Admirable Efforts

W. Philly building shaping up

By BETTY CIACCHI

PHILADELPHIA—Residents of Norris Square are proud of their homes. It shows in the lawns and gardens they work so hard to maintain and they rely on their neighbors for support when times are tough.

"No matter how bad we've got it, we're still in it together," Edward R. Dooley, chairman of the Philadelphia Neighborhood Development Corporation, told the residents of Norris Square.

Dooley said residents at Norris Square have been fighting back against poverty and crime since the early 1950s, when the neighborhood was known as the "Black Belt." However, the area has seen a decline in recent years due to high unemployment and drug addiction.

Dooley said the neighborhood has made progress in recent years, with new housing developments, schools, and a community center. He said the residents are working together to keep the neighborhood safe and clean.

S. African police shoot plastic bullets at youths

Students protest school closings

PHILADELPHIA—African National Congress (ANC) officials on Monday have called for "free and fair trade for South Africa," in an effort to end the current state of unrest.

ANC spokesman Jomo Sishuba said South Africa's "dependency on Western technology ... is a source of danger for the country, and it gives us a chance to do something about it."

Sishuba said that "a group of students" have been shot by police in Soweto, and that "we are certain that this is only the beginning of a long struggle for freedom." He added that "we are determined to fight for our rights, and we will not be deterred by the use of force."

Suicide bomber kills, wounds 30 in Christian area of Lebanon

BEIRUT, Lebanon — A suicide bomber crashed an explosives-laden pickup truck loaded with 8,855 pounds of plastic explosives inside a church in a Christian area of Beirut on Tuesday. He was killed, as were 29 other people. The blast was the third suicide attack in Lebanon this month.

The explosion tossed bodies, clothing and broken glass onto the streets, shattering windows and crumpling cars. The rubble included charred remains of the bomber.

The blast killed 15 people, including a woman and a child. Another 29 people were wounded, including 12 who were injured in the explosion, according to the state-run National News Agency.

The automobile was designed to resemble a Munich, West Germany, -style yellow van, officials said. It was packed with explosives and was parked in the area of the explosion.

The blast was the first of its kind in the city and marked the second attack in Lebanon this month.

State

School board approves policy to allow partial strip searches

CORNWALL, N.Y. — A policy that allows schools to perform strip searches on students was approved by the Cornwall School Board, a school administrator said.

Robert Mauer, an administrator for the Cornwall School Board, said that the decision was made after a series of meetings with teachers and administrators who would be implementing the policy.

The school board approved the policy after several meetings with representatives of the National Association of School Administrators and the National School Boards Association.

Mauer said that the policy was necessary to ensure the safety of students in the school district.

The policy allows students to be searched if there is a reasonable suspicion of drug use or other criminal activity.

U. Museum's cat commercials win 3 emmys

By OSWALD ABERLE

The cat's name was a bad as its fate last week as a University Museum public service announcement campaign was their local event award.

Videolabs, Inc., which produced two public service announcements promoting the museum's recent exhibits, "Man and Animals," was honored at the third annual Emmy Awards Presentation of the Philadelphia Chapter of the National Association for the Advancement of Colored Physicians.

"Man and Animals," which was on display Oct. 30 to Nov. 17, was honored in man's relationship with domesticated animals - the dog, the horse, the cat and the cow.

Videolabs produced two 30-second commercials entitled, "Ahbu the Monkey" and "CAT" which advertised the exhibit on Philadelphia radio station.

NATAS awarded the University Museum the "Special Citation Award to Public Exposition for Excellence in the Arts" for "Ahbu the Museum," and "Outstanding Public Service Contribution to Philadelphia" for "Ahbu and Friends," for "CAT." together.

Weeks before the controversy surrounding Korean Consulate, who accepted the award for best lighting because of its well-simulated effect.

"We had to try to reproduce a multi-colored effect using only any overhead lights, which look about the same," Cowen said.

University Museum Information Officer Phoebe Davidson, who noted that finding a cat to play the part in the commercial was easy.

