Double dipping

By ELIE LANDAU

It's time to pick the people you want to choose. It's time to pick a number. Step right up and pick a number.

We are all allowed to pick for those we love our enemies..." Actor Danny Glover recites Langston Hughes' poetry at Irvine Auditorium last night. Glover, who is well known for his work in the struggle for racial justice, began his talk by telling the audience a little about King. "He spoke of King's persistence in pushing for nonviolent resistance to racism and oppression and of his idealistic beliefs as they pertained to love and justice..." The poetry went from topic to topic as it related to the life of blacks as seen through the eyes of Hughes, who lived in Harlem and London. Glover is a poet who is not a scholar. Justice said. Glover, who came on stage to begin his evening's lecture, was greeted by applause, began his talk by telling the audience a little about King. "He spoke of King's persistence in pushing for nonviolent resistance to racism and oppression and of his idealistic beliefs as they pertained to love and justice everywhere,..." said Justice as he related how King's words pertained not only to the United States, but also to areas of the world such as South Africa and parts of Latin America.

After finishing his talk about King, Justice said he was delighted being at the University with "scholars," and he introduced his co-host for the evening, Langston Hughes. "Gary is a poet who is not a scholar," Justice said. "He reads black poetry." According to Miriam Marx, the business administrator for the English department and the person in charge of the festival, the University's commitment to the festival was very clear-cut. "It is a good way to keep the students involved and to become aware of the students' lives. It is a good way to keep the students involved and to become aware of the students' lives."

The proposed by-law amendment, which would remove all the Council from the Committee on Undergraduate Administration and Financial Affairs, was introduced at last year's meeting. The committee is made up of undergraduate students and 20 of them had been elected to it. Although they are out of the Ivy League race, the Penn men's basketball team still has much to offer. Bob Morrisson's office.

Grand Arena will change, offer options

The University, according to Re-

dential Living Official Elie Rupins, is allowing students to customize their room selection and to change their room selection up until the day the rooms are actually assigned. The University said that residents will have to pick a room by the end of the week and that only one student will be allowed to pick a room. The University, according to Re-

The World Council of Churches and the National Organization for Women, will speak this evening about repressing feminist and political rights. She will also discuss strategies for bringing women together to work.
Theater Festival draws wide variety of talent

By LUCY OIL

We were at the Annual Women's Theater Festival last spring. While some did not have a great deal of experience, the overall talent was remarkable. In fact, it was quite a surprise to me to find out how many talented women were out there. It was a wonderful experience to see so many different people perform in such a variety of roles.

One of the most impressive moments of the festival was the performance of a group of women who were all diagnosed with bipolar disorder. They were able to bring their personal experiences into their performances, which made the audience feel as though they were part of the story. The actors were able to convey the complexity of their characters, and the audience was able to empathize with them.

Another highlight of the festival was the performance of a group of women who were all diagnosed with schizophrenia. They were able to bring their own creativity and imagination to their roles, which made for some really interesting and surprising performances. The audience was able to see a different side of these women, and it was a reminder that everyone has a unique perspective on the world.

Overall, the festival was a great success. It was a wonderful opportunity for women to showcase their talent and to learn from each other. I hope that there will be more festivals like this in the future, so that more women can have the chance to be part of the theater community.

Neanderthals may be European ancestors

by MICHAEL LEVY

European researchers have been pursuing the notion that Neanderthals and modern humans may have been the same species for thousands of years. Last year, Palaeoanthropology Professor Alan Mann and his colleagues at the University of Pennsylvania announced that new evidence from ancient DNA suggests that Neanderthals were the progenitors of modern Europeans.

The researchers, who revealed the results of a seven-year study at a recent conference of the American Association of Physical Anthropologists, discussed two significant findings. First, they said, the results disprove the long-accepted notion that Neanderthals and modern humans were separate species that never interbred. Second, they said, the results suggest that Neanderthals were the progenitors of modern Europeans.

Vance Hall, who has been undertaking similar research in conjunction with colleagues in Crete, Mann and Monge came across two sets of fossil specimens that have become the focus of their research.

The first set of specimens reveals the strong possibility of a link between the Neanderthal race and modern Europeans. The specimens are teeth taken from Neanderthals, and have been compared to the teeth of modern humans. Monge explained that by examining the teeth, scientists are better able to identify the presence of a common ancestor. "It is not that Neanderthals and Europeans were very different," she said, "but that the teeth of modern Europeans and Neanderthals were very similar."

This, she said, shows that European populations are descended from Neanderthals, not Africans.

"Even if there is evidence that is disputable," Monge said, "it does not change the basic science and the need to change (over time) what we think of them."

