U. Chooses New Dental Dean

Swedish Dentist To Assume Post In September

By RODNEY PAUL

President Sheldon Hackney yesterday announced the nomination of Prof. Lars Lindhe of Stockholm University as new dean of the Dental School as of September 1.

"Prof. Lindhe's extensive background in clinical and research training, in addition to his administrative and research positions in Sweden, make him an outstanding candidate," he wrote.

"As we look towards the future, it is imperative that we make sure that we have a leadership position in dentistry. Prof. Lindhe is a leader in the field and will add to the strength of our dental community." said Cohen, noting that Lindhe was an alumnus of Gothenburg University's school of dentistry.

"We believe that Prof. Lindhe is the right person for the job, and that we have found him." said Cohen.

A native of Sweden, Prof. Lindhe is famed in the University of Gothenburg since 1977 and has taught at the school for more than 25 years. He is married and has one daughter.

"I believe that the University is a very special place, and I am excited to be a part of it," said Lindhe.

Prof. Lindhe's past position included professor and director of the school of dental medicine at the University of Gothenburg, where he began his career in 1977.

"I am looking forward to working with our faculty and students," he said.

Golf, Sailing Team To Win Varsity Status

By STEPHEN FATHIS

The golf and sailing teams have raised close to $10,000 each from alumni contributions.

"Golf has the potential to be a varsity sport in the very near future," said Golf Team Manager Jim Schoeppner.

"But a golf alumnus has offered to buy us the club house if we can raise $20,000.

"The golf and sailing teams have been able to participate in varsity sports because of the support of the alumni," said Schoeppner.

"If we don't get $20,000, we'll be a varsity sport," he said.

Electoral Analysis

Speakers Discuss Political Trends

By JACK KAUFMAN

Two political leaders and two political analysts discussed the midterms of the 1982 elections last night after a gathering of 75 students and faculty members in the lobby of 15th Street Public Policy Studies.

"The two men held fundamentally opposite political views. However, both were well-informed and had a good understanding of the political issues," said one of the political analysts.

The political consultant noted the record turnout of black voters in the state that is not usually visible to political observers.

"The midterms will be a real test of the political process," he said.

"I believe that the political process is working," said the political analyst.

"With the exception of the low turnout of black voters in the state, the political process is working." said the political analyst.

"Country Wife" is Pregnant With Rich Humor

Acting Company Brings Classic to Annenberg

C. ELLEN FLAX

The Country Wife is coming to town. But the Acting Company, which will present the show starting May 15, is not coming to our town. The company, which is based in New York, is doing the show as part of its national tour. The company's artistic director, William Wycherley, said the play was a reaction to the current political climate.

"The play is a reaction to the current political climate," he said. "We want to bring people together and show them that there is a path to understanding and working towards a better future."
Don't Take A Hike

It's time for students to H.I.T. back.

Last Tuesday, President Hacker, Provost Shelly, and other key members of the administration announced their plans to increase tuition. The increase, in turn, was to be used to renovate the university's old administration building.

The increase was viewed by many students as a blow to the university's budget. In fact, many students believe that the increase was a means of forcing them to pay for renovations to the old building. The administration has been working on renovations for several years, and many students believe that the increase is simply a way for the administration to cover its costs.

Student reaction to the increase was mixed. Some students felt that the increase was necessary to improve the university's facilities, while others were concerned about the overall impact of the increase on the university's budget. One student, for example, said, "I think the increase is a necessary evil. The university needs to improve its facilities, and the increase will help fund these improvements." Another student, however, said, "I don't think the increase is necessary. The university should be able to fund its own improvements without raising tuition." The student added, "I think the increase is a way for the administration to shift its costs to the students."
Technology and research, and if this week. "I don't know that we can "remain at the cutting edge of civil and urban engineering labs keep it up much longer unless we gel la 1 as we can be," Eisenberg said technolog) and research.

Dining Service Aims To Correct Problems

Dr. JOHN McLELLAN
Dining Service is working to correct a variety of problems that have come to attention.

The service is concentrating on a number of items:

1. Improving atmosphere: Dining Service is considering ways to make dining areas more pleasant.
2. Food quality: The service is evaluating food quality and presentation.
3. Service speed: Efforts are being made to reduce waiting times.
4. Environmental issues: Dining Service is working on reducing waste and improving sustainability.

The primary goal is to improve the overall dining experience for students.
The outcome of a campaign.

The campaign financing.

The lecturer, sponsored by the Department of Physics, will be held in the Fine Arts building at 4 p.m.

Fresman UA Reps To Meet Classmates

BL OVEN ED MONSON

The eight Freshman Undergraduate Assembly members will be holding a meeting tonight to introduce themselves and hear student concerns.

"We want the freshmen to know that they're representatives of the Freshman Student Body, and we want them to hear," UA member Margaret Qadstein said yesterday. "We want them to know that the UA is or what a student representative is. Many freshmen don't know what the government is, or what we're doing, or what the purpose of the UA is. The UA is the one who represents the Freshman Student Body, and as a forum for them to discuss any problems they may have, and let people know that they have a voice and are willing to listen." UA member Bebe Hirschtick added.

The meeting, which will be held in McClelland Hall in the Quadrangle at 8 p.m., will serve both as an introduction to new students and as a chance for them to ask questions and voice concerns.

"We're holding this meeting so people can come in, see what we're representing, and express any praise, complaint, or question they may have about the UA," he continued. "It's going to be inevitable that we may hold more meetings, so people can come in and talk about what their concerns are so when we get back to the U, we can see what is what the students want.

"We'd like to hear what the students think of what's going on in the UA, and what they would like to see happen," Sullivan added.

"Hopefully through this meeting we may hold more meetings," Sullivan said.

ATTENTION STUDENTS!!!
Friday, November 12th
will be the last day to file your application for Student Health Insurance. Please submit your application to the Hospital Business Office Ground Floor of the White Building. Before 4:00 P.M. that day.

Cardies Scores Two as Booters Top Owls

By BOB ROBIN
It was a Penn victory, by 7-0, as the Quakers controlled the whole game. And this time, in the 18th minute, the results seemed to be with the other.

The Statemen Defense Card's two goals, the Penn sports team at Green Bay, won the match in the 17th minute. They were in control of the game and the visitors. They were playing well, and they were not wasting their opportunities.

In the first half, the Quakers showed their control by scoring two goals in the first ten minutes. In the second half, they scored two more goals, taking the lead to 7-0. They were playing well, and they were not wasting their opportunities.

The weather report for Saturday's match was not favorable. The sun did not shine on the newly constructed field. It was a cloudy day, and the wind was blowing. The players were dressed in their warmest clothes, and the spectators were wrapped up in their coats.

The game was played in front of a crowd of about 2,000. The spectators were cheering loudly, and the players were playing with great enthusiasm. The game was a great success, and the players were happy with the result.

Cardie scored the first goal of the game in the second half, and he then went on to score two more goals. He was the top scorer of the game, and he was the star of the show.

The Quakers were able to control the game, and they were able to score goals consistently. The Owl defense was unable to stop the Quakers, and they were forced to play on the back foot throughout the game.

The Quakers were able to control the game, and they were able to score goals consistently. The Owl defense was unable to stop the Quakers, and they were forced to play on the back foot throughout the game. The game was a great success, and the players were happy with the result.

The temperature was around 70 degrees Fahrenheit, and the humidity was high. The players were dressed in their warmest clothes, and the spectators were wrapped up in their coats.
