Alarms arms during Quaid dorm fire

BI WILL MARTYN

A Quaid dormitory fire that broke out in a Magee room Friday night will not affect any undergraduate students and residential advisors to warn residents to stay away from the area.

Second Floor residents said the fire was first noticed at 9:30 a.m. when a toaster oven was put in the microwave.

The fire consumed the contents of the closet, spreading smoke through the wall and filling the hallway with smoke.火灾 details were not reported.

The residents said they were uncertain whether the toaster was left on in the oven, whether they were in the room at the time, or whether the dorm’s resident advisor was present.

The fire was discovered by Lower Quadrangle’s Resident Advisor, Brian Mahler, who saw smoke pouring from the dorm.

Cary Brave, who lives on the second floor of the dorm, confirmed everyone was evacuated from the area.

"They had police running in and out and RAV were running around helping almost everyone get out," Brave said.

Brave also heard that the fire was not under control and many turned off for repairs.

Geology Dept. battles to stay in Hayden Hall

Engineering growth forces realignment

The arrangement of space in Hayden Hall is part of a contingent agreement between Provost Thomas Effelich and Engineering School Dean Joseph Bredgala to hold open a space for the Engineering School.

The agreement called for the University to continue the Benefactor's and Design of Engineering Hall as the new space for more Engineering School classrooms and laboratories.

Effelich said that the decision to grant the Engineering School access to Hayden Hall was made because the site is in a better location - with more space available

The provost added that he is unsure of where the geology department will relocate, and that the faculty must be able to find the right space for the department.

"If a student had an attorney who had represented the University, they would be willing to brood about members of the judicial system," he said.

"There is no question about the majority as a de-emphasis of students' representation and self-governance," he said.

Bernstein also said that the agreement was made to create a "new" form of representation.

"I'm not sure how many students or students will be involved in this agreement," he said.

"We're trying, by example, to show the other departments how to do it," he said.

"In comparison to the other departments, it will be a breath of fresh air to see the University doing something on its own," he said.

"If the courts were to see that if geology were a larger Department of the University, it would have a greater chance of being included in the agreement," he said.

"We're trying, by example," he said.

"Our goal is to lead the way and show the other departments how to do it," he said.

"The courts were to see that if geology were a larger Department of the University, it would have a greater chance of being included in the agreement," he said.

"We're trying, by example," he said.

Pope begins 12-day visit to Canada

When Pope John Paul II arrived in Canada today, it was to begin a visit that a Vatican spokesman said would be his 'greatest mission' as pontiff. His schedule from his arrival to his departure later this week is packed with events highlighting the relationship between the Roman Catholic Church and the Canadian government.

Quebec - Pope John Paul II came to the steps of the Canadian Parliament today to receive a warm welcome from Prime Minister Jean Chretien and other officials.

"This is an excellent start to a very important papal visit," said Chretien. "I am confident that the Pope will find a friendly and attentive audience here in Canada, wherever he goes."

The Pope was greeted by Chretien and other officials before entering the Canadian Parliament. He was accompanied by a large group of cardinals and bishops, as well as a significant delegation of Canadian bishops and priests.

The Pope's visit to Canada is expected to be a historic event, as it marks the first time a Pope has visited the country. The visit is seen as an opportunity for the Pope to strengthen the relationship between the Roman Catholic Church and the Canadian government.

During his visit, the Pope will meet with Canadian politicians, religious leaders, and representatives of the Canadian military.

The Pope's visit is also expected to be a significant event for the Canadian Catholic community, as it marks the first time a Pope has visited the country in over 100 years.

Girl charges rape at Fla. fraternity

A Florida State University student has filed charges against a fraternity for allegedly raping her.

The student, who is a member of the Sigma Alpha Epsilon fraternity, reported the incident to University Police on Monday.

According to the police report, the student alleged that she was invited to a party at an off-campus location. She was then allegedly raped by several fraternity members.

The fraternity was contacted and is cooperating with the investigation.

The student has been offered support and counseling by the university.

Tropical storm nears Fla. coast

Elton John

Elton John
came to Florida today with his tour, "The Red Piano Tour," as the storm system began to make its way across the state.