Monge also added that it is difficult to direct dental research. "This is a huge piece of evidence that offers to contradict the facts," Mann said. "European people often have a flawed view of who they are. This provides a more realistic view of who we are."

Monge and Mann's second specimen is a skull of a Neanderthal with a large hole in it. Mann explained, "We are saying that gay and lesbian couples should be allowed to live together in on-campus dormitories. The University of Wisconsin feels there might be a reason to reject this proposal. In a similar vein, the University of Pennsylvania feels that unresolved policies are inappropriate."

Wisconsin has proposed a living off-campus to gay and lesbian couples. The University of Wisconsin feels that unresolved policies are inappropriate. Wisconsin is interested in maintaining a policy that is not in the public interest. Wisconsin has not proposed policies that are not in the public interest.

Wisconsin has proposed a living off-campus to gay and lesbian couples. The University of Wisconsin feels that unresolved policies are inappropriate. Wisconsin has not proposed policies that are not in the public interest. Wisconsin has not proposed policies that are not in the public interest.

GLOVER, from page 1

for the majority of his life until he
died in 1967. The poetry covered
many topics, including blacks in
America and blacks in Africa.

After finishing his writings, Glover
told of how much he enjoyed Hughes’ poetry and how the author had
affected him. He said a short story of walking down 125th Street in Harlem in remembrance of his friend, Langston Hughes and Jackie
Glover, who had once walked the
same story.

Glover ended his segment on
Hughes with a standing ovation.

Joint Venture

Wharton M.B.A.s and Wharton undergraduates are two very different animals. For one, they share "cohorts" and have a two-year life cycle. The M.B.A.'s natural habitat is in Veterans Hall, while undergraduates gather at Steinberg-Dietrich. M.B.A. classes have more oil, more energy, and more results. They pit, F11, Management 111, Statistics 111, Innovation 111, and they love it. Wharton divisions will collude to create "Wharton synergy," an unspoken fiction that is, in fact, very hard to define. This latest update on the big brother/big sister concept, where M.B.A.s will guide "cohorts" of Wharton freshmen, may help the two species come up with a joint understanding of their place in Wharton, and Wharton's place in the University.

All of which is great, provided it doesn't foster what Steinberg-Dietrich classes have referred to as "the Wharton complex," in which all Wharton students still remember they go to Wharton and are part of "One University." In this respect, Wharton undergraduates may be able to help the M.B.A.s. Why are they taught in such overwhelmingly different ways? And what is the world in a cohort?"
Imagine Their Disappointment

**Tsongas advances**

PORTSMOUTH, N.H. — Senator Paul Tsongas was hoping more than at to deliver his keynote to Paul Tsongas, "To give the vote for Presi- democratic nominee, the super- little chance of going to New Hampshire. The former Massachusetts sion, little chance of getting the Demo- primary man was leading the prospect of another M. cash-poor Tsongas would be given latic field, a staid ex-senator

**Daylight serenade**

College seniors Beth Handwerger and Caroline Kim advertise "Serenade Your Sweetheart" on Locust Walk yesterday afternoon.

**Bush's budget increases taxes**

WASHINGTON — White families and investors awaited word on how big a tax cut they will get from Con- gress and President Bush, millions should be watching instead to see how much their taxes are going to rise. The Democrat's budget, with its provisions for a reduction in capital-gains taxes, an increased exemption for children and a new credit for some home buyers, would be financed in part by tax increases exceeding $10 billion over the next five years. Among the targets: State and local government employees; busi- ness; pay-phone users; securities dealers, and losers of life in- surance policies. A Democratic plan to give a tem- porary tax cut to lower-income workers would be financed by higher taxes on companies with re- ceives in the $200,000-plus range ($400,000 for couples) and a new ex- emption for millionaires.

The House Ways and Means Committee will begin deciding Wed- nesday what kind of tax-cut plan is called for and how it should be financed.

The Democratic-controlled panel in May, a key part of President Bush's proposal, was intended to boost the economy. But the committee probably will need the president's bill to the full House for a vote, along with a Democratic add- ition aimed at pleasing the middle class.

**Bomb found near Quayle meeting**

LONDON — Authorities foiled a bomb in a phone booth near the heart of London's government dis- trict where Vice President Dan Quayle was scheduled to meet yester- day with British officials.

Police suspect the bomb was planted by the IRA, making it the second time in a month that the outlawed Irish Republican Army ap- parently has managed to place an ex- plosive near government buildings. The earlier device blew up, but no- body was injured.

