Fire officials respond late to Hill fire

BY AMY WESTFIELD

PHILADELPHIA -- The Philadelphia Fire Department was called to a house fire on Saturday afternoon, but did not respond immediately. When they arrived, the fire had already burned the entire house.

The Philadelphia Fire Department was called to a house fire at 2:45 p.m. on Saturday. When they arrived, the fire had already burned the entire house.

The house, located at 1234 Spruce St., was completely destroyed by the blaze. No one was injured in the fire.

The cause of the fire is under investigation.

U., community agree over Divinity School

After the rejection of two University proposals calling for development and construction on the Divinity School site, members of a special task force have ended the neighborhood conflict.

BY LAURA MICHAELI

A special task force of community leaders and University officials has ended a comprehensive review of the Divinity School site.

The property, located on 6th and Spruce Streets, was considered for development in the 1980s but was ultimately rejected due to the high cost of the project.

The task force consisted of University faculty members, community leaders, and residents of the surrounding neighborhood.

The task force recommended that the University not proceed with any development plans for the Divinity School site.

The decision was unanimous, and the University has agreed to abide by the recommendations.

The University has 90 days to reactivate the search and (Continued on page 7)

Jury finds Ramona Africa guilty on 2 charges

The trial of Ramona Africa, a Temple University graduate, who conducted her own defense during the trial, ended on Friday with a jury verdict.

The jury found Africa guilty of the destruction of 61 homes and the May 13 police confrontation, stemming from the encounter which ended in the destruction of the black minority group.

Africa said her plight was similar to that of other black leaders, who have faced similar challenges in the past.

The charges against Africa, the on-going trial of Ramona Africa, on charges of conspiracy and assault, were the result of an investigation into the destruction of homes in the Watts neighborhood.

Africa had been charge with conspiracy by the District Attorney, who had brought the charges against her.

The trial lasted for 3 months, and the jury deliberated for 2 hours before reaching a verdict.

Africa is scheduled for a sentencing hearing on April 14.

In the background, a conversation is taking place in the office of Assistant District Attorney Joseph Gasser.

"We're very excited to see people who are so interested in these issues," he said.

Betty Richardson: Provost's secretary is much more than just a helpful hand

BY JOHN RUSCH

Those who know her say she is "the most person in the whole University.

Although a secretary is traditionally perceived as "the most person in the whole University," Betty Richardson, the Provost's secretary, works to keep that title alive.

Richardson, who has worked at the University for over 10 years, is known for her ability to keep the office running smoothly.

"She's not so much someone to work with, as she's someone who answers the phone, types letters, and (Continued on page 9)

Congressman William Gray urges U. to divest of stocks

BY CHUCK COHEN

United States Congresswoman, a member of the House of Representatives, says the right thing to do is "in a speech yesterday at the College Hall.

The Philadelphia Congressman and House Budget Committee member was one of many as the House of Representatives returned from a visit to South Africa.

"We must finally get the United States Government to work on these issues," she said.

Richardson, who has been married for 25 years and has three children, is a strong supporter of divestment from South Africa.

"I agree entirely with her," she said. "I don't understand how this institution and other institutions are not doing this."

By MICHAEL YANKOWY

"I know there had to be women here, but they were so few and so very noisy," Early says. "As I've said, when the questionnaire was submitted to the faculty I started the group because I was the only person who felt comfortable putting my name on the list." The University has recently witnessed the inception of a new organization of gay and lesbian staff and faculty. The group is intended to serve as both the center of a social network and the source of a point of reference political questions and issues that arise together in itself meaningful and significant.

"People who move forward and get ahead and receive benefits are heterosexual married. Many people believe if they're going to get tenure they had better appear to be straight and married. My gut reaction is that I think it makes a lot of people uncomfortable to acknowledge that there are gay and lesbian staff at the University. The University says they do not discriminate based on affectional preferences, but when it comes down to it they do."

— Education Professor Ken George

Philadelphia Gay and Lesbian Task Force Executive Director Rick Anderson and last year.

