Black Frats, Sororities Gain U. Recognition

By ELAINE SONG

Black fraternities and sororities have long sought University recognition and approval. Today, a new chapter in their history opened as the University is a new policy approved by the Board of Trustees.

The new policy recognizes the four black fraternities and sororities and 60 members. The four fraternities, Psi Upsilon, Kappa Alpha Psi, Kappa Alpha Order, and Sigma Pi Gamma, have long sought University recognition, mainly because members come from all over the nation — the College of Arts and Sciences, the College of Education, and the College of Letters and Science.

In the past, high-school students interested in joining a black fraternity or sorority were forced to go through a service project of some kind before they could join. The University's new policy allows the fraternities and sororities to have full recognition, which means the University will help them in their service projects.

The University's new policy was approved by the Board of Trustees. It is hoped that the policy will help the fraternities and sororities in their service projects and that the University will continue to support them in their efforts.

**Williams Indicted in Abscam**

A federal grand jury in Philadelphia yesterday indicted Sen. Harrison A. Williams Jr., a powerful New Jersey Democrat, on 11 counts of alleged improper behavior in connection with alleged racketeering and mail fraud.

Williams is accused of being the highest ranking U.S. senator to be indicted on criminal charges in American history. In all, 11 people were indicted on 56 counts. The others included six House members and two others.

The indictment, which was unsealed yesterday, named Williams and six others who are not identified.

Critics have labeled the indictment a political payoff to the Justice Department.

Carter Platform Pushes for Health

By ROBERT E. SHEFFARD

President Carter's stands on social issues are directed at such health areas as drug abuse, public health care, income security, and civil rights.

Carter has especially stressed his administration's concern for drug abuse, public health care, income security, and civil rights. He has established an Office of Drug Abuse and Drug Abuse Prevention, and has appointed a task force to work on the drug problem. In addition, to Carter's stated concern, the administration has taken steps to fight drug abuse.

In addition to his platform, Carter has proposed several programs to address the drug problem. Carter has established an Office of Drug Abuse and Drug Abuse Prevention, and has appointed a task force to work on the drug problem. In addition, to Carter's stated concern, the administration has taken steps to fight drug abuse.

Carter has also proposed a comprehensive drug abuse control program that includes a drug aware-ness campaign, increased federal funding for drug research, and increased Federal efforts to control drug use.

"Every hour, about a hundred people gather outside the nation's capitol building, waving red, white, and blue banners and posters. Many are carrying signs appealing to members of Congress. They are demonstrating outside the nation's capitol against the Vietnam War."

The real problem, however, has not been taken care of. If the administration and the faculty feel the revived Reliance endowment is proper — and the Faculty Senate has a chance to consider that next week — then the agreement should go ahead and Reliance should be ready to proceed. But each group involved in this controversy — Trustees, faculty, administrators, and students — will have to take a hard look at the events surrounding the endowment, and determine how a situation was created in which the chairmen of the Board of Trustees could have been in a position to prevent the relisting of the endowment. This situation allowed that much hope in the first place, and may very much be taken to suggest that the administration not allow such a problem to occur again.

Most people are in agreement that the deep endowment is proper and that the Faculty Senate be involved in the decision.

I.R.S. Rule Stirs Scholarly Authors

By PETER CANNELL

The university press, which is a national outcry against a new I.R.S. ruling which requires book publishers to pay tax on the full value of their intangible products, has called for a boycott of libraries and bookstores.

The new ruling, which is written to allow libraries to write off the purchase price of books, essentially denies any tax deduction for the costs of publishing books. Publishers have been asked to refrain from sending books for review, and are encouraged to boycott bookstores and libraries.

Carter Campaigns in City of Philadelphia:

Reagan Speaks in Suburbs

Reagan addressed the administration's position that the Israeli resolution, the malicious, vile, and baseless resolution, would not be recognized by the United Nations. He said, "This is an outrageous and absurd decision. It is a direct threat to peace and security in the Middle East."

