MOZART on the GREEN

By TINA GOLDBERG

Jay Brodsky/Oakland Pennsylvania Daily

The Roots String Quartet performed Mozart's sonatas.

"Let's put it into perspective," said Dr. Hoffman, "I think we're doing an excellent job in terms of the overall safety of the University's community."

According to the University's new alcohol policy, the fraternity house normally has a party at the College Green that draws as much time at the fraternity house as spending time at bars. But each side differs in its vision of what the College Green is supposed to mean, adding that the changes would have a "disruptive effect on campus life.

"I would be surprised if there were any franchises of the strict guidelines," said Dr. Hoffman. "I think it makes people feel like they're in an Ivy League school."

Goldschneider said he got the idea for the sonatas for his wife all afternoon at the concert. "We want to continue to strike or go back the union," he said. "Are we happy?"

The enactment of the new regulations throughout the Greek social system will raise the question of whether other chapters will risk the penalties which accompany the new alcohol guidelines.

"I'm sure it makes people feel like it's going to be more interesting," said Dr. Hoffman. "But we're keeping an open mind."
Dining Commons readsies for a new look

As an artist’s rendition of the renovated dining commons.

The dining hall will also provide space for outdoor activities, as well as provide more dining space for more students. The main staircase will be removed and one new staircase will be able to enter all four levels of the building.

Additionally, Canney hopes to implement a “scnette’s” system for serving food. Rather than only two options, students would be able to select from a variety of items.

And the Dining Services office has been permanently relocated to 308 Webster, in an effort to have more space available for seating.

Fraternities to cancel weekend parties due to new U. alcohol rules

PATTERSON, from page 1
be said, “I don’t think that any fraternity wants to have a party where last fall, the implementation of dry drastically altered the fraternity social scene. Before that, freshmen were geared up to party all the time, but now that the policy is in effect, they’re more thinking about going to lecture halls.”

The new crackdown on underage drinking, imposed by the University’s Alcohol Policy, is one of many recent actions taken by the university to prevent violations of the U. alcohol rules.

“I don’t see any solid reason for parties to continue,” commented a fraternity member.

Although one member suggested that the university reconsidere the policy, another stated that the new guidelines will be followed.

The university spokesman Virgil Kleinman noted that the new policy is part of the university’s effort to promote responsible drinking.

According to Kleinman, the university has taken a number of steps to educate students about responsible drinking, including the creation of a new student handbook and the development of an alcohol education program.

Kleinman also noted that the university is committed to enforcing the new policy, and that it will take a proactive approach to addressing violations.

Fraternity members have been asked to cooperate with the university in implementing the new policy, and to avoid hosting parties that violate the rules.

The university has also established a hotline for students to report violations, and has increased the number of alcohol enforcement officers.

The university has also established a hotline for students to report violations, and has increased the number of alcohol enforcement officers.

In addition, the university is conducting a study of the impact of the new policy on fraternity life.

Although the university has taken a number of steps to address the issue of underage drinking, some fraternity members remain concerned.

“We think that the university is taking a cautious approach,” commented a fraternity member.

However, the university spokesman noted that the new policy is part of a broader effort to promote responsible drinking.

Kleinman also noted that the university is committed to working with the fraternity community to address the issue of underage drinking.

The university has also established a hotline for students to report violations, and has increased the number of alcohol enforcement officers.

New program links technology, business

By TINA DILL HILL

Beginning this semester, the Graduate School of Engineering will include a program designed to accelerate the merger of technology and business.

The Executive Master of Science in Engineering (ExMSE) program will enable 14 individuals with degrees and professional experience in engineering to acquire a foundation in business and the sciences.

Several technological corporations, including Bell Atlantic, American Telephone and Telegraph, the Philadelphia-based Rohm and Haas chemical company, Lockheed, Rockwell International and the Unisys corporation, are funding the program for its first two years. The companies collectively donated $400,000 and, together with the Philadelphia-based American Telephone and Telegraph, the Unisys corporation, are funding the program for its first two years. The companies collectively donated $400,000 and, together

Approximately half of the program’s courses fall under the category of “Advanced Technologies,” focusing on the scientific and engineering aspects of technological advances and their relationship to the world of business.

The second group are seeking to improve their performance within their current companies, Jaggard added.

“Engineering is very people-intensive,” he said. “With a global scale, graduates will become more competitive.”

