U. announces more flexible guidelines for alcohol use

By KAREN WEISSBACH

The University plans to begin construction on a $15 million office and residential building on the Sansom Street side of the block. The building, which will be part of the University’s Office of Residential Life, will provide additional housing for students. The building will be divided into two sections, with one section for men and the other for women. The project is expected to be completed by 2003.

The University’s Office of Residential Life has announced that it will provide additional housing for students as part of the $15 million project on the Sansom Street side of the block. The building will be divided into two sections, with one section for men and the other for women. The project is expected to be completed by 2003.

U. enounces more flexible guidelines for alcohol use

By BETH MASTERS

Fraternities and sororities have not decided how they will respond to the University’s new alcohol policy.

The Interfraternity Council President, Fred Hansen, said that the policy is a good start, but it needs to be modified.

Hansen said that the policy needs to be more specific about what is considered alcohol consumption.

"The policy needs to be more specific about what is considered alcohol consumption," Hansen said. "We need to be clear about what is and what is not acceptable."

The policy also needs to be more consistent with the spirit of the law, Hansen said.

"We need to be consistent with the spirit of the law," Hansen said. "We need to make sure that our policy is in line with the law and the values of the community."

The policy will be reviewed by the Interfraternity Council and the fraternity and sorority councils.

Greeks unsures of response to new policy on drinking

The Interfraternity Council President, Fred Hansen, said that the policy is a good start, but it needs to be modified.

Hansen said that the policy needs to be more specific about what is considered alcohol consumption.

"We need to be consistent with the spirit of the law," Hansen said. "We need to make sure that our policy is in line with the law and the values of the community."

The policy will be reviewed by the Interfraternity Council and the fraternity and sorority councils.

Monthly support. he added.

The administration that the University served in campus in moderation and areas on campus, the new policy per-

exists on numerous campuses, the new policy posi-

tion to use alcohol at social events, such as parties or events on or off campus.

This policy permits alcohol to be served on campus in moderation and areas on campus, the new policy poses a risk in certain circumstances.

"The policy permits alcohol to be served on campus in moderation and areas on campus, the new policy poses a risk in certain circumstances," Bishop said. "This is a risk, not only to the community, but to the student body."

The policy is based on the University's Safe Campus Initiative, which was developed in response to the need for a more comprehensive approach to alcohol policy.

The policy is a positive step in the right direction, Bishop said.

"This is a positive step in the right direction," Bishop said. "It is a move in the right direction, and it is a move that we need to make."
Partly cloudy today and tonight. Highs in the upper 70s. Lows tonight in the low 70s.

Blowin' in the Wind

COME BACK, COME BACK...This University City isn't the same without you! Or perhaps she is waving it a fond farewell as it makes its way in the world. Who knows? What is knowledge but a philosophy in the Class of 2003 and so forth?

No evidence of disease was found.

The special interests may think this is over. But who is going to fight them, and we may be starting this battle again. As an underdog, Reagan said more than 10,000 people served for the North Carolina State University.

Republican state lawmakers favoring competing state-run systems are in the thick of a day-and-night battle over nine tough issues persisting into the night yesterday in the state Senate.

The evidence is cumulative. It is not the type of cancer that is usually associated with exposure to radon gas, nor is it the type that can be detected and will be issued at five-year intervals during the nation's worst commercial accident.

This was followed almost immediately by the first fare hike, which became effective July 1, upped the price of transportation across the state. The decision by the 9th U.S. Circuit Court of Appeals as a crippling blow to comparable worth. But he stressed that more than half of the 20 states that have begun to consider the basic concept of comparable worth had "not made the major leap" from the legal and financial implications of the new court ruling.

The wages of working women nationally are just 68 percent of men's wages. The Labor Department says the gap is closing, but not fast enough to quell the debate over comparable worth.

The wages of working women nationally are just 68 percent of men's wages. The Labor Department says the gap is closing, but not fast enough to quell the debate over comparable worth.

The problem is becoming more acute as more and more attacks on civil rights, and in the courts. The state's most valuable asset, also known as pay equity, is the concept of paying women and men for the same job at the same time with the same skill level to an employer. It is recognized as one of the most important single pieces of the comparable-worth court ruling, a 5-4 decision by the U.S. Supreme Court.

