Fraternities Angry After Fund Withdrawal by IFC

By NINA LEE

Fraternity boys are angry that Interfraternity Council President Mark Goldman told them last week that IFC would no longer fund certain frat activities. At least two campuses that have been subsidized by IFC for the past four years are worried that the financial potential

Conference Will Examine Corporate Research Role

By MICHAEL SADUS

The University is preparing to hold a December conference to examine the growing relationship between corporations and universities.

"The relationship is being fostered by several factors," said Dean of Business and Administration, Professor John M. Binkley. "First, the University is trying to attract more students from industry. Second, the University is trying to attract more business from industry. Finally, the University is trying to attract more business from industry."

The conference will examine the role of corporate research and development in universities and the implications for the academic mission of the University. It will be the second major conference on this topic in the University in the past two weeks.

President Sheldon Hackney said that the conference will focus on the growing role of corporate research in universities and the implications for the academic mission of the University. It will be the second major conference on this topic in the University in the past two weeks.

Panelists included prominent figures from industry and academia, including Professor John M. Binkley, Dean of Business and Administration, and Professor John H. McLaughlin, Dean of the School of Engineering and Applied Science. They emphasized the importance of collaboration between universities and industry in advancing scientific knowledge and technology.

The conference will take place on December 15 and 16 and will feature lectures, panel discussions, and workshops. It is expected to attract hundreds of attendees from around the country.

The University is planning to hold a second conference on this topic in the spring of 2014.

Regan Says Economy Is Floundering
WASHINGTON — Treasury
Secretary Donald Regan said today that
the economy "is in the doldrums" even as the
administration was trying to shore it up in the
game.
"We're in a very sorry mess of its own making and the economy is in a
water," Regan said.
Regan, who is President Ronald
Reagan's economic adviser, spoke today as
the March production figures "indicate that the economy is in the
dales.
Both the President and his economic
advisers, including Regan, have said in
the last few days that the economy has hit the
down."
Spokesman David George said
Regan's statement was consistent with what White House been
saying - that the economy is in the
cough. "Big next movements, such
are included in final income-tax returns,
will be reflected in federal deficits and
taxes, should stimulate consumer
spending, retail sales, and ultimately
production." "Be the report which that it's
world economy is in trouble."

---

Corporate Research Conference
The Stanford conference organizers
and "These are the coming years."
Vice President for Health Affairs
Thomas Langley, who will coordinate
the conference, said that last a year and
six to two years will consider these problems
when preparing an agenda for the confer-
ence.
He said the conference's goal is to
develop a set of guidelines for both
expanding their role.
"When we look at the fate of two of
these, they will be more broadly
but the conference will be
management meetings made at
the conference and come up with a
revisions and recommen-
dations for universities and corporate
institutions."
"Instead of just talking in
the general run on our own,
we do not believe they would risk breaking the
chain."

Local Architecture

Building Pride in U. City's Neighborhoods

By LINDA STRATTON

A look at University City's diverse architecture—ranging from majestic gables and wood-shingled towers to communities of small, 18th-century homes—provides a glimpse of what life was like in this area before the turn of the century.

The rows of high-sided houses with wreaths adorning the doorblocks of simpler town homes can provide an understanding of the area's social history and the University neighborhoods which surround it.

The University City area is an "architecturally diverse community with important residential qualities and significant institutions," according to George Thomas, a doctoral candidate in architectural history who lectures at the University.

The history of the area is the key to an understanding of the neighborhood's architectural composition, according to William Rawn, an architectural historian who lectures at the University.

The reshaping of the area is the key to any understanding of the area's architectural composition, according to William Rawn, an architectural historian who lectures at the University.

The history of the area is the key to any understanding of the area's architectural composition, according to William Rawn, an architectural historian who lectures at the University.

Impact of Registration

Participation in our political system is the only sure method to make your voice heard. Voting in the upcoming election is crucial. The November election is especially important because it is the one election in which we are given the power to choose the policies and representatives that will govern our country for the next four years. It is crucial that we exercise this right and vote. Our voting decisions will shape the course of our nation and the world we live in.

The Importance of Registration

Registering to vote is the first step in participating in our political system. Registration allows you to have your voice heard in the upcoming election. By registering to vote, you can ensure that your vote will count.

