Panel Approves Charges Against Professor Mayer

MENLO PARK - The university's faculty senate last night approved charges against Prof. Mayer.

The charges were approved by a vote of 13-8, with two abstentions.

The faculty senate will now turn its attention to the next phase of the process, which will likely involve a hearing in the coming months.

State Asks HUP Policy Changes

The Health Department has received a request from the university to change the wording of its general consent form, saying it is too vague and not specific enough.

The request is part of a larger push to improve patient consent forms across the state.

The university is asking for changes to the form to better protect patient rights and ensure that patients fully understand the procedures being performed.

The university is also asking for changes to the consent form to ensure that patients are adequately informed about their rights and options.

Rapping for Dollars

WXPN Begins Funding Drive

WXPN has announced a new fundraising drive to support its operations.

The station is facing a financial crisis and is relying on listener support to continue broadcasting.

The fundraising drive will run from now through the end of the year.

The station is asking for donations of all sizes to help keep its programming on the air.

One Beer Per Vote?

IFC To Offer Voter Incentives

The IFC is considering offering incentives to students who vote in the upcoming election.

The incentives could include small rewards, such as free beer, for students who participate in the voting process.

The IFC is hoping that these incentives will encourage more students to vote and increase voter turnout.

State Senate Passes HUP Policy Changes

The state Senate has approved changes to the University's general consent form.

The changes are designed to improve patient consent forms and ensure that patients are adequately informed about their rights and options.

The changes include:

- Clearer language regarding patient rights
- greater emphasis on patient consent
- clearer information about patient options
- greater emphasis on the importance of informed consent

The changes will be implemented in the upcoming fiscal year.

WXPN's Enjoying the Moment

WXPN, the university's public radio station, has announced a new fundraising drive to support its programming.

The station is facing a financial crisis and is relying on listener support to continue broadcasting.

The fundraising drive will run from now through the end of the year.

News In Brief

Violence Mars Elections in El Salvador

The United Nations, which monitors elections, could take no further action when violence erupted during elections in El Salvador, according to a report issued yesterday.

The U.N. observers said that violence had been a major problem during the campaign and that it had undermined the democratic process.

The U.N. mission, which was headed by a British diplomat, reported that there had been at least 24 fatalities in the elections, including a woman who was killed by a bomb.

The mission also said that there was evidence of vote buying and other forms of corruption.

The United Nations said that it would continue to monitor the situation in El Salvador and that it would report any further incidents to the international community.

The U.N. mission also called for a peaceful resolution to the conflict in El Salvador.

The results of the election are expected to be announced later this week.

Mayer Investigation Continues

The California State University Board of Trustees has agreed to have the state's attorney general investigate the allegations made against President Donald Mayer.

The board voted unanimously to authorize the investigation, which is expected to cost between $100,000 and $200,000.

The investigation will be conducted by the Office of the Attorney General, which is headed by James Hahn, a former member of the governor's cabinet.

Hahn said that the investigation would be conducted in a fair and impartial manner.

The investigation is expected to take several months to complete.

The investigation will look into allegations that Mayer had mishandled sexual harassment claims and that he had violated state law.

Mayer has denied the allegations and said that he would cooperate fully with the investigation.

The investigation is expected to be completed by the end of the year.

The University of California system is expected to provide the attorney general with a list of candidates for the post of president, who will be interviewed by the state's attorney general.

The attorney general is expected to make a recommendation to the board of trustees about the candidates.

The board of trustees is expected to make a final decision about the appointment of a new president by the end of the year.

The board of trustees is expected to meet in early April to discuss the investigation.

All Bottled Up
Some Student Alcoholics
Find Hope in Treatment

"I was a Mormon youth who learned more than just my homework each night. Most of the days at the University have been marked by a constant struggle with alcohol. In my youth I had considered myself more innocent than other alcoholics on campus. I am among the few who have found that my drinking problems at a young age and underweight continue to this day. I am not unique. I am the plight of thousands of university students and pre-

itlements.

Monday Feature

"My drinking started as a casual thing. As a child I was a bit of a goody-two-shoes and parents who I thought would have taken a disapproving view if they had found out I was drinking. I didn’t want them to think that I was a drunkard and that I didn’t have any parents. I took pleasure in being a good child and my parents wouldn’t find out about me. It was never a big thing. I just went out with friends and had a few drinks. I never got too out of hand."

The social alcohol is a type of alcoholism that is considered normal in society. People often drink to relax, celebrate, or socialize with friends. However, it can become a problem if the individual starts to rely on alcohol to cope with everyday stresses.

T.E. HEMINGWAY

"I have a偏好 towards finding hope in treatment. I believe that there are those who believe that they are not alcoholics, but they are. I am one of those people. I have been treated for alcoholism and other drugs for more than 10 years. I am not unique. I am the plight of thousands of university students and pre-

vention.

The student who is going through treatment for alcoholism and other drugs often finds that their sobriety is gained through the support of others. They may form new friendships and learn valuable life skills through the process of recovery.

Moreover, sobriety is not an easy road to travel. It requires a lot of work, dedication, and support from others. But with the right tools and mindset, sobriety is possible.

Student Leaders Protest Exclusion From Meeting

By TIMOTHY NEVINS

Student Leaders, who had been approved to organize a meeting to introduce the University to the incoming freshmen, have been denied access to sensitive information that they want to present to students.

A working group on advising, comprised of faculty, student representatives, and administrators, was scheduled to meet on Tuesday to discuss the creation of a new student government organization.

