Clemente to face 9 felony charges

By PETER SPIEGEL

Whitney police have charged Clemente De Leon, 20, of 4119 36th St., with nine felony drug and weapons counts. Some of the counts carry maximum sentences of life in prison, according to sources close to the Dallas County District Attorney's Office spokesman Colleen Bell.

Bell said that the indictment, which was made public yesterday in Washington, is the result of two police investigations. Clemente has been charged with two first-degree drug counts, three of which carry maximum sentences of life in prison. The only first-degree drug count to which Clemente has been charged lies in a separate investigation.

Bell said that the indictment, which is substantially similar to the preliminary charges, will be made public today. The charges against Clemente include: two first-degree drug charges, three of which carry maximum sentences of life in prison; and one second-degree drug charge.

The formal indictment was unsealed yesterday in Dallas, the same day that the preliminary charges were made public.

The president of the University, President Michael Orr, said last night that the new freshman seminars will provide a means for students to "begin" to learn about the University and will "create new traditions," according to Glenn Kaufman, the director of the New Freshman Program.

"I think you have to begin somewhere and this is a good beginning," Kaufman said last night.

The president of the New Freshman Program, Exxon, said that his job duties have never been clearly defined.

"I think you have to begin somewhere and this is a good beginning," Kaufman said last night.

Chairman of the Class of 1990: The Class of 1990 is hosting the Class of 1980 for a meeting to discuss the planning of the next reunion. The meeting will be held on Thursday, April 4, at 7:00 p.m. in Room 205 Steinberg-Dietrich. All 1980 alumni are encouraged to attend.

Class of 1980: The Class of 1980 is looking for members. If you are interested in joining, please contact the Class of 1980 reunion committee at 800-353-8080.

Employment Opportunities

Product Marketing Manager, CTD: CTD is seeking a Product Marketing Manager to lead the marketing efforts for our flagship product. The ideal candidate will have a strong background in product marketing and at least 5 years of experience in the industry. Please apply at CTD's website.

Food Science Engineer, CTD: CTD is looking for a Food Science Engineer to develop new products and improve existing ones. The ideal candidate will have a strong background in food science and at least 3 years of experience in the industry. Please apply at CTD's website.

Customer Service Representative, CTD: CTD is seeking a Customer Service Representative to handle customer inquiries and orders. The ideal candidate will have a strong background in customer service and at least 2 years of experience in the industry. Please apply at CTD's website.

Quality Control Manager, CTD: CTD is looking for a Quality Control Manager to ensure the quality of our products. The ideal candidate will have a strong background in quality control and at least 5 years of experience in the industry. Please apply at CTD's website.

Field Sales Representative, CTD: CTD is seeking a Field Sales Representative to sell our products to potential customers. The ideal candidate will have a strong background in sales and at least 3 years of experience in the industry. Please apply at CTD's website.

Software Engineer, CTD: CTD is looking for a Software Engineer to develop new software applications. The ideal candidate will have a strong background in software engineering and at least 3 years of experience in the industry. Please apply at CTD's website.

Research Scientist, CTD: CTD is seeking a Research Scientist to conduct research on new product development. The ideal candidate will have a strong background in research and at least 5 years of experience in the industry. Please apply at CTD's website.

Program Manager, CTD: CTD is looking for a Program Manager to oversee the development of new projects. The ideal candidate will have a strong background in project management and at least 5 years of experience in the industry. Please apply at CTD's website.

Account Manager, CTD: CTD is seeking an Account Manager to handle customer accounts and sales. The ideal candidate will have a strong background in account management and at least 3 years of experience in the industry. Please apply at CTD's website.

Product Manager, CTD: CTD is looking for a Product Manager to lead the development of new products. The ideal candidate will have a strong background in product management and at least 5 years of experience in the industry. Please apply at CTD's website.

Marketing Director, CTD: CTD is seeking a Marketing Director to develop and implement marketing strategies. The ideal candidate will have a strong background in marketing and at least 10 years of experience in the industry. Please apply at CTD's website.

Human Resources Manager, CTD: CTD is looking for a Human Resources Manager to develop and implement human resources strategies. The ideal candidate will have a strong background in human resources and at least 5 years of experience in the industry. Please apply at CTD's website.
WAR: Communities fight their own battles against drugs

By ARKEMA BERAI

As government officials from U.N. agencies and city and state publicized war on drugs, residents of urban Philadelphia neighborhoods are finding a new personal, unorthodox battle to protect their own communities.

Programs ranging from seminars on recognizing drug dealers’ signs to neighborhood watch programs to peer counseling have been instituted, but many residents say they are making an effort to rid their neighborhood of the crime and danger that often accompanies drug abuse.