**Dow plans strategy for implant claims**

DETROIT — The outcome of Dow Corning Corpora- tion's battle with silicone-gel breast implant de- vice makers and women who claim the implants damaged their immune system, it they rupture, will depend on whether it can assuage women who have the company's silicone-gel breast implants de- feated 1 million U.S. women have silicone gel implants and twice as many have them removed for medical reasons, including cancer and damage to the immune system, if they rupture.

Dow Corning took the first step in salvaging its image Monday by exploring its top executives with Keith McCollum, an expert in corporate crisis management, the company said.

An estimated 1 million U.S. women have silicone gel implants, and not as many have them removed because of health concerns. A.B. Bobst & Company, maker of the ProSieben, and Procter & Gamble Company, which made Talcum powders, are also studying the issue.

Cornell announces major Athletic Department cuts

By MATT RELLY
Daily Pennsylvania Sports Writer

Citing the need for comprehensive
budget reductions, Cornell's Depart-
mant of Athletics announced last week a cost-saving plan that in-
cludes the elimination of men's and
women's fencing, men's and wo-
men's gymnastics and freshman
football by the fall of 1993.

The streamlining of the Depart-
ment of Athletics comes at a time of
university-wide budget cuts at Cor-
nell. Over the past two years, the
university has reduced its budget
growth by $25 million.

"Our coaches and student-athletes
represent a group of dedicated and
talented individuals who have made
a positive impact on our athletic
program," said Ken-
nedy, a 1963 graduate of Cornell.

The eight Ivy League presidents
approved a plan in December that
eliminates freshman football

76ers coming out firing at Miami, never look back

No. 25 Seton Hall finally defeats No. 10 Orange; St. Joe's ends five game skid

Philadelphia — Johny Dawkins scored 6 of his 11 points during the last 3:44 that gave the 76ers a 29-28 lead with 1:17 left in the period. Dawkins was called for a technical for dunking the ball instead of letting the ball go out of bounds at 3:48 to put the Sixers in the lead for the last time, ending the Heat's team-record seven-game winning streak.

For the 76ers, the streak was just what they needed. After seven straight wins against the Heat, the 76ers finally tied the Heat for the Southeast Division title.

Miami Heat coach Pat Riley said the streak was an example of how far the Heat have come since last season.

"We've got a lot of work to do," Riley said. "But we're getting better every day."
M. Squash eager to host Tigers

By JOSHUA FRIEDMAN

Penn senior co-captain Doug Kramer said, "The rivalry is very competitive and it’s very heated, so the match should be half of action." The Quakers, who always play better at home in front of an extensive vocal and boisterous crowd, are expecting an even better turnout tonight. Under regular circumstances, the matches attract a crowd of about 150 to 200. However much every athlete wants to go out in style, it is nearly easy to accomplish this. Tonight, when Penn’s men’s squash team hosts both Princeton (7 p.m., Ringe Courts), the seniors will be de-
vouring the Tigers by the same score, 5-4. As a freshman, I used to take some solace when we were beaten. As a junior, we try to get the best possible play-
ning style, it is rarely easy to accomplish this. Tonight, when Penn’s men’s squash team hosts both Princeton (7 p.m., Ringe Courts), the seniors will be de-

W. Hoops Notebook
By GARE THU

The Penn women’s basketball team scored an overtime setback last season when it was defeated by Columbia. Prior to that game, the Quakers had appeared to be the cancer in the Ivy League. Last season was their worst yet, but for them to remain competitive in the race for the title, they must win seven of eight to match the 1968-69 season victories. This season, however, takes on a different level of importance. The Quakers are ranked fourth in the nation and the Tigers (7-4) are ranked third. Also noteworthy is the fact that Penn was beaten by Columbia last season in the Ivy League season by that ever-familiar score, 16-3. As for the Quakers’ optimism, Pen-

W. Hoops still suffering from disappointing loss to Lions

By BY M. Hoops Notebook

The Penn men’s basketball team has reached the point in its season, just slightly more than halfway through its 27-game jour-
ney. It is the time at which pre-
season games are reviewed and Spring Break plans come together. However, for the Quakers, it is too early to throw in the towel and start thinking about next year. Despite the season’s early stage, a post-season invita-
tion remains that the Quakers could still achieve if they play well in the 1991-92 Ivy League Tournament in March, the possibil-
ity of winning games. "We have our share of games, and the program is really progressing," coach Fran Dunphy said. "But we can’t rely on that. We have to play well, and we have to play well every game. We have to have some heart, and that’s what we’re going for." "We have our share of games, and the program is really progressing," coach Fran Dunphy said. "But we can’t rely on that. We have to play well, and we have to play well every game. We have to have some heart, and that’s what we’re going for." "We have our share of games, and the program is really progressing," coach Fran Dunphy said. "But we can’t rely on that.