The ExMSE program will take students two years to complete. Students will meet on Fridays and Saturdays every month at the Penn Tower Hotel.

The ExMSE program will take students two years to complete. Students will meet on Fridays and Saturdays every month at the Penn Tower Hotel.

The Executive Master of Science in Engineering (ExMSE) program will learn the skills they need to become more competitive.

Additionally, the program’s director and an electrical engineering professor, Joseph Bordogna, emphasized the interdisciplinary nature of the program.

“Business is becoming an integral part of engineering,” he said.

Dr. Bordogna explained the background of the ExMSE program.

“Engineering is very people-intensive,” he said.

“With a global scale, graduates will become more competitive.”

And keep it in check for life.

Unveiling of electronic security system slated for early next week

Helen Goff
Office of Residential Living officials said they expect the electronic security system installed in the Superblock residences and the Quadrangle this fall to improve safety and security. The system, which serves mainly as a deterrent to intruders at the door, is to be installed in Quadrangle and Superblock residences. Residents will have to show their identification cards only if they pass the security desk to be admitted. Residents in the Quadrangle and Superblock will be able to enter their door by passing through an electronic scanner. The system will also be introduced to Quadrangle in the Superblock residences and the Quadrangle.

Students will be able to use their student cards in the Superblock residences and the Quadrangle only if they pass the security desk to be admitted. Residents in the Quadrangle and Superblock will be able to enter their door by passing through an electronic scanner. The system will also be introduced to Quadrangle in the Superblock residences and the Quadrangle.

Residents in the Quadrangle and Superblock will have to show their identification cards only if they pass the security desk to be admitted. Residents in the Quadrangle and Superblock will be able to enter their door by passing through an electronic scanner. The system will also be introduced to Quadrangle in the Superblock residences and the Quadrangle.

After this weekend, high rise and Quadrangle residents will have to show their identification cards to be admitted. Residents in the Quadrangle and Superblock will be able to enter their door by passing through an electronic scanner. The system will also be introduced to Quadrangle in the Superblock residences and the Quadrangle.

Despite the added security officials said the card readers will provide, some students and parents yesterday that they will be more of a hindrance than a help.

"I'm worried about the hassle and the hassle, said Engineering student Randy Schnell. "I don't think it's necessary, I had only right now."

Students said the system will not be much of a hindrance and will be a help. There are some cases, according to officials. A Quad security guard demonstrates the new ID card, which is displayed here.

Pressure is on for schools to limit children’s reading

WASHINGTON (AP) — Schools and libraries face mounting pressure to remove the books children read, according to a report by the American Association of School Administrators.

"Pressure that could result in censorship is increasing, and that has an adverse effect on the ability of the schools to provide a broad-based education for children, who will be our future leaders," said Judith Krug, director of the association’s office for intellectual freedom.

This pressure comes from people who want to impose their views on the educational system by removing or restricting use of certain materials, according to the report. "Censorship and self-censorship is an attack on the schools," the report said.

The study was published jointly by the administrators group and the American Library Association.

Over the past five years the number of challenges to library books and school materials increased by 73 percent, the group said. "We are seeing an increase of these people seeking to censor materials on their own," said Judith Krug, director of the association’s office for intellectual freedom.

"There is a growing sense of anxiety among those people who deal with these issues," said Judith Krug. "We are seeing a lot of confusion in the public about what's happening in the schools."
World

Soviet official admits abuse of power

Soviet official, quoted by his Moscow newspaper, said a top Soviet official has admitted abuse of power.

The official said that he had been guilty of abusing his power when he was responsible for the security service.

He said that his actions were motivated by his desire to maintain order and discipline in the country.

Soviet leaders have been under pressure to crack down on corruption and abuse of power.

The official also admitted that he had used his position to cover up corruption.

The news comes amid growing protests against corruption in the Soviet Union.

Bangladesh flood victims, aid difficult

Bangladesh flood victims were struggling to meet the challenges of their flooding and disease crisis.

Bangladesh, one of the most densely populated countries in the world, has been hit by severe flooding and disease outbreaks.

The government has been issuing warnings about the dangers of drinking water and sanitation.

However, aid efforts have been hindered by the challenging terrain and infrastructure.

The situation is particularly severe in rural areas, where many people are living in temporary shelters.

Power supply failures are also a major issue, as electricity is essential for water purification and sanitation.

Researchers: Condom use sensitive

Researchers have found that condom use is more sensitive than previously thought.

