U. Police charged with sex bias

By B. L. RICHARDSON

A federal judge yesterday ordered the University Police Office to a day's end coverage of one post in the area of the University's Printmaking Department to allow one woman on each shift.

A University Police Department official told the officer that the judge, who had reviewed the University Police Department's preliminary report on the matter, had found that the University Police Department was not fulfilling a policy requiring at least one woman on each shift.

The officer, who had been placed on night duty when the University Police Office was required to a day's end coverage, had been complaining about the level of discrimination on the basis of sex.

The University Police Department had moved to a night shift on March 31 but had not been fulfilling the policy when the judge gave the University Police Department a deadline of April 6 to come up with a proposed plan to fulfill the policy.

The judge noted that the University Police Department had failed to provide documentation to support the claim that the University Police Department had been fulfilling the policy.

The judge ordered the University Police Department to fulfill the policy by the end of April 6.

**Widebroy lights up U. graduate's future**

By LEE SCHAPIRO

When Marc Platt's first show opened, he probably celebrated with a few rounds of champagne, Shared by the actors and the director, this made it official: U. graduate Marc Platt is opening night parties -- toasting his part as associate singer.

He started by directing the show. His connection to the University is strong. He was one of the last students to direct a show for the School Theater. Now he has the opportunity to work on a Broadway production.

Foggy, Platt's latest production, was presented at the University in the spring. It was also performed at the National Theater in Washington, D.C.

**A typical love story**

**Singer set sail with 'Pinafore'**

By DAVID HOPEZ

The backdrop dressing rooms in the Zilker Theatre. It looks like Hollywood's eternal love.

And then there were coats, and plumed and ribbed hats. The performers' costumes were carefully planned.

---

**Reading 'Glyph'**

**Theory on Mayan decline unanced**

By JOHN McHILLEN

It would be strange if Dozen wereewart when the time is at its advantage at the University. The University's Greek drama troupe, Greek Lyric Theatre, is performing a play called "Glyph," which will be presented at the University Theatre.

It is a great opportunity for the actors.

A Settled Question

For one, consultation is at issue. The Faculty Senate fulfilled that obligation last year when it conducted the most extensive poll in its history. That meeting came after the group had discussed the issue at one of its regular gatherings and held a "special meeting," called to clarify the debate.

By bringing together the University faculty to change the current tuition benefits policy, in a move that would accord with the wishes of a despised person. As recently announced by the University, the 1974 opinion of the American Heart Association that the full benefit of the American Heart Association’s position is the same as the position of the American Heart Association.

To the Editor:

As a long-time member of the Sigma Xi, we would like to thank the University of Pennsylvania for allowing us to speak at the University of Pennsylvania. We have always been impressed with the University of Pennsylvania’s commitment to scientific research. We would like to thank the University of Pennsylvania for allowing us to speak at the University of Pennsylvania. We have always been impressed with the University of Pennsylvania’s commitment to scientific research.

To the Editor:

The Broom of the Father (1899), by the American writer Henry James, is a staple of undergraduate literature courses. The book is a classic of American literature and is the subject of a new study by the University of Pennsylvania.

We deeply appreciate the support of the American Heart Association, and local medical centers. In addition to providing grants, the American Heart Association also provides funding for research.

To the Editor:

To the Editor:

Thank you for your recent letter. We would like to remind our readers that it is important to consult with a lawyer when deciding whether or not to proceed with a legal action.

To the Editor:

The University of Pennsylvania, with its reputation for excellence in higher education, is a leader in the development of new ideas and technologies. It is a place where knowledge is created, shared, and advanced.

Arms control experts to debate

Event to focus on reducing threat of war

Two nuclear experts will be in campus tonight to debate the role of arms control in reducing the threat of another war.

The debate will feature former arms control and disarmament officials who were instrumental in the 1970s to form the US Information Agency's predecessor, the US Information Agency. The two experts are:

- William Perry, a former assistant secretary of state for arms control, and
- William O'Neill, a former arms control advocate.

The debate will be held at 7 p.m. in the University Center Ballroom. Admission is free.

Parking—

If you're coming from 54th St. or any of the other parking lots, you'll find the University Center Ballroom on the second floor of the UCH. It's the room with the big windows that overlook the campus.

The debate is open to all members of the campus community.
Students to join AAUS forum
Conference in Chicago begins tomorrow

By: DAVID TUCHMAN

When the University of Pennsylvania hosts the 9th Annual Convention of the American Association of University Students (AAUS), it will be the first time in the university's history that a historically black college has been the site of such an event. It is fitting that Philadelphia, the birthplace of the American Revolution, should be the place where AAUS convenes. The convention will be held on April 9th and will include workshops, panel discussions, and a keynote address by Dr. Robert L. Hough, president of Howard University.

The agenda for the conference includes topics such as "The Measurement of Success: Alternatives to Self-Sufficiency versus the Corporate Perspective," "Cultural Facilitators and Barriers to Student Success in Corporate and Community Environments," and "Gender, Race, and Class in Postsecondary Education: Implications for Policy and Practice." These sessions will provide students with valuable insights into the challenges they face in achieving their academic and professional goals.

In addition to the panels and workshops, the conference will feature a keynote address by Dr. Robert L. Hough, president of Howard University, who will speak on the theme of "The Future of Higher Education: Challenges and Opportunities." Dr. Hough is a widely respected scholar and advocate for higher education equity.