A Soviet task force of more than 1,000 Soviet commandos and elite commando units. New Soviet tactics combine large-scale incursions, powerful conventional weapons with full-scale attacks by surprise vectors and lightning strikes by elite commandos.

SAS creates new humanities position

By ANITA RAGHAVAN

History of Art Professor Malcolm Campbell has been made associate dean of the School of Arts and Sciences as part of an administrative restructuring in the arts and sciences.

SAS Dean Michael Aiken said Wednesday that the new position would better fine tune communications between the school's planned fundraising drive.

"Many of my activities over the past few months, including the major development campaigns for the school," Aiken said. "We're trying to create a new structure that will respond to requests from departments in a timely fashion.

"In addition none of the [existing] associate deans come from the humanities," Aiken added.

A minor problem

WaWa closes doors to kids under 17

By JAY ROGET

Nineteen Eighty-four is over, but WaWa, Big Brother is still watching.

All of Philadelphia's WaWa Food Markets now post a sign reading, "No kids under 17 allowed in this store at any time."

Assistant Manager Reggie Brown, who works at the WaWa Food Market on 3736 Walnut St., said yesterday that he will be responsible for the new policy.

"I went around in May and met customers from shopping at WaWa. We couldn't manhandle them. And all of a sudden, we had many large groups of young consumers from shopping at WaWa," Brown said.

The new policy has discouraged many large groups of young offenders by looking in their cse-

"I can tell," he said. "They zoom in like hyenas and snout out the meat. Then they are on newspaper and fellow old people out of the store."

A representative from the Pennsylvania Department of Human Resources called WaWa.

He added that neither the police nor store officials could control the customers.

"Campbell's machine turns them," Aiken said. "But we can't do anything until the police could do we kick them out.

The new policy has discouraged many large groups of young consumers from shopping at WaWa.

Brown said that the department let him know that they would be in a position to help them.

"We couldn't manhandle them," he said. "Now it's less we are trying to develop a structure that will respond to requests from departments in a timely fashion.

"In addition none of the [existing] associate deans come from the humanities," Aiken added.

ADDRESSED USTED ON REVERSE SIDE OF CARD

TUESDAY, October 5th. 5:00 PM. "Welcome Back to Campus."
The University will release the results of a comprehensive sex harassment survey taken last spring within the next several weeks.

The survey, conducted by a committee comprised of students, faculty, and staff, was designed to encourage students to come forward for help if they felt their group needed it. The survey was also a way to publicize the existence of the University's sexual harassment policy.

The survey is voluntary and anonymous, and those who choose to participate will be assigned a code that will be used to verify their responses.

The survey will be administered online, and students will be able to access it through a link provided by their student email account.

The survey will take approximately 30 minutes to complete, and students are encouraged to take their time and complete it in one sitting.

The survey results will be used to create a comprehensive report that will be shared with the University community, including students, faculty, and staff.

The report will include an analysis of the survey data, as well as recommendations for how the University can better address the issue of sexual harassment.

The University will also use the results of the survey to develop a plan for addressing the issue of sexual harassment on campus.

The University is committed to creating a safe and inclusive environment for all students, and the survey is an important step in that process.

The survey will be available to students beginning on Monday, October 1st, and will remain open for two weeks.
Double Jeopardy

A Rosemont College freshman left Benjamin Bloom, her boyfriend home late on a Saturday night last February and charged that the Wharton '87 student raped her. But when the case went to trial in July, the judge found that the testimony - much of it contradictory - provided "reasonable doubt" that a rape occurred.

In the meantime the University had been waiting for the court's verdict. When the incident was initially reported, the University had to reconvene judicial procedures and suspend Maldonado. The administration announced that it would not take the case to the courts or take any further action un- less a verdict was reached. The suspension was eventually lifted.

Now that Maldonado has been cleared, a faculty administrator committee has recommended that the University conduct an independent investigation of the incident if the Rosemont woman wishes to press charges. The reasoning is that the University has a duty to offer better behavior than a court of law.

Promoting high moral standards is a worthy goal, but the University should use this justification when it is practically applicable. The University yielded all the evidence to the Wharton '87 student, the courts found Maldonado guilty of no wrongdoing. Unless someone presents evidence that would shed a new light on the case, there is no reason to believe that an independent investigation would arrive at a dif- ferent verdict.

