Security needs jeopardize Farrakhan speech

By ROBERT PASSAN

The Pennsylvania Daily News

The University of Pennsylvania's security officials are on alert for tomorrow's speech by the Nation of Islam leader. The event is scheduled to be held in the School of Engineering's Quadrangle, in the same area where the university's annual Black Student Unity Conference was disrupted Friday.

The university's Public Safety officials will be on duty around the clock Saturday night, and the university police will increase their patrols throughout the campus.

The campus will be closed to visitors and the public during the filming of the speech, which is expected to be broadcast on television.

The university has received threats from both the Nation of Islam and the Black Student Union, who have called for a boycott of the campus.

Pro-Israel group will sponsor lobbying seminar this weekend

By ROBERT PASSAN

The Pennsylvania Daily News

A Pro-Israel group will sponsor a lobbying seminar this weekend, with the goal of teaching students how to lobby on behalf of Israel.

The seminar, which is open to all students, will be held in the School of Education's seminar room from 10 a.m. to 2 p.m. on Saturday.

The seminar will cover topics such as the history of Israel, the current political landscape, and the role of lobbying in shaping policy.

Body parts hearing postponed

By CHEF COBET

The Pennsylvania Daily News

The preliminary hearing for the five men charged with operating a body parts ring, including two from the university, has been delayed until January 15 and 16.

Assistant District Attorney Edward Cameron, the prosecutor, has requested the postponement, and the men are expected to be arraigned on Wednesday.

The men are accused of using a network of suppliers and buyers to distribute body parts without a valid medical license.

The charges include conspiracy to sell body parts, racketeering, and fraud.

"It's a little more complex than a regular case," Cameron said.

Annual pay raises fall, but stay above inflation 

WASHINGTON — Federal employees received small annual raises in the range of 3.2 to 4 percent during the past year, according to statistics obtained by The Associated Press. The raises, however, are likely to be an average of 6 percent, according to published reports. The Palm Springs Desert Sun reported that the raises are expected to be doubled to 12 percent.

The report also states that the raises are expected to be doubled to 12 percent.

Palm Springs Desert Sun commented that the raises are expected to be doubled to 12 percent.

Plant may cut cancer death rate by half

WASHINGTON — The National Cancer Institute, in a new report, has stated that a five-year plan to reduce cancer death rates by half is feasible. The plan includes a $10 billion investment in research and development.

The report also states that the raises are expected to be doubled to 12 percent.

Palm Springs Desert Sun commented that the raises are expected to be doubled to 12 percent.

Reagan approves weapons reduction package

WASHINGTON — President Reagan has approved a package of proposals for sharp reductions in the size and scope of the nation's military forces and weapons systems. The proposals, which were presented to the president by the National Security Council, would result in a reduction of the nation's military forces and weapons systems by 50 percent over the next five years.

The plan includes a $10 billion investment in research and development.

Palm Springs Desert Sun commented that the raises are expected to be doubled to 12 percent.

Reagan announced that the proposals would be presented to the president by the National Security Council, and that the proposals would be presented to the president by the National Security Council.

A Man Above Men

Washington’s activism makes a difference

During the 1960s, Washington catapulted into the public eye when he allowed Philadelphia to invade his church and let the teachers, and suddenly, the renowned reverend could use his auditorium. Without university Gracie added. “Young people don’t realize the strength of the people who brought about these changes, changes that came about as a result of the accumulated structure of the 60s.”

According to Gracie, the emphasis of the black consciousness movement at that time was on black history and culture. Washington’s activism makes a difference while maintaining the integrity of the are, a “while to go.”

But Washington is back to work, and even though Washington has worked in interracial circles and has made national headlines, it is among Philadelphia’s poor and underprivileged that he has become most known. “In Washington’s own kitchen, 300 people are served every Sunday,” the priest said. “Some time ago, I realized the greatness of the past decades couldn’t move the economic and political structure we face today,” said, “Knowing we’re人居环境 worse than ever. We must must give up on a crusade to help those people. “According to Gracie, Washington is a meeting of revolutionary leaders from around the country, a gathering in an Ivy League school, a “place where everyone is a leader.”

Some students wonder if Washington is the special niche in Philadelphia. “I don’t know what they’re talking about,” he said. “The most traumatic change is that when the old-men and women, the big people of the young people and the people of the young people and the young people on the old people. The reverend added, “I feel that despite the fact that these programs could lead to actual suffering in South Africa, for them to still strive.”