United Neighbors Against Drugs, an umbrella group of religious organizations and individual neighborhood members, was formed in 1986 as part of an effort by residents to “clean up” North Square Park on the west side. Members of the group are local community residents making an effort to rid two neighborhoods of the crime and danger that often accompanies drug abuse.

United Neighbors Against Drugs, an umbrella group of religious organizations and individual neighborhood members, was formed in 1986 as part of an effort by residents to “clean up” North Square Park on the west side. Members of the group are local community residents making an effort to rid two neighborhoods of the crime and danger that often accompanies drug abuse.

“Anyone who really believes in fighting drugs,” said Jerry Baker, the city’s police captain, “has a very ‘supportive and reliable’ police captain.”

Drug Resistors Co-coordinator Natalie Figueroa, along with nine other students, called “Best Friends,” “helps other students by allowing them to run some programs to promote leadership, creativity, and improved interpersonal relations.”

Goldberg said that UNAD was “demoralized” two years ago when two UNAD group leaders were attacked and at another time when the district’s police captain, a supporter of the group, was fined for overpopulation. Goldberg said that the strong relationship between the 38th District police and the community “has not happened in a very long time.”

Police Officer Louis Ogriene, who has also attended many UNAD meetings, said that the group has helped police make “quality arrests.”

Figuerroa said that the community has had a major impact on the community. “This program makes a difference.”

And while some residents take part in community efforts to fight drugs, others are trying to make more preventive measures about the dangers of drugs.

Nicole Figueroa, a 16-year-old supporter in a program called Drug Resistors, spends every day after school counselling children, saying that “it makes us feel good.

Rebecca Rathje said that the counselor, who range in age from 12 to 15, are trained as “big brothers” and “big sisters” for the younger students. The younger students are taught to recognize drugs when they join the program and in turn, counsellors try to educate them about drug prevention by having students write down a problem and discussing possible solutions in group counseling. In addition to counseling, some volunteers have a chance to teach children how to scrutinize their counselors.

Rathje said that the agency provides a variety of after-school programs to promote leadership, creativity, and improved interpersonal relations.”

Figueroa said that she finds the program rewarding, and that she is always excited by having students write down a problem and discussing possible solutions in group counseling.

Administrators praise IFC party rules

By JEFFREY GOLD

University officials last week praised the Interfraternity Council's new regulations on parties as a step in the right direction.

The regulations, which became part of the IFC's official alcohol policy, banned hard liquor at parties and required invitations to all fraternity parties. They also require part of the IFC's official alcohol policy.

"I commend the IFC for taking these steps," said University President Mark挂着. "I'm always pleased to see guidelines of the alcohol policy."

According to Hunter Heaney, who said the fraternities will be "taking these steps," he added that "everybody is following the regulations." He said the fraternities are "taking these steps," he added that "everybody is following the regulations."

Ryan said he believes Park's store has been targeted because of the unique nature of its operation. "I think this is a case of the store being attacked," he said. "People should not do this type of risk reduction measures just to be bothersome."

"Any type of risk reduction measure we take is going to be beneficial," she said.

Keeping Track

It is pretty easy to lose track of people around campus. The School of Arts and Sciences realizes that it is easy to forget about their graduate students because so many of them enter the university each year, many without notifying the school officials. So the fall administration plan for the year is to make sure that all incoming graduate students are scheduled to degree programs and that they are aware of the opportunities available to them.

SAS associate Dean Donald Fitting, who is responsible for announcing this plan when preparing his students, and any SAS admininistrators who will require faculty advisers to keep in closer touch with their students.

As well, the policy will perhaps keep students from getting too comfortable. Many students are not planning to finish their work, they will have an opportunity to change their minds before they waste even more time and money. But the policy as Fitting defined it does not say when the students will be scheduled to degree programs and what any repercussions will result if students are determined to be making inadequate prog.

If the policy is to be fair and effective, these criteria must be clear so that students can begin receiving the letters.

The SAS administrators and faculty must also evaluate a student's financial situation. Many students come from families with limited resources, so they may be compelled to work full-time to make ends meet. In these cases, the university should offer additional financial assistance to help students continue their studies.

Over the past three weeks I've been hearing in my classes to the way people joke about the University of Pennsylvania. Most of them are run down student-like, "Hi, I'm just going to say..." "...I'm not sure of this..." "...I don't feel this..." "...I might be the brutal..." "...This might be stupid..."

This Is Just My Sunday

Meredith Spielman

Unfair Claim to the Editor:

I am a resident of the Grad Student Association's residence hall in the Graduate Arts and Sciences building. I am writing to point out a number of unfair claims made by the Penn Pro-Life group in their most recent newsletter. The group states that they support women who choose to have an abortion, but that they do not support women who choose to have a child. However, their arguments are clearly based on the idea that abortion is a right, and that women who choose to have a child are denying that right.

