Plaintiff Agrees To Settlement Of Racism Suit

By NINA LEWIS

The University has reached a one-count settlement stemming from Dr. Ralph Long, who said the University should be held accountable for the action of its employees. The two parties negotiated for several months, reaching an agreement just before the hearing scheduled for November 8. The University has agreed to pay the plaintiff's attorney $35,000 for legal fees and expenses, and $1,500 in other costs. The University has also agreed to pay the plaintiff the sum of $20,000, which will be used to purchase a one-count settlement. The matter has been settled and no further action will be taken in the case.

UA To Discuss Bill On New Draft Law

By JOHN McMILEN

The Undergraduate Assembly will debate a resolution calling on the University to resist entailing the United Nations in the current military mobilization. The resolution will also discuss a resolution calling on the Senate to support the Senate's efforts in the current military mobilization. The Undergraduate Assembly will also discuss a resolution calling on the Senate to support the Senate's efforts in the current military mobilization.

Hillel Plans Building Addition Begins Massive Fundraising Drive

By JOHN MORRILL

The Hillel Foundation is in the process of raising money to renovate and expand its facility on the University of Pennsylvania campus. The foundation plans to convert the old student union building into a new facility that will include classrooms, offices, and a lounge area.

Senatorial Candidates Debate

By BILL SCHEID

Democratic Senatorial candidate Cyril Wecht called incumbent Senator Don Heinz a "lame duck" and challenged him to debate at the SCB Underground on November 8. Wecht said he has never faced a real opponent.

Laserock Coordinators Beam Over Light Show

By DAVID COHEN
Crowns will be flying all directions on Monday night, but students won't be running for cover -- they'll be heading for Irvine.
John Daly, presented by the Penn Union Council, which combines the laser effects with contemporary rock music, will present a program of laser light shows.
Crowns were present in one form or another at the concert committee's Preview Showcase, where the program included selections from rock groups including Pink Floyd, Genesis, and Supertramp.
Laserock II, presented by the Penn Union Council, will feature at the show. The concert consists of songs being played with a unique blend of laser choreography being shown by professional laser technicians live on stage.
"The music will definitely appeal to Penn students," said Adams. "It's different; it's energetic; it's fun.
"The music is the laser; the laser is the music. It's a new way of doing things, and it will be very popular with the students."
So What?

It is ambitious and appropriate for a University to take time to set its priorities and plan for the future. It is indeed important, as the last minute of President Sheldon Hackney's third part-plan-
ding document states, to communicate "where we are going and why." The motives behind writing the document were sound. The consultative pro-
cess used has had to date been impeccable. But the context, the "where we are going and why," just isn't there.

Dr. Hackney's positioning in the planning document, built as "A Statement of Purpose," suggests that we need to go to a great University, and provide four axioms to "define our purpose and priorities and establish a framework for our discussions." The definition of action, as provided by the American Heritage Dictionary, is "self-evident or universally accepted truth." These four axioms are just that and thereby has the entire process of the planning document.

While reading the planning paper, one says "Yes, I agree with that, yes, that's right." But after finishing, one says "So what?" The definition of what already exists at the University is accurate, but a central failure for the University is not presented in tangible terms. It is brief in facts and figures, addresses issues from a purely philosophical point of view and has no practical advice to the educational and financial crises that face the future today and will likely face in the future.

A proper planning document should provide enough substance for the community to discuss without being so specific as to appear dictatorial. The draft does not do this. A realistic approach is to be a decid-
el arrogrize in order to take a stand on important goals such as finances, research funding and minority concerns. It appears that the administra-
tion was striking a balance among the different possible areas.

Hackney's document is a non-conversion-
stopper, but it is to the University community has to work with. It will be released the docu-
ment at the end of December and has been met with many opinions on the papers possible before then. It is the responsibility of everyone who is concerned for the University to pick up a copy of the document in this week's deacne and send it with your sugges-
tions to Hackney at HNC Hall College.

The January Congress Report did not look "where we are going and why." If it does, we are actually moving nowhere.

Hackney Paper Goes to Council

By MICHAEL NADLER
President of the University Assembly yesterday asked the University Council to undertake a "section by section" analysis of a proposal to amend the by-laws of the Council.

Nader asked that the proposal be considered in detail before the Council takes a position on it.

"I think the proposal is likely to draw heated opposition. It is my hope that the Council will be able to find a number of critical students' organizations that have been left out of the process."

Gala Opens New King's Court Program

By KIM CHIEN

Students, faculty and administrators gathered in the Duncan Hall ballroom yesterday afternoon to celebrate the opening of the new King's Court. The $1.5 million renovation project, which was sponsored by the University's Student Life Organization, was presented to the public at a ceremony attended by top University officials.

The event was attended by University President Tracy Stouffer, Vice President and Dean of Student Life Walter V. McVeigh, and Dean of Students Funk Kontos.

"We are very pleased to have faculty and students join us in kicking off this important project," said Stouffer.

Vice President Funk Kontos said that the opening of the new King's Court was a "great day for the University and for the Penn community."

The renovation included the addition of a new lounge, a new study area, and an expanded dining facility.

The new lounge features a large fireplace, a bar, and a seating area for informal gatherings. The study area includes computer workstations, study carrels, and comfortable seating. The dining facility has been expanded to accommodate more students at one time.

The King's Court is located on the second floor of the Walnut Hall building.

The ceremony was followed by a reception in the ballroom, where guests were able to tour the new facilities and speak with University administrators.

The renovation of King's Court was made possible through a gift from the Estate of John "Circle Me Rosemontsters" Kozakis, a long-time University benefactor.

"We are very grateful to John Kozakis for his generosity," said Stouffer. "His gift has made it possible for us to provide our students with a first-class facility that will serve them well for many years to come."

The new King's Court is expected to open for students in the fall of 2013.
