BETTY PETERSON

North Carolina State's special assistant to the president, Ward Jenkins, who once sought the Law School presidency but was unsuccessful, has been named to the board of directors of the law school.

The board's move marks the end of Prichard's time at the helm of the school. The former attorney general of North Carolina, Prichard has been a vocal critic of the school's efforts to increase diversity in its student body.

- "We are committed to diversity and inclusion, but it's important to have a diverse board that represents the needs of our students," Jenkins said in a statement.

The move comes as the school continues to face criticism over its diversity efforts. In recent years, the school has been accused of being slow to respond to allegations of discrimination and bias.

- "I think it's a positive step," said one professor. "But we still have a long way to go."
FUTURE

SOCIOLOGY MAJORS - The Sociology Department will meet every Saturday at 1:00 in the psychology lounge in the basement of Fine Arts to discuss current departmental events. All sociology majors are invited.

SOCIOLOGY MAJORS - Clear your calendars for the Sociology Department's biggest meeting of the year, next Saturday. The meeting will begin at 1:00 in the psychology lounge in the basement of Fine Arts. All sociology majors are invited.

ATTENTION ALL TELMUS MEMBERS: The next meeting of the TELMUS mayors' series will be held next Saturday at 1:00 in the psychology lounge in the basement of Fine Arts. All sociology majors are invited.

OHIO! Completes 3rd Annual Classic Week - The 1981-1982 Classic Week in Ohio will be held next Saturday at 1:00 in the psychology lounge in the basement of Fine Arts. All sociology majors are invited.

SOCIAL SCIENCE COUNCIL - The next meeting of the Social Science Council will be held next Saturday at 1:00 in the psychology lounge in the basement of Fine Arts. All sociology majors are invited.

NEW HAVEN, Conn. — Edward Richardson, who allegedly wrote notes claiming he was told in a "prophetic dream" to kill President Reagan, was indicted yesterday by a Federal grand jury on two counts charging the murder and attempted murder of the President.

According to court documents, Richardson, 22, of Drexel Hill, Pa., was arrested Tuesday in Muhlenberg and is being held in New York on $100,000 bond.

U.S. Attorney Richard Blumenthal and investigators have found no link to the assassination plot.

Richardson, who is accused of making a "prophetic dream" to kill President Reagan, was indicted yesterday by a Federal grand jury.

Edward Richardson, 22, of Drexel Hill, Pa., was arrested Tuesday in Muhlenberg and is being held in New York on $100,000 bond.

Richardson was charged with making a false statement and entering a public place with a firearm.

**Bypassing the NEC**

When an FAS committee considering a new student group found itself locked out of the NEC, it was forced to look for alternative solutions. This situation led to a discussion about the role of committees and their relationship with the NEC.

**Letter to the Editor**

Unfair Treatment of Fraternities

To the Editor:

I've had a lot as I stand for the social scene and the overall quality of the fraternity system here at the University of Pennsylvania. I've been involved in various aspects of the frat system, including Greek-letter organizations, and I feel that we've made substantial progress in recent years.

I recently attended the opening of the new fraternity house, which was attended by many students, alumni, and faculty members. It was a great event, and I'm glad that we were able to celebrate this milestone.

I'd like to express my support for the fraternity system and all the hard work that goes into it. I believe that we can continue to make improvements and continue to be successful.

Sincerely,

[Your Name]

**The Proper Measure of Success**

Penn is a University marked by the grit of a scientific approach. The education model is centered on the principle of science—a constant pursuit of knowledge, information, calculation, scientific experimentation, and critical thinking. This approach is what sets Penn apart from other institutions of higher learning in most of the areas of education.

Penn's strength lies in its centrality to the primary concern of the sciences: the social sciences, political science, economics, communication, and the like. It's a school that truly reflects the nature and experience of the future, and it's a school that prepares us to be leaders in our respective fields.