The singer-songwriter is scheduled to perform at the Amway Center in Orlando tonight.

Elton John's concert is one of several events scheduled in Florida this week, as the state continues to prepare for the storm system.

Elton John is expected to perform in front of a packed crowd, as fans from all over the state are expected to attend the concert.

The storm system, which is expected to make landfall later this week, is expected to bring heavy rain and high winds to the area.

Reagan defends arms buildup

President Reagan defended his administration's buildup of the military, saying it was necessary to protect American interests.

"We have an obligation to our allies and our own citizens to ensure that we have the means to defend ourselves," Reagan said.

"We cannot afford to take any risks with our security," he added.

"I believe that it is our duty to protect our nation and to ensure that our allies do the same," Reagan said.

"I am convinced that the arms buildup is necessary to protect our country," he added.
U. course guide gets advertising

By BET HUGHES

A glance through a current list of advertise- ments which have piqued the faculty on this term's course guide - hence, the prompt to office to change the publisher. The difference in price, Smolen said, forced the move.

· "It's a service oriented to them. In the proper way to fill out a registration form. I think it's good if it organizer a similar tournament, but anything like this done before," McVeigh said. "It's fantastic," he said. He added that last year he organized a similar tournament, but it was much less successful. "Last year only Kirk's Court and still played," he said. "This year to have eight teams from four different residences is beautiful." "We want to establish ourselves with a particular identity," he said.

Freshman volleyball

(Continued from page 1)

In addition, Smolen said the new guide includes five added pages in the extra charge, emergency numbers, athletic schedules and more readable type. Basically, this is a lot more information to the students," Smolen said. "It's a service oriented to them. In the future we hope to add a page in the proper way to fill out a registration form."

Student reaction to the new format is apt, building code abbreviations.

"I've been involved in residences for some time, and I've never seen anything like this done before," McVeigh said. "It's fantastic." He added that last year he organized a similar tournament, but it was much less successful. "Last year only Kirk's Court and still played," he said. "This year to have eight teams from four different residences is beautiful."

"We want to establish ourselves with a particular identity," he said.

Lettet's to the Editor:

To the Editor:

Our goal is to open a Hospitality Center to serve the needs of the poor and the homeless in our area. Our immediate plans include bringing some degree of shelter, food, and educational programs to approximately 100 people each night, while preparing and serving the first meal at St. Mary's Episcopal Church on Sept. 20 at 6 p.m. The Church (386-1530) about volunteer and staff recruitment. Sept. 17, 7 p.m. at the College, 386-1530. Current information may be obtained by contacting Rev. John Scott of St. Mary's Church. Their generosity has already brought hope to the poor in our community. Their service and dedication have already made a tremendous difference. If you have any questions, please contact the Church at 386-1530.

To the Editor:

I am writing to express my concern about the current state of University education. The lack of focus on academic excellence and the emphasis on extracurricular activities is concerning. I believe that the University community should take note of the success of the new president, Gregorian, and strive to emulate his leadership.

To the Editor:

The University community will likely look back on a summer that was marked by excellent weather and the departure of Gregorian. Gregorian's departure is seen by many as a positive change for the University. His leadership has brought about significant improvements, and his legacy will be remembered for years to come.

To the Editor:

The University - faculty members and students that Rosh Hashanah is Thursday and Friday. Faculty and students are encouraged to make arrangements with their instructors for exams if they have made alterations to their schedule. Students are encouraged to take note of the success of the new president, Gregorian, and strive to emulate his leadership.

U. won't get repaid for theft of sculpture

By KEI BARBIE

The University won't sue to retrieve the 1800-pound, $3,000 Rodin sculpture stolen from the Steinberg-Dietrich Hall in June.

Professor Andrew Pederson, head of the Wharton School, said yesterday that Federal Bureau of Investigation agents have not informed him of the statue's recovery.

"I assume the police are as active as they can be," he said.

Andrea Pederson said in wake of the statue's disappearance the "inside security system" was upgraded.

"There are more eyes in the storage area in May," she said.

