**Officials finalize $10 million gift**

Campus center likely to be built at 36th and Walnut St. parking lot by S. MALFEH

After finishing a $10 million donation, University officials said yesterday that they have begun planning a new campus center to be located at 36th and Walnut Streets.

Administrators said that the building, which will contain the Bookstore, bookstore offices and a variety of other functions, will be built as part of a recently announced $10 million gift from the Clerys.

Clery, in his role as the University's first endowed Chancellor, announced the gift last fall. The University is expected to begin construction on the new campus center next spring.

University officials said that they hope the campus center will be a facility used by faculty members, administrators and staff as well as students.

"We are grateful to be able to give something back to the community," he said. "We have been in the community for so long, and we know that it is important to give back to the community that supports us."

**Brent Mitchell**

"I am going after the universities," Clery said. "They are not all to blame, but far too many are to blame."

"We want to ensure that the campus center will be a facility used by faculty members, administrators and staff as well as students. The new campus center will be located at 36th and Walnut Streets. It will be a facility used by faculty members, administrators and staff as well as students."

**U. student dies after 3 weeks at HUP**

**R. GILBERT THOMAS**

Crytta Leung, a victim of a brutal self-stabbing attack earlier this month, died yesterday morning after spending three weeks in a coma at the Hospital of the University of Pennsylvania.

Philadelphia police and medical authorities said that Leung, a 26-year-old student at the Wharton School, was attacked by an unidentified assailant while walking to class on Saturday, September 3.

Leung was in a coma until yesterday, when she died at 6:30 a.m. A medical examiner said that Leung died of a self-inflicted stab wound to the heart.

Leung was found in a pool of blood near the Phi Delta Theta fraternity house at 36th and Locust Streets.

"I felt so helpless," Leung's roommate, Lisa, said yesterday. "I just wanted to help her."

Leung's death has put a strain on the University's Counseling Center, where she had been seeing a therapist.

"We are trying to provide counseling services to those who have been affected by this tragedy," said Dr. Elizabeth McVay, director of the Counseling Center.

"We are trying to help those who have been affected by this tragedy," she said. "We are trying to provide counseling services to those who have been affected by this tragedy."
Third-party presidential candidate

Lenora Fulani blasts Democrats

By RANDALL LANE

Third-party presidential candidate Lenora Fulani spent over an hour haranguing Democratic nominee Michael Dukakis, saying that her campaign was going "way off course." Fulani, the only third-party candidate to run as an alternative for federal matching funds, is running on the New Alliance slate in most states.

She said throughout the address that despite Jackson's support for Dukakis, she tours the country advocating that blacks and homosexuals split from the Democrats.

"My message has received strong reactions," Fulani said as she stood on the podium at Sigma Theta sorority, who sponsored the event, said that the turnout and coverage over the past few weeks as "excellent." The 38-year-old psychologist said that the Democratic Party has become "racist to the core." She said throughout the address that the Democratic Party stays together. "It was a calculated insult designed to impress the redneck vote that Dukakis has chosen for his appeal to "rednecks."" She said that the Democratic nominee is "a racist at heart and cannot be trusted."

The SPACE CRUNCH

By AMY GARDNER

Focus

Despite the conventional annoyance of city life, including traffic, crowds and expenses, the University's urban location is an integral part of its appeal to students and faculty. From museums to staid to sunny spots, economic, ethnic and racial diversity, Philadelphia's layered draw of cultural elements provides a vibrant backdrop.

Urban existence does, however, present many problems for the University. In particular, the University's 12 schools, faces a particularly troubling problem in securing and expanding space. The School of Arts and Sciences, the largest of the University's 12 schools, faces numerous space constrictions. The of many administrative services, according to Nachmias.

"The basic problem is that most of the departments are literally bursting at the seams and constrained by the limited resources. The University's new $800 million University classrooms, creating a "nuisance." He added that the faculty office and laboratory buildings have expanded, and there's not very much space anywhere on this part of campus," Wales said. "People are going to be very uncomfortable for the next five years," he added. "Nothing happens in less than five years, and I think we'll be a little more crowded before we're less crowded..."

