Divestment Vote May Pose Conflict for Trustees

By ROBERT DAVIS
Many University trustees will be violating a conflict of interest policy when they vote on divestment at next week's meeting, eliminating the possibility that the University would hold stock in any corporation.

This year's Ivy Day speaker. "The fact that many trustees would have to divest from their investments clearly shows a conflict of interest for these individuals," Rodriguez said yesterday that his group met yesterday to discuss the issue at all," coalition member Mark Rubenstein said.

"If every trustee with ties to companies with links to South Africa, many University trustees will be violating a conflict of interest policy when they vote on divestment at next week's meeting, eliminating the possibility that the University would hold stock in any corporation.

"It's sort of a conflict of interest issue is up to each trustee to decide. "If I'm personally opposed to using the University endowment for any purpose, I will tell my trustees to do the same," University Trustee Chairman Paul Miller, who is also chairman of the University's Advisory Committee on Student Services, said last night that he feels there exists a potential conflict of interest for any trustee connected with companies with links to South Africa. "I think that's a potential conflict of interest," he said. "I don't even think about my own conflict of interest," said. "I'm not making a decision on the basis of my investment. We don't even own Rubin and Hahn stock. I don't think. The trustees' votes are based on what's good for the University," he said. "If we have a conflict of interest with the companies we invest in, we won't vote." "I am personally opposed to using the University endowment for any purpose or my position on the boards of or have influence to approve or disapprove a transaction proposed to be carried on in the University or to the University that, in that capacity, he or she has a potential conflict of interest and may not participate in the approval or disapproval of the transaction unless the underlying facts giving rise to a potential conflict of interest have been disclosed to the University or the conflict of interest has been adjudicated in an appropriate forum," the policy reads.

"In my opinion, it would be a case of a duty to be a duty of another person. "We are all trustees," he said last night. "If I'm not convinced of that person, he or she has a potential conflict of interest and may not participate in the approval or disapproval of the transaction unless the underlying facts giving rise to a potential conflict of interest have been disclosed to the University or the conflict of interest has been adjudicated in an appropriate forum," the policy reads.

"In my opinion, it would be a case of a duty to be a duty of another person. "We are all trustees," he said last night. "If I'm not convinced of that person, he or she has a potential conflict of interest and may not participate in the approval or disapproval of the transaction unless the underlying facts giving rise to a potential conflict of interest have been disclosed to the University or the conflict of interest has been adjudicated in an appropriate forum," the policy reads.

Organ Air Live in Philadelphia

By NANCY MILLER

Anyone who visited the organ music concerts of the 1950s and 1960s will be able to hear the unique sounds of the Curtis organ again. It is one of the largest in the world and played at the University of Pennsylvania.

The Curtis organ was named in honor of the organist, who is the director of the Curtis Institute of Music. It is the second largest organ in the United States and was built by the American Guild of Organists. It is estimated that such a historical instrument is still like a bigger turnout at these concerts than ever before.

The organ was dedicated in 1929 and has approximately $1 million in its upkeep. Its finance their ongoing restoration of the organ. The university's Thomas G. Kipnis, president of the Curtis Institute, said yesterday: "The organ is the second largest organ in the United States and was built by the American Guild of Organists. It is estimated that such a historical instrument is still like a bigger turnout at these concerts than ever before."

Anyone who enjoyed the organ will be able to hear it again in a series of concerts this month. The Curtis organ's enormous pipes lining the balcony will be heard at events such as commencement and graduation. "It is the second largest organ in the United States and was built by the American Guild of Organists. It is estimated that such a historical instrument is still like a bigger turnout at these concerts than ever before."

"It is the second largest organ in the United States and was built by the American Guild of Organists. It is estimated that such a historical instrument is still like a bigger turnout at these concerts than ever before."
**ON HEALTH**

**What is the cost?**

The coverage includes Blue Cross for hospital services, Blue Shield for physician services and major surgical which complements the basic Blue Cross Blue Shield coverage. A brief description is contained in the Insurance Program Booklet that is part of the “Welcome to Student Health Information Kit.”

**What if I am graduating in May? Am I still covered by the plan?**

Yes, you are covered as an independent on another insurance plan, either through your spouse, employer, or yourself. You will be covered through May 31, 1982, or until the date you start another plan. If you are not covered by another plan, you might want to consider Medicaid. However, it is advisable to consult the Service Manager, at 662-2684, on this matter.

**When will the identification cards be issued?**

The identification cards will be mailed to students who are enrolled in the Student Health Plan. Students who are not enrolled in the plan will not receive identification cards. The cards will be mailed to the address on file with the Insurance Administrator by mid-March 1982.

**What if I am not enrolled now, but should have been?**

If you are not enrolled now, you should seriously consider the student group plan available through the Student Health Service. Below are some commonly asked questions along with the answers.

---

**BY KAYE MORMO**

Many students are not aware of the increasing cost of group insurance and the importance of having adequate insurance coverage if they are involved in an accident or incur any medical expenses. This situation is so serious that the Student Health Plan has been revised to provide new benefits and coverages.

---

**LETTERS TO THE EDITOR**

**California Inns**

California innkeepers defendants the inn's handling of the matter. They claim that the inn is making false claims, defrauding, and preying on their customers.

**Missing Filmstrips**

It is true that you may be able to locate a filmstrip company through your library or through the Information Service Office. It is also true that filmstrips are available through your university or community college.

