### University To Buy Building
**For New Intercultural Center**

**By DANIEL HARMONT**

The University is preparing to purchase a three-story building which would serve as an intercultural center and head- quarters of the United Minority Council. The Philadelphia Redevelopment Authority (PRA) has approved the transfer of the building on 37th Street to the University. PRA Commissioner Rodney Rodriguez and Friday at a meeting of the International Center Committee. Another bidder was competing with the University, but the University had submitted a better offer. The building would be used for the University's minority affairs initiatives, including establishing planning groups to encourage intellectual and social interaction among the large University community and among the groups themselves.

### A Year in Review

**President Faces the Issues**

**By SCOTT BELLER**

In the past two years, President Sheldon Hackney has faced a number of significant challenges. The University has undergone a number of changes, and the president has had to make decisions which have affected the entire University community.

**Hackney: The First Year**

Hackney has discovered that he must attend to separate and often differing interests in a university with 12 schools, many associated institutions, and an inherent dog-eat-dog milieu. Building the University's past has been a particularly difficult task.

Budy, Senior Class Secretary Rachel Felsen said, "Although anyone may attend the event, only members of the senior class are eligible to win."
College House Experience

Close Community Living Or Guaranteed Single?

By SINA LIE

In the 10 years since the University's college house system accepted its first resident, the housing system has grown to include nine programs and more applicants than ever before.

While students seem to be lining up to get into the college houses, questions are asked as to their true value.

"It's not longer a question of whether to go in or not, but how much," Professor of English Randy Helm said. "More and more students are showing that they are interested in living in college houses, and it can be very intimidating," College House Coordinator Randy Helm said. "College houses try to take the resources of a great, but impersonal, University and reduce it to a human level."

"I think the college house system has long passed the educational one is a very ambitious project," said Professor of English Randy Helm said. "College houses create a close community environment for students. We're trying to help them become a part of the educational experience, which is something we feel is lacking in the university experience."

While Students seem to be lining up to get into the college houses, many are somewhat disappointed.

"I was a little surprised," said the lack of a single theme was a strength in their houses, "I thought it was a good idea, as long as they weren't going to make a profit."

"I think there's a lot of room for improvement," said Professor of English Randy Helm said. "There's no real driving force in Ware," he continued. "They don't press you to do anything, aside from signing a contract to say you will. It used to be you went back in the building and they were there, but now they're there, and they're not friendly," he said. "I just don't find that very appealing."

"I just don't find it that appealing," said Professor of English Randy Helm said. "I think it's a lot more appealing than being in a dormitory, but it's not as appealing as being in a house."

"We're trying to make the college house experience a significantly more meaningful experience," said Professor of English Randy Helm said. "We're trying to create a cross-section of the student body, which is something that college houses have never done before."

"We're trying to make the college house experience a significantly more meaningful experience," said Professor of English Randy Helm said. "We're trying to create a cross-section of the student body, which is something that college houses have never done before."

The First Year

On our front page today is the first in a five-part series analyzing Shideler Hackett's first year at the University. During the past year, the university and the student body have undergone a number of changes, both internally and externally. This series will examine the impact of these changes on the University and the students who comprise it.

The series will explore the following topics:
1. The impact of the Affordable Care Act on the University's health care system.
2. The role of the University's new president in shaping the institution's future.
3. The effects of the recent budget cuts on student life and academic programs.
4. The University's response to the recent surge in enrollment.
5. The University's efforts to improve its campus security and address concerns about student safety.

The series will be published Monday through Friday, beginning tomorrow.

The More Things Change...

For the first time in nearly a decade, the University has introduced a new grading system. The changes have been widely debated and are expected to have a significant impact on the academic landscape.

The new system, which replaces the traditional letter grades with a numerical system, has generated mixed reactions among faculty and students. While some have praised the change as a modernization of the grading system, others have expressed concerns about its fairness and effectiveness.

The significance of this law cannot be understated. It is the most important piece of Civil Rights legislation to be passed by Congress, and it has had a profound impact on the lives of black Americans.

Unfortunately, this person, in her capacity as a member of the Board of Managers of 'The Pennsylvania,' has sole authority over and full responsibility for the editorial content of the University Manager and 'The Pennsylvania.'

The writer is the Vice-Chairman of the Law School Association.

If continued from page 8.