I am not against science or scientific advances, but I am concerned that the pursuit of knowledge at Penn has led to an excessive emphasis on the sciences at the expense of the social sciences.

All science includes the social sciences. It's not enough to study science isolated from its social context. We must understand the social implications of our scientific discoveries.

According to the latest research, it is estimated that only 5% of the world's population has access to the scientific literature. This is a staggering statistic, and it underscores the importance of making science accessible to all.

ANTHROPOLOGY AT THE NEW SCHOOL:
MASTER'S AND PH.D. PROGRAMS

"We study others to understand ourselves." At The New School, our Gradu- ate Anthropology Program is comprehensive, well-integrated, and tailored in its variety to meet these critical times we live in. We offer courses in the major anthropological subfields, leading to the Master of Arts or the Ph.D. degree in a flexibly structured program. We have a distinguished faculty, who combine the classic and contemporary perspectives of American anthropology with the critical viewpoints of European social science. Our course range from the study of primitive art to the anthropology of science, from feld biologies to taxation. Ph.D. concentrations tailored to the needs of the individual student include ecological and economic anthropology, medical anthropology, women in anthropological perspective, philosophical anthropology, cultural psychodynamics, and nationalism. The New School's graduate program also features a 45-credit M.A. degree in Medical Anthropology.

In sum, our program is an integrated interdisciplinary approach to the study of the diverse, persistent, and creative human cultures in a problematic world. Interested students may also take courses without matriculating in a degree program.

For further information about the Graduate Program in Anthropology, please call (212) 741-5710 or send the coupon below.

Irish Mayors
(Continued from page 1)
"This represents our strong desire to come together," O'Brien said. "The medal has a strong tradition. long may it have." The three men declined to answer any specifically political questions. When asked if they anticipated a united Ireland at any time in the future, O'Brien replied, "That's a matter for history and time. It's not for us to decide."

"We have come to say to the people here that love Ireland that there is a better way (than the current violence)," O'Regan said. "If the support for it over here ceases, it'll be a quicker way to bring it to an end."

Carson said the 55,000 U.S. visitors to Ireland last year constituted the largest American tourist bill ever. He also spoke of the success of various student exchange programs. "There are a large number of exchange programs among the young people," he said. "They're the most important because they are the men and women of tomorrow."

The conference concluded in a groundswell of praise for the United States and implicitly for the U.S. press. "The response to our coming to your country has been magnificent," O'Brien said. "We want the American people to know that we mean that sincerely."
Dear Wedna,

W. Crew Look To Guts
In Dual Race Vs. Syracuse

By LESLIE GODSMITH

While the rest of the Penn campus awaits the spring weather this Sunday, the Penn women's crew begins to prepare for the spring season. A dual race is in last season's battle for the Orange Cup.

Coach Dianne Rickett said, "It's not too early to take the dual race lightly, yet don't let it be a mistake. It is not that last spring Penn faced Syracuse in the dual race for the first time. This year's dual race in late April is the first time Penn and Syracuse have faced each other in the dual race. The new -year-old race is a key race for the varsity athletes, as well as the varsity men's team.

This year's dual race will be against the Orange Cup, which gives rowing scholarshps to varsity athletes. Debbie Chan, varsity coxswain, Marshall and Michelle Romak, plus the rest of the varsity team, are quite satisfied with a second place finish. Debbie Chan, varsity coxswain, said, "We are ready." They have been preparing for the spring season and taking advantage of the mild weather. Debbie Chan, varsity coxswain, said, "We are ready." They have been preparing for the spring season and taking advantage of the mild weather. The Quaker women will take to the Schuylkill for the spring season and take advantage of the mild weather. They are ready.

And they are ready.

Ready to prove themselves in a dual race with Syracuse. The Quaker women's crew is in high spirits, with eight wins on the books.

Hickling is certain of his varsity's ability to win the dual race. "We are ready." They have been preparing for the spring season and taking advantage of the mild weather.