**NEW YEAR'S EVE REFLECTIONS**

**By Michael Kranz**

"Bad weather" is a good time for serious thought. I decided to work at my room because the weather is cold and the word is cold, a perfect time. Yes, convert me if you can, but I think this is a serious consideration. I decided to seek the New York Daily News with heavy boxes on my head. On New Year's Eve, I was high on the EMU board, one of the best events of the year. I think it is a problem that no one is really considering the weather in particular, and the planet in general, as a problem of life.

**Quotation of the Day**

"I trust that you may be able to locate the films of the University of Pennsylvania Basketball Game and do not necessarily reflects the views of the University of Pennsylvania Athletic Department.**

**The Facts About Health Insurance for Students**

By Kaye Mormo

Many students are not aware of the increasing cost of group insurance and the importance of having adequate insurance coverage if they are involved in an accident or incur any medical expenses. This situation is so serious that the Student Health Plan has been revised to provide new benefits and coverages.

---

**Letters to the Editor**

We were pleased to see the Mr. Wallace made some comments that could have been construed as indicating a desire to bring out facts and seeking truth in complicated situations. He will be an exceptional commencement speaker, one who can both entertain a large audience and do nol necessarily reflect the views of the University community in the Student Body.

U. Police Capture Rape Suspect

By MICHAEL E. GERTZMAN

Police have charged an escapee from a correctional institution with attempted rape of a University student Thursday night on Locust Walk.

Police say the man was tracking a female student through the library. When the woman screamed, the man grabbed her from behind.

Ruth Wells, a 21-year-old art major, was in the library with a friend. She said she was reading and heard the scream.

"I heard the scream and, according to the police report, "saw a man on top of a female,"' Wells said. "I then called University Police by emergency phone.

University Police Officer David Bell, who was in the area, arrived at the library. He, with another officer, responded to the call. The suspect thing, Wells said.

Hutch, wearing civilian clothing, identified himself and ordered the suspect to stop. The suspect reached into his jacket pocket and pulled out a handgun. "Surprise, Hutch," was what he was doing. The suspect ordered him to drop his gun.

"He said, 'Sect us, we still visible tonight,"" Wells said. "He ordered us to stop. The suspect reached into his pocket and pulled out a gun. "Surprise, Hutch," was what he was doing. The suspect ordered him to drop his gun.

Wells calmly walked over to the police officer and asked him what to do. The officer told her to stay back. She then called University Police again.

When the woman screamed, Smith allegedly grabbed her from behind. She then allegedly began to struggle free, police said, and dropped her inner

Kappa Sigma Clears Out

U. Acquires Chestnut Hall

ANNOUNCEMENT

The University has hired Hertleld Hirsch, acting vice president of Off-Campus Living, as direct- 

or of Student Life.

The fraternity group was given first 

in time to campus housing after rooms 

were over, but continued to occupy 

the house until the negotiations 

were completed.

U. Acquires Chestnut Hall

The sisters and pledges of the four Panhellenic 

sororities invite all interested undergraduate 

women to rush this spring. A general information 

session will be followed by a series of open 

houses. Find out about sororities at Penn!

Houston Hall Auditorium
Sunday, January 17
3 - 5 p.m.

This meeting is mandatory for all interested women.

For further information call 387-5291

GRADERS AND TUTORS NEEDED

The Department of Mathematics needs graders and 
tutors. The grading positions are mostly for upper level courses. The tutoring positions are in 
core courses and in lower level courses. The following qualifications are necessary:

1. Upper level mathematics courses
2. Knowledge of at least one other language
3. Ability to work with students

Applications are due by January 18.

YOU BET THE UNIVERSITY CARES!

Thank you, members of the University of Pennsylvania family! You have just given us all something to be proud of by making the largest contribution ever to the United Way (and other agencies through the Donor Option Program).

The University of Pennsylvania ended its campaign with a record-breaking $96,471 to help people in need. You have just given us all something to be proud of by making the largest contribution ever to the United Way (and other agencies through the Donor Option Program).

You have just given us all something to be proud of by making the largest contribution ever to the United Way (and other agencies through the Donor Option Program). Thank you, members of the University of Pennsylvania family! You have just given us all something to be proud of by making the largest contribution ever to the United Way (and other agencies through the Donor Option Program).

Congratulations!
Dear Leigh,
Happy late 19th
Love,
Steve

Master's Degree & Certification in Family Therapy

University of Pennsylvania
Graduate School of Education
Division of Psychology in Education

The Philadelphia Child Guidance Clinic

This joint certification and degree program prepares students for professional positions in schools, mental health agencies, hospitals and industry. Two years of intensive course work and clinical experience lead to a MS in Psychological Services (1st year) and Certification in Family Therapy (2nd year). The program provides students with solid understanding of human learning, growth and development; knowledge of the family, the school and community as social systems; and an appreciation for the use of research in clinical practice. Field experiences include training in Family Therapy at the Philadelphia Child Guidance Clinic and supervised placement in community institutions.

Those who wish to explore this new career opportunity may wish to consider the following courses for Spring, 1982:

- ED-686 Counseling and Clinical Experience lead to a MS in Psychological Services.
- LS-626 Certification in Family Therapy.

To Captain, It's Nothing Little Streak

It had begun each month before, as a tiny thing that technically wasn't, because no one other than the man himself was aware of it. But there had been only one such streak this season for Villanova, which has had to deal with a losing streak that has stalked around the world, reaching almost as far as the Philippines when a coach named Mike Rice first decided to put them together.

The streak, the Hawks have said, is something that has been a problem for them throughout the year. But the Hawks have never had it as bad as last season, when they struggled to find the right combination of players to make it work.

And the Hawks have never had it as bad as last season, when they struggled to find the right combination of players to make it work.

But the Hawks have never had it as bad as last season, when they struggled to find the right combination of players to make it work.
