UA Leaders: Hrackey Sees Our View on Budget Panel

By ROBERT WOJTOWICZ

Undergraduate Assembly leaders would like to see the University take a hard look at its programs in order to better understand their impact on the University and the quality of life enjoyed by students. Several issues were discussed at the meeting, including the importance of understanding of the programs on the campus and the University, and the planning connections, but were otherwise ignored.

The leaders' meeting with Hrackey and Acting President Louis Garfield yesterday was a continuation of a series of discussions between the two groups, which was held earlier in the day. Thursday's meeting, which was held in President Garfield's office, was attended by President Garfield, Acting Provost J. A. C. Garfield, and several other University officials.

"It is very important to have these discussions in order to understand the problems that face the University," said Garfield. "We need to understand the budget, the University's financial situation, and the impact that it has on the University's programs."

Soviet Intervention in Poland: A Myth

To the Editor:

Surely, people were upset at Dom Manno's cover story. Marked in the title of the section was clearly visible. If an organized manner that demands tribute input to change. The dictates of an outsider.

But the domination, predation, and the shift in power have become more and more visible, this is an absurdity. The violence that accompanied the revolution in Poland is not a myth. It was real, it happened, and it is a part of the history of the world. The Soviet intervention in Poland was not a myth, it was a reality.

Violence: A Part of Our Culture

To the Editor:

I believe that people can learn from each other. I see no reason why we cannot make this a part of our culture. The violence that accompanied the revolution in Poland is not a myth. It was real, it happened, and it is a part of the history of the world. The Soviet intervention in Poland was not a myth, it was a reality.

A Need for Activists

To the Editor:

In my short career as a student here at the University of Pennsylvania, I have been fortunate to meet many interesting people. They have shared their knowledge and experiences with me, and I have learned from them. I have also had the opportunity to explore the various interests I have developed here at the University. I have been able to take courses in a wide range of subjects, and I have had the chance to attend conferences and seminars. I have also been able to participate in extracurricular activities, such as clubs and organizations.

Feminism: Men Should Lead

To the Editor:

As a result of my research on feminism and gender roles, I have become convinced that men should lead in the movement for women's rights. This is because men have more power and influence than women, and they are therefore in a better position to effect change. In addition, men have a responsibility to lead because they are the ones who will be most affected by the changes that take place.

Faculty Predictions Vary on Fate of Poland

(Continued from page 1)

A new survey through Polish polls, the society said, would help to "do it democratically." Faculty members advocated a policy of caution on the part of the United States. "I think the U.S. tests too much," Hackney said. "If you're not clear as to what you're doing, they may be committing that should not be committed every day. The more we talk, the moreverse Warsaw Europe of East and West that the government have made." Kahl drew a distinction between support for the U.S. government and support for the government itself. "As private citizens, we have every right to support the military movement as long as that's possible and with every means possible," he said. "The government had best be assured. It's a lot happier if we have support in the government. The government hands are tied.

Both Brooks and Blumenfeld said Girifalco had a positive influence on the meeting.

"By the fact that Girifalco has con-
siderable experience with the University, it has molded him to grasp the things we've prevailed in a much better fashion than Hackney, gain his support to the let-
test our views at the present environment and thus we agreed with the present environment," Brooks said.

"We see how productive our past meet-

Spring Referendum

1. The Constitution of the Undergraduate Assembly shall be amended to include the following:

2. Referendum on Recall

A member shall be removed from the Assembly by the affirmative vote of two-thirds of those members present at the meeting, where a quorum shall consist of the two-thirds of the UA. Voting may be by either a secret or an open ballot depending on the preference of the UA member in question.

An individual can be removed from the Assembly on the grounds that the Assembly has gross neglect of its duties as defined by the current Assembly. Grounds for removal may not include ideological differences.

The challenged member must be given at least five (5) academic days notice to show cause why he or she should not be removed from the Assembly. If no good cause is shown, the challenged member may appeal to the Appellate Appeals Committee. The Appellate Appeals Committee shall either reject the appeal or hear the case and recommend its ruling to the Assembly.

3. Referendum on Replacement

A vacancy on the Assembly shall be filled by the appointment of the next highest vote-getter, from the previous election, in the constituency where the vacancy exists. If no one is eligible, the appointment shall be made from the results of the at-large University Council election: in such a case the appointed member would become a representative of the group in which he is enrolled. Appointments shall be made for vacant positions between March 1 and the upperclass Spring elections.

4. Referendum on Finance

The Treasurer of the Assembly shall sit as a member of the Activities Council Finance Committee. The Activities Council shall choose other members of its Finance Committee according to rules of its own making.

5. Referendum on Discrimination

The Undergraduate Lassoists to the Trustee Standing Committees are ex-officio members of the Undergraduate Assembly, unless they are also elected representatives. They are responsible for submitting reports of their committees' deliberations to the Steering Committee on a regular basis. They are also responsible for conducting the position of the UA as the position of the student government.

"Two months ago, they organized a session which the group hopes to see some day come due to its impact in the underground," Gretchen said.

The other two songs recorded on the show, "We Don't Like Like That," and "Forever," a song about a lonely rejection of a "pesty" girl's rejection of a "pesty" woman's advances, were written from a woman's perspective.

The Amoralists maintain that they do not consider their music to be "Feminist," large sub-division, but they sometimes feel people overemphasize the importance of their sex.
Crissuolo Yields Only Six Hits In Complete Game Performance

Steve Crissuolo doesn't like to pitch. In high school, he couldn't stand to throw a baseball, and he didn't like it at the University of Pennsylvania. Yet, the junior right-hander was selected in the recent National Baseball Congress draft for BirthBusters, Pennsylvania, for a compensation pick. And Saturday, he was the key in his team's 8-1 win over Rutgers at Shibe Park.

"I think it's easier hitting against him," said Rutgers coach John Gomes, "because he throws a lot of curves all afternoon, and when you don't get to be the right hander, you can't control the ball as well as he does.

In the first two innings, Rutgers' left-hander, Bill Wagner, fell into the usual pitching patterns behind him. But in the third, Crissuolo took over. The BirthBusters' pitcher was so adverse to taking batters with a steady diet of sliders and curves all afternoon, would the junior

Crissuolo allowed only six hits in nine innings. Although he was recruited in high school to be a left-hander, Crissuolo switched to right-handed pitching after two years in the major leagues.

"I was surprised (my arm) didn't shut down Drexel as the Pennsylvania baseball team swept a doubleheader at Shibe Park. The day's unbelievable had to do with the weather which bordered on frigid. Crissuolo retired the side in order in the ninth, strike out, walk, and walk.

The only legitimate scoring opportunity was foiled in the last inning and the eighth I felt was the junior varsity and the freshmen series between Penn and Rutgers. The Cornell race is the first of a series of contests between Pennsylvania, Temple and Lafayette which could not have been worse.
