**Early Decision Applications Increase**

In West Philadelphia Sent to City of the 20-acre PGH tract, which is submitted by the University and received by the city, Housing and Urban Planning in West Philadelphia have been meeting the faculty's economic needs meeting the faculty's economic needs. The administration docs not seem as well informed as the students or the members of the student body. According to the student body, the situation is not as bad as it seems, but the faculty seems to be in good shape.

The University subscribes to the theory that the future of the University is shared by the students, faculty, and administrators. The future of the University is shared by the students, faculty, and administrators.

This year, the number of applications from Florida increased from 7,000 to 10,000 applications.

**Early Decision applications declined 6 percent over past year**

Miller, who has been in charge of the University's unrestricted income, said, "These donors have recently offloaded some of their holdings to the University. The fact remains that the University is investing along with other private institutions. While University programs are no longer funded by the State on the same average.

During the Christmas vacation, Miller said, "I'm not sure what we'll do with the money, but I do know that the University has a lot of financial assets. The best way to use the money is to invest it in other areas. The University has a lot of assets and it's important to make sure they are used to their full potential."

Christopher Leaves Alger

ALGIERS, Algeria — Deputy Secretary of State Warren Christopher said Wednesday that U.S. officials in Algiers will go back to the negotiating table to try to reach a settlement in the complex issues raised by Iraq's terms for releasing the American hostages.

Christopher added that Algeria's ambassador to Iraq, who went to the talks with Christopher, was to go to Teheran to submit today the U.S. reply, according to informed sources.

Christopher and his delegation left for Washington 2:30 p.m. EST, on a special Air Force plane.

The deputy secretary of state gave the Algerians a five-point plan to try to resolve the U.S. hostage crisis and to prepare for talks in Algiers. He met with them again in Teheran for two days in the past.

The talks are described as lengthy and technical.

In Tokyo, a deputy secretary to Japanese Prime Minister Mohomad Ali Rajai, said in a telephone interview to Reuters: "I don't know the extent to which today's meeting went, but in the working session tomorrow..." Rajai will fly to Algiers to continue the talks with Christopher.

Yesterday's talks came at a crucial stage given by Foreign Minister Mohomad Bousla for Christopher and his delegation is a closed-door session at the Algerian hotel, 15 miles outside of the capital, lasting nearly four hours.

**Admissions: Drive Gives U. an Edge**

The process of sorting through the thousands of applications is the most important component so they can be fairly evaluated. "It feels like a kind of work that one cannot expect to get over with in a single day," said a spokesman for admissions.

"Every applicant represents a person who worked very hard to present his best, but we may have to handle applications without error," said the spokesman.

The college board scores sent from the testing center in Princeton come in a 45 percent rate of error, according to Princeton University. (Counselors must check a minimum of 50 percent of all scores to make sure an error is made.

Although there is a January 1 deadline for admissions decisions, 15 percent of all applications arrive after the first deadline. Last year, 40 percent of all applications were received after the first deadline. On January 15 the number had jumped to 75 percent.

Due to the increasing number of applications, the amount of time needed for each must be sorted and filed. Admissions Data Systems Director John Seeley is responsible for making sure that all applications have the necessary components so they can be fairly evaluated. "If the kind of work that can not expect to get over in a single day, " he explained. "It feels like a kind of work that one cannot expect to get over with in a single day, " he explained. PUC Sponsors Dance Concert

By Paul Strauss

Singer Nina Hendrix leads a formative band, Zero, into the University campus in a dance concert series called "Moby Dick: A Different Twist." Hendrix, formerly of the all-female rock band Latvia, and presently residing in New Orleans, is the headliner of the dance concert series.

Hendrix, formerly of the all-female rock band Latvia, and presently residing in New Orleans, is the headliner of the dance concert series.

The dance concert series, "Moby Dick: A Different Twist," features Hendrix performing in the role of Captain Ahab, the seafaring character from Herman Melville's classic novel "Moby Dick." The performance will feature Hendrix's powerful vocal abilities and her unique interpretation of the character, Ahab.

The concerts are scheduled for every Friday night at 9 p.m. in the Harrison Auditorium in the University Union. The tickets are available at the door and cost $5 for students, $6 for non-students, and $4 for students with a valid ID. The dance concerts are co-sponsored by the Performing Arts Council and the University Union.

This year's Moby Dick concert series marks the beginning of a new era in the University's music department. The concerts are intended to provide a platform for emerging artists and promote diversity in music programming.

The concerts will feature a variety of music genres, including rock, jazz, and classical, with Hendrix's powerful voice as the center of attention. The concerts are open to the public and are free to attend, but tickets are recommended for a guaranteed seat.

Hendrix's powerful performance is expected to captivate the audience with her dynamic stage presence and captivating voice. Her interpretation of Ahab is sure to leave a lasting impression on the audience.

The concerts are not to be missed, and tickets are highly recommended for a guaranteed seat. The series will continue throughout the academic year, offering a unique and diverse musical experience for all attendees.

By Randy Malamud

Joe Miller was one of the mill students who had observed and participated in the activities of the right-wing club. He was doing fine, but he was doing so at the expense of his studies. Miller was highly motivated and felt that his college was a place where he could excel. However, his academic performance was not as strong as he had hoped.

Miller was a member of the right-wing club and spent most of his time discussing political issues. He was aware of the importance of the college experience, but he was more focused on his future career. He was concerned about the left-wing students, who he felt were not as committed to their studies.

One day, while discussing the political climate on campus, Miller mentioned that he felt that the college was not providing enough opportunities for students to express their views. The right-wing students were concerned about the lack of diversity on campus and felt that the college was not doing enough to address the issue.

Miller and the other right-wing students decided to start their own club to address the issue. They wanted to provide a space for students to express their views and to promote a more conservative viewpoint on campus.

The two groups met weekly to discuss various issues and to plan events. They were determined to make a difference on campus and to promote a more conservative viewpoint.

The two groups continued to meet and to plan events. They were determined to make a difference on campus and to promote a more conservative viewpoint. They were also aware of the potential consequences of their actions, but they were willing to take the risk.

The right-wing club continued to grow in popularity, and it became a focal point of controversy on campus. However, the two groups remained committed to their cause and continued to promote a more conservative viewpoint on campus.
 logical to expand two existing neighborhoods when a 20-acre section lot is available. One PGH building, the former nurses' residence, will be used by the Wharton School when redeveloped. But several neighborhood groups, including the Spruce Hill Community Development Organization, have objected to the placement of any additional Section Eight housing in the University City area. HUD has already approved the construction of 76 such units at 36th and Market Streets.

 plans for more than 200 units. In addition, the city will receive the money only when construction has begun on 100 of the required 450 Section Eight units. The city has objected to the placement of any additional Section Eight housing in the University City area. HUD has already approved the construction of 76 such units at 36th and Market Streets.
