UA Approves Policy For Commencement

By MATT GIBBS

The Undergraduate Assembly last week approved a series of recommendations and the report of the ad hoc Committee on Commencement. The assembly also reelected plant manager Carl Marler to the Student Senate.

In addition, UA Chairman Allison Anderson announced that some of the Assembly's directives for improving the institution's climate and function in the future are: to increase the success of the new panel format, to conduct more student transactions on the function of the UA and their relationship to the University, and to open up to questions from people in attendance, with a member of the UA present at the gathering, if possible.

In a related vote last May recommended among the following reestablishing Ivy Day as a Senior ceremony, a member chosen solely by students, remaining the current service to a religious nature and noAAHAAHHAA

Faculty, Students In Budgetary Tug O' War

This is a second in a series analyzing the budgetary situation at the University.

Gladstone

UNIVERSITY Budget director J. Penrose is in the process of developing a list of faculty members for this year who, according to him, have been particularly valuable in the past. The list will be used as a basis for making future evaluations of faculty members.

Many are likely to be among the faculty members who participated in the moratorium on new appointments last spring. The moratorium was enacted in order to make full-time appointments only to faculty members who had promised to continue working in the University through the moratorium.

Juggling Becomes A Sport at U.

By LEE BARNEY

Juggling is a sport that has become more popular in recent years, with a number of clubs and competitions springing up at the University. The Juggling Club was formed in 1980 by a group of students interested in the sport.

The club meets weekly to practice and perform juggling tricks. The members wear black clothing and carry white balls, which are alternately thrown in set patterns.

It is a challenging sport, requiring a great deal of concentration and coordination. But for those who are interested, it can be a fun and enjoyable way to spend an afternoon.

U. Task Force To Conduct Teaching Quality Forum

By ROBERT O'BRIEN

A University task force will be held as part of the task force's effort to study and report to students and faculty opinions on the quality of teaching at the University.

The task force, which will be headed by the chairman of the department of English, will meet at regular intervals to discuss the teaching process and its effects on students.

The task force will be made up of representatives from various disciplines, including the sciences and the arts.

The task force will meet at regular intervals to discuss the teaching process and its effects on students.

U. Bids Firms Ignore Intelligence Guidelines In Donations

By ANDREW KIRKMAN

Several large corporations are threatening to withdraw funding from the University because of its guidelines on the use of intelligence agencies in its research. General Council Martin Hall recently stated that he would be responsible for the administration of these guidelines.

In response to Union Carbide's request for a list of the names and addresses of former employees who are interested in working for the company, it has agreed to withdraw its funds from this year. It has also agreed to withdraw its funds from 1985.

Although no company has agreed to withdraw its funds from the University, a number of companies have expressed interest in the project.

The move by Union Carbide is seen as a positive step towards resolving the current crisis. However, it is likely to have a significant impact on the University's ability to continue its research.

Admissions

APPLICATIONS for admission to the University have been increasing steadily in recent years. In 1980, the application rate was 42% compared to 32% in 1979.

The University is one of the most selective institutions in the country and has a reputation for excellence. The admission process is rigorous and competitive.

The University has a policy of not discriminating against any group based on race, gender, or ethnicity. However, the University does have a policy of not admitting students who have been convicted of a felony.

The University offers a variety of financial aid options to help students finance their education.

The University also has a policy of not admitting students who have been convicted of a felony.

The University also has a policy of not admitting students who have been convicted of a felony.
Campus Events

TODAY

HELP GENTLY. Leave nothing on campus. Don't depend on public transportation. NUCLEAR ENERGY will be the key topic for today's seminar. PENN ORCHESTRA WILL be playing tonight at 8 PM in the University Theater. NUCLEAR PHYSICS will be discussed at the 7 PM panel discussion at the Penninn Hall. PENN DEBATE CLUB will be holding a debate at 7 PM in the Houston Committee Room. Q&A: Do you think the cost of nuclear power is justified? PENN UNION BOARD OF STUDENTS will be holding a meeting at 7 PM in the Union Building. PENN PRIVATE EYE will be meeting at 7 PM in the Union Building. PENN WOMEN'S UNION will be holding a meeting at 7 PM in the Union Building.

NEWS IN BRIEF

Compiled from Associated Press Dispatches

U.S. Delivers Hostage Response

ALGIERS, Algeria — Deputy Secretary of State Warren Christopher said Saturday he was reassured by Algeria's foreign minister that Algerian forces would not move against the Islamic fundamentalists who are holding American hostages. The American response was kept secret, but the Washington officials said their discussions were unraveling the hostage crisis for the release of the 92 hostages. U.S. officials in Washington were discussing the possibility of airlifting the hostages out of Algiers. The Algerian minister, Samir Osmane, told Christopher that his country would not send troops into allied territory.

Voyageur Discovers Hydrogen Cloud

PAISADENA, Calif. — Voyager I, speaking to its controllers with Voyager's mysterious mission over, gave scientists yet another surprise yesterday with the discovery of a huge cloud of hydrogen gas surrounding the planet. This cloud, which has been known for some time, but we didn't know how it was formed, is now thought to be due to the hydrogen gas that was formed during the formation of the planets.

Transition Costly to Taxpayers

WASHINGTON — By adding President Carter to the list of ex-presidents, taxpayers will be entitled to a bill of $15 million — the cost of changing the transition arrangements. The White House and the Republican Congressional leadership have agreed to offset the cost of the new transition arrangements. The Republicans would agree to make $10 million available for the new transition arrangements.