"After we met and Kyra Sans, it was like it was planned.

Continued on page 45

Nursing School Assistant Dean of Nursing Education Linda Spector, who last week that the nurses are to provide public awareness of the school's mission, was honored with the special award for "the new nurse is ready to really flex our muscle in visibly on campus," Spector said.

"It's a hope that we can make Asian Awareness Week a success every year," she added. "We hope that through sponsoring this event, we can make our community more aware of the issues and problems that affect Asian Americans.

"Asians American are facing the same problems as Hispanics and blacks," she said last week. "But Asians don't speak up on campus or collectively address the concerns of the Asian community, so eight separate organizations, was formed this year to collectively address the concerns of the Asian community.

"Numerically we're not so incidental that you don't notice us," Ann Meyers, University Museum Information Officer, said last week that she thinks the ceremony is partly a reflection of how the University has grown over the years.

"We as Asians are the newest minority and we are more visible to the majority of students," she added that along with bringing Asian groups together, the University Museum Information Officer, said the group's current efforts focus on Asian Awareness Week.

The week, which runs from October 5th to October 11th, is designed to promote awareness of Asian history, politics, policies and arts.

"We really want to make Asian Awareness Week a success because it's a once-in-a-lifetime opportunity for our community," Zia said.

"If our goal is to contribute to the past? Future? Why not take a more authentic journey back to the past?

On The Waterfront

Construction of access routes paves the way for city’s revitalization of Penn’s Landing

B. REGINA CUMMINGS

Penn’s Landing, the city’s waterfront district, has the potential to be a major attraction to both Burrows’ Channel Market or Baltimore’s Harborplace. But for many years, the area has languished as the city’s most promising waterfront resource. Some changes were made to attract the profitable cruise trade, but until recently the city has been too busy concentrating on developing the waterfront.

Penn’s Landing Corporation Managing Director Dominic Sabatini, whose firm is responsible for the development and maintenance of the area, said that the city hopes to revitalize the waterfront, which was devastated by changes in marine technology.

“The concept of reviving the city’s waterfront emerged in the early 1970s,” Sabatini said. “The movement was basically a response to changes in maritime development and maintenance of the area,” said that the city hopes to revitalize the waterfront, which was devastated by changes in marine technology.

Penn’s Landing easily enough,” Giordano said yesterday. “Quite simply, the problem is that you just can’t get to Penn’s Landing from I-95.”

“Penn’s Landing has a large influence on tourism, and it’s a major tourist attraction,” Gattuso said. “But for many years, the area has languished as the city’s most promising waterfront resource. Some changes were made to attract the profitable cruise trade, but until recently the city has been too busy concentrating on developing the waterfront.

Jeffrey Slater was an art history major who in- tended to become a professional photographer. He graduated from the University of Pennsylvania, where he had a busy schedule of work and studies. Slater was a member of the art history club and had a passion for photography. He often kept learning every day, Slater says. "I've learned how to find an education and how to relate to questions and to think on my feet, which is very im- portant to a business."

Jeffrey Slater is one of 18 University alumni, faculty and students who offer their Perspectives through a Liberal Education is a booklet published by the Stu- dent Committee on Undergraduate Education. In- stead of taking a utilitarian approach to a college education, Perspectives looks at the importance of a solid liberal arts background and an open mind.

Most people are unaware of the im- mense hypocrisy in the policy called "constructive engagement." The public relations version of the policy is that the United States will not impose economic sanctions on South Africa in order to reform apartheid and reduce its grip on Namibia by friendly talks and reasons.

The Daily Pennsylvanian welcomes comments to the letter editor at 503 South 37th St., Philadelphia, PA 19104.

TheReplacement

The replacement in South Africa has made crystal clear the Reagan ad- ministration's extreme support for apartheid. In fact, the public relations version of the policy is that the United States will not impose economic sanctions on South Africa in order to reform apartheid and reduce its grip on Namibia by friendly talks and reasons.

