"If we are able to go and we somehow find that something was actually happening," Ogburn said.

"We want to be part of it," he said.

"We believe in the Social Sciences," Ogburn said.

"I think we should help spur the move-ment," Ogburn said.

"I think the reaction was just great," Ogburn said.

"The only regrets Simmonds said was that the students who were involved at the time were not involved in the current move-ment."

"I feel that the students who were involved at the time were not involved in the current move-ment," Ogburn said.

"We are going to have to make sure the students who were involved at the time were not involved in the current move-ment," Ogburn said.
A TOUCH OF GRAY
The Dairy Pennsylvanian's Gray Whip discusses leadership

With his selection as the House of Representatives' Majority Whip, Gray Wimbledon has emerged on the national stage. Despite winning a seat in the Democratic Whip conference, the Painter of the 13th District in Pennsylvania, Gray has become the highest-ranking black politician in the House of Representatives. Gray's selection comes at a time when the need for African-American representation in Congress is more pressing than ever. Gray's appointment reflects the changing demographics of the nation, as the population becomes more diverse, and the need for representation that reflects this diversity becomes more urgent.

Gray's selection is a testament to his dedication to public service and his commitment to solving the pressing issues of our time. As the Chair of the Subcommittee on Foreign Operations, Gray has been a vocal advocate for foreign policy issues, and his appointment as Majority Whip will allow him to continue his work in advancing these issues. Gray has been a strong voice for American foreign policy, and his appointment as Majority Whip will enable him to continue to shape the direction of the House on these important issues.

Gray's selection is also a sign of the changing political landscape in the United States. As the country becomes more diverse, the need for representation that reflects this diversity becomes more urgent. Gray's appointment as Majority Whip reflects this changing landscape, and it is a sign of the progress that has been made in recent years.

Author Davis to speak tomorrow

Famed political author and author and professor Angela Davis will talk at the two-day event on the year's PEN Detroit College House Scholars Conference that will include a sitting audience addressing a virtual audience of over 10,000.

In addition, Davis will speak at the University Pennsylvania Community on "Challenges to Racism," Davis will also speak on campus diversity at the Sunday morning flag ceremony at the National Student Productions and University at 7:30 p.m. and will address Detroit Hostage residents on their own day of discussion that would have been held at the San Francisco State University and the San Francisco Art Institute.

Shakespeare production innovative

By ANNALISE CAROL

Shakespeare buffs should not miss the recent trends in productions of his works that have captured the imagination of playwrights. This year,晞he trend has been for directors to bring new life to old classics, focusing on themes that are relevant to today's audiences.

For example, in a production of "Vinegar Tom," the Duke of Bohemia is portrayed as a woman, played by Sam Dale, who embarks on a journey that involves drag performances. The play explores the plight of an overly-jealous King, who prances around the stage wearing a leopard skin.

The production also features an innovative use of minimalism, with the set and costumes being very simple. This technique was also employed in other parts of the production, such as the use of lighting to enhance the dramatic effect. Both the set and the costumes are designed to be flexible, allowing for a variety of interpretations of the play.

Another notable production this year is "The Winter's Tale," which focuses on the relationship between the characters and the themes of jealousy, trust, and betrayal. The production is well-directed, with the actors to talk to themselves and appear more than 26 roles, forcing the audience to pay close attention to the performance.

The highly thought-provoking "The Rose," also presented this season, is a dark comedy, which is set against the backdrop of witchcraft interrogations and trials in England. It exposes the perverted and absolute nature of the decisions made by the court.

By LARRY SCHROEN

The Distinguished Actors of London's rendition of Shakespeare's "The Winter's Tale" was, in a word, unique.

The play, which focuses on the story of Leontes, features five actors who play more than 26 roles, turning actors to talk to themselves and appear to be doing everything. In one scene, the King of Bohemia, portrayed by Sam Dale, inside a character with his son Florizel, also played by Dale. In another scene, Richard Simpson and John were portrayed two of Queen Hermione's ladies. While often entertaining, this technique was extremely challenging for those who had never seen or read the play.

The company used no set and very few props, but the few they did use added a touch of the modern aesthetic to the production. In one scene, Dale was seen wearing a costume and kicking around the stage wearing a leopard skin.

Throughout the production the company takes full advantage of this technique, utilizing both modern dance and ballet. Each number follows a theme, using lights and costumes as exotic as masks, feathers, and leopard skins.

Special lighting effects include a fiery red light in one scene, which complete the tribal rain dance. All of the dances are well choreographed, but best of all is the performance of Hermione, which complete the production's tirade against the characters.

The show's simplicity and creativity with laughter and song is a unique experience that should not be missed.

Penn Dance premiers new program

By CHRISTINE LUTTON

Penn Dance opened their innovative fall show, "Come Repeat," last night using creative lights and costumes to tell the story of the Distinguished Actors of London's renditions of Shakespeare's works.