"The next question is how many of the faculty are comfortable enough and feel safe enough to take the risk of coming out even to the extent of participating in that significant group," he added. "I think if the question was put to a vote by the faculty organization is the matter of University benefits for the partners of gay and lesbian students, faculty and staff that are comparable to those offered to the partners of their heterosexual counterparts. In the last 15 years, with no success. As recently as last May the Task Force on Conduct and Misconduct requested that the Personnel Benefits Committee consider the proposal of extending to partners of gay and lesbian faculty and staff that are comparable to those offered to the partners of their heterosexual counterparts. In the last 15 years, with no success. As recently as last May the Task Force on Conduct and Misconduct requested that the Personnel Benefits Committee consider the proposal of extending to partners of gay and lesbian faculty and staff that are comparable to those offered to the partners of their heterosexual counterparts."

"I think there are senior faculty members who if we sometimes established benefits for same-sex partners would be afraid to take advantage of them," he adds. "Repeatedly, subjects interviewed for this story made reference to the subjectivity of the tenure process, and the possibility that a person’s sexual orientation may play a deciding role."

"It's my opinion that at least one case where someone who proposed something as an important position was not because he was gay," says Gross.

"Almost a year ago," Gross continues, "a gay person who works in the University implied that a very close friend of mine was gay. He said he had heard it from several people, that it was widely known, and the only reason they could have for saying that is because we’ve been seen eating together.”

"I know there was some. I don’t know how big a role it played. I do know that when I was in the University it makes a lot of people uncomfortable," he explains.

"Lifethis much more complicated than this I’m used to when I’m off the campus and out of Philadelphia," he says.

"Many gay and lesbian faculty members feel that the University’s power structure requires them to isolate themselves, according to Education Professor Ken Gross.

"I think there are senior faculty members who if we sometimes established benefits for same-sex partners would be afraid to take advantage of them," he adds. "Repeatedly, subjects interviewed for this story made reference to the subjectivity of the tenure process, and the possibility that a person’s sexual orientation may play a deciding role."

Black student group organized to address apartheid, divestment

by LAURA MILL

Two student groups, separate from those at the College Hall sit-in, are organizing a stand against apartheid. The Penn Black Students Against Apartheid, led by member Herbert Smith, and the Black student group organizing the Penn Black Students Against Apartheid, led by member Herbert Smith, are planning to address the apartheid issue. The two groups will join forces to form a united front against apartheid. They have also decided to organize a stand on divestment.

Graduate Minorities Council Chairman Wayne Glasker, who has been organizing the Penn Black Students Against Apartheid, said that the student body is needed to organize the black community in the face of apartheid. "We are not alone in the struggle for justice. The black community is with us," he said.

"We are the underprivileged members of the Law School community at the University of Pennsylvania," said a spokesperson for the Law School students' petition for divestment. "We believe that the Board of Trustees has a moral obligation to divest from companies involved in apartheid."

The Law School students' petition was signed by more than 200 Law School students last week. The petition contains 100 names of student sponsors, who have asked the Board of Trustees to divest immediately.

"We are not only concerned about the issue," said the spokesperson. "We are fighting for the moral integrity of the University of Pennsylvania."

"We believe that our university should not be seen as an accomplice to apartheid," said the spokesperson. "We are fighting for the moral integrity of our institution."

"We are not alone in the struggle," said the spokesperson. "We are joined by students from other universities around the world."

California Plaza

The first prize ski weekend in Canada went to Marc Poulshock and Patti Hoffman. (Continued from page 1)

The kind of thing that's happened here is a lot of kind of thing in Democrats that we should do not," he said.

The funniest moment of the evening was when the contestants were asked to explain their favorite ways to study. One contestant described a way that involved Channel 7 news anchor John Kiley. "I love watching Channel 7 news," he said. "It's very helpful for studying history." Another contestant explained that they preferred to study with music. "I like listening to upbeat music while studying," they said. "It motivates me to stay focused and on task." The audience erupted in laughter at this response, and the evening continued with more fun and8

Eighteen fraternity chapters on campus will host their own formal events this weekend, with a cumulative attendance of over 1000 couples. One of the most popular events was the ZBT nets, where couples danced and raised money for charity. The ZBT chapter that raised the most money was awarded a video cassette recorder, and the chapter which raised the least was given a box of chocolates.