"The footprint of the University is a limited space," he said. "That's being very optimistic." She said the University is an "administrative nightmare." The whole thing could be done in three years, Tomlinson said. This may be the most realistic plan, since one of the goals of the capital campaigns is to raise funds for the renovation of Irvine Hall, but some facilities are housed in the University classrooms, creating a "nuisance." He added that the faculty office and laboratory buildings have expanded, and there's not very much space anywhere on this part of campus," Wales said. "People are going to be very uncomfortable for the next five years," he added. "Nothing happens in less than five years, and I think we'll be a little more crowded before we're less crowded..."

Elisabeth Dole to speak on campus

Several senior administrators and Elizabeth Dole will speak at the National Student in a Republic Visitor in Pennsylvania. This Wednesday in Bobby

Several state-wide Republican candidates will also be in attendance.

Dole, who retired from her position as Secretary of Transportation, has recently announced her candidacy for the Republican nomination for President. Dole will address the issue and challenges facing the GOP with particular emphasis on education and transportation. She will also speak about the qualifications of the candidates, Mrs. Perot and Ross Perot.

Several local and national Republican leaders and members of the Institute for Political Edges will be present at the event.

Intuitions displays skill in demanding drama

by Michael Tosi

The story of Job is one of the most stirring and convincing stories in the Bible, so it was no surprise to find that the play is extremely well produced. The drama, directed by Todd MacLeish, is a powerful and moving portrayal of the human condition and the conflict between faith and reason.

The play is set in ancient Israel, and the story of Job is told through the eyes of his wife, daughter, and the Devil. The Devil, played by sophomore Brad Krumholz, is a force for destruction and chaos, but ultimately he is defeated by the strength of Job's faith.

The performance of the cast is exceptional, with particular praise for the portrayal of Job by senior Julie Dressner. Her performance is both moving and intense, and she manages to convey the depth of Job's suffering and his eventual triumph over adversity.

The set design, by sophomore Nick Campbell, is also noteworthy. The use of lighting and shadow creates a sense of depth and atmosphere, and the attention to detail is apparent in every aspect of the production.

The play is a powerful reminder of the strength of human spirit and the importance of faith in the face of adversity. It is a story that resonates with anyone who has ever faced a challenge, and it is a testament to the power of the human experience.
Statement on Professor Lunch Week

The following is a statement released by the Students Committee on Undergraduate Education concerning lunch breaks during which time over 20 restaurants on and around the campus are offering discounts.

Education is pleased to announce "Take Your Professor to Lunch Week" this week in order to encourage students to dine with their professors. The purpose of this event is to allow students to show appreciation for the hard work of their faculty members. Restaurants offering discounts include popular chains and local eateries, providing a variety of options.

During this week, students can take advantage of discounts at local restaurants, encouraging interaction between students and faculty. This initiative is intended to foster a greater sense of community and appreciation for the educational staff.

Victim's parents blame son's death on plot by contra rebels

By JEREMY SKLAWYN

Chestnut Streets, telling the story of her son's education, in an attempt to gain justice. The circumstances surrounding their son's death, and to discuss U.S. support of the contras, as well as to raise money for the composition of the center. Mrs. Linder said. She said she asked him at his last will and testament: "What makes sense, what is highest priority, and what we can afford."

"This will really set the organization's framework for the center. The Department plans to distribute questionnaires to students about the shuttle."

"We're trying to meet the needs of students and find out if this shuttle is helpful," Carey said.

Carey added that the program is not available on weekends because the Transportation Department already has commitments to other areas of the University during that time. The program is aiming something different," said Gerald Murtie, one of the bus drivers.

Shuttle to transport student shoppers

By HEATHER COMPpeer

Thanks to a new University transportation service, students may no longer have to go hungry for fear of walking through West Philadelphia to do their food shopping.

"We're done with shopping that way, we're done with that," said Helen Thoebes, a Communications graduate student.

"It's time for shuttles," said the program's creator, who now has commitments to other areas of the University during that time. The program is aiming something different," said Gerald Murtie, one of the bus drivers.

S. Korean marriage ceremony for 13,000 not just "physical"

SEOUL. South Korea - More than 13,000 brides and grooms in the Unification Church were married yesterday in a mass ceremony called a "husband and wife ceremony." The ceremony was the first of its kind in the country since the war.

Government officials acknowledged that the mass wedding was a step toward the unification of the two Koreas. They also said that the ceremony was an opportunity to promote peace and understanding.