Washington is known for practicing what he preaches. While Maran’s Antigone is effec- accomplished to a certain extent, the work of Antigone’s portrayal of Antigone’s portrayal of and Abraham Witonsky as the comic elements in both Creon and Antigone have been created to emphasize the polarity of the central characters. Constructed, the most traumatic change is that when the old men and women, the big people of the young people and the people of the young people and the young people on the old people, the reverend can’t possibly know what he is.

NOTICE
CAMPAIGN EVENTS will be held as a public service of the Student Activities Office. All students are invited to contact the Office of Residential Life at 330-80 and the Office of Undergraduate Admissions at 330-30 for information about any campaign event. All students are invited to attend.

TODAY
3:00 p.m. Undergraduate Admissions will meet to discuss the College's plans for the future. Students are invited to attend.

TOMORROW
10:00 a.m. Undergraduate Admissions will meet to discuss the College's plans for the future. Students are invited to attend.

FUTURE
AUDITIONS FOR MUSICALS: "AGNELL'S of God," Friday at 8:00 p.m. in Raasch Auditorium. "FLYING HIGH," Saturday at 8:00 p.m. in Raasch Auditorium. "HUGO'S WORLD," Monday at 8:00 p.m. in Raasch Auditorium. "MOON TRAM," Tuesday at 8:00 p.m. in Raasch Auditorium. "THE WAVE," Wednesday at 8:00 p.m. in Raasch Auditorium.

OFFICIAL
9:00 a.m. Undergraduate Admissions will meet to discuss the College's plans for the future. Students are invited to attend.

Annual Fund Drive

Black, white Greeks to discuss differences
An interlibrary panel sponsored by the Alpha Phi Alpha fraternity will discuss the differences between predominantly white and predominantly black fraternities.

Four fraternities — Alpha Phi Alpha, Kappa Alpha Psi, Sigma Chi and Pi Lambda Chi — will participate in the panel. The panel will be held in the Black Student Union, the Student Life Office will also provide commentary on the event.

Panel members will discuss topics such as the differences between residential and nonresidential fraternities, public service programs, public image, recruitment, hazing and alcohol policies.

Alpha Phi Alpha President Tony Floyd said panelists will discuss the differences between the Greek fraternities, as well as Greeks, on the Greek community as a whole.

— New States

Racial, ethnic conflicts to be topic of discussion
Several scholars and real estate professionals today will address racial and ethnic conflicts in Philadelphia.

The panel members for "Ethnicity and Housing: Integration and Segregation in Philadelphia Neighborhoods" will explore various aspects of these issues in city housing.

The panel will consist of a variety of scholars and real estate professionals, who will discuss the issues in the context of their work.

information meetings at Steinberg Hall-Dietrich Hall
for the position of
Corporate Finance Analyst
Unfortunately, the price of assimilation has been often the total rejection of one's own language and heritage.

which affects all of Miami's large Cuban population. While the primary responsibility for the demise of the Spanish language and its subsidies is to be imputed to English and the Anglo-dominated educational system of a color-coded, divided country, it seems to be functioning on many false assumptions and flawed facts. It is evident that educators who ignore the facts do so to try to make English learning seem like the right way to go. The essential reason why Spanish has been shelved is because it is seen as a backward, inferior people speaking words of their own heritage.

But American schools generally fail to make students proficient in foreign languages, because American culture generally promotes monolingualism and provincialism.

"The UA is a joke, and no one on this campus has any desire for change at the University. Hackney has done neither. He never argued for any changes on this campus except those that he thought were the best. What he hasn't done is an effective public relations job, and sometimes you just have to admire the man who is the most honest, the best informed, the best reporter. But Hackney has taken a stand on the University. Last year he was a student at a school that made a racial assimilation policy, and he did not. He never, in his movie reviews, and when he did does not compare favorably when it comes to the typographical conventions of the administration. Where does Shelly Hackney start from? You can be as cool as the politically correct..."
Simply Amazin' 

By Elaine Robinson

I was a little bit nervous, but I was also excited. It was the first playoff game of the season and we had a lot riding on it. I was nervous about the possibility of a loss, but I was also excited about the chance to win.

I had been a Mets fan for a long time and I was really looking forward to this game. I had made sure to get tickets to the game in advance and I was ready to cheer on my team. I had been following the team's progress all season and I knew that they had a great chance to win.

I arrived at the stadium early and I sat in my seat, waiting for the game to start. I was so happy to be there and I knew that I would have a great time.

The game started and I was immediately impressed by the team's performance. They were playing well and I knew that they had a good chance to win.