The show opened with a tribal rain dance. This production number alone is the best combines ballet and modern dance. A Benefit Concert With

Good Theory: Are you kidding? No, with its internal inner-being twisted about the Quakers this year. So don't get your knickers in a twist about the Quakers this year. The Cosmos have ruled that they could not win this year. But take heart, Penn will reign the Ivy League title in 1990. It shall be written, so shall it be done. Ira Apfel is a sports writer for The Daily Pennsylvania.

Penn Weekend
Wrestling rolls out 1989-90 season with an opening invitation at Bloomsburg
By ZACH CONEN
When Roger Reina begins his fourth season as the Penn wrestling coach tomorrow at the Bloomsburg Invitational (11 a.m.), he will be searching for the same quality in his team that he looked for in each of his first three seasons.

Program
“Our program is still in a developing situation,” Reina said. “We’ve gone from it is not in it to it is in it year with a harder schedule. I’d like to continue this program.”

At Bloomsburg, the Quakers will depend primarily on juniors Matt Meyer (158 lbs.) and captain Mike Friedman (118), both honorable mention All Ivy selections last year, and sophomore Rick Dabbs (134), who finished second at Bloomsburg last year. For Penn, who has finished seventh and eighth at Bloomsburg the past two seasons, the tournament is more of an individual test.

“The idea of participating (in the Invitational) is to encounter a higher level of competitors,” Reina said. “It’s more of an individual setting than a team setting.

 Bloomsburg is an especially good experience for underclassmen,” Meyer added. “We’re still a young team and this is a good preparation for our improvement.”

This weekend is the only open test on the Quakers schedule.

Lambert Trophy

The competition for the Lambert Trophy, presented in memory of Dr. John H. Lambert, one of the nation's greatest coconut specialists, is closed.

DPSO: Mandatory meeting, today at 2:05 p.m.

(Karamu Cup practice to follow)
ANSWER TO PREVIOUS PUZZLE
19 British gun
16 English river
15 Man from Mars
14 Bellow

**Men's Swimming to measure its potential for upcoming season in opener at Cornell**

BY ERIC GOMBERG

When the Penn men's swimming team travels to Ithaca, N.Y. Saturday, it will be facing a Cornell team that has beaten them three years in a row. But the Quakers are not entering their opening meet (Teagle Pool, 3:30 p.m.) drowned in emotions. Instead, Penn will attempt to gauge its potential for the upcoming season.

"Our team is ready to compete and do whatever is necessary to win the respective events," Penn coach Kathy Lawlor said. "But Cornell is too fast. They are deep and have good freshman recruits.

Penn is 0-4 overall last year, 4- Eastern Intercollegiate Seaboard League. Last year, Penn was the only team to lose at least one meet to Yale, which finished third in the EISL. This season, the Quakers are not looking to upset the rest of the league. Instead, they want to improve and compete with the top teams.

But the Quakers refused to lose against the top teams this season, and the team will be looking to do the same against Cornell.

We'll know more about this team after it has faced Cornell," said Lawlor. "We're tighter and working together more."

Lawlor, who has varied this year's practices by having the Quakers do more swimming and less time in the weight room, has had the Quakers prepare for this meet.

"We have a lot of new recruits," said Lawlor. "We're looking to see how they do against the rest of the league."

The Quakers are coming off a successful 1988 season, finishing second in the EISL and capturing the Ivy League title. The team was also ranked in the top 10 nationally in three of the four meets.

But the Quakers are not entering their opening meet (Teagle Pool, 3:30 p.m.) drowned in emotions. Instead, Penn will attempt to gauge its potential for the upcoming season.

"Our team is ready to compete and do whatever is necessary to win the respective events," Penn coach Kathy Lawlor said. "But Cornell is too fast. They are deep and have good freshman recruits.

Pinpointing Football's ill
As a senior, I've won Penn sports for the past five years. I've seen Penn teams go through plenty of ups and downs. The team types up-and-down like a yo-yo, and this season is no exception.

I still recall when I saw the Quakers go 10-0 in 1984. My freshman year, the team was on a roll. They won the Ivy League Championship, and I was just a junior. And now they're back at it again.

But I don't have a pattern developing. It's just random. Penn has won the Ivy League Championship for the past three years. They won in 1984, 1985, and 1986. But Penn has won the Ivy League Championship for the past three years.

This is indeed a strange and sudden phenomenon. It is a rare and amazing phenomenon. It is rare and amazing phenomenon.

But I can't help but wonder if this second guessing is about to begin, if the Quakers are going to go 10-0 in 1986, my freshman year, as they did in 1984.

Then they said the '88 Quakers would go 10-0 in 1986, my freshman year. Or down, and that everybody underesti-