The ceremony matched 6516 couples, 4000 of which were married under the auspices of the Korean War and the remaining marriages between people from the United States and more than a dozen other nations.

Many couples did not speak the same language.

The Rev. Sun Myung Moon, founder of the Unification Church, said the purpose of the marriage ceremony was to achieve peace and happiness for the Korean people. He also said that the mass wedding was a symbol of the unification of the two Koreas.

Moon's statement was welcomed by government officials, who said that the marriage ceremony was a positive step toward reunification.

"The massive marriage ceremony sends a clear message to the world that the Korean people are determined to achieve peace and prosperity for their country," Moon said.

The ceremony, which took place at the Unification Church's headquarters in Seoul, was attended by thousands of people, including government officials, religious leaders, and ordinary South Koreans.

"This is a historic moment," said Moon. "We are grateful for the support of the government and the people of South Korea."

"We have never seen such a massive marriage ceremony before," said Moon. "We believe that this is a step toward the unification of the two Koreas."

Nation

Denver's clean air campaign to cut carbon monoxide levels

DENVER - The Denver metropolitan area is one of the most polluted metropolitan areas in the nation, according to a new study. The study found that the area is struggling to meet national standards for air quality, particularly for carbon monoxide.

Denver is one of the most carbon-monoxide-polluted metropolitan areas in the nation. The area is part of a larger corridor that includes Boulder, Fort Collins, and Golden. The area's air quality is monitored by the Colorado Department of Public Health and Environment.

The study, conducted by the Rocky Mountain Institute, found that the area is struggling to meet national standards for carbon monoxide. The area's air quality is monitored by the Colorado Department of Public Health and Environment.

For the thousands of peaceful protesters, it can stand for freedom and democracy around the world, and we are extremely proud to have been part of this historic event.

"No, it's not a brand name that is nationally recognized," he said. "We will continue the name and make the product of quality production better."

"Kraft, the Barilla tradition and the culture of the South Italian food industry," he said. "We are incredibly proud of the heritage and tradition that we will carry forward."
United States to ease N. Korean embargo

WASHINGTON — The Reagan administration is expected to ease the trade embargo against North Korea early this week as part of a coordinated effort with South Korea to improve alliances with North Korea, one of the tightest in the world, will be relaxed, according to U.S. officials.

In addition, a prohibition on U.S. diplomats having substantive diplomatic contacts with North Korean representatives may be lifted, said the officials, who added not to be identified. North Korea is one of a handful of countries with which the United States does not have diplomatic relations.

The United States allowed limited contact with North Korean diplomats in early 1987 but then reversed the ban after U.S. officials said there was concrete evidence that North Korea sponsored a terrorist incident last November in which a South Korean passenger plane was blown up over Southeast Asia. The incident claimed 113 lives.

North Korea and South Korea, both of which have ties with the United States, have a history of cooperation on issues like reducing the possibility of nuclear war and preventing North Korea from executing punitive measures against its own people.

Abortion groups rally in 32 cities

505 arrested statewide

Organizers of a 32-city anti-abortion rally said that 505 demonstrators arrested in Philadelphia and Pittsburgh on Sunday in protest of an abortion law is the largest anti-abortion demonstration in the city.

The large group of protesters were expected to have been arrested in the city, according to a spokesperson for the rally.

In addition, a number of other arrests were made in other parts of the state, including in the city of Pittsburgh, where 505 people were arrested.

But even as the number of arrests was high, the organizers said they were proud of the fact that no one was injured.

They said the event was peaceful and that the protesters were able to hold their signs and chants without any problems.

The event was held to protest a new state law that made it illegal to perform abortions after the 20th week of pregnancy.

The law, which was passed by the state legislature earlier this year, is one of the strictest in the country and has been challenged in court.

The protesters said they were appealing to the judge to delay the decision as long as possible.

The protesters also said they were appealing to the judge to grant them the right to have a demonstration outside of the building where the abortion clinic is located.

The protesters said they would continue to protest until they get the relief they seek.

Meanwhile, police said they are taking a number of steps to keep the peace.

They said they are monitoring the situation and are ready to respond if needed.

They also said they are working with the protesters to ensure that everyone’s rights are respected.

Meanwhile, organizers said they are preparing for the next rally and are asking for people to keep coming.

They said they hope to have a larger turnout next week.

