The Newest Admissions Test?

A drug bust at UVA has led to a larger debate about the value and legality of drug testing.

BY DAVID BLACK
Daily Pennsylvanian Staff Writer

On March 21, three fraternities at the University of Virginia (UVA) were raided, Delta Upsilon, Phi Epsilon Pi and Tau Epsilon Pi, were seized by the U.S. Marshal's Service, according to Charlottesville, Virginia Police Chief John D. Dyke. These raids were the result of an illegal drug bust in the state's schools. Laura Dillard, a spokesperson for Wisteria, said that the governor has "said he would not have a problem if the task force came back with a recommendation on some kind of drug ban." Casteen advised the boards of counts which have interpreted the Governor's remarks to mean that he favors mandatory drug testing for students.

"Mandatory is not the word the governor used," Dillard said. "We are not talking about testing everyone who comes in, but just testing students who are in a position to be open for debate." And in a speech at the White House last month, John D. Casteen, the president, said that there are many alternatives which would be considered on college campuses before "any one began discussing random drug testing." In the words of Senator Ford, "The value and legality of drug testing is primarily a "means of identifying problems which are hidden or unknown." We're just saying that drug testing is not open for debate."

"But in the UVA case, you need a drug test to identify the problem," Martinez said. "What difference does it make?" Martinez noted that the rates of illegal drug use are higher in the general population than for college students. Roughly one in eight Americans (aged 12 and over) used an illegal drug last month, and roughly one in four high school students used an illegal drug at least once last year, Martinez said. At UVA, President Jon Casteen has charge that drug problems plagued students since the beginning of the academic year, according to UVA spokesperson Leslie Dudley.

Senior honor award winners named

By SCOTT CALVERT

For two students, a envelope will always be more than just a sheet of laminated material. If those envelopes provide letters that will help them gain admission to some of the nation's top graduate schools. The winners of the Student and Thesis awards, as well as the other awards that recognized the accomplishments of the Class of 1991, were announced yesterday.

According to Student Life, the winners are the authors of two of the best presentations at the annual Spring show tonight. The presentation is titled "New Jazz City," and it will be included in the Penn Jazz Ensemble's last performance of the year.

The ensemble's program will also include "Blue Skies," "Great American Hits," and "Theme from Porgy and Bess." The program will conclude with "Goodnight, Irene," a good presentation of jazz on campus," said Whar- ballad, the group's namesake, is said to have been inspired by the Yard, which was recommended by her husband.

Dorothy Mereness, a former dean of the College of Arts and Sciences, will be honored tonight. Mereness was named to the College of Arts and Sciences by the University of Pennsylvania, and she is currently the director of the College of Arts and Sciences.

She said that the incident in the JIO was related to the incident in the JIO. However, the University of Pennsylvania has not provided any further information about the incident. The university has not provided any further information about the incident.

If a professor attempted to choke one of his stu-

discuss the matter. Perhaps the student would file
denunciations against the professor, or the
matter might come to light during a routine

be grounds for dismissing the professor.

The faculty handbook states that a professor
cannot be fired for "frequent disregard of the rules
of the University or of the customs of scholarly

Organizations set plans for Greek Week

BY KENNETH BARK
The Student Daily

Plans for next year's Greek Week are in the works, and many of the plans, or at least some of them, are coming together.

Greek Week, which will be held from September 12 to 22, is a week of events and activities that are planned by the Greek organizations, and is a time when the University community comes together for a week of fun and games.

This year, the Greek organizations are working together to plan events that will be enjoyed by the entire University community.

Bruce Forman, IFC vice president for rush and Greek Week, said last night that "Greek Week is a time for the three Greek umbrella organizations to promote interaction between the two groups.

"Greek Week is a time for the three Greek organizations to come together to show students what Greek Week is all about. We want potential freshmen to find out about the Greek system, to get some insight into what it's like to rush the system before they have to," Forman said.

Other events during the week include a Greek and faculty mixer to promote interaction between the two groups.

The Social Planning and Events Committee is working on plans for next year's Greek Week, which will be from September 12 to 22.

The committee is working to plan events that will be enjoyable for all students.

WASHINGTON — The State Department yesterday said it expected about 500 Iraqi refugees a day arriving along the border with Turkey and that half of them were providing aid to refugees expected to meet sut of several weeks.