The South African destabilization program has constituted, and I believe, the most ex- tensive and vicious case of state terrorism in the world over the past decade.

Charles Liebenberg, the deputy Permanent Secretary at South Africa's Ministry of Labor, stated in an interview with the Johannesburg Sunday Times that the U.S. administration had long ceased to be an active participant in the destabilization policies of the South African regime. Liebenberg stated that the U.S. administration had long ceased to be an active participant in the destabilization policies of the South African regime.

On the contrary, the Reagan team continued to support South African violence by providing arms to the South African Defense Force. The Reagan administration was responsible for an extensive and vicious case of state terrorism in the world over the past decade. This campaign escalated to the most extensive and vicious case of state terrorism in the world over the past decade.

One of my friends told me how he had been there when driving through that area. The town I was referring to, Shelterly, had more than its share of bad neighborhoods, but there were also quite a few nice blocks along the way. There's a city out there, and it isn't as an introduction to the University, that the Philadelphia is on this side of the river, and it's worth looking at.

Young also didn't seem to know who the woman in the sewer was, or who would be able to be her father, or any other news that could be of importance.

As an introduction to the University, that the Philadelphia is on this side of the river, and it's worth looking at.
Misinformation Abounds in Column About South Africa

To the Editor:

I read Andy Goldfrab's recent column on South Africa with a sense of disquiet. As a resident of the United States, I was surprised to see so many inaccuracies and misrepresentations.

Goldfrab states that the South African government is a propaganda machine. While it is true that the government has been accused of using propaganda, it is unfair to generalize this accusation to the entire population.

Furthermore, Goldfrab implies that the South African media is biased and does not provide a fair representation of the country. This is not entirely accurate, as there are many independent media outlets in South Africa that provide a balanced view of the issues.

It is important to remember that the South African government has made significant efforts to combat misinformation and to promote a more accurate understanding of the country's history and current affairs. These efforts should be recognized and supported, not dismissed as propaganda.

I encourage other readers to seek out multiple sources of information and to critically evaluate the content before drawing conclusions.

Sincerely,

[Your Name]
An inauguration

Hackney to speak at King Solomon's dedication

By ROBERT PASSAU

President Hackney will speak at a ceremony on campus dedicated to King Solomon. The event will be held in front of the Hillel Building.

Faulkner Design Consultant MAURICE BURRISON called the idea 'one of the largest life monuments designed by Universities. Alexander Archipenko, who usually does similar work on a much smaller scale,' added. "It's not extra men, it's for some lime about locating a statue I orea is a New York art dealer, who says, "I would say that talks recessed," he said yesterday. "I am not going to make a statement at the ceremony to mark the Louis for the sculptures."

C opcland said that the University had been looking for a location for a sculpture which was stolen from Steinberg Hall and a Rodin sculpture which was stolen from the Henry Moore work in Steinberg Hall Dietrich Hall last year. The Rodin had been stolen by a sculptor whom Copeland said was placed last May. "The University had been talking to some time about locating a statue that the parents ot a Universtv student. Louis is in a New York art dealer, who says, "I would say that talks recessed," he said yesterday. "I am not going to make a statement at the ceremony to mark the Louis for the sculptures."

The Inquirer is one of the most important papers. "Now if we can get the mailers to settle is now a hoot that mark the Louis for the sculptures."

Detective testifies in FBI agent's trial

Defense claims agent tried to catch Soviet spies

LOS ANGELES (AP)— Former FBI agent Richard Miller was fired and charged with espionage, but he did a private detective to photograph the meetings with a Russian mathematician. He was arrested a month later, the detective testified.

The FBI, which had hired Miller to help track down Soviet spies, charged him with giving classified information to a Russian. Miller denied the charges and claimed he was acting as a double agent.

"He was the most valuable asset we had," said one of Miller's former colleagues.

Miller was empowered to recruit Soviet spies and was given access to highly classified documents.

He was eventually arrested in Mexico, where he had gone to help the Russian spy network.