The Process of Voting

To vote in the upcoming election, you must first register to vote. You can register to vote at any time before the election day. There are several ways to register to vote. You can register to vote in person at your local election office, by mail if you are registered to vote by mail, or online.

The Importance of Voting

Voting is the most powerful tool we have to influence the decisions that affect our lives. By voting, you have the power to elect the candidates who will represent your interests in the upcoming election. Your vote can make a difference in the outcome of the election.

In Conclusion

Voting is a fundamental right and a responsibility of citizenship. It is our duty to participate in the democratic process by voting. Please make sure to register to vote and vote in the upcoming election. Your vote can make a difference in the outcome of the election and shape the course of our nation.

Toward Continuing to Resolve the Problem of Sexual Intolerance

The problem of sexual intolerance is a complex issue that affects many aspects of our lives. It is important to continue to work towards resolving this issue.

The Problem of Sexual Intolerance

Sexual intolerance is a form of discrimination that stems from prejudice and fear of differences in gender and sexuality. It can manifest in various ways, including harassment, discrimination, and violence.

The Importance of Addressing Sexual Intolerance

Addressing sexual intolerance is crucial in creating a more inclusive and equitable society. It is important to work towards eliminating discrimination and promoting equality for all individuals, regardless of their gender or sexuality.

In Conclusion

Sexual intolerance is a complex issue that affects many aspects of our lives. It is important to continue working towards resolving this issue and creating a more inclusive and equitable society.

Letters to the Editor

Goldstein's article, "The Enigmatic Mark Atlas," is well worth the trouble and the five minutes it takes to comprehend the form.

This year, the importance of voting is not merely a function of the fact that it is a reaffirmation of the democratic process. It is also an act of conscience, an act of duty, an act of commitment to our country and to our community.

As a member of the University community, I urge all members to vote in the upcoming election. Voting is a fundamental right and a responsibility of citizenship. It is our duty to participate in the democratic process by voting.

In Conclusion

Voting is a fundamental right and a responsibility of citizenship. It is our duty to participate in the democratic process by voting. Please make sure to register to vote and vote in the upcoming election. Your vote can make a difference in the outcome of the election and shape the course of our nation.

IFC Withdraws Funding

The IFC, a group of students dedicated to the promotion of multicultural awareness and activities on campus, has decided to withdraw funding from the Quadramics, a student theater group. This decision was made after a series of meetings and discussions with the Quadramics, who had requested financial support for their upcoming production.

JOIN THE LITE BEER TUG-OF-WAR.

Last year we conducted our Lite Tug-of-War contest on college campuses across the nation in an effort to resolve the eternal argument about Lite Beer—"less filling" or "tastes great!" This question as you may recall was never fully answered in our memorable "Battle of the Big Guys" commercial. After carefully tabulating the results of last year's contests, we found that the majority of campuses actually felt strongly both ways. So sign up today to join the Lite Beer Tug-of-War, and let us know how your campus feels about Lite Beer from Miller.

PAC.KB memorable "Battle of the Big Lite Beer... "less filling" or college campuses across the nation in an effort to resolve Last year we conducted our Sat. Admission is the dollars at the door. For reservations call L.O. 7-6891, or L.O. 7-6892.

Getting Results! Students Aid Area Consumers B) MICHAEL NAIDES For many University students, dealing with the problems faced in everyday life is a process much like learning to walk. The Student Activities Board discovered they spend five hours each week trying to solve other people’s problems. Every year, the group receives more than 500 complaints from Delaware Valley consumers, who feel they have been treated unfairly by those businesses, and even the student organization itself. Last year’s results of last year’s contests, we found that the majority of campuses actually felt strongly both ways. So sign up today to join the Lite Beer Tug-of-War, and let us know how your campus feels about Lite Beer from Miller.

On Campus A Weekly Look at Student Activities “Our function is to investigate and mediate consumer complaints,” the club’s newly-elected Director Cindy Love said Tuesday. “We also disseminate information and refer people if we can’t help them.” PCB’s average day is handled by her board of five active members and a reputation for helping consumers. “It means a lot to me that PCB is a very active member and a reputation for helping people. And not just helping people, but helping them understand their rights and refer them to another service,” she said. “That way, we can help them solve their problems.”

PCB Director Cindy Love handling a complaint.
An optimistic season's end is heading up to a victory in the Orange County running. The sport comes to enter in New York City as the heavyweight challenge for the Childs Cup and the lightweight challenge for the Dodge Cup.