In their most recent newsletter, the group states that they support women who choose to have an abortion, but that they do not support women who choose to have a child. However, their arguments are clearly based on the idea that abortion is a right, and that women who choose to have a child are denying that right.

I believe the Pro-Life group is using this argument to manipulate people into thinking that they are supporting women's rights, but that they are not supporting the right to choose. However, their arguments are clearly based on the idea that abortion is a right, and that women who choose to have a child are denying that right.

Salinger speaks on E. Europe

By CATHERINE MICHAUD

ABC Chief Foreign Correspondent Pierre Salinger spoke last night at the University of Pennsylvania about Europe's governmental and proposed economic changes. The former press secretary to Presidents John Kennedy and Lyndon Johnson and an ABC correspondent since 1963, presented the audience of about 800 with an historical perspective on the situation in Eastern Europe, emphasizing the role of President Mikhail Gorbachev and the Catholic Church as catalysts for change. Although some of his remarks were negative, Salinger expressed doubts about the current European goal to form a European common market by 1992, saying that Europe will have to endure some difficult times.

Salinger said that Europe will come center stage during the 1980s and that Eastern European countries are ripe for change. He said that Europe will have to endure some difficult times. "How will they react?" Salinger questioned the audience. "Will they react in a positive way, living through those periods of time, or are we going to see Eastern Europe move into anarchy, and even bolshevism? It is too early to tell.

Would You Like to Add Anything?

We have openings in Applications and Channel Marketing. If you're getting your BA/BS in a business or marketing related field, we want to talk to you.

Microsoft will be interviewing on campus for full-time Assistant Product Managers on:

February 15, 1990

Microsoft also will be accepting resumes for Assistant Product Manager Interns. Please submit your resume to: MICROSOFT CORPORATION, Dept. MCAPM-BU, One Microsoft Way, Redmond, WA 98052-6399.

See your Career Planning and Placement Office for more details.
"Coming out of an undergraduate liberal arts program, I was looking to do something challenging that could lead to bigger and better things. There aren't many technical companies that will say, Hey, I know you are a liberal arts major, but show me what you can do. Microsoft did and I accepted their challenge. I've never looked back since."

Cindy Wurtenberg,
Assistant Product Manager, Systems
Stanford University, 1989

"Why did I come to Microsoft? The free diet coke? Saving thousands of dollars NOT buying suits? It didn't hurt, but the main reason is because Microsoft is unique. You never get handed a "Corporate Guidelines" book and told to memorize it. Instead, you're given a task and you have to figure out the best way to do it. At Microsoft, people listen to my creative ideas and solutions. Besides, it's amazing what a city without smog can be like. Even the most jaded urbanite won't believe how beautiful it is here."

Steve Podradchik
Assistant Product Manager, Applications
UPenn, 1989

"When I graduated with a Mechanical Engineering degree, I was looking for a job that would let me use the analytical skills I'd sharpened in college and give me a solid grounding in business principals. From marketing to manufacturing, I wanted to learn it all. Product Management at Microsoft was the perfect fit. I'm surrounded by incredibly bright people, while playing an integral part in shaping not only the direction of my product but also the PC industry. Not many people can say that."

Dave Malcolm
Assistant Product Manager, Applications
University of Washington, 1989

"It's hard to separate work and play. When they told me I had 'full business and marketing responsibilities for the #1 selling recreational product of all time—Flight Simulator,' I wasn't sure what that meant. I've found out. It meant responsibility. And, it meant fun. One day I review and approve new advertising; the next week I'm on the road, meeting with accounts and the salesforce. In between? I'm honing my skills as an armchair pilot. It's all in a day's work."

Karen Fries
Assistant Product Manager, Applications
University of Washington, 1987
Former head of E. Germany set to be tried

EAST BERLIN — Erich Honecker, who ruled East Germany for 14 years before selling a single burger in Moscow, is set to go on trial in March. The swift action against Honecker, 77, indicates the end of the Stalinist regime.

Honecker was arrested and kept at a prison medical center when Communist dictator Nicolae Ceausescu fled in an armored car.

“Somebody is bound to not be happy out there,” said Louis Rosen, director of the state Office of Court Administration. “And with the courts already overburdened by a massive number of hurricane-related cases will further bog down the system. Hugo smashed into South Carolina, people needed to go to court. But prosecutors say they do not believe her story that she did not want to spend taxpayers’ money on a cause she did not want to spend taxpayers’ money on.”

Proposed cutbacks in- clude Medicare, col- lege students, farm subsidies and mass transit.

In Congress accompanying the 1569-page document, Republican Senator, D. (Texas), called it a document “of new opportunities. It provides huge tax loopholes that about $10 trillion in new revenue shoul...”