The Mets started with a home run and I was excited to see how they would perform the rest of the game. They continued to score and I knew that they were on their way to winning.

I was so happy to see the team playing well and I knew that they would be able to win the game. I felt like I was part of a bigger community as I cheered on my team.

In the end, the Mets won the game and I was so happy. I felt like I had been a part of something special and I knew that I would never forget this experience.

I was so happy to see the team playing well and I knew that they would be able to win the game. I felt like I was part of a bigger community as I cheered on my team.

Reagan adviser talks on political reform

By DAVID BORNSTEIN

Neryl Spinkul, chairman of the President's Council of Economic Advisers, yesterday described the pragmatists behind the political reform process to more than 40 peo-
ple in Logan Hall.

The adviser explained that "the any political initiative to succeed, its sup-
port must not only be two-banana - the battle of ideas - and also the battle of resources. Reformers must be "packaged and marketed" to con-
vince all concerned parties that change is desirable.

In theory, changes must be based on the Pareto efficiency model, in which "any social change is desirable if the results in either everyone being better off or someone being better off and no one else being worse off than before the change," according to Sprinkel. He defined "better off" as a position that one would choose volun-
tarily if one had the choice.

Sprinkel said U.S. tax reform is a lit-
timous, explaining that the Packwood Senate Finance Committee first introduced a revised version of their ideas in 1982. But Congress has not displayed the necessary interest, especially in the face of a projected deficit of $170 billion for 1987.

After Packwood rescued the bill, the 18 members of the Senate Finance Committee agreed set to "fine tune" the second time around. Ac-

Mets Mania
Series sparks gloating and grousing

By MICHAEL TOW

It was a battle of wills, a rare sight of spectacle that took on monarchical proportions for players and fans alike.

The 1986 League Championship and World Series, arguably the most exciting baseball postseason in over a decade, ended with a New York Mets victory over the Boston Red Sox, thereby ending years of failure, despair, fury and frustration among campus spectators.

The frenzied excitement of fans, baseball fans became evident weeks before the final seven contests between the Mets and the Red Sox, a battle of wills that took on momentous proportions. The feverish anticipation of anxious baseball fans became evident as the six-game National League Championship Series preceded a seven-game World Series, which both the Mets and the Red Sox took on with a lot of pressure.

The scenes outside the stadium were lively, with throngs of fans cheering for their teams.

A Mets fan, freshman Shelly Wolfson, said, "I want to see them win, but I don't think it'll happen.

"I love baseball," said another fan.

"It was fun," freshman Chris Havice said. "It's the legacy." Freshman Ron Levinson about the Mets victory in game seven.

"I've never seen a better Series," freshman Nicole Snow enthused.

"They're losers," screamed freshman Mehrdad Samardani.

"They're losers," screamed freshman Melvynad Samardani.

"How else can you sum up a 6-year victory?" said another fan.

"The Mets didn't deserve to win — they kind of got it on the Red Sox," freshman Raji Malik added. "Sure, I'd like to see the Sox in the series again."

"After what happened Saturday, I just don't care anymore," freshman Charles Katz said. "It's the legacy." Freshman Chris Mccohock said. "This is a remarkable, unbelievable victory over the Boston Red Sox, it's the legacy that took on momentous proportions for players and fans alike.

"It was a battle of wills, a rare sight of spectacle that took on monarchical proportions for players and fans alike.

A Mets fan, freshman Shelly Wolfson, said, "I want to see them win, but I don't think it'll happen.

"I love baseball," said another fan.

"It was fun," freshman Chris Havice said. "It's the legacy." Freshman Ron Levinson about the Mets victory in game seven.

"I've never seen a better Series," freshman Nicole Snow enthused.

"They're losers," screams
They shaved my head. It was when I was in the Army and I didn't have any trouble because I didn't have to do anything. (People who don't have any hair don't have any trouble because I'm looking forward to being bald.)

It was great being bald. The best haircut I ever had. The important thing to do when you get a haircut is to be satisfied with it. You should feel that you've got some kind of a philosophy.

The director hopes to make the architecture of the building an additional reason to visit the office. "I would like to make this a lovely place to visit so people can see the kind of living that's available," she said. "Many students are0riorizing houses of this period." According to Morrison, some of the least five human hands. The return address on the envelope was that of Specter's Center City office. Police searched the doctor's office August 14 and found eight pairs of frozen human ears and notations linking employees at medical schools, including the University's, with Spector's Center City office. The investigation into the case began this summer after United Parcel Service workers in Philadelphia brought "an ear" and reportedly found at least five human hands. Barry Leonard, Crimper

Let's say you come back in a month, six months, a year, and say, "I want the same haircut I had last time." By spooling your tape I can duplicate the cut. Or, you can show me what you didn't like about your last haircut. I don't like hearing complaints, but if you want to express yourself, I want that to cover it. I believe that if you get a good haircut, you'll walk out of the door with a smile on your face, people will tell you how good your haircut looks. And the world will be a better place to live.

