28-19, but were unable to convert their chances.

The Friars will look to regroup for the second game of the weekend series on Saturday.