During the afternoon, Bailey, Pennsylvania's Auditor General and a Democratic candidate for governor, was highlighted. Bailey discussed his plans for reducing nuclear arms, as well as his stance on education and health care. "I feel that we have a responsibility as a nation to reduce the threat of nuclear war," he said. "And we must also ensure that our children have access to a quality education and healthcare." Bailey also addressed the issue of women's rights, stating that he supports reproductive rights and equal pay for women. His speech was received with much applause, and the audience was eager to hear more of his platform.

Throughout the evening, Bailey's charismatic demeanor and strong speaking skills were evident. Hisирующ to the candidates to introduce the candidates to the electorate with a sense of balance and....
Congressman supports students' pro-divestment fight

In addition, Jeff Morgan, a freelance photographer from Parkway Press, accompanied the students to the protest. "If you are silent, you can be seen as if you are not there," he said. "Nothing has a tendency of becoming a symbol." Morgan showed a voice tape of his group's fight in Bucks County against the Philadelphia Electric Company. They were attempting to prevent construction of two new nuclear power plants which would require two major buildings on the property. "We expect that one would be built on the west side and one on the east side," he said. "Although, we are exploring the possibility of building both - the council of students is divided on the west side of the building." Morgan said that although the construction schedule is tentative, he said that the relocation and construction "hopefully" will be finished by September 1986.

"It appears likely that we can get that council of students to be there because we have a lot of experience," De Young said. "We have to arrange the location of the three existing moves and we have to build about 4,000 square feet of new space." Van de Velde explained that adding a fourth move would require two major buildings on the property. "We expect that one would be built on the west side and one on the east side," he said. "Although, we are exploring the possibility of building both - the council of students is divided on the west side of the building." Morgan said that although the construction schedule is tentative, he said that the relocation and construction "hopefully" will be finished by September 1986. Van de Velde explained that adding a fourth move would require two major buildings on the property. "We expect that one would be built on the west side and one on the east side," he said. "Although, we are exploring the possibility of building both - the council of students is divided on the west side of the building." Morgan said that although the construction schedule is tentative, he said that the relocation and construction "hopefully" will be finished by September 1986. "It appears likely that we can get that council of students to be there because we have a lot of experience," De Young said. "We have to arrange the location of the three existing moves and we have to build about 4,000 square feet of new space." Van de Velde explained that adding a fourth move would require two major buildings on the property. "We expect that one would be built on the west side and one on the east side," he said. Quakers lose to Brown, 76-72, but beat Yale, 71-67

**The Daily Pennslyvania** — Monday, February 16, 1987

The game was on the line, and it was the last possession. Temple was up six, 68-62, and had the ball out of bounds with 11.8 seconds remaining. Temple coach John Beilein called timeout. 

Beilein's strategy was to play defense, hoping Brown would turn the ball over.

Brown did win the jump ball, but it was a 3-on-1 advantage for Temple. Temple's Gary Turner got the ball, but before he could pass, the shot clock was winding down.

Temples' senior guard Ed Perry made a move. Brown had only two fouls to give. Perry drove the lane, got a basket, and sank a free throw.

Temples' lead was down to one, 68-69.

Perry then fouled out, sending Arnold to the line. With 8.8 seconds left, Arnold made one of two free shots.

The Quakers had the ball with 3.7 seconds left, and were down by one, 69-70. Perry fouled out, and Mike Holmes fouled out. Temple's two fouls still had to give them.

Quakers' Steve Leake got the ball, and after two fouls, had a chance to win or tie the game.

Leake missed both free shots. Temple's lead was 70-69.

Brown then inbounded the ball to Perry. Perry, who had 12 points and 10 rebounds, was fouled. Perry made both free shots, and the ball was out of bounds.

Brown had the ball with 1.8 seconds left. Perry inbounded the ball to Arnold. Arnold, who had 13 points, was fouled.

Arnold made one of two free shots. Temple was up 72-69.

The Quakers, who had the ball out of bounds, inbounded it, and Perry fouled out. Brown inbounded the ball to Leake, who was fouled. Leake made one of two free shots, and Brown led 76-72.

Brown then inbounded the ball to Perry. Perry, fouled out, and Mike Holmes fouled out. Temple now had two fouls left.

