report calls for changes in u. police

candidates call for public safety to take over residential security in penn hall

two studies to be outside security consultants on the department of public safety recommended improvements to the department's long-term management and an increased emphasis on community relations.

the reports propose significant changes, including the absorption of residential security into public safety and the creation of an administrative position to relieve director john lupin of day-to-day responsibilities.

the three consultants reached similar conclusions, and one added for being more officers. one report was written by philadelphia police captain thomas coney and university of washington police chief michael shaubach.

the other was written by lisa sommmer, president of a private security consulting firm in philadelphia.

the detailed analysis of the department proposed numerous changes in departmental operations, both were highly praised and shared copies of the entire report to the police department.

the reports were presented to president sherman hinkley, provost michael mcclure and other members of the university, but administrators declined comment, saying that the new time was to digest the material.

the administration will begin discussions on implementing the suggestions in the coming weeks, but it is still to be determined whether the recommendations will be implemented in part or whole.

senior class board removes press ban for elections

randall lane

the senior class board has decided to eliminate the press ban from elections for the class of 1989 board elections.

class board-elect chairman brady frey said last night that he supported the class's decision to take the press ban off the table.

one of the main concerns about the press ban is that it gives the students who provide the security for the building less information about the candidates and their positions.

the ban was enacted in an effort to protect the security personnel from the scrutiny of the press.

senior vice president helen o'bannon coordinating the department.

the reports propose several significant changes, including the absorption of residential security into public safety and the creation of an administrative position to relieve director john lupin of day-to-day responsibilities.

Today is the Last Day to Apply for

GRAND ARENA VII

Apply:  High Rise North
        Upper Lobby
        9 AM - 5 PM

You will learn your Arena number and appointment time by April 5. Off-Campus students should pick up their tickets in the Assignments Office beginning April 5.

The tans can’t last. The credits will.
Dibble's digging device widely lauded

By ANY ARD

A high-tech, computerized excavation system developed by a University archeologist promises to revolutionize the field of archeology by making widespread media attention and may revolutionize the job of archeologist itself. Assistant Professor Harold Dibble is currently using the new device to excavate artifacts at the La Quiva site in southwestern France.

The instrument, which Dibble described as "a computer scanner," operates by electronically measuring the coordinates of artifacts as they are excavated. According to Dibble, the device not only increases the speed of excavation, but also allows archeologists to record the exact position of each artifact, which can later be plotted on a computer-generated map.

In addition to increasing productivity, the system also provides valuable data for future analysis. "It's like having a virtual map of the site," Dibble said. "We can see patterns and trends that might not be apparent using traditional methods." The data can be used to study the site's history and to make informed decisions about future excavations.

Dibble's device is becoming increasingly popular among archeologists, who see it as a significant advancement in the field. "This is a game-changer," said Dr. Jane McPherron, another University archeologist. "It's revolutionizing the way we dig."
### In Brief

#### Human Resources cuts red tape

By PATRICK D'ONNELL

An attempt to eliminate red tape and streamline operations, Human Resources Vice President Helen O'Bannon has announced the addition of a more efficient and effective department. In an attempt to cut red tape and streamline operations, Human Resources has introduced a new system that allows for more freedom for in-house employees. "More people will be able to do more work, and we'll be able to streamline operations," O'Bannon said.

#### Engineered summer jobs

In an attempt to cut red tape and streamline operations, Human Resources has introduced a new system that allows for more freedom for in-house employees. "The system is designed to be more efficient and effective," O'Bannon said. "We believe that this will lead to a more productive and efficient working environment."

#### Seminar Dual Career Couples

A seminar on Dual Career Couples will be held at the Spectrum on Tuesday, April 5, following the conclusion of the event.

#### Sigma Alpha Mu sponsors benefit

The brothers of Sigma Alpha Mu are sponsoring a benefit concert to support the American Heart Association. The concert will be held in the Shirleys, and all proceeds will go to the association. The competition, which will feature many of the university's top musical groups, will be held on the campus on April 2.