WASHINGTON — Defense Sec- retary Dick Cheney yesterday closing or back filling more than 150 base closings and realignments in the next five years and ending operations at 13 overseas bases. The list includes U.S. military bases in Kuwait, the Persian Gulf, and Egypt.

Cheney said the 86 closings and five realignments planned for May 20, 1990, would be sold only at newstands and vending machines at airports. A second plan — with the base closing prop- osed in Europe — the battle has begun.

W. swimming travels to Swarthmore today

By JOSHUA ASTROF

34th Street, Thursday, January 18, 1990, the Penn women's swimming team, on its League and Division I program in the Eastern Intercollegiate Swimming League. The meet hasn't been particularly close, either, but the last time the Quakers came to Swarthmore, in January 1985, it was 161-121. That score was the closest the Quakers have had in the last five years.

Although the two schools' first official meet was in 1918, the Quakers' losses are more recent. Since the 1978-79 season, Swarthmore has won every meet.

"It's our equipment and our fans," senior co-captain Pam Freilich said. "Now the meet is healthy and good-natured affair."

These swimmers will be greatly aided in their quests by the occasionally questionable atmosphere of the meet. With winning and losing not a cinch, the swimmers can concentrate solely on their times.

"It's a really good atmosphere to swim in," Kathy Lawlor said. "The confident Elis seem on a mission to show us how it's done."

With a romantic collection of Valentine socks and accessories.

RELAYS, from page 14

Biazzos added that he'd hopefully come back this weekend, for the many games on Friday and Sunday. He said he'd be back for the conference meet at Swarthmore, February 5, at 3:00 p.m.

Brown's big Williams eats at the Hut

During the dayes shown below.

Brown's new co-captain, Penn senior co-captain Pam Freilich said. "He's a presence.

Penn senior co-captain Pam Freilich said. "He's a leader."

In addition, Lawlor and Swarthmore's team, the Elis do whatever they can to help these swimmers achieve their goals. That is why Leagues and Middle Atlantic Conference swimmers often prefer to train with the Quakers and Penn's excellent coaching staff. In that sense, the Elis and Quakers are part of the same continuum.

Thursday night, you're going to come away with big wins."

The Elis, of course, have some other schools to worry about. Williams obviously loves playing in front of the league whenever the Elis are twofold to continue a long-standing tradition and, more importantly, to give Penn's fans what they have been promised for generations.

M. Hoops rides past Mustangs, 56-49

By TOBY SEGAL
DALLAS, TEXAS — So you know how Penn and Texas have been in the Big 12, right? It's sort of like skateboarding, except that you don't fall down. Last night the Quakers found themselves in the thick of the action in the Big 12, and they rode that momentum to a 56-49 victory over Southern Methodist.

The Quakers played a strong defensive game in the first half, holding the Mustangs to just 21 points. The second half was a bit more of a struggle, but Penn was able to maintain their lead for the final minutes of the game.

Penn's Becky Bask (right) lost to Yale's Eleni Higton, 15-15, 16-15, 17-15, 18-16, 21-19. The Penn women's squash team split in matches this weekend, losing to the EKU, 8-1, and beating Johns Hopkins, 9-0.

No excuses for Men's Track in 93-52 loss to Navy

By JON BRODSKY
This was supposed to be an easy win for the Quakers, but instead they were outscored 93-52 by Navy.

One reason for their up-beat attitude was the Quakers' high score, which included many scholarship points — the Quaker's highest total finish in the eight-team tournament.

However, the Quakers were unabwekt by the final score. "We had a tough day," head coach Tony Tenisci said. "But we still have a lot of work to do.

Next up for the Quakers is a dual meet loss to Navy at Annapolis, Md. 

Gymnastics takes 6th-place at GW

By JON JENKINS
The Penn gymnastics team returned home from this weekend's George Washington Invitational in high spirits, despite its sixth place finish in the eight-team tournament.

The Quakers were outscored in the 18-event competition, but they still managed to secure the 6th-place finish. This was a great accomplishment for the Quakers, who faced stiff competition and fast times.

The coaches were especially happy with the results. "We're really pleased with the way the team performed," head coach Betty Costner said. "We had a lot of strong performances, and the team worked hard to get to this level.

Strong showing for M. Track at Princeton Relays

By MATT REILY
With realistic expectations and a recent win at the Princeton Invitational, the Penn women's track team traveled to the Garden State for the annual Princeton Relays. Over 30 teams met up on the track, and the Quakers had a strong showing.

The Quakers were unawed by the high scores, and they managed to secure their 6th-place finish. This was a great accomplishment for the Quakers, who faced stiff competition and fast times.

The coaches were especially happy with the results. "We're really pleased with the way the team performed," head coach Betty Costner said. "We had a lot of strong performances, and the team worked hard to get to this level.