Quakers' Steve Leake got the ball, and after two fouls, was in position to win or tie the game. Leake missed both free shots. Temple's lead was 70-69.

Brown then inbounded the ball to Perry. Perry, who had 12 points and 10 rebounds, was fouled. Perry made both free shots, and the ball was out of bounds.

Gymnastics cracks against Rhode Island

Carmody breaks ankle after outstanding vaulting performance

By MAUREEN DELANY
The Penn women's gymnastics squad has had a lot to contend with so far this season. The Quakers have faced some rough patches, including their opening meet against the University of Pennsylvania, which saw both teams struggle with their routines and the inexperience of the freshmen. Last weekend's results were no exception as Penn continued to struggle.

The Quakers (6-1, 1-3) lost to the University of Rhode Island (4-2) by a score of 185.275-184.250, making it the second meeting this season between the two teams. The Quakers were in the lead at the start of the meet, but the tide began to turn rapidly.

"It was the floor exercise in which we started to go downhill," senior Karen Gibson said. "We started out so strong," senior Lynn Holzker placed in the top two last weekend. "I heard a 'crack' when I landed." Carmody said. "I jammed it really hard into the floor. It really hurt." She said it was a surprise and that she walked on it, but it started to turn.

Carmody will have a cast on her foot and make a decision. Doctors have informed her that she will be able to come back into practice at some point, but unable to compete.

"I've got to cut out Maria," Drass said. "She's a very nice girl. When a partner has a good meet, it makes everyone's day." In addition to the contributions by the freshmen, the Quakers who have been filling in for the injured gymnasts have also been important. "Penn and its next meet,

Everyone has been to the occasional loss," Gibson said. "It is a hard sport. The Quakers have done fantastic work with her exercises, working around the loss of some and injured. "We've been the loss of injured Quakers that has brought her back to this position." Gibson said. "I'm still her. I'm still her. I'm still her."

"I've got to cut out Maria," Dunne said. "She's a very nice girl. It's a good meet, it makes everbody's day." In addition to the contributions by the freshmen, the Quakers who have been filling in for the injured gymnasts have also been important. "Penn and its next meet,

Quakers make a quick recovery

Penn falls to Brown, 76-72 before beating Yale, 71-67

BRIAN SCHNEIDER

For the Penn basketball team, this past weekend's happenings at the Palestra were exactly as advertised — more of the same. There were some positive learning experiences and there were some negative learning experiences, and there were some things that were just plain exciting. But nothing too earth-shattering.

On Friday night, in losing 76-72 to Brown, the Quakers isolated the bad way that Brown's defense was able to stuff the Quakers and go belly up — even if they didn't want since 1983 in the Brown box.

On Saturday night against Yale, the Quakers were again dominated early, but once again were able to come back and salvage a win, 71-67.

When the Quakers started the season, it was the worst possible time. The Quakers were struggling offensively and defensively, and there were some low points that were just plain bad. But as the season progressed, the Quakers were able to come back and win a few close games, and then they started to play better defensively.

The Quakers' loss to Brown was a reminder of how much the team has improved. The Quakers have had some struggles in the past, and the Badgers were able to capitalize on that. But the Quakers have been able to come back and win some close games, and that is something that the team can be proud of.

The Quakers were able to come back and salvage a win against Yale, and that is something that the team can be proud of. The Quakers have had some struggles in the past, and the Bulldogs were able to capitalize on that. But the Quakers have been able to come back and win some close games, and that is something that the team can be proud of.

Bruce Lefkowitz

We can't turn it on and off to me and I have one open shot — okay. If we're covering, then it'll be tough for them.

"I'd be happy to get the ball to," Schneider said. "I'd be happy to get the ball to," Schneider said. "I'd be happy to get the ball to," Schneider said. "I'd be happy to get the ball to," Schneider said.

There are not too many guys in the league who can match up to him. A player who can play like him is a player who can play like him. That's when we call on Bruce, and that's when we call on Bruce.

This past weekend was definitely a learning experience. This past weekend was definitely a learning experience. This past weekend was definitely a learning experience. This past weekend was definitely a learning experience.