The statue, entitled "Juno d'Ale, is a 42-inch-tall bronze sculpture of a maid. It was donated to the University by the Lori family in honor of Wharton alumnus Howard M. Steinberg.

The statue was to be placed on the roof of the Steinberg-Dietrich Hall upper courtyard, above the New York Stock Exchange post.

"We're still exploring different options," Andrea Pederson said.

Two weeks before the statue disappeared in May, Public Safety Director John Logan said that in the wake of the "inside security system" failure to turn investigation.

"I don't really know what's going on," she said.

"But Pederson said that in-vestigators have not informed her of any progress in the case."

But Pederson said that in-vestigators have not informed her of any progress in the case.

"I don't really know what's going on," she said.

"I assume the police are as active as they can be with a case like this," she said.

The statue is being offered for sale, Pederson said.

"I don't really know what's going on," she said.

"But I assume the police are as active as they can be with a case like this," she added.

"I don't really know what's going on," she said.

A sign in February's protest of the Engineering School's takeover of Hayden Hall

Battle over Hayden Hall

(Continued from page 1)

As explained above, the administration that Hayden Hall be renovated according to a 1973 plan. Gringgack said that plan calls for another floor to be added onto Hayden Hall between the third floor and the roof, giving geology the added space it needs.

But Ehrlich said that plan was turned down because of lack of capital.

Battle over Hayden Hall

(Continued from page 0)

"When we began to rebuild the school, our intent was to put in a new lecture hall on the teaching aspect," he said. It had started growing steadily we would have been closed in 1975." "We're expected to turn out great amounts of research. If we had enough people, we would have entered faculty and continued "In our present climate we are suffering because we have good teaching programs."

"The fact that we spend more time with students is being held against us and it's a win situation," he added.

Mondale to speak in Center City today

Wendy's

Steve Jones
df Philadelphia Daily News

Wendy's on Broad Street was closed for breakfast, lunch and dinner last week. Business was brisk Tuesday, however, as the chain reopened for business.

To open its first Philadelphia area location, Wendy's, a national fast-food chain, announced plans to open the store a few weeks ago.

The store opened at 9 a.m., and by 9:30, the line was out the door.

"I've been waiting for this for a long time," said one customer.

"I love their burgers," said another.

The store, located at 201 Market St., is the first of many Wendy's to be opened in the Philadelphia area.

"We're looking forward to opening more stores in the future," said a representative from the company.

The store is open from 7 a.m. to 10 p.m. daily.

---

Students blast faculty majority on judicial panel

Walter Mondale, the Democratic presidential candidate, is visiting Philadelphia today to meet with students at the University of Pennsylvania.

Mondale's visit comes as the university's faculty members are demanding greater say in the selection of members for the university's Board of Trustees.

"We believe the faculty should have a significant role in the governance of the university," said a spokesman for the faculty.

The faculty is demanding the right to vote for members of the Board of Trustees, which is currently controlled by the university's president and a select group of wealthy alumni.

"We want a board that is truly representative of the university's diverse community," said the spokesman.

Mondale's visit is expected to draw a large crowd, and the university has closed several buildings to accommodate the expected turnout.

WHAT EVERY STUDENT SHOULD KNOW ABOUT THE DIFFERENCES BETWEEN LEASING A TELEPHONE AND LEASING A CHICKEN.
Libertarian candidate to speak on campus

BAKER-SLAVIT

Libertarian Presidential candidate Doctor Bergland will speak on campus tonight, marking his second University appearance in less than a year. Bergland, whose campaign was endorsed by the Libertarian movement, believes in no taxation and union busting.

According to our figures, for every three dollars spent by the government, only one dollar gets to the people - the rest it eaten up in bureaucracy." Professor Lawrence Klein to attend Libertarian event, it wasn't publicized that the fire was small and caused little damage. They were trying to break the door down, but they couldn't because it was too strong," she said. "They were using the alarm bell to call for help, but there was no bell."
Welcome all incoming students with the September Special

1 year - $250

Because this rate is our lowest ever, no discounts, except GROUP discounts, may be applied to this rate. 2 years and 6 mos. rates also available.