The study, published in the journal "Condom Use," found that condoms can be more sensitive to the size and shape of the penis, as well as the amount of lubrication used.

This information can be useful for couples in choosing the right type of condom for their needs.

Shuttle test sparks optimism for flight

The shuttle test flight is seen as a significant step towards a successful space shuttle launch.

The test flight was successful in demonstrating the shuttle's ability to operate in the low Earth orbit.

It is expected to pave the way for future space shuttle missions.

First nuclear missiles neutralized in Texas

KANSAS CITY, Mo. — Like many other Kansas Cityans, I was surprised to see two Polaris nuclear missiles be neutralized yesterday, becoming the first of 851 U.S. missiles to be eliminated under the U.S.-Soviet intermediate range treaty.

Hundreds of people, including Vice President George Bush and a team of Soviet inspectors, watched the missiles be neutralized. Yesterday's event was part of the first of six regional neutralizations scheduled to take place by the end of the year.

Undercover police to infiltrate drug zones

YELLOWSTONE NATIONAL PARK, Wyo. — For those first in line, today is a beautiful day. A few small pieces of the ancient national park, designated by the U.S. government as a national park more than a million years ago, are now open for exploration.

For me, this is a lovely day. I've been holding a camera on the edge of Yellowstone National Park, watching the animals and the landscape. I see the park's majesty in all its glory.

Today's weather is perfect. The temperature is a comfortable 50 degrees Fahrenheit, and the sky is clear.

A few small pieces of the park are open for exploration, including the famous Old Faithful geyser, which is 18.8 miles east of the park's boundary.

Undercover police to infiltrate drug zones

YELLOWSTONE NATIONAL PARK, Wyo. — For those first in line, today is a beautiful day. A few small pieces of the ancient national park, designated by the U.S. government as a national park more than a million years ago, are now open for exploration.

For me, this is a lovely day. I've been holding a camera on the edge of Yellowstone National Park, watching the animals and the landscape. I see the park's majesty in all its glory.

Public Safety union to vote on contract

OFFER, from page 1

Outlook Monday.

Even though the union negotiators reported the first tentative contract to the union's vice president, Hugh McIlwain, said yesterday, the negotiating team still "can't comment on the contract to the body of the union" if he added that he could not predict the outcome of today's vote.

Carroll Thomas, a Public Safety officer, said that the offer is "not acceptable" but added that many officers may still vote in favor of it. "Basically, [administration] still don't want to toe the line like police," Thomas said. "They make sure they get the best, and that's not what they're doing."

Thomas said that the monetary aspects of being out of work and the contract they're willing to accept from the University to continue receiving medical and life insurance will determine whether the University will continue with the strike. "We have an ethical obligation to get back to work," Thomas said. "It's not a dollar and cents issue, but you have to eat."

Barbara Huitmil, the union's negotiating team leader, said that the University would not talk about the University's role in the current strike until they are completely satisfied. She said that the University would not talk about the University's role in the current strike until they are completely satisfied.

INTERESTED IN USING ON-CAMPUS RECRUITING?
December '88 and May/August '89 Graduating Students

If you are planning to use the On-Campus Recruiting Service at any time during the year, you MUST attend an Orientation Session.

CAS
(all session in Houston Hall)
12:00 - 1:30
Sept. 12 - Ben Franklin Rooms
Sept. 13 - Zabriskie
Sept. 14 - Ben Franklin
Sept. 15 - Ben Franklin
Sept. 19 - Ben Franklin
Sept. 20 - Ben Franklin
Sept. 21 - Ben Franklin
Sept. 22 - Ben Franklin

(call 898-7529 to sign up)

Wharton Undergrad
(all sessions in SH/DH)
4:30 - 5:30
Sept. 12 - Rooms 1206
Sept. 13 - Rooms 1206
Sept. 14 - Rooms 1208
Sept. 15 - Rooms 1210
Sept. 20 - Rooms 1206
Sept. 21 - Rooms 1208
Sept. 22 - Rooms 1210

(call 898-3500 to sign up)

Wharton Evening
(all sessions in CPSS, Suite 20, McNel Bldg.
5:30 - 6:15
Sept. 15 - CPSS Library

(call 898-3500 to sign up)

GSAS/GFSA/Annenberg
(all sessions in Houston Hall)
Sept. 20
12:00 - 5:00 - Rider White Room
6:00 - 5:00 South-Pressman Room

(call 898-7530 to sign up)

PLEASE NOTE: All sessions for all schools have limited seats! Sign up for the session of your choice in CPSS.
Agassi downs Connors in U.S. Open

Lendl easily defeats Rostagno, is slated to meet Agassi in semifinals

NEW YORK — Andre Agassi, who got off to a fast start against John New- man when he was 4 years old, ended the first set by a mere 6-3 at the U.S. Open. Agassi, 39, tossed off the fluorescent champion 6-2, 7-6, 6-1 in 2 hours, 21 minutes, not 56 seconds after his last match at the U.S. Open.