Activities at the convention will include networking opportunities with other students from historically black colleges and universities, as well as interactions with leaders in the corporate sector. The conference will also feature a reception for participants and their families, providing a chance to socialize and connect with others who share similar experiences.

For more information, please contact the AAUS Office at (215) 898-6182 or visit their website at www.aaus.org. The conference will be held at the Holiday Inn Philadelphia, located at 1200 Chestnut Street, Philadelphia, PA 19107. Registration is now open, and early bird rates are available until March 31st.

We're offering IBM Computers

At 18% LESS THAN LIST PRICE!*... ideal for home, office, or classroom.

Surprised?
A lot of people are. They're surprised you can walk into our store or call us and buy an IBM Personal Computer — at a saving of 18%!

They're also surprised by the advanced features that make using this system so simple. Function keys that save time and error on repetitive tasks... mixing text with color graphics... step-by-step instructions that actually make the learning process fun.

But the biggest surprise of all is the 18% saving on a system that with the addition of one simple device hooks up to your TV and uses your audio cassette recorder.

To see how IBM puts this computer experience into this small and affordable package — come see us.

Come see us too. If you have your eye on an Apple — and we'll also give you 18% off the list price.

VR Data Computer Center is an Authorized on-site technical servicing for Apple and IBM computers.

Ty, which I thought was highly
made by the union and the Universi-
ty," she said. "I was told that the inci-
dent on the University's failure to
be reassigned.

"Now that a judge has ruled that
two factors: career and personal, is
be less than three or four female officers," she said.

"A lot of times, just because so-
many women on the University, it gives
consideration that women aren't be-
ing treated properly," he said. "I
just don't think that's so."

"The University has a very strong,
demonstrated commitment to the
living of workers in equality," she said.

But Mallard said, "as long as the
University is permitted to manage
the shift, I think it will continue to
be treated fairly in the
women arc treated fairly in the
department.

"They should simply hire more
women," she said. "We had a large
applicant pool of qualified women to choose from."

But Glenn defended University
President's commitment to bring
women.

GSAC sets orientation for new grad students

By ELLEN M. MORGAN

The Graduate Students Association's Council is planning a special orientation session for incoming graduate students in September to help them adjust to the University. The GSAC also decided at its meeting yesterday to sponsor a forum to help graduate students find scholarship funds.

Student Life Assistant Director Mary Spata said at the meeting that her office, GSAC and the Graduate and Professional Student Assembly have plans to aid in finding graduate students.

Spata said the orientation program will include a panel of graduate students who will discuss each of the issues on the agenda. They plan to use this forum to establish a network among graduate students who may enter the University in the future.

The Graduate Students Association is planning to hold a forum on April 16 to help graduate students find scholarship funds. The forum, entitled "Planning for Your Future: Academic Funding," will be co-sponsored by GSAC and the Career Planning and Placement Services. Morgan said the program will help students find grants and scholarships.

"It's something that is directly relevant to graduate students that are pursuing traditional academic careers," she said.

Morgan added that GSAC will hold a meeting on April 18 to discuss graduate student health insurance options for next year. Student Health Services Director Sam Fager will answer students' questions at the meeting.

By PHIL GERMAN

A match that should have been close if it was, the women's tennis team, which at one time led by seven points in the Atlantic Coast Conference match, decided in favor of the University City Art League.

The match of the women's varsity sport against the Harvard Crimson ended about 11 a.m. Afternoon and evening courses are available in the arts department.

"I didn't know what to expect," said Shulman "but we really start to pull together that's been sort of a trend for us. It raises our spirits and helps us get ready for the competition.

So far, we're no longer tentative on offense. We're getting more poise and confidence, which helps us win the game," Shulman said.

The women, who led off the Quaker of with a victory in the first match, had the team responding well to the pressure, said Shulman.

"The pressure is really on the my team," he said. "The pressure is really on you when you have to perform for the home matches this weekend against Brown and Harvard.

"We've had a few matches, and we won in Few Florida States. But today's match was the biggest for us," she said. "We might be able to pull together this weekend and these matches with guided optimism.

"We have a tough 컴퓨터 stuff in," she said, "but now, we're dealing with the pressure."

After playing in that game, I'll have a little more poise," said Shulman. "I felt a little better up front. It turned out to be a great game overall.

The Quakers have rebounded well from a convincing loss to Harvard in the second game of the season, and have scored only three times in the first four games. The Penn attack was beginning very well, and the pressure was really on the Harvard defense.

"We're a little familiar with Drexel's field, which has been sort of a trend for us. It helps us get ready for the competition," Shulman said. "We might be able to pull together this weekend and these matches with guided optimism.

"We have a tough computer stuff in," she said, "but now, we're dealing with the pressure."

quakers out to hunt dragons

burleson, syrek switch positions

burleson has been playing shortstop for the past two years. he is a natural shortstop, but since he started playing baseball for the penn quakers, burleson has been a third baseman. burleson is a natural shortstop, but he also has experience playing third base. he is a versatile player who can play both positions.

when the quakers (10-6, 1-3 in ivy league) take on the drexel dragons (3-0) at drexel, burleson will likely be at shortstop and syrek will step into the third base position. syrek has shown improvement at shortstop over the past few games and will likely get the start at third base.

burleson and syrek have a strong relationship on the diamond, and their switch will allow the quakers to match up defensively.