Reagan went on to say that the administration would not recognize the Israeli resolution because it was not consistent with the principles of self-determination and the right of the Palestinian people to self-determination. He stated that the administration was committed to working towards a two-state solution in the Middle East and that it would continue to push for negotiations and a peaceful resolution to the conflict.

State Races:

In a contest for Florida's Governorship, Republican George W. Bush was leading Democrat Bill Clinton by a margin of 45% to 40%. Bush had been criticized for his handling of the Persian Gulf War, but Reagan defended his own record, saying that he had signed the Persian Gulf Resolution and had supported the war effort.

Reagan concluded his speech by saying, "This is a time for unity, not division. We must stand together to defend our way of life and our way of government."
Gridders

"They're pretty sound," said Gamble. "They don't do anything you can really do anything to. They're well disciplined, well coached." Gamble added that they have no immediate plans to make any additions to the roster.

To beat the Tigers for the fifth time in six years, the Quakers must do two basic things, Gamble said. "We have to get better at pass defense and we have to keep our mistakes to a minimum. If we do those things, we'll be in a good position to win."
Healthy Frosh Gridders Seek Own Championship

By DAVID STONE

The Frosh Griddies, who will win the world series, rocketed to the top of the Swarthmore, Penn, and N.Y.U. polls after an impressive start in the league championship.

The Frosh Griddies' attack is the most potent in the league. The combination of the two quarterback, ten wide receivers, and eight running backs has made the Frosh Griddies an unstoppable force.

The defense is equally impressive. With five linebackers and three defensive backs, the Frosh Griddies are able to stop any team in their path.

The Frosh Griddies have already won their first two games, and are looking to continue their winning streak in the upcoming matches.

Sailors Await Stormy Weekend

By ANDREW KIRWAN

A day like this that you don't want to see anything happen. A day in the life of a stormy weekend. A day in the life of a storm. A day in the life of a stormy weekend.

Although the weather is not ideal, the sailors are still determined to have a successful weekend. They will be playing against teams that are stronger than them, but they will not give up without a fight.

The sailors are determined to prove that they are capable of winning even in the face of adversity. They will be working hard to prepare for the weekend, and will be ready to take on any challenge that comes their way.

HAPPY HALLOWEEN OATS

Andy Donnelly (standing for Quakers) wants to keep the ball in the Princeton end as often as possible — the by-play could imply a goal.

Although the Quakers played only two games (in their 5-2 win over Columbia, that last week, and a 3-1 win against Cornell earlier in the season) their form is on the rise. The team is in good shape and has a positive attitude.

The Quakers have scored all season. They have not given up a goal all season, and this is the reason for their success. The team is in good shape and has a positive attitude.

Brian Oates, the team's top scorer, has been on a roll this season. He has scored 12 goals and has 12 assists, leading the team in scoring.

Quakers Out to Put Tigers in the Tank

Booters vs. Potent .500 Tiger Squad

By BRIAN CUNNINGHAM

It looked like a banner year for the Princeton Tigers as they geared up for the 1989 season. The Tigers were coming of a season in which they were ranked eleventh in the NCAA pre-season media poll and eighth in the coaches' poll. Moreover, much of their strength was expected to be provided by juniors and seniors reaching the strength of their careers. This year, Princeton had a solid nucleus and a solid recruiting class, and was a building championship team. However, in the season-opener against the powerful Princeton, the Tigers were ranked fifteenth in the nation. The Quakers, by then, were ranked seventh overall and had a strong opening weekend in the NCAA tournament.

The Quakers are still expecting one of their toughest games of the season. They know that Princeton is in the mix for a deep run in the NCAA tournament, and have eliminated themselves from the Ivy League for the first time in years. The Quakers are confident in their ability to compete with Princeton, and have set their sights on a top ten finish in the NCAA tournament.