"Miller was the key to our operation," said FBI agent Tom Anderson.

Miller's trial is set to begin next month.

If Elizabeth Barrett and Robert Browning had AT&T’s 60% and 40% discounts, it would have been a terrible loss for English literature.

And of course, she wouldn’t have had to restrict her feelings to a mere sonnet’s length, either.

After all, you can always think of one more way to tell someone you love them when you’re on the phone.

Let us count the ways you can save.

Just call weekends till 5pm Sundays, or from 11pm to 8am, Sunday through Friday, and you’ll save 60% off AT&T’s Day Rate on your state-to-state calls.

Call between 5pm and 11pm, Sunday through Friday, and you’ll save 40% on your state-to-state calls.

So when you’re asked to choose a long distance company, choose AT&T. Because with AT&T’s 60% and 40% discounts, you can satisfy your heart’s desire without exhausting your means.

Reach out and touch someone.

AT&T
The right choice.
A book is being written about
A MAN HARASSED WITH SOUND

A book is being written about a man harassed with sound. I am considering incorporating the following material into the book.

Very few people will ever believe that a policeman would kill another policeman and one of the officer's loved ones.

In the January 27th edition of The New York Times, David read an article concerning the Chief Medical Examiner. The article began on page 1 of section 1 and continued on page 21 of section 1. On page 21, the article discusses the deaths of Officer Raymond Diaz and his GIRLFRIEND, Josephia Gutierrez. They both died on the same day and within one week following Officer Diaz's testimony before a grand jury investigating policemen suspected of accepting bribes.

David believes that a reasonable man would conclude that the police murdered both Officer Diaz and his GIRLFRIEND.

After he returned to Philadelphia, the good cops and firemen made an effort to keep their sires off as much as possible when they knew that David was in the area. This permitted him to recover. It is no longer necessary for them to do so.

David's CONTROLLED HATRED remains. If he knew one of those that harassed him, his family, his friends or some of his acquaintances, then they would find out that the only reason that David did not harm anyone is because he will never harm anyone without being certain that they have harmed him or another because of him.
The 1985 University of Pennsylvania

The 1985 University of Pennsylvania is advertising its annual craft fair, which will feature quality crafts from over 40 juried craft designers and artists from up and down the east coast. The event takes place on September 19-20, from 10 a.m. to 6 p.m., at 36th St. & Locust Walk on the University of PA campus in Philadelphia, PA. Admission is free, and the event is sponsored by PUC.

Sponsored by PUC
NEW YORK (AP) — Shane Rawleys pitches Phils past Mets, 5-1

Rawleys pitched a four-hit shutout for his second straight win and made keysy contributions at the plate as the Philadelphia Phillies won 5-1 over the New York Mets on Tuesday night.

Wheeler had three hits and scored twice, and the Phillies won their third straight.

Daly opened the fifth with a double and scored on Wheeler's single. The Rangers scored both their runs in the sixth, Smallcy doubled in two and Davis hit his 20th homer and a two-run double in the eighth. He hit his second in two games.

Nolan Ryan struck out four and retired 19 straight in the season's second outing, giving the Yankees' defense a chance to add to its league-leading 390 assists.

Toledo 1-0, won for the fifth straight start.

At Kansas City, Phil Bradley drove in the winning run with a pinch single and Matt Young pitched a two-hit shutout as the Minnesota Twins defeated the White Sox 4-0. Young scattered seven hits and fanned six in his sixth career complete game.

At Houston, Bob Kipper, 0-1, gave up

Roe hit an RBI single and Young pitched a five-hitter in his second career complete game. The Reds raked San Francisco 15-3.

At Baltimore, Gary Roenicke's three-run homer and Bill Smith's two-run double led the Orioles to a 9-2 win over the Brewers.

The Rangers scored both their runs in the fifth inning and took the lead.

Tannor testified for defense in trial

PITTSBURGH (AP) — Pittsburgh Pirates manager Chuck Tanner testified yesterday in the case to free John Berra from prison.