The university administration has not released any details about the meeting, although it has been confirmed that the working group will be discussing the creation of a new student government organization.

Riseon said that HUP defied state regulations to comply with a state order to shut down the University of Pennsylvania's Freshman Welcome Center, which provides incoming students with information about the University's programs and services.

HUP has been accused of violating state regulations by failing to provide incoming students with information about the University's programs and services. The University of Pennsylvania's Freshman Welcome Center, which provides incoming students with information about the University's programs and services, has been accused of violating state regulations by failing to provide incoming students with information about the University's programs and services.

Need-Blind Policy.

Continued from page 3)

Schilling said the extra money the
University has allocated to increase
about $30,000 to $45,000 for next
year.

"This is a very good sign," he said.
"We will increase our program even
more next year."

Campus did not change dramatically
this year, but added that "we are still
trying to improve things.

Kavol said that the University
planned to increase its Federal and
state funds in the same manner as
Washington. "We have in the past
put in money in the budget that we
think we will have in the future," he
said. "But we think we have put in
money that we will have in the future.

think we will have in the future," he
said. "But we think we have put in
money that we will have in the future.

"The difference in the funding levels
between Roper's plans and the Con-
trolling Budget would be fairly
minor," Schilling said. "For example,
students in the Controlling Budget
will receive an additional $750,000
next year," he said. "But we expect to
take this into account in the future.

One plan that had many students
and administrators worried was Presi-
dent Ronald Reagan's proposal to
drop graduate Fucking to a
Graduate Student Loan, which would
be a federal loan. The University
had been concerned about the
future of this loan.

"When these government sources of
funding go down, other sources may
go down as much as the actual one
to down," he said. "But we think we can
handle that.

students in the Controlling Budget
will receive an additional $750,000
next year," he said. "But we expect to
take this into account in the future.

One plan that had many students
and administrators worried was Presi-
dent Ronald Reagan's proposal to
drop graduate Fucking to a
Graduate Student Loan, which would
be a federal loan. The University
had been concerned about the
future of this loan.

"When these government sources of
funding go down, other sources may
go down as much as the actual one
to down," he said. "But we think we can
handle that.

The people who can get the most out of a communal experience are usually the ones who are the most invested in it," President Sheldon H. Hackney said recently. "Our conference will be beneficial to the participants. It is a creative endeavor, a focused event of the campus problem, a reason why they are there, a reason why they are coming, a reason why they are working, a reason why they are adding to this university community, and it has the potential to be very exciting for the students who are there.

"It is my pleasure to speak to you, because the University of Pennsylvania had a presidential address in Nashville in 1974, and the University of Pennsylvania had a presidential address in Nashville in 1974. And since the gathering had underway, they have improved their role in expanding the number of participating schools. Such events are an important part of the event.

Last year's conference at Ohio University was organized around a series of 15 workshops, in which each school presented a workshop on one of its programs. This year, there are almost 40 workshops will be presented.

The audience particularly enjoyed the performance of the students. They said they loved the performance "I enjoyed everything they did," he said. "They were very well directed and everything they did."

President Sheldon Hackney, who attended the concert with his wife Lucy, praised the performance "I enjoyed the performance," he said. "They were very well directed and everything they did."

"The students of the future are the most creative, the most innovative, and the most intelligent," he said. "They are the ones who will lead and discuss the future of the world."
Attention C.A.S. Students

Now’s your chance to influence your school’s policies. Interview for the

C.A.S. DEAN’S SEARCH COMMITTEE

Interviews are Tuesday night. Sign-up today and tomorrow in the UA office, 10-4 p.m. Applications are due Tuesday at 5:00 p.m.

Netmen Aim For Revenge Against Rival Swarthmore

(Continued from page 12)

Patty Coyle on the three throw line that started the ladies the lead for the last 5-4. It looked like the Knights would come out on top by two.

DeBarHam's goal came off a final long shot that started the Knights' stonimine and we were able to stick out.

This was a very big problem for our opponent. Coyle then turned to the students and talked about the next game.

"I feel we played very well as a team," Coyle said in comparison to the previous game. "We had a good rhythm on the court and the offense and defense were working well together.

"I'm happy with the way we played and we're looking forward to the next game," Coyle added.

Next game for the Garnet will be against Swarthmore on

W. Thindals 3rd in Big 5; Villanova Meet Champion

J MARK CLECKEY

The highly regarded Villanova distance runner proved too tough to handle as the Penn sprinter's team was flunked into third place Friday in the Big Five Meet at Franklin Field.

The Villanova 4x100 meter relay team of Randall, Thomas, McFarren and Brown recorded a time of 45.20 seconds to place third in the meet.

The Freshman, who had returned from the spring break in Spain, ran the third leg of the 4x400 meter relay to help the Wildcats place fifth with a time of 3:19.75.

The Villanova distance team dominated the field events.

"You have to respect the teacher and we really knew that we had to focus at all corners of the field," said Villanova head coach John Geohegan.

And there was no letting up with Villanova's overall efforts. The Villanova men's team finished second with 72 points, while the women placed third with 61 points.

As expected the Quakers performed well on the long distance races. Ron Nelms took first in the 5000 meter run, while Senior Mary Fairley won the 3000 meter steeplechase.

The Quakers also placed 1-2 in the 1500 meter and the half mile.

But the win went to Penn's female relay team of Ladd, Heintz, Whalen and Smith, who topped a time of 45.20 seconds.