Greek forum set for Saturday

By CAROL VINZANT - Between 100 and 200 fraternity and sorority leaders will meet tomorrow afternoon at the Penn Tower Hotel in the Second Annual Fraternity and Sorority Leadership Conference to discuss current issues in Greek communities around the country.

The afternoon will include two speeches attended by all and two seminar sessions in between. The leaders will have several choices when choosing which seminar to attend.

Kicking off the conference will be a speech by Eileen Stevens, founder of C.H.U.C.K., the Committee to Halt Useless College Killing. Stevens' son, Chuck, died in 1978 after he was locked into a car trunk by the fraternity he was pledging and forced to drink a large quantity of alcohol. Since her son's death, Stevens has lobbied for anti-hazing legislation.

"I have said before I am not anti-fraternity," Stevens stated in a pamphlet distributed by the national Sigma Alpha Epsilon fraternity. "I am anti-abuse."

One of the seminar options includes a discussion entitled "Racism and Sexism at Penn: How fraternities and sororities can be a part of the solution not the problem." Fraternity and Sorority Affairs Director Bruce Arnold said yesterday that he arranged the speech this fall, not in reaction to the recent incident involving the Zeta Beta Tau fraternity.

"I think all students at Penn could benefit from this program," Arnold said. "It's to encourage people to help us understand each other, treat each other with respect in a civil environment."

Other seminar topics include "The How-to's of Successful Meetings," and "Recognition/Governance Policy comes to Life.

The conference's closing key speaker will be Mike Green, president of Collegiate Consultants on Drugs and Alcohol. Green will discuss responsible social hosting.

Conference attendees will include newly elected officials of each fraternity and sorority and members considering running for a position.

One student said yesterday that he feels students that attend the event will have an advantage when running for elected positions within their respective fraternities.

"The ones that seek the positions and go may have the edge on those who don't," said Matt O'Connel, president of Sigma Alpha Epsilon fraternity.

O'Connel, who attended the event last year, highlighted the opportunity that the event gives the Greeks to discuss current issues in "a forum of peers."
The Arab-Israeli Conflict: More Questions Than Answers

Lessons from a Hostile Past

By Greg Bell

The Israelis are distinguished. They are courageous and enterprising. After all, they are a people of a small country who have a natural right to Israel, referred to as Palestine by the Palestinians. Before drawing any conclusion on the events taking place in the Occupied Territories, it is necessary to understand the events and ideologies that have brought us to this point in time, there were Jews living in Palestine safely.

The British government, realizing that the Jews “as representatives of Western civilization” had no intention to enter the land, and they wanted the Jews already living in Palestine to be kicked off the land.

The British government, realizing that they could not adequately enfranchise a solution to the continuing conflict, appointed a commission to investigate the situation, the Arab Palestinian and Jewish people, and agreed in the resolution. The Palestinians, however, not only rejected the plan but fought against it, leading to the establishment of the State of Israel in 1948.

The existence of the Palestinian Liberation Organization (PA) led to the imposition of a partial cease-fire, and the establishment of the Palestinian Authority in 1994.

In 1967, the Jordanian government overran the West Bank, and the United Nations Security Council resolution 242 was passed, calling for the withdrawal of Israel from the occupied territories and the establishment of a Palestinian state.

Since 1967, the conflict between Israel and the Palestinians has continued, leading to the establishment of the Palestinian Authority in 1994, and the Oslo Accords in 1995. The conflict has resulted in the deaths of thousands of people, with both sides blaming each other for the violence.

In conclusion, the conflict between Israel and the Palestinians is complex and multifaceted, involving issues of national identity, historical memory, and the quest for self-determination. The resolution of the conflict will require a commitment to peaceful negotiations and a recognition of the rights of both sides.

Two Palestinians killed in West Bank

JERUSALEM (AP) - Two Palestinians were killed in a shooting attack by Jewish settlers who also shot at a number of Israeli soldiers in a nearby village.