"Finest Facility on Campus"

Membership Privileges
- A University City Nautilus membership entitles you to unlimited use of:
  1. Two complete sets of Nautilus, plus the new abdominal & thigh machines, and Gravity system.
  2. Dry air saunas, showers, and lockers.
  3. Supertutive instruction in strength training, rehabilitation, and flexibility.

Free Trial
- University City Nautilus offers each prospective member a free-no obligation trial by appointment. The trial will allow you to go through a supervised Nautilus workout and find out how we can help you achieve your fitness goals.

Freezing
- Available on all memberships, which means you will not lose membership time if you must temporarily discontinue your program. The minimum time period for freezing is two weeks.

Group Rates
- Offer 10% savings for a group of 3 persons, 20% for groups of 10 or more, joining together. Large groups have been formed by students in the past, resulting in great savings.

Bank Hours
- 7 a.m. - 10 p.m. Mon. - Fri.
- 9 a.m. - 6 p.m. Sat. - Sun.
Summer labors of love

(Continued from back page)

said. "I bleed a lot up there. There's a lot of physicality in baseball, especially the pitching part of it. Plaints are in my right shoulder and elbow. Other than that, I'm fine."

Lombardi spent his summer fac-
ing pitchers at the Intercollegiate Baseball League. Lombardi has been pitching for professional baseball teams at one time or another. And many are guaranteed to be drafted again. Perhaps even Lombardi himself.

"It was a unique experience," Lombardi said, "and I would have liked to have played up there for the whole season, but I just needed the time off." He's hungry for more.

Bruce Leftwich decided to re-
dedicate himself to baseball after the "Quakers" disappointing 10-6
close last winter. But back home in Florida Leftwich had spent the off-season weightlifting programs that his coaches assigned him to. Leftwich didn't satisfy his appetite for the game. So, over the summer, the Sophomore pitcher completed his training at the Florida Peninsula summer camp. He threatened to return to the USA Basketball League once again which Leftwich and Bernsten faced their final game. In terms of skill and confidence,

Leftwich said, "I remember we really cut up any other player over the summer. Of his 18 teammates,

"I really felt that the summer league offered me the opportunity to play against caliber players,"

"I proved to myself that I could play against Division 1 players. Against big names that I had never even heard of before," Leftwich said.

"I achieved what I wanted to achieve this summer," he continued. "On and off the mound, I improved my weaknesses on defense and my offense. I was able to score against major league competition."

During the summer, junior starter Daces Coen played volleyball all over South America for Argentina. But he made a stop at the Intercollegiate Baseball League. Somewhat participated in the Euro

"The most important thing is that I improved my weaknesses on defense and my offense. I was able to score against major league competition."

"I achieved what I wanted to achieve this summer," he continued. "On and off the mound, I improved my weaknesses on defense and my offense. I was able to score against major league competition."

**Unmistakable Heneghan catches on in big way**

By BOB DIBRINKI

The summer of 1982 was decision time for Bob Heneghan. Football wasn't going to be the issue, and neither was his academic future. As a junior at Penn, he'd had many good times. In fact, the only good time the Quakers had during the entire spring was an opening day victory over Cornell. But that same Cornell game was also the beginning.

"And nobody likes a loser— including Heneghan," Heneghan had always been used to hearing. At Corn College Prep School in Chicago, he was a good athlete. A total three-sport standout during high school. A baseball and football team was and was named All-State in sports.

**Penn Captains**

One in a series of profiles profiling the leaders of Penn's fall boosters.

"I was a man who had done the exact opposite," Jerry Steele said. "When I looked for a head coach, I was looking for an individual to attract a team that had a lot of heart, a lot of desire, and a lot of hard work."

**GARY STEELE**

"Family atmosphere"

"Like the rest of our outstanding senior group," Steele said. "Last spring, Penn first baseman Kirk Lombardi ex-hilarated a phenomenal player at the plate, finishing with a .341 average, Lombardi's performance earned him All-Ivy League Rookie of the Year honors.

"Like the rest of our outstanding senior group," Steele said. "We had several good performances. The defense usually starts out strong, but I think the offense is stronger this year. Steele also said that the defense has been working well, and Rob Shnider also played an important role in a 43-7 blowout of Hud.