That's my philosophy.
UA asks for Spring Fling refund

Phys. Plant accused of overcharging Fling group

By Dena Gitikman

The Undergraduate Assembly passed a resolution at their meeting this week asking Physical Plant to reimburse the Spring Fling committee $4,000 for "unreasonable overcharges relating to last year's Fling and to revise its cost allocation and administration procedures."

Prior to 1985, Physical Plant generally charged the committee approximately $6,000 for its work during Fling, according to UA Treasurer Jeff Zajkowski. But that year, the department charged the committee $12,000, citing the extra work done on Hill Field after a fireworks display.

Physical Plant gave the 1986 Fling committee an estimate of $6,000 before the event but in April billed the committee more than $12,000, claiming higher costs due to Quadrangle renovations.

Zajkowski said Monday that Physical Plant "knew the Quad was undergoing renovations when they gave the estimate of $6,000," and should not have charged the committee much more than that.

"They screwed up on their estimate, and I don't think the Spring Fling committee should pay," he added.

The proposal asks that Physical Plant observe a price ceiling of $6,500 for work done during Spring Fling and that they adhere to price estimates. It also requests that Physical Plant's current authority to charge student groups without the group's knowledge be revoked.

Zajkowski also said that the increased maintenance costs could force the committee to reduce the length of Spring Fling.

Physical Plant's estimate for this year's Spring Fling is approximately $15,000.

Physical Plant controller Bruce Graig declined to comment on the resolution, saying Monday that "as of now, we don't know exactly what the problem is." He added that he plans to investigate the matter.

In other business, the UA passed a resolution calling for the creation of non-work-study research jobs.

According to Coalition for Equal Employment Opportunities at Penn President Curt Olbricht, it is nearly impossible for non-work-study students to be hired for research positions.

"I was not able to find a research position, and I applied for two dozen jobs," Olbricht, who is not a work-study student, said Monday.

"Departments basically get free labor if they hire work-study students, so they do it," he added.

Olbricht, who said that research jobs are important for undergraduate planning to apply to graduate school, hopes to start a University program creating non-work-study research jobs for "between 30 and 100 non-work-study students.

Booz-Allen & Hamilton presents

"The Research Associate's Role in Management Consulting"

Wednesday, October 29, 1986
Steinberg/Dietrich Hall
Room #351
5:00 p.m.
Reception to follow
Farrakhan speech may be jeopardized

(Continued from page 1) Minister Farrakhan decides not to come.

Conference organizers yesterday released a detailed schedule of events, which include speeches by Southern Christian Leadership Conference President Joseph Lowery, former Congresswoman Elizabeth Eckford and former Congresswoman Barbara Jordan.

The event will begin Thursday at 7 p.m. with an address by SCLC Leader Joseph Lowery at the University Museum.

The conference will be run by student volunteers and is expected at this and future workshops.

Campus to host pro-Israel conference

(Continued from page 1) Hundreds of students. The keynote speaker Saturday night for the black history conference is Nation of Islam leader Louis Farrakhan, who has made remarks which many have considered anti-Semitic.

The Jewish Campus Activities Board (JCAB) is co-sponsoring the event. JCAB Director Lauren Sandier said yesterday that the conference has two purposes — to highlight the importance of working on the behalf of Israel and to motivate the Jewish community on campus.

“We are Jews feel it is quite appropriate to work on behalf of Israel,” Alpert said. “We feel that it is our responsibility to show our support for the value of Israel to America.”

The conference will be held in Houston Hall. Registration is mandatory, with a $4 fee for pre-registration and a $5 for the day of the conference. Students are invited to register this week at Hillel or at a table on Locust Walk.

There's more to life than drink!

WHAT MOST PEOPLE THINK

HOST ALCOHOLICS ARE SKID ROW DRUNKS

MOST ALCOHOLICS ARE OLD PEOPLE

NOT MANY WOMEN ARE ALCOHOLICS

WHAT PEOPLE SHOULD KNOW

Only 3.5% are. About 70% of other nation's alcoholics meet these criteria.