There are other cases that might help explain the phenomenon, which is why it is important to keep monitoring it. In Florida, as in other locations, the Quakers continue to push forward and learn from their experiences in the competitive landscape.

Racquetmen Squashed By 'Motivated' Eli Team, 8-1

By STEVE GAGLER

Practicing one's game in perfection does not always ensure one's victory. The Pennsylvania Racquetmen were unfortunately witness the truth of this as they were invaded by the Eli Racquetmen on Tuesday (February 7) at 7:30 p.m.

"It's a case of practicing for hours, putting in hours on the court, but not actually getting your strength in the match," predicted Steve Traynor, coach.

Although the racquetmen had practiced for hours every day, they had no idea how intense and tough the Yale men were. "It's what Yankeeness is all about," Traynor added.

The Eli Racquetmen were led by John Biddle, who won the number one singles spot and three other matches.

"Some years," Biddle said, "there's nothing out of the court." Traynor added. "They were looking at the Oxford matches and they had to pick up both their `sats' and the team." After all, Yale had a dual's point to their name.

It was, however, George Graham, in the last match of the day, that managed to light up their教研室, Eli's signature at four points (11, 13, 13, 7, 9). He was able to salvage both a win for himself and a minor consolation for the Quakers.

At 4:30, the match started at a fast pace as the Yale and Carroll faced off in the first set. Both teams managed to pull together as a team and to redeem themselves by winning Williams four sets.

Princeton junior Rich Straight (48) has the upper hand in the matter as teammate Gordon Fletcher (45) and Craig Robinson (44) and the Quaker's George Carter (40) fight for the lead.

Larderh

(Continued from page 8)

"You go down on yourself," said Lardner of this match, "the one doesn't mean you have to quit. You have no right to fail.

Slump or no slump, Lardner did not give up the game where he failed. "Sparring is my strong point," admitted Lardner, who thought he had played a better overall game against Princeton. "It's what I'm out there to do," he said.

Lardner's teammates appreciated that. Take, for example, Michael Bower, who had a short jump from the language teacher of the house, "I said, it's going to be one of these games, "he explained with a slight smile after the game. "I just thought it was more." He just found that Sparring was the more effective.

Since Lardner was brightening his own, Brown and the rest of the team continued to watch every move to get Lardner's help. Brown had always been known for that. "You never knew that Sparring was the more effective.

Thincilads Top Spot In Tri-Meet With Ivy Foes

By DAVID MILK

While Harvard, Pennsylvania, and Pennsylvania State always seem to dominate the Ivy League wrestling scene, Penn's grapplers had to avoid being pinned in the top-two spots. Although we didn't turn it over, they were forced into taking bad shots on several occasions. Those disappointed 45, all members of the 1977-78 basketball team, could hardly be blamed. The Quakers trailed 24-0 before the bigger teams. "We got balanced scoring from senior captain Sharon Gross staled."

PCU's grapplers ran into the New York University, and if this weekend's matches had been dominated by Cornell and Columbia, there would have been a few question marks. "We had reason to celebrate the IC4As," Mondschein noted. "In the past when we went up there, they used to be all 'gaps.' Now they just had a few good ropes."

The Quakers got off to a good start, leading by six points early in the first half. But the Ivy league's second team was able to tie the score. Some questionable fouls on the Quakers in the first half kept them from getting a lead.

"There is definitely a momentum "..."I'm sure the momentum "..."It's probably in the top 10 or 15 in the nation," Mondschein noted. "In the next few weeks we have to make these kinds of strides in the next few weeks."

Jesse Baton, I uinel Drummond of the Quakers on to victory at the Palestra. Although the Quakers had a 12-11 advantage at the half, Leopold won the third 7-1 and the fourth 6-2. The Quakers trailed 24-0 before the bigger teams. After building a 30-12 halftime lead. "We won four of the six matches. "We won four of the six matches. "They're both gonna be even..."They're both gonna be even..."They're both gonna be even..."

The Quakers had reason to celebrate the IC4As. "I don't see anything wrong with the Quakers," Mondschein noted. "In the past when we went up there, they used to be all 'gaps.' Now they just had a few good ropes."

W. Gymnastics Set School Mark in Tri-Meet Victory

By Jeff Bromnade

Before Princeton ever got to the Palestra Saturday, some Penn fans were already in their seats. The women's gymnastics team had won in its two meets of the season, and was ready to take on the challenge of an undefeated Ivy rival.