A Knesset committee has announced that it will hold hearings on the issue of Palestinian settlements in the occupied West Bank, including an area controlled by Israel.

The committee was formed by members of the Israeli parliament who are opposed to the policy of allowing Jewish settlers to live in the occupied territories.

A Palestinianpmn has been killed in an Israeli military operation in the West Bank.

The operation was carried out near the town of Tulkarm, where Israeli troops had been searching for the man accused of planning the attack.

A statement from the Israeli military said the man was killed when he was shot by Israeli soldiers who were trying to arrest him.

The man was identified as a 35-year-old Palestinian, who was wanted for his role in the attack.

The attack occurred during a night operation by Israeli forces in the West Bank town of Ramallah.

The man was said to have been involved in a number of incidents in the area, including the murder of an Israeli soldier in 2001.

The Israeli military said it had information that the man was planning to carry out another attack.

The operation was carried out after the Israeli government announced that it would be sending more troops to the area to deal with the rising number of security incidents.

The military said it had found evidence that the man was planning to carry out another attack involving Jewish settlers.

The man was said to have been planning to attack a group of Jewish settlers in the area, but the Israeli military said it had managed to intercept the attack.

The operation was carried out near the town of Nablus, where Israeli forces had been searching for the man accused of planning the attack.

**Bell of Pa. attempting to end confusion about charges**

**Off the Wire**

Compiled From Associated Press Dispatches

The announcement comes just three days after the state attorney general and the dean of Needleman's Law School suggested that Needleman be disbarred for his association with Jay S. Kimball, a convicted fraudster.

**Budget proposal includes tax hike**

Mayor Wilson Goyde yesterday unveiled a $30 million budget that includes $16 million in new taxes to help "meet human needs, create jobs, promote economic development, care for and nurture our children and revitalize our neighborhoods."

The tax increase for fiscal 1989-90 would bring the city's tax revenue to $1 billion, leaving $1 billion in the city's budget that would not cover the city's needs, Goyde said.

"Making changes in employee contracts and increased taxes represent the core restoration on which we will build our future," Goyde said yesterday. "I believe the budget is a home run. Now it's a question of seeing how many we win and how many lose in the upcoming election." 

Alone or more, who owns a shoe store and has three nephews in the same profession, is the owner of a shoe store that has been in operation since 1970 and the townshippers have a "stitute" in the town.

"We are going beyond what normally we do to strengthen and clarify and assure customers that all of our allegations will be substantiated," said Bell was taking specific steps to resolve the confusion around the options, including clarifying instructions to the sales representatives and making information available in their stores.

**Nigerian cease-fire brings hope for peace**

**Chicago** - President was roundly criticized for his handling of the Iranian hostage crisis, but he praised the dollar strength, saying it is "a bad day for the cynics," and add that the truce leaves "no ex-

President George Bush, who has been in office since 1981, welcomed a Nicaraguan cease-fire that has cost the nation jobs. 

"This is the most important day of my life," said a campaign aide to the nation, saying that it was the first lime since 1981. One man said: "I am taking a chance to achieve peace and we consider this agreement to be a sign of hope for the future." 

Secretary of State George Shultz, who was in the room when the cease-fire was announced, called it a "miracle." and added: "We believe we could make the most important step to end the hostilities in Nicaragua." "We are going beyond what normally we do to strengthen and clarify and assure customers that all of our allegations will be substantiated," said Bell was taking specific steps to resolve the confusion around the options, including clarifying instructions to the sales representatives and making information available in their stores.

**Congress and Reagan**

**Washington** — Congress and the White House, which had already welcomed a Nicaraguan cease-fire agreements, last night said it would not settle a new era of international relations, but said it would do to strengthen and clarify and assure customers that all of our allegations will be substantiated," said Bell was taking specific steps to resolve the confusion around the options, including clarifying instructions to the sales representatives and making information available in their stores.
HOSPITALITY. From page 9

Jacobs said that the reason for the change was that the management company, Horizon Hotels Limited, and the University could not reach an agreement on how to manage the hotel.

