Meyerson Will Maintain Formal Role After Jan.

B. DICK SIVINSON

President Martin Meyerson is likely to stay on as formal head of University affairs after he leaves his current post early next year.

"It would not be a corporate title," Mr. Meyerson said last week that Meyerson had "no ex-

On Monday, the University will announce a new faculty member, Dr. Donald Berman, as the next president of the University-owned Sprout Street home that has been vacant for 10 years. If he continues to live in the house, he will not be "Meyerson," Mr. Meyerson said.

"President Martin Meyerson was primarily interested in retaining the traditional title -- 'President,'" Mr. Meyerson said, adding that the University president maintained a formal role in every area, though not as a peer of the University.

"I think the question is, will the new president be out there in the world in the role of a 'president' or a 'professor' or a 'director,'" Mr. Meyerson said.

"It's something we need to talk more about, and we will talk about it," he said.

"President" has a long history of association with the University, and students have long been used to addressing the school’s leader as "President." The role of the University president is to represent the University in all matters, and the title is often used to emphasize the president’s authority.

Though many suspect that the new president will not be a "corporate title," Mr. Meyerson said, "There are still many things that aren’t taken care of, there are lots of things that aren’t taken care of."

"If consciousness is going to be raised, it’s going to be raised by the black community, the black community, the black community," Black Students Inter-University Council member Ron Kirsner, who was asleep in the living room early yesterday, said. "I have a fertile mind when it comes to putting together a plan of action, blacks do not have to be treated for smoke inhalation."

The walls to the room were charred, people were told to put out the flames. Police said, "It’s something we need to talk more about, and we will talk about it."

Meyerson Stays—

Meyerson said he expected to move to Chicago in 1983 to serve as provost of Northwestern University. "We have enjoyed having him here and would like to have him here but we have decided it would be wiser for him to seek new challenges elsewhere," the president said. "I hope to persuade him to stay here."

China Playing ‘Catch-Up’ Game
In Effort to Improve Education

China has undertaken significant efforts over the past 20 years to improve its educational system, particularly in higher education. The country's universities have become more advanced in recent years, and there is a growing emphasis on international collaboration and exchange.

The Chinese government has established several key initiatives to enhance educational opportunities. One notable example is the China Scholarship Council, which offers scholarships to international students to study in China. These programs aim to foster cultural exchange and international cooperation, benefiting both Chinese and foreign students.

Another significant development is the increasing number of joint research projects and academic exchanges between China and foreign universities. These collaborations allow Chinese scholars to gain valuable exposure to international best practices and to contribute to the global academic community.

Despite these advancements, challenges remain. There is a need to further improve infrastructure, enhance teacher training, and ensure equitable access to education. As China continues to modernize its education system, it is clear that international support and partnerships will be crucial in achieving its long-term educational goals.

In summary, China's efforts to improve its education system are commendable. With continued investment and collaboration, the country is poised to make substantial progress in providing high-quality education to its population.

Snowball Memories

When I woke up on Saturday morning, I couldn't believe it. Snow! It was snowing! I had expected it earlier, but never in my wildest dreams did I imagine it would actually happen. And it wasn't just any snow—it was the kind that in May! It was the kind that made me smile and feel like a child again. I couldn't wait to go outside and play in the snow.

As I got dressed, I couldn't help but think of all the memories I had from childhood. Remembering those days made me feel happy and carefree. I had forgotten how much fun it was to just be a kid and enjoy the simple pleasures of life.

I put on my warmest clothes and headed outside. The air was crisp and fresh, and the snow was fluffy and soft. I walked down the street, looking for the perfect spot to make my snowman. I found a big, flat area that was perfect.

I began building my snowman, carefully placing each snowball on top of the last. I added a carrot nose and a coal mouth to give it some character. Then I added buttons and arms to make it look more like a person.

As I stepped back to admire my creation, I realized that this was more than just a snowman—it was a reminder of simpler times and the joy of childhood. I felt grateful for this unexpected snowfall and for the memories it brought back.

But the fun didn't stop there. I had another idea. I gathered some friends and we decided to have a snowball fight. We scattered around the yard, ready to pounce on each other with our snowballs. It was like being a child again, just having fun.

We threw snowballs at each other, trying to hit our targets and miss our opponents. It was a wild and chaotic scene, but we were all laughing and having a great time. We even made some new friends in the process.

Finally, we settled down in the yard and had a hot cocoa. It was the perfect end to a perfect day. I was happy to have experienced this memory revisited, and to have made some new memories along the way.

Everyone Welcome!
Big Red Drops Gridders in Finale, 31-9

BY SCOTT LEMBOVITZ
Ithaca, N.Y. - Champions.

The last 13 days have been a dream for the Big Red. Their team has continued to improve on a weekly basis since their last game, and their performance in the last game was the best that has ever been seen in Syracuse.

On Saturday 39 Penn boats took on the Ivy League with a full boat of four novices and one of their last two races of the season with victories in three eight races, and two races narrowly defeated a boat from the University of Wisconsin.

Next, a lightweight four won the day in the very next race. Here, a coxswain and four with acox race failed to cross the finish line on time, and the boat was disqualified.

The Quakers were not about to be in the first quarter, and after receiving a boost in the form of the 41-yard field goal by Ron Reina, the team continued to score points.

With a chance to win the Ivy League title, the Red and Blue moved the ball to Cornell's 26-yard line. They scored a touchdown on the next play, and the game was over. The Red and Blue have lost only one game this season, and they are now 13-1-1.

The Quakers' win on the field has avenged a previous loss to the Red and Blue, and it is a perfect way to end the season. The Quakers will now have to prepare for the final game of the season against Columbia.

On the Sidelines: David Elfi

Frustration Sets In As Curtain Falls

BY PETER FELDMAN
Ithaca, N.Y. - Last year the Quaker football team finished the season with a strong effort. This year, the team has struggled to find consistency, but they have shown improvement in the last few games.

On Saturday, the Red and Blue faced Penn, who were coming off a loss to Columbia. The Quakers knew they had to play well to have a chance at winning.

The problems of no running, a lack of a running attack, and a lack of a running defense that can hold up have been a major issue for the Quakers throughout the season.

The Red and Blue were not able to score on the road, and the Quakers went on to lose by a score of 31-9.

In the first quarter, the Red and Blue scored a touchdown on a field goal by Ron Reina. The Quakers were able to make a field goal in the second half, but it was not enough to keep up with the Red and Blue.

The Red and Blue finished the season with a record of 13-1-1, and they are now the Ivy League champions. The Quakers finished the season with a record of 7-5-1, and they will look to improve next year.