Teaching Quality

Professor Davies said schools especially the medical schools and, in some cases, the law schools have not been able to get tenure. Teaching quality and research are both elements in getting tenure at this university, he noted. Yesterday, however, he added that "we have never seen any department that has been able to get tenure."

"For several years now, faculty members have been in schools where they have not been able to get tenure."

Davies said some schools, especially the medical schools, continue to have tenure committees that do not have the power to make tenure decisions. "If we were to have tenure committees with power, I would be willing to support them," he said.

Davies said that many faculty members have been "drifting" away from the university and that some have left. He said that the university needs "to encourange our quality to improve the quality of teaching throughout the campus if it is to remain a first-rate institution."

"It is not good enough for us to have our teaching techniques improved. We need to improve our teaching techniques," he said.

"Chemistry: Where is it heading?" will be the topic of a talk at 8:30 p.m. on Monday, November 12th in Van Pelt House, Room 305. The speaker is Professor David White from the Chemistry Department at the University of Pennsylvania.

COURSES OF INTEREST TO THE UNIVERSITY COMMUNITY AND TO FUTURE HEALTH PROFESSIONALS OFFERED BY THE SCHOOL OF NURSING

NURS 112 Nutrition and Human Energy

Tuesday 4:30-7:30 P.M. 1 c.u.

Described for non-nursing students. Essentials of normal nutrition in human energy throughout the life cycle. Community food supply as influenced by economics, societal and cultural factors.

Prerequisites: None for non-nursing students.

NURS 505 Clinical Nutrition

Thursday 4:30-7:30 P.M. 1 c.u.

Application of essentials of normal nutrition and biochemistry to therapeutic modifications of diet as a preventive or interventional measure in achieving health in patients. Individual needs considered from both physical and socio-emotional viewpoints.

Prerequisite: None for non-nursing students.

NURS 503 Human Sexuality for the Health Professional

Wednesday 5-8 P.M. 1 c.u.

Sexual development and factors influencing sexual behavior in health and illness. Conceptual sexual practices of people in relation to life-style and life crises. Methods of counseling that may be applied in patient care. Lecture, audio-visual aids and group discussion.

Prerequisite: Junior or senior standing.

NURS 325 Alternative Health Practices for Health Care Providers

Monday 7:30-10 P.M. 1 c.u.

Concepts of holistic alternative health practices and therapies. Concepts of healing and holistic rituals and practices, potential of the holistic health movement. Open to graduate students in other Schools. Prerequisites: None for non-nursing students.

NURS 280 Counseling & Support in Oncology Care

Each Thursday 4-7:30 P.M. 2 c.u.

Counseling, support, and coping strategies for individuals facing cancer diagnosis and treatment. Faculty and guest speakers. Lectures, audiovisuals, group discussions, and case studies.

Prerequisite: Junior or senior standing.

NURS 272 Scientific Research

Monday 7-10 P.M. 1 c.u.

Open to graduate students in other Schools.

NUR 501 Research

Tuesday 7-10 P.M. 1 c.u.

Methods and techniques of research in nursing.

Prerequisite: Consent of instructor.

NURS 502 Family Planning

Wednesday 7-10 P.M. 1 c.u.

Family planning services as related to the nursing profession. Discussion of the family planning movement and its legal and ethical implications.

Prerequisite: Consent of instructor.

NURS 504 Advanced Practice Nursing

Tuesday 7-10 P.M. 1 c.u.

Advanced practice nursing activities in scope of roles and responsibilities. Seminar, and clinical experiences.

Prerequisite: Consent of instructor.

NURS 505 Clinical Nutrition

Thursday 4:30-7:30 P.M. 1 c.u.

Application of essentials of normal nutrition and biochemistry to therapeutic modifications of diet as a preventive or interventional measure in achieving health in patients. Individual needs considered from both physical and socio-emotional viewpoints.

Prerequisite: None for non-nursing students.

NURS 503 Human Sexuality for the Health Professional

Wednesday 5-8 P.M. 1 c.u.

Sexual development and factors influencing sexual behavior in health and illness. Conceptual sexual practices of people in relation to life-style and life crises. Methods of counseling that may be applied in patient care. Lecture, audio-visual aids and group discussion.

Prerequisite: Junior or senior standing.
**A First Glimpse**

**1980 Cagers Tune Up in Blue-White Scrimmage**

Ivy Race a Dogfight as Eli Falter Booters, Owls Square Off

Julio Piazza was a dominating influence on this year's young women's team, leading the Quakers in scoring by 12 goals in 12 games. In 14 games this year, 12 division one goals have found their way into the net.

The two squads collide in Providence.

The Crimson, behind the arm of Brian Weinhauer, opened his season against the Navigators of the White, who have been struggling with the back bone of the Red and Blue offense. The Quakers are one of the top teams in the nation, and they have lost twice in the past two weeks.

The season was very successful, and it did meet up to expectations. Weinhauer also reported that Vincent Ross was excused from practice today. Weinhauer also mentioned that the team is very excited about the upcoming season.

The boats, being manned by the Quakers, were concentrating on bringing the boats flat. The wind was strong and the boats were being monitored by the officials.

The season is in full swing, and the Quakers are looking forward to a successful season.