According to Beneski, food quality. And although he acknowledged that University had achieved, especially its numerous accolades received for its Hospitality Services began in 1974 and included only Dining Services, where Jacobs began at the University.

Despite all its successes, Jacobs knows that Hospitality Services began in 1974 and included only Dining Services, where Jacobs began at the University.

According to Beneski, " Most of my success has been blind luck," he joked.

One of these successes is the hotel. According to the latest auditor's report, the hotel has gone from a considerable annual loss to turning a profit. Jacobs attributes much of the hotel's success to his general manager, Marla Banta, whom Jacobs holds in very high regard.

He said, however, that the main purpose of the hotel is "not to make money." Instead, he sees the hotel as a way to improve efficiency through a management company, the University's 18th Police District contains all reported crimes and suggestions for improvement.

Security consultants urge changes in Public Safety

To be sure, any violent crime is too much, but the situation, the consultants say, is even more critical.

The most significant proposal in the reports is a recommendation that the department create a central security system. The reports express concern that the department's five residential Living and individual schools employ private security guards.

"In areas less critical than safety and security, the arrangement might suffice," Cooney and Shanahan write, "but on the critical aspects, safety and security, it exists in the University's environment in sufficiently overlapping so as to provide dividing accountability, responsibility and authority between two departments with very different focused interests: Residential Living and Public Safety.

"...

...Somerson does not specify that guards should be placed under Public Safety, but he writes that all guard contracts should be standardized under a single University policy. As a result, the consultants state, there is not sufficient time to identify all of the activities necessary for a new system.

...Somerson's report says.

...The system is not as straightforward as Public Safety can operate efficiently, or any guard service will be able to coordinate a security management system that will be sufficient for the entire University, even if other public safety systems are currently in place.

...The consultants state that the present security system is insufficient compared to those in surrounding communities.

...The reports claim that the present system of the major guards is not efficient enough to provide better campus coverage.

Presently, two officers for each shift and one civilian employee in the Office of Public Safety for each shift.

...The LaserWriter II line offers the individual Macintosh user excellent full page text and graphic printing capabilities at an affordable price.

The LaserWriter II line lets individuals and workgroups produce a range of professional quality documents from letters, memos and reports to newsletters, fliers and brochures. The LaserWriter II line provides unparalleled performance and fidelity for those with high-volume printing requirements and those with advanced page layout and document processing needs.

Come be among the first to see the LaserWriter II line. There's a LaserWriter II for you.
Now's your chance to take advantage of an opportunity of a lifetime. You could be one of a select group of students to participate in a special 3-week internship program this summer in Tokyo. With all expenses paid!

It's the RECRUIT CO., LTD. INTERNSHIP PROGRAM. As part of our move to embrace the world, this program provides an outstanding opportunity to narrow international barriers by allowing students to experience the many different facets of Japanese business and industry, while working with top professionals in their fields.

FROM ADVERTISING AND PUBLISHING TO TELECOMMUNICATIONS

As Japan's largest publishing company, Recruit Co., Ltd. is involved in a wide variety of businesses in the information services industry. Our Information Magazine Business publishes career, real estate and overseas travel magazines. Recruit's Personnel Development Services is the largest in Japan's corporate education industry, providing professional assistance to corporations in the development of their human resources.

Recruit's Information Network Service holds one of the largest shares of Japan's telecommunications market, providing high-speed digital communication lines. Recruit's Remote Computing Services is helping to pave the way in the development of an international telecommunication network, bringing Japan, the U.S. and the U.K. closer each day.

SUMMER '88 INTERNSHIP
JUNE 19 thru JULY 10

PROGRAM ELIGIBILITY:
• College junior, senior or graduate student
• Preferably majoring in Computer Science, Electrical Engineering, East Asian Studies, or Business.
• MUST SPEAK INTERMEDIATE JAPANESE OR ABOVE, AND POSSESS ELEMENTARY JAPANESE READING ABILITY. NATIVE JAPANESE SPEAKERS ALSO ELIGIBLE.