The meet began with a routine that featured the red and blue and a balanced act of skill and artistry. The team scored 135.8 points, while Univen College and Columbia State managed only 121 and 98 points, respectively. Navy had allowed Penn to be around 20 points behind in the first half of the season, but the Quakers were ready to prove they could shoot at a higher level than their opponents.

Sophomore Karen Barlow led the way with a perfect 10 on the bars. She was followed by junior Karen Barto on the floor and junior Karen Barto on the uneven bars. Junior Karen Barto rounded out the team's performance by scoring a 9.5 on the vault.

Penn's strength was in its balance, and the team scored a school record 135.6 final tally. "The team has been working hard all season," said coach Dave Weinhauer. "Now we're finally getting a chance to shine.

Penn's George Lynn continues to be a dominant force on the floor. He led the Quakers to their first Ivy League victory of the season.

Cagers, David Slay Tigers, 43-40

At the beginning of the second half, things were looking good for the Pennsylvania Quakers. Princeton had netted four straight points and was leading 36-32. But in the last three minutes, the Quakers were able to outscore the Tigers, 18-12, and win the game.

Penn's strategy was to keep the ball out of Princeton's hands and force turnovers. The team's defense was successful, as they were able to keep the Tigers shooting a total of 9 points from the field, adding 10 this the the Quakers' 78 percent shooting percentage. The result was a 10-point lead for the Quakers.

Defensive, Second Half

Rally Key Penn Win

By Bob Spano

It was a close game, and who won? Penn and Princeton got together for a game of Tag Saturday night. Princeton led 36-32 at the end of the first half, and nearly 4000 feet without scoring a single point.

Behind the successful outside shooting of the Tigers, the Quakers led 18-15 at the end of the first half. The Tigers' strong defense led to a 58-54 lead in the second half, but the Quakers' defense helped them win in Pennsylvania basketball history.

It seems like it just happened to happen. Things were not going well for the Tigers, and their defense let them down. They were unable to score and were forced to foul, giving the Quakers the opportunity to take the lead.

And don't forget Weinhauer. He always shines when the Quakers are in trouble. Weighing in at 6'4' and 90 pounds, the Quakers' shooting star is a force to be reckoned with.

Penn's George Lynn continues to be a dominant force on the floor. He led the Quakers to their first Ivy League victory of the season.

(Continued on page 6)

At Courtside

Pete Flderman

When Penn got tied at 9, it was a quick three point place for them," coach Bob Weinhauer observed. "I thought that was a momentum changer and it just kept building on the ball game, along with about three other shots that they had in that stretch before it - 58-58 or 59-59.

"They completely outscored us in the second half, the Quakers (9, 16-42), and that means a lot to our team. That 58-54 lead is a lot of points to take a one.

"It was just another one of those nights for us. We really shut them down in the second half." The Tigers' strong defense led to a 58-54 lead in the second half, but the Quakers' defense helped them win in Pennsylvania basketball history.

It seems like it just happened to happen. Things were not going well for the Tigers, and their defense let them down. They were unable to score and were forced to foul, giving the Quakers the opportunity to take the lead.

And don't forget Weinhauer. He always shines when the Quakers are in trouble. Weighing in at 6'4' and 90 pounds, the Quakers' shooting star is a force to be reckoned with.

Penn's George Lynn continues to be a dominant force on the floor. He led the Quakers to their first Ivy League victory of the season.

The Pennsylvania Quakers' season opened well for the Ivy League. Princeton had netted four straight points and was leading 36-32. But in the last three minutes, the Quakers were able to outscore the Tigers, 18-12, and win the game.

Penn's strategy was to keep the ball out of Princeton's hands and force turnovers. The team's defense was successful, as they were able to keep the Tigers shooting a total of 9 points from the field, adding 10 this the the Quakers' 78 percent shooting percentage. The result was a 10-point lead for the Quakers.

Fencers Roll Over Middies
For Fourth Straight Win

By John Bellmania

The Pennsylvania Navy fencing team rolled to its fourth consecutive victory without a defeat on Saturday at Annapolis, with a decision over the Naval Academy.

"We worked hard all week," said coach Mike Storm. "Tough matches ." "Navy meant a little more than
touch against him - as the squad re-

prevaling by a 6-3 count. The sabres

Rutgers, so we were up for it." Weeks

that threw us off a little," he explain-

same in foil, allowing just two

touches.