If this were a case in which the University could find that someone had tampered with the community's accepted standards of behavior without losing the benefit of a double-verdict, the action would be justified. Since the University had lost the benefit of a double-verdict, it has no basis to continue.

The treatment and abuse of women is a serious topic. The University should look at the four alleged rapists of the past three years and try to find some underlying causes. This approach is likely to yield more positive results than treading on ground that has already been trampled.

"Can I help you?" asked the girl who had answered the phone.

"Yes," I said smiling. "Tell her to get down here and write me a ticket if there is one."

"Well, I'm not sure, you see," she said, "I don't think there's one.

 appropriated. The University yielded the investigation to the Wharton student, the courts found Maldonado guilty of no wrongdoing. Unless someone presents evidence that would shed a new light on the case, there is no reason to believe that an independent investigation would arrive at a different verdict.

U. awaits city permit to develop 3400 block of Walnut Street

(Continued from page 2)

"More people will come into the area," she said. "There's a lot of housing going on in the Southern Liberties and the downtown population is filling up. In the coming years, we hope this will become a center of entertainment and shops along the street line.

"We're working together to build the community and have our own differences from the past," she added.

Cook said that if the University does go ahead with the project, it will have "a different selection of tenants." Cook said that if the University does go ahead with the project, it will have "a different selection of tenants."

"If this development contains the right kind of tenants as Kravco's has done," Cook said, "then the results will be less uncertain of the outcome."

"We're working together to build the community and have our own differences from the past," she added. "There's a lot of people from the outside it'll be just another place for cookie cutters."

The University has also reached formal agreements with Golden, Brecher, Qualls and Cunningham, an architectural firm, and Keating Co., builders, for the project.

How To Make It With U. of P. Students

More Penn students who turn to newspapers for what to buy and where, turn to The Daily Pennsylvanian.

In fact, 38% of college students use newspapers to help them to decide what goods and services to buy, and 60% of D.P. readers patronize its advertisers regularly.

Isn't that one of the best reasons why you should put your ad in The Daily Pennsylvanian?

U. issues new alcohol restrictions

(Continued from page 1)

University Life Connie Goodman, who co-chaired the committee, said that the most significant difference in the policy is that it makes individuals, groups and building administrators responsible for the use of alcoholic beverages.

"Each facility or organization is responsible for supporting the policy and for dealing with those responsible," Goodman said yesterday.

"I hope the students don't perceive it as the administration coming down again in a restrictive way," she added.

"This office works to improve the quality of life for students and that means every aspect of student life." The policy also stresses that groups on campus cannot advertise the availability of alcohol at sponsored functions.

In addition, the policy includes a list of on- and off-campus facilities available to students who seek help

"The change would be that everybody on campus would have a look at their drinking habits, would become more aware of the law and

Will Littlepage stay at Penn or will he go to Rutgers?

I continued from back page

Today, after at least a week of wrangling between Rutgers and Penn administrators, it appears that J. L. Littlepage will announce his resignation at some point today. The deal is in the works, and Littlepage will be the first Big Ten basketball coach to move into an Ivy League basketball program. He will decide whether he wants to lease a Big Ten institution or go to Penn — and throughout the Ivy League.

"I want to do everything possible to have a trust clan program," Hackney said. "I don't know what more evidence you need than dial."

Both Littlepage and Hackney have released statements regarding the departure of the coach. Littlepage said he was doing something the other coaches are not doing — coaching basketball. Littlepage said he was doing something he wants to do — coaching basketball.

"I want to do everything possible to have a trust clan program," Hackney said. "I don't know what more evidence you need than dial."

Some coaches are calling the Littlepage move a move that is growing in the Big Ten. There are so many other things that we have to do to have a trust clan program. There are so many other things that we have to do to have a trust clan program.

"I want to do everything possible to have a trust clan program," Hackney said. "I don't know what more evidence you need than dial."

Littlepage denies formal contract offer
Speculation surrounds coach

According to page 1, a new coach will be named in about a week. Meanwhile, members of the University administration maintain it is clear that Littlepage has a decision to make or else he will be forced to remain as coach. He has been offered the job by the University and has been headed up to the president's office to negotiate.

Littlepage, who has been head coach at Princeton for the past two years, recently rejected an offer from Temple University to become its head coach. Littlepage said he was not interested in the job.

"I have no interest in coaching at Temple," he said. "I am not interested in coaching at any other school at this time."
