U. Ousts Analysis Center Head; Mayer May Face Loss of Tenure

B. PETER CANELON

After more than a year of turmoil and controversy, the student newspapers at the University of Pennsylvania breathed a sigh of relief yesterday when the last work in a disarray at the Whitman School of Business that could prevent Mayer, the school's vice chancellor, from being named to a position as a tenured U.S. 14-22.

A source inconceivable by MAG

saw evidence that the investigation centered on charges of drug trafficking and sexual harassment by Mayer. The school last night refused to comment on a possible stemming of the inquiry. "It was prepared to testify in a possible University hearing or to a College hearing. Mayer has been held out as a potential candidate for a position at the Whitman faculty.

Pressed by an administrator yesterday, Mayer told the Daily Pennsylvanian that severe comments about his performance. "I'm going to be named at a level. I'm not just a number waiting to get into a job."

In an interview with the Daily Pennsylvanian, Mayer was evidently the subject of a preliminary hearing at the time of the hearing. "I'm not going to let the fact that I'm being named as a tenured member of the faculty. I'm not going to let the fact that I'm being named as a tenured member of the faculty."

The alleged sex scandal results in another University investigation, which could not have proved his connection with the second complaint. According to the Daily Pennsylvanian, the facts that are being investigated by the Philadelphia Medical Society regarding Mayer's sex scandal are expected to be released in the next two weeks.

City Police Arrest Quad Freshman for Rape

B. ROBIN DAVIS

Several newspapers, joined by the Wharton School of Business, have confirmed that the complaint against Mayer will be heard by a joint University of Pennsylvania hearing, which is expected this week, and that Mayer's sex scandal will be presented to the joint hearing.

The Wharton School has also confirmed that Mayer was named as a tenured member of the faculty last night. The school has not confirmed this, but it is believed that Mayer's sex scandal will be presented to the joint hearing.

Hirsch Assumes Vice Presidency
U. Grad Takes Permanent Post

**By Darryl Frisch**

Acting Vice President for Operations Service Arthur Hirsch has been named to the permanent post. The appointment was approved by a unanimous vote of members of the Faculty Executive Committee last week.

Hirsch, who has held the acting post since December 1980, said yesterday that he is "very delighted" to have been appointed.

"I'm extremely pleased to have received the support of the administration," Hirsch said.

In his position, Hirsch will be in charge of such diverse areas as physical plant maintenance, dining service, public safety, purchasing, human resources, and parking. He said he will supervise the planning and functioning of each department, as well as problems such as personnel grievances.

Hirsch said his most immediate priority will be a survey of each department's budget for the upcoming year, and the Capital Planning Process, through which he will work with Deans on planning major construction and renovation projects. Also in the works are several major conservation studies recently released, which he said would provide new energy conservation sources for the operational service department.

Hirsch is a native of the University. He received a degree in chemical engineering from the Wharton School in 1964. He is a member of the Quadtree for Life and was active in Kite and Key and Student Government.

"Hirsch has long had a great interest in the campus environment," said President Thomas Brillhart, President-Undergraduate Council and Vice President for H. Affairs.

"He has a great sensitivity for the campus environment and excellent experience because I had had the opportunity to work with him on a number of projects," Brillhart said.

"I'm delighted that he is going to be here for two years," Brillhart said.

"I think he's going to be an asset to the University," Brillhart said.

"I think he's going to be an asset to the University," Brillhart said.

Hirsch said he is optimistic about his new position and feels that his experience in the department will help him carry on his responsibilities.

"I think he's going to be an asset to the University," Brillhart said.

"I think he's going to be an asset to the University," Brillhart said.

"I think he's going to be an asset to the University," Brillhart said.

"I think he's going to be an asset to the University," Brillhart said.

"I think he's going to be an asset to the University," Brillhart said. He added: "I think he's going to be an asset to the University."
The El Salvador Question

The following is a joint statement issued by The States government and The United Nations in 1982.

1. Eliminate all U.S. military aid to the El Salvador regime and sever all official ties with the administration to keep troops and aid out of El Salvador.

2. Support current Congressional resolutions that would withdraw all aid to the Dett-Vargas-Banos-Macias joint resolution calling for an immediate and unconditional cease-fire and negotiated settlement in El Salvador, where the situation has been described as a civil war.

3. To the issue in this case is one of the many internal political struggles in El Salvador. It involves the rivalry between the left wing (or) and the right wing (militar) that has prevented the Salvadoran people from determining their own future. This struggle is based on the belief that a left-wing government can provide a better solution to the economic and social problems of El Salvador.

4. Schools, such as Harrisburg High School, have been closed and students have been intimidated. People are afraid to express their opinions and are being forced to accept the views of the ruling government. However, the people of El Salvador are determined to seek a peaceful solution to their problems. They believe that the United States can play a constructive role in this process.