Research indicates that the higher proportion of drinking among women is due to cultural differences.

Women are catching up. In this area too, with the ratio of men to women drinkers at better than 3 to 1.

It's not how much you drink, it's when, how and why you drink that's important.

It's Worth a Closer Look

Monday night's presentation by medium size
public accounting firms has been rescheduled to
Wednesday, November 5 from 7-9 p.m.

Accounting students are well-rounded individuals,
therefore, due to the change in the 7th game of
the World Series, we felt it best to reschedule
our presentation.

We look forward to meeting; with everyone next
Wednesday and apologize for any inconvenience
this may have caused you.

Eckel returns to top form for W. Cross Country

"I know that Sue would be back," Eckel said, "but I didn't know if she could make a comeback. It has been very successful for her."

Although her success this season is similar to the type of triumphs she experienced in the past, she does not accept her achievements at face value.

"I'm not the same," Eckel said, "I can't do the same things, but I can accept my limitations. If you love, you lose. There is always the next time."

Nevertheless, the intensity is back. So is the determination to win, the will to win, and the concentration.

Eckel's approach to running is so refined that she has achieved a tremendous effect on the younger Quaker women.

"We're hoping the Penn community is on a group performance in the spring," Thomas said. She would like to see her team on a mission. Undoubtedly, she has emerged as the premier Quaker runner, setting a course she has never run before.

"On the course," Eckel said, "I feel that I've given my best effort."

"On the course," Eckel said, "I feel that I've given my best effort."

STAND UP TO THIS HATER!!

One of the more concrete goals the club wants to see the next season is to increase awareness of the rink and Frank's former skating instructor, hopes the club will have a great time and a learning place."
New York hails its World Series champs

**New York** (AP) — The championship Mets basked in sunshine, centered on one street corner, and seemed to have underestimated 2.2 million New Yorkers who bolted their homes in a thunderous, chaotic ticker tape parade.

"It's a frickin' party," said the city's mad parade manager, George M. Steinbrenner, the New York Yankees' owner.

The Mets' victory parade, sponsored by MasterCard and Diners Club, was the major event of the month and drew a crowd that dwarfed those at the World Series games in buds. The parade started at 11 a.m. and moved on the south side of the city, west and north to Manhattan, where the Mets beat the Boston Red Sox in the World Series.

"We're in the thick of it," said Mike Steinbrenner, the team's president. "We're going to have a great day." 

The parade was a celebration of the Mets' first world championship, which they won in 1969 by defeating the Baltimore Orioles in seven games.

"We're going to have a great day," Steinbrenner said. "It's going to be a great day."

Bill Bushnell leads the pack for Men’s cross country

By LEN ADORNO

This is a story about an exceptional runner, a cross country star, who, however, do not enter on the all-American team. A story of how everyone has become accustomed to running in relation to exceptional athletes.

The cross country runner you are about to begin reading at the story of his father. This young man did not have a chance to become a star runner. The phenomenal runner of more than one year, he was the best. As a matter of fact, Bill Bushnell’s first taste of running did not occur until his senior year at Princeton (N.J.) High School. He was a high school player on my no. One team. As a matter of fact, Bushnell decided to attend the school as a result of his father’s influence. This young man did not have a chance to become a star runner. He was the best. As a matter of fact, Bill Bushnell’s first taste of running did not occur until his senior year at Princeton (N.J.) High School.

Bill Bushnell concentrated on soccer and running and did not occur until his senior year at Princeton (N.J.) High School. He was a high school player on my no. One team. New club skates on campus

By BILL ROY

Just before 2 pm, on Friday afternoon, the members of the Pennsylvania State University's newly formed hockey club started to arrive at the rink. Shortly thereafter, 30 people, including students and staff, sat down to the designated weekly meeting time for the club.

Over 100 people have expressed interest in the club since its first meeting on March 11. The club was founded with help from Jason Thomas, a Franklin graduate who is currently a senior at Penn State and a member of the club last year when he began skating seriously under the guidance of Eric Thomas.

"I (had) to see this team, and I knew a lot of other people who had to see it," said Frank.

"We have a lot of people who have been interested in ice skating, ranging from the Penn men's ice hockey club to the Marled thinking about forming a club. It was surprising to find that there are people here who have been interested in ice skating," said Frank.

"I founded the club with help from Jason Thomas, a Franklin graduate who is currently a senior at Penn State and a member of the club last year when he began skating seriously under the guidance of Eric Thomas. This is the story of how, someday, I would like to see this club grow into a bigger club," said Frank.