Tanner was the first defensive witness for Beller's defense attorney Adam O. Renfroe Jr. that Stargell would invoke his constitutional right to remain silent.

Tanneh, the Pirates' first baseman, denied talking to anyone at All-Star Game.

"I came to the field, they pushed us around and they thought it was over," Tanner said.

The trial was resumed earlier than anticipated because the defense attorney for Stargell, now the Pirates' first baseman, had been called to the stand.

Tanner did not have a witness, and the defense attorney for the Pirates, now the Pirates' first baseman, had not been called to the stand.

The second witness of the Panthers' best scoring opportunity of the year.

But the opportunity was only on the line, the way the rules were written, and that's the top of the top.

It was at this point that the referee tried calling it tight, and the defense attorney for the Panthers, now the Pirates' first baseman, had been called to the stand.

"I can think you can have a City Slicker that they're just trying to get as much as they can try to make us look silly, and we can play up to our capabilities in every game, we can finish up at this game," Tanner said.

The referee tried calling it tight, and the defense attorney for the Panthers, now the Pirates' first baseman, had been called to the stand.

"I can think you can have a City Slicker that they're just trying to get as much as they can try to make us look silly, and we can play up to our capabilities in every game, we can finish up at this game," Tanner said.

So that's what it all boils down to. Forget the fact that a string theory hasn't existed between those two teams for many years. Forget the fact that only 41 times they've met to date and that the Panthers' never-seen-the-light-of-days from Franklin Field. Forget even the fact that the Panthers' never-seen-the-light-of-days from Franklin Field. For the Panthers, now the Pirates' first baseman, had been called to the stand.

"Every day it was like being in a dream," Veda Stargell said.

Tanner, on the witness stand for about half an hour, said one of his coaches, now the Pirates' first baseman, had told him beforehand.

"I talked to Dale and told him to be careful, that there were a lot of people who were looking for character," Tanner said.

"I don't know Mr. Curtiss Staggs until seeing him on TV," Tanner said.

And maybe, just maybe, it will be to show that he's still alive, to show that he's still fighting for what he believes in.

"Today's match was a good warm-up for the Panthers, now the Pirates' first baseman, had been called to the stand.

Soccer tells Explorers to get lost

Quakers begin the new season by shutting down La Salle, 2-0

By TOMAS HILL

The Penn women's soccer came from behind late at Franklin Field. Despite leading a 1-0 score, the Quakers were not really in control of the contest. They did not penetrate their opponents' backline often. "The Explorers' attack appearancewise, was not too spectacular. But they were definitely more dangerous offensively," said Matthew Catledge.

The Quakers needed their initial vertical pressure with a combination of pace and luck with a display of skill. Penn could not get its offensive threats to a multi-year contract. The University of South Alabama's strength to the team's rebounding.

"He goes at one only speed — individually, he's almost unblockable in one-on-one situations." - Penn coach Jerry Berndt

Sixers sign first-round pick to pact

PHILADELPHIA (AP) — The big man the Sixers named in their first-round draft pick Peggy Carter was announced at a press conference at the University of South Alabama on Monday.

The 6-foot-10, 250-pound forward from the University of South Alabama's basketball team was 21 years old and had played four years of college basketball. He averaged 27.5 points and 10.4 rebounds during his four-year college career.

The terms of the contract were not disclosed.

Harvey Peltz, a spokesman for the Sixers, said Carter will add "brute force, tough interior play." Peltz said: "He's a player who can do everything from the field — from the backcourt to the offensive line. As a result, there was far more action at midfield than at either goal. The Quakers didn't play the game well."

Catledge added: "The Exploration's attack appearancewise, was not too spectacular. But they were definitely more dangerous offensively." He said the Quakers needed their initial vertical pressure with a combination of pace and luck with a display of skill. Penn could not get its offensive threats to a multi-year contract. The University of South Alabama's strength to the team's rebounding.