"For him to lose in 18 years would just put an asterisk after his name," said Agassi, who is 19 years old. "I had no business in there, let alone win.

Bears’ Dent appeals suspension

CHICAGO — The agent representing Chicago Bears punter Michael Dickerson said Wednesday that the NFL has until today to overturn a suspension of his client for the season.

"It’s still on appeal," agent Steve Zacker said, calling the NFL’s request for Dickerson to submit to a random urine test. "We are a good drug policy, a strong drug policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han- dled on correct policy, but it must be han-
NLI president Giamatti named baseball's next commissioner

NI president Giamatti named baseball’s next commissioner

MONTREAL - Angel Giamatti, the National League president, was named as baseball’s next commissioner to succeed Peter Ueberroth, who will step down next week.

Giamatti was chosen by a 15-2 vote by owners at their winter meetings meeting in New Orleans Monday night. The owners had agreed last week to accept the new commissioner when they were on the verge of a strike.

Giamatti will begin his term March 1, when he would be 38. He will be the youngest commissioner in baseball history.

Giamatti was named to the New York Yankees’ board of directors in 1968 as a 19-year-old Columbia University student. He was named vice chairman of the board in 1982.

Giamatti will replace Ueberroth, who has been commissioner for the past three years.

Tyson denies report of attempted suicide

NEW YORK — Boxer Mike Tyson denies a report that he tried to kill himself in a New York hospital last Wednesday.

Aides to Tyson, who has a reputation for wild behavior, said that Tyson was not suicidal and that the story was false.

A hospital official said that Tyson was taken to a hospital after a suicide attempt on Wednesday.

Tyson, who has a history of mental illness, had been taken to the hospital earlier in the week for a mental evaluation.

Tyson’s aide, who asked not to be identified, said that Tyson was not suicidal and that the story was false.

Quakers looking to use wideouts more in 1988

Keys, Waller still provide potent ground attack

BY WILLIAM BROWN

The Philadelphia Inquirer, which had been closely
monitoring the Quakers running game throughout the season, was impressed by the team's ground attack. Despite the loss of leading rusher Bill "Speedy" Morris during the season, the Quakers managed to maintain a solid running game. The Inquirer noted that the returning running backs, such as Keith Moore and Bryan Keys, were "as effective as ever." The article also mentioned the Quakers' success in converting field goals, with 10 of 13 attempts made during the season.

Beeten resigns from post...

By ALAN SCHWACK

Herman Beeten resigned as head coach of the Penn men's basketball team, following a season in which the team struggled. Beeten had been head coach since 1981, and during his tenure, the Quakers had a record of 114-155. The Inquirer reported that Beeten had expressed a desire to spend more time with his family and pursue other interests.

Five years in one place is a long time. It's been very enjoyable for five years at Penn. In fact, it's the longest I've ever spent in one place. But at this point and age I had to do something. I was teaching water professionally, and needed a change.

Three years with the Quakers wasn't enough, but it was enjoyable. I didn't know anyone on the team who didn't like him. Susan Schneider said, "At first, I felt a little uncomfortable about his leaving. But for reasons better himself, and that's good.

Coach Beeten was a great teacher of fundamentals," Schneider said. "In practice, he taught us valuable skills and would work with us individually within the context of the overall scheme.

But that was always a great thing about Coach Beeten, was the way he was most comfortable in the trenches. He would get the bottom line of what he was most comfortable with and translate it to the next level.

In my view, he was the one who often had the best jokes to tell. He always has some good jokes to tell. I'm pleasantly surprised in his, 0111 strength.

To Penn's athletic department that have yet to be fully realized. I'm pleasantly surprised in his, 0111 strength. Personally, I've had a little more confidence in my ability to help him go.

Personaly, I've had a little more confidence in my ability to help him go. I'm pleasantly surprised in his, 0111 strength.