The estimate reflected the greater number of deaths in the region and provided aid to refugees from the U.S. to the Middle East.

The figures provided by the State Department yesterday were based on a sample of about 1,000 deaths daily, mostly from landmines and other weapons.

Early Monday evening, the government agencies said they had had "no data for several weeks."

"The figures should have been approximately 500, based on the estimates for the Middle East," the State Department said. "The figures should also be used to reflect the situation in the region."

"We have had no data for several weeks," the State Department said. "We have had no data for several weeks."

Getting the situation at the plate
difficult was the fact that the Quaker
was down 2-0 in the first inning.

Penn didn't.

Penn's coach Dan Loebl liked until the fourth inning, leaving the
game with a run on a single base hit and
four walks in the seventh inning.

"I think psychologically we down at the start of the game,"

Penn assistant coach Bill Wagner
said. "I guess by the time we realized they had to pick it up in
the bottom of the fourth and do more damage."

Only a gritty relief performance
by starting pitcher Chris Converse and
a re-awakening brought the Quak-ers back into the game.

Converse shut down the tying run to di-
the ninth inning and Pfeiffer helped
him in the ninth inning and seventh innings.

Decathlon features top athletes

BY JONATHAN MAYO

When the heptathlon and the decathlon take place every year, the University of Pennsylvania is standard-bearer for the country's track and field stars, including many Olympic hopefuls.

But for the athletes in high school and college, the Olympics are a world away. And indeed, while the Olympics may be the ultimate goal, the road to success is long and steep. The athletes are constantly striving to improve their performance, pushing themselves to the limit in every event. The competition is fierce, and the pressure can be immense. But for those who succeed, the rewards are great.

The Penn Relays kick off today as the first event of the decathlon will occur at both Franklin and Murphy Fields. The Penn Relays have the strongest decathletes at the Penn Relays in the past, including last year's third-place finisher Barry Wilks and sixth winner Dave Mailey. This year Brian Kelly and Mike Tuftu.

Baseball loses fifth straight
Penn drops another twindell

By JON BRESKY
Daily Pennsylvanian Sports Writer

The Penn baseball team fell to Harvard, 8-6, in the last of a three-game series at Bower Field. The Quakers (12-16-1, 4-13 EIBL) lead the Ivy League for the first time this season and are ahead of Dartmouth, 6-2, in yesterday's eventual doubleheader sweep by Dartmouth (9-18, 3-3 EIBL). The loss continued a string of bad luck that has befallen the Quakers in recent weeks.

The men's and women's track and field teams are both coming off strong performances last weekend. The men's team finished second in the Ivy League Relays Carnival and Heptagonal competition. The women's team, which was projected to be more difficult, won the Egyptians in a hard-fought battle.

Penn's heavyweight crew captured the Blackwell Cup in New York City last weekend. The Quakers defeated Yale, 5:45.9, in the first varsity race and then went on to win the second varsity race, 6:31. The victory was a much-needed boost for Penn's heavyweight crew, which is currently ranked 20th in the nation.

Penn shortstop Troy MacLeod, shown diving back into first base against Princeton, and the rest of the Quakers are mired in a five-game losing streak that has put the team out of the race for their fourth consecutive EIBL title.

The Penn men's track and field team won the Ivy League Relays Carnival and Heptagonal competition. The men's team finished second in the Ivy League Relays Carnival and Heptagonal competition, posting a time of 5:58.5. The Quakers are looking to improve their performance in the Ivy League Relays Carnival and Heptagonal competition.

The Penn women's track and field team finished fourth consecutive KIBL title. The women's team missed out on a chance to win the Ivy League Relays Carnival and Heptagonal competition, finishing fourth. The Penn women's track and field team is currently ranked 13th in the nation.

Penn's lightweight crew lost a close battle with Columbia, 6:50.8 to 6:51.2, in the final event of the Ivy League Relays Carnival and Heptagonal competition. The Quakers are now 0-3 in EIBL competition and are struggling to find their rhythm.

The Quakers are now asking for one thing, but the Quakers are not the only team in the Ivy League Relays Carnival and Heptagonal competition that is struggling. The Penn women's track and field team is currently ranked 13th in the nation.
