This text is a bit scrambled. It appears to be about a poll regarding student satisfaction at a university, a political science course, and other subjects. Without clearer formatting, it's challenging to extract coherent information. However, here's a rough outline of the content:

**Poll on Student Satisfaction**
- The poll covered questions about the freshmen experience, member of the freshmen expressed satisfaction, 85 percent of financial aid students felt difficult for them to attend next year, as opposed to the original estimated at $12 to $13 million.
- The cost of the project was $4.5 million.

**Dietrich Hall Renovation**
- Dietrich Hall will be closed this summer for a year-long renovation.
- Funds were originally estimated at $12 to $13 million, but inflation has since increased building materials and construction costs and further delay is expected.
- The new building will operate on a one-week staggered schedule in the fall.

**Police-Assault Victim Arraigned in Hospital**
- Father is Moroccan Diplomat

**Summer Pay Will Peak in May, June**
- Adjustments were made to the Federal Work-Study Program to distribute funds to students in May and June.
- The federal government has increased the amount of money available for summer work-study positions.

**All Aboard!**
- The Beer Garden at the University is now open for business.

**DP Polls Students**
- Student Opinion Cost Hike But Praise Education at U.

**Sheltering in Place**
- The building was designed to be a buffer zone and was equipped with a variety of security measures.

Millions Bar Visitors

Militant holding American at the U.S. Embassy in Tehran and thousands of others would not be able to enter the building unless the hostages threatened by the hostage-takers through U.S. presidential election in November.

Ghianahin said that Ayatollah Ruhollah Khomeini, who will be accused in the incident will be brought to his trial on May 1 or 2.

Lance Trial to Begin

ATLANTA—Twelve federal court jurors—including a resident dentist and two women who have borne a child in their lives—took today to begin their work at the trial

Slauoi

The former U.S. budget director, who was dismissed from his position as an employee of the Food and Drug Administration, says he is confident the jury will acquit him.

Lance said in his statement that he will turn over a new leaf and continue to work for the betterment of society.

State/Local

Carnage at the Stroke of 9th

NEW YORK—Five major American newspapers characterized the Castro regime in Cuba as a "war crime" in their Thursday edition.

Woodward said that in her opinion, the trial was a "public relations" event for the government.

Slaoui's trial is scheduled to begin on May 1.

In addition, 300 to 400 applications for engineering scholarships will be available after May 1st.

According to Slaoul, one policeman was shot and killed by the hostages, and another policeman was wounded.

The nurses' residence building is located on the main campus via 36th Street, 38th Street, and 40th Street.

The nurses' residence would require about $6,000 of assistance per student.

The political science department, currently located in the new wing.

The nurses' residence will be permanently moved to Stiteler Hall.

Possession of the nurses' residence was not the main issue, but it still remains a "stumbling block".

In addition, according to sources in the prison, the trial is expected to begin on May 1.

"I don't know why the police were so aggressive," Woodward said.

Woodward said that Slaoui was not being treated as a "war criminal".

"I don't know why the police were so aggressive," Woodward said.

in the country."

Born in Hamilton, Ontario, Canada, in 1856,
Mossell was the son of free Negro parents.
He migrated to England to avoid racial oppression
in the United States. He joined the Abraham
Armstrong, an African-American who had
received his medical degree at Pennsylvania
in 1868. His family had moved to Lockport, N.Y. for
advantage of the local public school system, but the Negro's white establishment had
undertaken to make sure that he wasn't admitted. Undoubtedly, young Elk and his
younger brother Aaron were denied admission to
schools. They were not the only Negro students
attending medical schools, noted historian Henry Mann.

In 1879, the new Lockport Hospital was built
on the Schuylkill River, but at over six foot tall and 200
pounds, he was able to fend them off.

The two hospitals remained stable until the
1890s. At this time, blacks were permitted to
fund their way through medical school. The

Hardy Williams for Congress

Michael "Gus" Hardy, the congressman who represents the first Congressional District, which includes all of Philadelphia, has introduced several significant bills into the House of Representatives. Some of his most significant bills include:

1. An emergency preparedness bill in the event of a nuclear disaster. "We must be prepared for all possible outcomes," he said.
2. Legislation to make the city of Philadelphia a safer place. "We need to address the problem of crime in our communities," he said.
3. A bill to provide financial aid to Pennsylvania's black universities. "We need to ensure that all students have access to higher education," he said.
4. A bill to provide tax breaks for senior citizens. "We need to support our elderly citizens," he said.

The allegations, his refusal to speak to his con-

Overhauling Dietrich

By Adam Levine

The Road Not Taken

Dietrich, the University, Cults and Free Speech

In the past, some of the rules have been vague, and the planners are working to make them explicit. We hope that the proposed changes will encourage all groups to conform to the rules; those that do not will be asked to move. Others worry that the rules may be too restrictive, and that this will prevent things from happening. "It's too bad," one student said. "We need more freedom, not less."

Drained Softballers Place Strong Fourth

By WADE REIFENSTEIN

The women's softball team was left to wonder what might have been. But it won't be from living up to a high standard this year.

While most everyone else was blessing the end of the softball season, the Princeton softballers were listening to balls and strikes. After a six-game losing streak, they responded by blanking Villanova, 7-0. "We totally upped our game," said senior Mary Robinson, 7-1, aces Robinson, avenged last year's loss to Villanova with a six-ace, 7-0 shutout. "We just have to stay focused and keep playing good ball consistently hard." For a baseball slugger, doubles are the best of both worlds. "When they weren't getting ahead right away, they almost started to scramble. Then came a couple of breakdowns." But when they crossed the finish line at 2000 meters six-tenths of a second ahead of Penn, it was a time of 6:17.7. "We went out and hit them. That's what you're supposed to do," said junior Nick Henderson, 7-1, aces Henderson, 7-1, aces Henderson, 7-1, aces Robinson, avenged last year's loss to Villanova with a six-ace, 7-0 shutout. "We just have to stay focused and keep playing good ball consistently hard." For a baseball slugger, doubles are the best of both worlds. Weekend Sweep Keeps Men at Bat

By JIM McCracken

Thrice the charm for the Quakers as they swept the Penn baseball team last weekend. The Big Red was hot but not the same in a row, including a doubleheader 9-0 win over the Quakers last Friday and a 3-2 loss to Penn on Saturday. Saturday's loss was the Big Red's win streak over the Quakers, which reached up to six games. "It's a sweepin' victory over the strength of the Penn baseball team," said team manager Bob Wehman.

"I don't think we've ever been swept in the Big Red series," Wehman added. "We had a couple of chances to win the last two games, but we did not get the job done."

"We were tipped off by the weather forecast," Wehman said. "We expected it to be cold and rainy, and that's exactly what we got."

"But even with the weather conditions, we were able to score enough runs to win the games," Wehman said. "Our hitting was strong, and our pitching was solid."

"We've been playing well as a team," Wehman said. "Our team chemistry is good, and we're playing well together."

"I think the key to our success is our team spirit," Wehman said. "We all support each other, and we're all working hard to win."

"We have a lot of young talent on our team," Wehman said. "We have a lot of promising players who are just starting to come into their own."

"We're still learning and growing as a team," Wehman said. "We have a lot of room for improvement, but we're working hard to get better."

"We're looking forward to our next game," Wehman said. "We have a lot of confidence going into the game, and we're ready to take on whatever comes our way."

"We're always looking to improve," Wehman said. "We're always trying to get better, and we're always working hard to achieve our goals."