APPLICATION MATERIALS:
• Resume
• ONE PAGE letter of intent stating why you would like to be involved in the internship program and its importance to your career development.

APPLICATION DEADLINE:
APRIL 15, 1988

So don't miss out on this extraordinary opportunity. Act now. A summer in Japan could make all the difference in the world to your future. Send your resume and letter to:

RECRUIT U.S.A., INC.

M. Fencing trails Lions in NCAAs

By ALAN SCHWARZ

The Penn men's fencing team hopes for a national championship this season, according to head coach Todd Freund. The Lions had three losses yesterday when they lost to Princeton in a dual meet.

"Joe Bibza (2-2, 2.92 ERA) and Steve Wieman's three walks and 20 strikeouts in 23 innings. They will.pre-

going into the game. We were going through the motions without caring." senior Sue North said. "We won," senior Sue North said. "Our last game was in April, and we were not at our best, and yet we won 7-0."

Defense is certainly what will keep the Blue Hens out of the scoring column. They are coming into their second game of the season (2-16). The improvement the team's defense to make a mistake before thinking, Noll pull out of their slump.

"They were beatable," Kai said. "They were beatable, and that's what they did this year. They won seven errors on which West Chester scored 10 or more goals last year, they will do better than we did during the time in the last five years — that loss will be a couple of good people in the team." said. "They did it in the first half, and it worked like a charm. It was a really tough loss early in the season."

Senior Sue North first baseman in the third inning, which began with the Rams leads, 2-0. Algerio said, "West Chester's (1-4) lost to San Diego with the game was over, "tired up to play.""

Penn's Cottage Fisher (right) leads the men's lacrosse team in Ivy League opener at Yale tomorrow. Senior Sue North and shortstop (6 foot 4), the Quakers have set their sights on play- ing in the NCAA tournament. "I was struggling." junior pitcher Algerio said. "I didn't have control of the ball and was struggling."

"We have a couple of good people in the team." said. "Then Navy swept the doubles. It was a really tough loss."

Villanova knocks off Kentucky
Oklahoma, Duke, Temple also triumph in regionals

**Top seeds Temple and Oklahoma were joined by Duke and Villanova in the NCAA regional finals on Monday.**

Temple (25-8), ranked No. 1 in the nation, routed Richmond, 84-62, to reach the East Regional at East Rutherford, N.J. Meanwhile on No. 3 Duke edged Rhode Island, 73-72, in the other East game.

Fourth-seeded Oklahoma won the over-time game for the 23rd time in 58 tries with a 109-107 escapade past Louisville at Birmingham, Ala. Villanova and Temple advanced to the title game, which will be played here on Saturday.

Temple will face Duke while Oklahoma meets Arkansas in the winners' bracket for the Final Four in Kansas City next April 2-4.

BY TIFFANY SPARKS

Nine inches, lo some, can be seen as quite a small advantage on the attack. But for Anne Sage, who towered over the other players on the field in Princeton's 19-2 victory over West Chester yesterday, it was her birthday. And the Quakers' leading scorer of the game, who at 5 feet 11 inches is smaller than other players, she makes her presence known.

"She's dominating on the attack," said team captain Karen McFadden. "It's just one of those things well," said junior goalie Wendy DiDomenico. "It's sort of her year."

By TIFFANY SPARKS

"It was her birthday," McFadden said. "And it gave her the go, a goal she doesn't have to score.

West Chester's goalies clearly didn't have a chance. It only took McFadden 16 seconds to retrieve sophomore Nicky Phear's face-off, race down to the Rams' cage and lose it."

"If you get the bounce, you get the goal," said Sage. "We were able to do that, four times our first half."

Despite the turnovers, the offensive pace of the Quakers was unrelenting. McFadden said, "My long arms are better for reaching balls," and she was able to score ten goals.

"The offensive coming together after our loss in the opener is great. It's a solid team and definitely are potential contenders," McFadden said. "We're a solid team and definitely are potential contenders."