Federal Judge Will Rule On Sansom St. Conflict

By: CYNTHIA L. BRIDY

A federal judge today will rule on a motion involving a 1981 consent decree among the Network Redevelopment Authority, the Philadelphia Redevelopment Authority, and the university. The motion filed to the consent, which capacitated 50 homeowners on the 900 block of Sansom Street, charges that the University did not comply with a consent decree that sanctioned the network authority to mediate and renovate Sansom Street houses in compliance with the 1981 urban renewal plan.

Advocates for the committee Mark Graffman said yesterday that the purpose of the hearing is to consider the university's commitment to the consent decree.

Graffman, committee chairman and part owner of the Restaurant, said last night "I expect the judge to make the decision today."

This Week in History

March 22, 1963: The Brooklyn Borough Barons' Owner, Carey Graffman, stated consent, will not perform as scheduled in Irvine. The following week, "wished to terminate the agreement to perform in Irvine," he said.

March 23, 1963: Visiting British novelist Isabel Amsterdam was given a lecture award by the Extension Library during the week, but the IP reported that "the reason for Mr. Amsterdam's cancellation was 'the induction of the writer into the armed forces.'"

March 26, 1963: The IP stated that the University "is committed to the motion, which is an outcome of which the University is committed."

Room Lottery Begins

New Housing Process

By NITA LEE

More than 300 students filled into the High Rise North lobby Wednesday to file their bids in the room lottery. This was the last chance for students, who have applied, to select rooms, before a random draw next week.

Applications, accepted until 4 p.m. today, will be preserved to conduct this work, Residential Housing Administra- tor (RHA) Maria Carter said. The room lottery will be held on Monday, March 21 and a random selection will be made to all applicants by March 21 for the April 3 Grand Arena selection.

The selection process started before spring break with the first round of applications. The results of the first round of applications, which select rooms, will be made known on Saturday, March 20.

"Room selection will be based on various criteria, such as distance from the library or academic facilities," Carter said. "Room selection will also be based on a student's academic performance, personal preferences, and a combination of these attributes."

"I think students [now] want to know what they are going to get," Carter said. "We have tried to improve the process." Carter added, "For next year, we are going to have different numbers of students in each room.

"We will be more efficient in moving people," Carter said. "In the future, we will have more student involvement." Carter said.

**TRUSTEE VOTES**

(Continued from page 1)

The members of the executive board have been there," she said last night. "I expected the process of an executive meeting to be a lot more straightforward, and I was surprised by the outcome of the meeting."

Graduate and Professional Student Assembly Chairman Sprite Ludwig said he expected the approval of the new regulations would be smoother and more straightforward. "But it still seems to me that the outcome of the meeting is important."
Seven Dorms Robbed During Spring Break

By ROBERT SPEER

Exhausted residents were met by a police force that spent 30 minutes clearing out a dorm room in the digi.
University Police Sergeant David Kramer said that a number of the dorm
11 residents were "very nervous and uneasy" about the possibility of a bombing.

Kramer said that the police were called to the dorm room after a witness
reported hearing a loud noise, which was later determined to be a loud noise.

The witness said that he had overheard a conversation in the dorm room
about a possible bombing. The police were called to the dorm room
after the witness called the police.

The police found that the dorm room was occupied by a number of students

Wharton School Club To Cite Texaco Chief
NEW YORK, March 14 - The Wharton School Club of New York will present its Annual Business Stars Award to Texaco executive, John McKinley. The award is given to a business executive who has also contributed to public service. "The award honors business leaders for the accomplishments in their fields, as well as contributions to various civic activities," Wharton Alumni Affairs Director Paul Rabinow said. McKinley, who serves as executive officer of Texaco, Inc., also managing director of the Metropolitan Opera in New York City and National chairman of its Young Presidents Organization, is "a perfect example of a business leader who has also contributed to the community," Rabinow said. "We believe that is the most important business school dinner of the year," he said. "It is a great way to honor a man who has given so much to his community."

**Field Fineading, Improved Pitching Mark Quakers’ Early Successes**

By Ken Rosenthal

CINCINNATI — It was six weeks ago that the Penn basketball team played hard, the) just didn’t play well. Six weeks ago that the Quakers stumbled late in a 76-65 loss to UC Santa Barbara, and 12 days ago that they lost 76-67 to Yale. But on Sunday, in a 66-61 victory over Florida, the Quakers found the right way to play basketball.

The men’s basketball team was the latest victim in the wild ride of coach Bob Welsh’s 14th season at the helm of the Quakers.

The Quakers are 6-8 and 3-6 in the Ivy League.

The Quakers, who entered the game ranked third in the nation last year, were a bit more equal," Coach Charlie Coker said, "but we were very close.

We were not converting out offensive medium-sized hole in the Miami half.

The men’s basketball team dropped two games in open the season, but rebounded with a 115-32 win over Minnesota. Penn State 5-4. Finally, impressive sic

The team played well on the trip," the coach said. "The defense was solid, with three complete games, two wins and one loss. Penn State was the classic defensive team, with Bill Ryan out to shoot well as the problem sou are.

The referee called steps on the junior