**Local Republicans gather on campus**

By HILARY LOCKS

Jessica Jacobs is a registered Democrat but she said she "usually votes Republican at the state or national level." Jacobs, a junior, is one of the 17 Republicans on the 27th Ward executive committee. According to 27th Ward leader Matthew Wolfs, the Republicans "are looking for enthusiastic, dedicated people interested in politics." The 27th Ward executive committee met Thursday night at Cavanaugh's at 39th and Sansom Streets. Jacobs, a member of College Republicans, is fondly called "the token Democrat" among the group by Wharton sophomore and member of the 27th Ward executive committee Jessica Cilluffo. Jacobs stressed the importance of politics at the University, referring to the new state alcohol laws as an example.

Jessica Cilluffo is a registered Democrat but she said "it's interesting to see how politics are concentrated — to 200,000 votes, a majority in Philadelphia and Pittsburgh can occur next week if the Republicans hold the Democratic majority in Pennsylvania for the campaign as other states." According to 27th Ward leader Matthew Wolfs, the Republicans "are looking for enthusiastic, dedicated people interested in politics."

The Republican: 27th Ward wine-and-cheese reception was held to "招待” the College sophomore said, is why she attended the college sophomore said, is why she attended the College sophomore said, is why she attended the College sophomore said, is why she attended to this day, the car's owner maintains that he left the car carefully parked and securely locked.

The Penn Tower Hotel Saturday, call for colleges to be more responsible for students' safety.

She said that students must not allow themselves to be victimized, and should take action against their attackers. She added that the role of the student is to continue to ask the victim what she did to bring it on herself. She added that the role of the student is to continue to ask the victim what she did to bring it on herself.

"You're not going to get more interested as we get busier and as we get more involved," she said.

"We've been receiving national attention because some of the most famous and well-known political figures have stepped up to say something," she said.

The Pennsylvania Historical Society in Philadelphia, New York, New Jersey, and Pennsylvania. She said that racism moves by the automobile into the Great Basin, and by the automobile into the Greater Wayne Inn. Johnson recounted one of the more recent incidents. "The ghosts have been here for 342 years," said Johnson, a 65-year-old manager. "Tuesday morning, (the golf ball) was in the hole," Johnson said. "I jumped off the barstool to try and grab it."

An Open Reception
hosted by
Recent University of Pennsylvania Graduates
and other Saks Fifth Avenue Executives
at
The Palladium

on Monday evening,
October 31, 1988
from 7:00 to 9:00 P.M.

An Informational Briefing for interested students
will be held prior to the reception at 6:00 P.M.
in Vance Hall room 104-5.
We will be accepting resumes.

Saks Fifth Avenue is an Equal Opportunity Employer.
Barlow brothers square off

By JILL KRAUP
PRINCETON, N.J. — One of the players wearing a purple-and-white jersey in Saturday's soccer game between Princeton and Penn had a second goal scored against him by a brother.

"When I saw it, I thought, 'Oh, no, there he goes again,'" Penn head coach Steve Raumann said. "But the reality is, we couldn't have been more impressed with the job he did and what he did on the game-winning goal." The Tigers, who had been outshot 6-2 in the first half, scored a 2-0 win. 

"I think it's a testament to the quality of players that they have," Raumann said of the Barlow brothers. "But it's also a testament to the quality of players that we have and what we're able to do as a team." 

The Barlow brothers are just two of the many siblings who have played for the Quakers and Tigers in recent years. Princeton is 2-0-2 in its last four games against Penn.

"It's not uncommon," Raumann said. "It's just one of those things that happens in college soccer."

Soccer falls to Princeton, 2-0, despite lineup changes

By MIKE FINNEL

The Penn field hockey team has won a season-long

streak for the record books. Every time the Quakers went

in against a top-10 opponent, they came out with a win.

This year, however, the streak was broken.

The Quakers' head coach Steve Baumgartner said: "If you look at the

season as a whole, it's been a great one. We've had our

ups and downs, but overall, we can be proud of what we've

achieved.

For the sixth consecutive game, the Quakers faced off against a top-10

opponent. This week, they played against Princeton, the No. 10

team in the nation. Despite a strong performance, the Quakers

were unable to pull off a win.

The Quakers looked to claim a piece of the Ivy title, but were

outmatched by Princeton. The game was a close one, with both

teams showing great effort on the field.
