Women's Groups Will Seek A Meeting

By DICK STEVENSON

Representatives of Woman for Equal Rights and the Philadelphia Committee for the Equal Rights Amendment are planning to request a meeting with Leadership in Order to discuss their concerns over the ongoing anti-abortive action review, according to WEEDU officials.

The meeting will probably also include members of Black Faculty and Administrators and another group of opponents of the amendment, according to WEEDU officials.

SUBJECT: ANNUAL TROOPER OFFICER HIRING CONFERENCE AND SUMMER RECRUIT TRAINING PROGRAMS

The Pennsylvania State Police are seeking candidates for trooper positions for the Annual Trooper Officer Hiring Conference and Summer Recruit Training Program. We are also interested in candidates who are willing to serve as seasonal troopers during various phases of the annual program. Both full-time and part-time employment opportunities are available. We encourage you to apply as soon as possible, as the application deadline is October 31, 2023. The Pennsylvania State Police are an equal opportunity employer. If you are interested in applying, please visit our website at www.state.pa.us/sp and submit your application online. We look forward to hearing from you.

Best regards,

[Signature]

Director of Recruitment and Civil Service Operations
Pennsylvania State Police

The University of Pennsylvania, the Philadelphia National Bank, will speak on "Soviet Leads in Arms Spending," at 8:30 pm at St. Mary's, located at 1200 Locust St. The event is part of the UA office's "Soviet Leads in Arms Spending" series. The series is designed to provide insights into the Soviet Union's military spending and its implications for global security. Attendees are encouraged to join in the conversation and share their thoughts.

---

U.S.S.R. Leads in Arms Spending

Washington, D.C. — Thursday, October 18, 2023

President Joseph Rizzo of the Philadelphia National Bank will deliver a lecture entitled "Soviet Leads in Arms Spending," at 8:30 p.m. in Room 2BS, McNeil Building. This lecture is part of the UA office's "Soviet Leads in Arms Spending" series, which aims to provide insights into the Soviet Union's military spending and its implications for global security. The lecture will cover the latest developments in the Soviet Union's military budget and will探讨 the strategies and policies adopted by the Soviet Union to allocate resources to its military forces.

The Nursing School's continued funding was the subject of controversy since late September, when Steve Emanuel, a nursing student, asked to be identified as C: the contract is really not being enforced. He asserted that the employees have reported to him that the company is not giving them the hours they are entitled to and that they are being paid less than the minimum wage. The company has told them that they will be paid only for the hours worked since Katz was appointed. As far as we're concerned, things aren't going too well," he said. The company has told the employees that they will be paid only for the hours worked since Katz was appointed. "As far as we're concerned, things aren't going too well," he said. The company has told the employees that they will be paid only for the hours worked since Katz was appointed. "As far as we're concerned, things aren't going too well," he said. Diving: The Sky's the Limit

By Joan Greco

This is a story in several parts, and it all true. It's always been.

When you jump out of an airplane at 20,000 feet, the parachute weighs 25 pounds, and the parachute system is designed to bring the jumpers to the ground at a speed of 6 to 12 miles an hour.

The parachute is a complex system of lines, fabric, and harnesses that is designed to slow the jumpers down as they fall through the air. It consists of a main canopy, a reserve canopy, and a drogue chute.

The main canopy is the largest and most visible part of the parachute. It is made of durable fabric and is designed to slow the jumpers down as they fall through the air.

The reserve canopy is a secondary canopy that is used to slow the jumpers down even further if the main canopy fails to open.

The drogue chute is a small, lightweight chute that is used to slow the jumpers down as they fall through the air and to help steer them into a safe landing area.

The drogue chute is attached to the main canopy by a series of lines, and the reserve canopy is attached to the drogue chute by another set of lines.

When the jumpers reach a certain height, the reserve canopy is automatically deployed to provide additional drag and help slow the jumpers down.

As the jumpers fall through the air, the drogue chute is deployed to help steer them into a safe landing area.

In addition to the parachute, the jumpers are also equipped with a parachute harness, which is a complex system of lines and straps that is designed to keep the jumpers safe during the jump.