All Three Crews Take Act On The Road

BEFORE THE NEWS

The Quakers' victory in the C.D.C. race has been gathering steam. Witnessed by the fans, the boats have been moving swiftly down the river.

The Childs Cup race, matching Penn with their Princeton and Columbia, has set a new precedent for the course.

The Quakers, having won the Childs Cup for the past two years, have now set their sights on the Orange Cup. Their success in the past years has been significant.

The Childs Cup, usually won by Penn and Princeton, has now been taken over by the Quakers. Their victory in this race has been a big boost for the team.

The Quakers have maintained a long-standing tradition of excellence in rowing. Their success in the past years has been a source of inspiration to the future generations.

The Quakers' victory in the C.D.C. race has been a significant achievement. Their success in this race has been a testament to their hard work and dedication.

The Quakers are now looking forward to the Orange Cup race. Their victory in this race would be a significant achievement and a source of pride for the team.

as head coach. "I think the game
will be retired and that we'll have
another one. We've got to talk more
about the game and who we are.

"As the Main Line - namely, Haver-
ford, as he came away with the intraman
tennis championship earlier this week.

"We have to get our act together
and talk more," said Coach Betty
Tuppeny, coming off her first year
as head coach. "I think the game
will be retired and that we'll have
another one. We've got to talk more
about the game and who we are.
In Bob Reifkin's vivid account of Princeton's daunting match against Penn, the scene is set: "The women's tennis team defeated Penn at home by a score of 8-1, continuing a streak of dominance that has made the Red the team to beat in the Ivy League."

But the journey to victory was far from easy. "It was a tough day. It's hard to win when you're not on your toes," said coach Claire Lurry. "We played well, but it was a tough match." The Red's victory in the opening set was crucial, setting the stage for a dominant performance in the second set. "We played well in the second set," Lurry added. "We were able to maintain our momentum and put pressure on Penn's players." The scoring was tight, with the Red winning the opening set 6-4 and the second set 6-2. "We were able to capitalize on our opportunities," Lurry said. "We played well, and I'm proud of the team." The Red's victory against Penn was a testament to their hard work and dedication. "We've been working hard all season," said Benjamin Proctor. "We wanted to show that we're capable of winning on any given day." Laxwomen Topple Ursinus, 11-8
Romy Scores Three As 2nd Half Rush Keys Win

By AARONLEVINE

Even during the two tough losses this season, the Tigers have never been outscored by more than two goals. But Saturday’s win over Ursinus, 11-8, showed the Tigers never lose by much. "This was our biggest win of the season," said coach Irene Rice. "I think we played the best we’ve played all season."

"We were definitely the more aggressive team," added senior goalie Romy Messina. "We won more faceoff after faceoff and didn’t give them many opportunities to get the ball on the stick." Messina added, "This was definitely the game we needed to win. It was huge for us and I think it will build a lot of momentum for us going forward." Messina also had an assist on the day, her third of the season, setting up sophomore Courtney Steer for her third goal of the year. "It was great to see that through our defense," Messina said. "We really needed a win and I think this will give us a lot of confidence moving forward." Messina also had a solid outing in goal, allowing only eight goals on the day.

The Cornell women’s lacrosse team will play in the second round of the NCAA Championship this weekend, as they look to advance to the national semifinals.

The team, which is currently ranked fifth in the nation, will play against the 16th-ranked Penn State Nittany Lions on Saturday at 1 p.m. (ET) at Harvard Stadium in Cambridge, Massachusetts. The winner of this game will advance to the NCAA Quarterfinals on Monday at 1 p.m. (ET) at the same venue.

The Bears, who finished second in the Ivy League this season, are looking to claim their second NCAA Championship and first since 1991.

"We have a lot to play for here," said head coach Rob Tether. "We know we have a chance to win and we’re looking forward to the challenge." Tether added, "We have a lot of experience and we’re ready to step up and play our best hockey." The Bears, who are currently ranked 15th in the nation, are looking to advance to the NCAA Championship for the first time since 1982.

The game will be held at 1 p.m. (ET) on Saturday at Harvard Stadium. The winner will advance to the NCAA Quarterfinals on Monday at 1 p.m. (ET) at the same venue.
