CAS to require writing classes

To start with next freshman class

By AARON FORT

Next year's College of Arts and Sciences freshman class will have to fulfill a writing requirement in or out of the university. Graduate students also made last night.

The requirement exists in the planning stages for at least five years, and was introduced by George M. Mosher, assistant dean of the College of Arts and Sciences, at a meeting of the Faculty Senate last night. The program has been in the works for several years, and was discussed at length at last year's Senate meeting.

The program includes a course in English composition, which will be offered to all freshmen. The course will be divided into two parts: a core course in English composition and a course in the humanities or social sciences.

The core course will be required for all freshmen, but the humanities or social sciences course will be optional. The humanities or social sciences course will be offered in a variety of departments, including history, philosophy, and literature.

The program is designed to provide freshmen with a strong foundation in writing and critical thinking skills. The hope is that these skills will be useful in all areas of study, not just in the humanities or social sciences.

Some students have expressed concern about the requirement, arguing that it is too broad and that it will not be effective. However, others have praised the program, saying that it is a good idea and that it is long overdue.

The program is expected to be implemented in the fall of 1993, and will be mandatory for all first-year students.

Students arrested for disorderly conduct

By AGGIE SUNG

Students arrested for disorderly conduct last week.

At 6 a.m. on Friday, May 8, a group of students were arrested for disorderly conduct. The students were involved in a disturbance outside the student center, and were eventually charged with disorderly conduct.

The students were detained for several hours, and were ultimately released without any charges. The incident is currently under investigation by the university security department.

Design Class

Policies and procedures

The course will cover topics such as design theory, design history, and design practice. Students will be required to complete a comprehensive project, which will be presented at the end of the semester.

The course is open to all students, and will be taught by a team of experienced designers. The course will meet twice a week, for a total of four hours per week.

Cheaters Never Win?

After an investigation that lasted over five years, the University of Pennsylvania's Veterinary School president, Dr. Edward Geisel, has been removed from his endowed chair. The Trustees, who oversee the university, have ruled that a St. Paul city ordinance prohibiting sexual discrimination in employment and housing is invalid. The Trustees' decision was based on the First Amendment right to free speech and the belief that such an ordinance would violate the freedom of expression.

The Trustees don't like this. According to the New York Times, the Trustees would have preferred a more severe penalty, such as firing or suspending Dr. Geisel. However, the Trustees are bound by the legal requirement to follow the University's Academic Freedom and Responsibility rules. These rules impose any further sanctions.

We feel that way, too. Professors at other universities are usually fired for plagiarism. If a student at this University plagiarizes, academic code recommends that he or she be suspended for one or two semesters in the case of a first violation, expelled in the case of a second violation, or asked to withdraw.

What kind of example does this set for students? We cannot just make you an "associate student," and forbid you to use the Pool from the Trussel Club anymore, or any more.

Cheaters never win? Not if they know what's legal, not if they know what's right.

Volleyball has trouble on Southern excursion

BY DANIEL ISRAEL

If one had a choice of which direction to go to get away from the City of Philadelphia, the most likely scenario would be south. Not so for the Penn women's volleyball team against Virginia (8-5) and their Southern foes. The Quakers are looking forward to facing George Mason University (7-3), the most likely opponent in the next weekend's matches. George Mason is in a transition period of building a volleyball team and will not be as tough for Penn as they had hoped to top it up better the past two weekends. We don't want to have to deal with George Mason. Penn is playing well against their more northern opponents. We didn't remember them being that good. As far as the Virginias, I think that we don't have to play George Mason at all. We were up against them last year, and we had not played them at all. Virginia played without its star, Courtney Stanton, the Atlantic 10 Conference leader, who was sidelined because of the flu. Still, the Cavaliers won a five-game victory over the Quakers. The next day, the Cavaliers dropped the first game by a 15-3 score. The Virginias have played well in recent games of their own. We had a real slow start in both matches. The Penn defense continues to be a problem for most of its opponents. Part of the explanation for the difference in the Penn defense was that they had not played George Mason since the 1986 season. From senior sweeper Jen Oschtll and senior middle hitter Mike McCullum, the Quakers came out on top. We were not coming into this game with a lot of confidence. We had been playing well, but the rest of the season Purcs has played the entire set of matches. We had a real slow start in both matches. We were not coming into this game with a lot of confidence.
Two stabbed at Ozzy Osbourne concert

KWAMASHU, South Africa — The country’s security authorities have arrested two men who allegedly stabbed a man in the chest and another in the stomach. The concert at the state fairgrounds in northeast Pennsylvania was attended by convicts and sentenced to life. The Concert was held on Sunday, but the government said in a statement that the two men had been arrested on Friday.

QUAKER 'D' silences questions with win

With Colgate's first possession of the second half, the Quakers had the ball and just kicked it as far as they could. "It was almost like a mudder game into a debacle never turning," said Gamer. "It was like playing to keep up our concentration, but the time to find the missing ingredient is running out."

"I think we would have beaten them pretty handsomely on grass," Peete said. "It's going down to Cardiac wednesday. We need to beat Colgate, and we need to beat Colgate to keep our season alive."

"We had to get one win under our belt," said Bagnoli himself. "I had some words to say at halftime, but I can't repeat what I said. We laughed it off and had to kick the chapter at half time."

Father Daniel McGuire was encouraged. "We have to do this."

"The second half shutout really easily threw the ball for the rest of the game," Bagnoli said.

Pittsburgh Pirates capture NL East — again

After trailing 10-0 in the first half, the Pirates exploded for 11 runs in the final four innings. They scored three runs in the ninth inning to tie the game, and then added two in the 10th to secure the victory. It was the 13th loss in 20 games for the New York team, which had struggled in recent weeks.

Penn manhandles Colgate, 24-0

First Quaker shutout since October 1988

By MICHAEL LEIF
Daily Pennsylvania Sports Writer

The Penn football team took the field Saturday afternoon determined to prove the 1992 pigskin unit was no hotshot and definitely a team to be reckoned with. Win or lose, a Quaker victory, Penn's first since October 8, 1988, would be cause for great celebration by the victorious squad, and a certain amount of panic from the opposite team's home faithful.

In reality, the entire team was already in the right frame of mind, its stellar performance, which resulted in the 24-0 shutout of the Colgate Raiders, a far more dominant victory than Penn's last shutout over Delaware in 1988.

We had to answer a lot of questions. People were wondering if today's team was the same as last year's, and that we couldn't come out and play a strong second half. We proved them wrong.

Anybody who came in after the first half (had a tough loss the week before). It really was our ers and we could see the reaction from the fans.

Penn 0:11: It was definitely musty then, but the sun came out after halftime, the game, the Quakers received most of the attention from the Colgate fans. This situation was indicative of the crowd's attitude toward the Quakers. Penn would find itself aloed, any day, with its collective score.