The harness is attached to the main canopy by a series of lines, and it is designed to allow the jumpers to perform a variety of maneuvers while they are in the air.

When the jumpers reach the ground, the parachute is automatically deployed to slow them down and help them land safely.

In conclusion, the parachute is a complex system of lines, fabric, and harnesses that is designed to slow the jumpers down as they fall through the air. It consists of a main canopy, a reserve canopy, and a drogue chute.

I served in South Africa being basically apartheid and war. I served there and saw so much that was wrong.

I served in the Andersen and these men are to be credited with much of the support of the people and the situation.

I served there and saw so much that was wrong.

I served there and saw so much that was wrong.
Oil Company "Tyranney" Denounced
At Consumer's Energy Teach-In

At Consumer's Energy Teach-In denounced big oil as "tyranney." The teach-in was co-sponsored by the Pennsylvania Utility Commission, the Pennsylvania Department of Agriculture, the American Civil Liberties Union, and the Student Coalition Against Energy Multinationals. The teach-in was held in Room 10 Leidy Labs on October 20th, at 4:30 P.M.

The teach-in was organized by the Pennsylvania Utility Commission, the Pennsylvania Department of Agriculture, the American Civil Liberties Union, and the Student Coalition Against Energy Multinationals. The teach-in was held in Room 10 Leidy Labs on October 20th, at 4:30 P.M.

The PUC is a public service commission that regulates the rates charged by public utilities. The PUC is mandated by oil companies to ensure that consumers are not charged too much for energy. The PUC is supposed to be an independent body that represents the public interest, but according to the protestors, the PUC is controlled by the oil companies.

The teach-in was organized by the Pennsylvania Utility Commission, the Pennsylvania Department of Agriculture, the American Civil Liberties Union, and the Student Coalition Against Energy Multinationals. The teach-in was held in Room 10 Leidy Labs on October 20th, at 4:30 P.M.

At last, Encare

Neat, compact, no bigger than your ingenuity, Encare is just becoming the natural habit about contraceptive we have today.

From term hormonal side-effects, incontinence, Encare is available without a prescription. Encare can be part of the pleasure method of birth control you will never ever want.

Simply simple.

You simply insert Encare with the tip of your finger. There is no discovery, no applications. And no messy paraphernalia to clean up afterward. Each tiny insert contains a potent, premeasured spermicide, protected 99.9% effectively.

Simply effective.

Very simply, Encare works by neutralizing sperm cells in its path and propelling upon your system for protection against pregnancy.

Not under any circumstances, Encare is ever preparatory. Under normal conditions, Encare's spermicide was found to be highly effective.

Simply safe.

And if you ask your physician about Encare, you'll be reassured to hear that Encare cannot harm you. Because both the pill or IUD might have been your choice, the choice for people with normal conditions, Encare is a contraceptive. Recycling, nonoxynol spermicide was found to be highly effective.

Birth control simplified.
Underrated Elis Shatter Harriers’ Warranties

By SEKHAR RAMAYAMU

This was the most nearly new废水, as some new facilities were opened earlier this week. One such facility is the Elis Center, which opened its doors in early spring.

Director of Athletics John Quigley was on hand to welcome students to the new facility. He expressed his excitement about the new amenities and the potential for growth.

Quigley noted that the Elis Center is a valuable asset to the university, providing students with a state-of-the-art facility for athletic and academic purposes.

Despite the new facilities, Elis Athletics continues to face challenges. One such challenge is the ongoing COVID-19 pandemic. Quigley acknowledged the difficulties faced by athletes and coaches during these uncertain times.

However, he remained optimistic about the future of Elis Athletics. "We are committed to providing our student-athletes with the best possible experience, and we are confident in our ability to do so," he said.

Quigley also thanked the Elis community for their support and commitment to the program. "We are grateful for the support we receive from our fans and sponsors, and we look forward to continuing our legacy of excellence," he concluded.

The Elis Center will be officially opened on September 28th with a special ceremony. More information will be available soon.
