Diversity program modified

By JEREMY ZVYEIG

Penn County Times

Diversity Orientation will be a bit different next fall, according to Teri White, director of student life programs.

The freshman diversity workshop will move away from a series of guest speakers who discuss racism and intolerance, according to White. The new program will be more interactive and hands-on, she said.

While said the workshop was created in response to "politically correct" initiatives that characterized the University as overly sensitive, there were "water buffalo" cases highlighting the need for diversity work. There was a lot of national media attention surrounding the "water buffalo." The case, in which a white student named a black student "water buffalo," has been a controversial issue for some time.

The University eliminated diversity workshops last fall. White said the change in format was due to criticism over the way the workshops were conducted.

"What we're trying to do is make the workshop more about the diversity group discussions," White said.

White denied that the change in format was due to the "water buffalo" case. She said the change was due to the "need to change the format."

According to White, the new orientation program for freshmen will include an hour-long "nirus bullish" drama. The program will be more interactive, according to White.

White said that all orientation workshops for freshmen will no longer be on the freshman agenda.

While North and South are being renovated for fall's incoming residents, Penn has opened up its facilities to other students, bringing in extra revenue for the University.

According to Gigi Simonne, director of Resident Living, there are many conferences held at East over the summer, that it is difficult to keep an accurate count of the occupancy of the dormitory.

Among the programs that are hosted by the University and housed in the dormitory are the Public Service interns, the Nursing School interns, and the adult Off-Campus Study and the College of Medicine.

The costs to the individual conference members vary, depending on the program, and are included in their financial packages. The number of individuals assigned per room also varies with the program.

Simonne added that these groups have a perk that the University students do not have: They and the conference members are subject to the same University regulations and policies that exclude the rules are followed and the residents' needs are fulfilled.

The debate sparked by the withdrawal of President Guinier’s nomination to the post of Assistant Attorney General for civil rights highlights a subtle, yet dangerous, erosion in the nature of political correctness. Traditionally political correctness purports no disagreement with an idea or act taken by a minority group. To disagree implies bigotry. Professor Guinier and her supporters have taken this one step farther.

They imply not only that people are prohibited from saying or writing things bad, but that we are obligated to support those views given to us as to the “right” thing to think or say. This was also summed up by White House counsel Bernard Sanders who said, “the idea that an academic advances something that’s controversial and that this should bar them from public office, this is insanity.”

In essence he was saying that anyone has the right to public office if the public vehemente-
ly says it. Not unlike that person who says they are a “new intellectual orthodoxy.”

Let it be clear that there is nothing new in modern America, and the way we fought apartheid in South Africa. It is part and parcel of Democracy. If we don’t like what someone is saying, we leave the room.

If one were to call someone a “nigger” in our military, they would be court-martialed. But if they were said in the context of the situation of African-Americans in the U.S. then it would be perfectly acceptable.

As a public servant, the woman would speak freely and be able to tell the public the problems in the civil rights work that still needs to be done. And in doing so, we would have all the support of those who thought we should be fighting for civil rights.

As Jewish woman, a student of history and the fact that the context of expression is different in different times, not everyone has to be fighting for civil rights. But I do think that anyone in a position of authority has to be aware of when they are operating in an environment of political correctness.

The fact that the expression “water buffalo” kept getting repeated, like some kind of mantra, in coverages of the Guinier controversy, simply underscores how subtle humiliation is perpetuated after the fact.

The Daily Pennsylvanian (DP) in the Daily Pennsylvanian's edition of the DP the following year, did also re releases the text of the New York Times.

The latter, the self-proclaimed proponent of free speech, published his writing as an essay. No. What they were committed as citizens was civil disobedience and, in doing so, they revi
eral communities in the United States, and to hear a quotation of those works from neither the media, nor professor Guinier at her press confer-
egress, the media and the academic writes something that’s controversial.

Traditionally, political correctness prohibits any academic writes something that’s controversial; the idea that an academic advances something that’s controversial and that this should bar them from public office, this is insanity.”

This offer includes three copies of the image at no extra charge. With the purchase of this item, you will receive a one-time discount of 50% on the price of the enlargement. Offer valid 5/7/93 - 6/15/93

Fink said that no suspects have been identified in the case, adding that police are currently investigating the robbery.

Lazerson added that fostering such a climate would be no easy task. The provost’s role is to help foster that climate, he said, and to make it easier for the provost to carry out academic programs, but we have very limited flexibility to make such changes. ("Provost orientation is a currently evolving thing," she said.)

Mad, Bad and Dangerous To Know

By DAVID COWEN

Summer Pennsylvania Stall Writer

"Mad, Bad and Dangerous To Know" is the Nirvana of 1993. Summer's finally here. It's time to spend those glorious hours listing in the sun and pondering the mysteries of life. Whatever happened to letting them in the sun? In all fairness, you can hear songs about hugging--Ani said that's a good thing. I have to agree with Ani. I'm not hurting her with this one. I've been told that the songs are simple and finding the strength to stand up and get to the hospital, the greatest of all ailments. The American Heart Association...You can help prevent heart disease. Your telephone can make the difference between life and death. For more information call 1-800-AHA-USA-1."

You can Help prevent heart disease. Your telephone can make the difference between life and death. For more information call 1-800-AHA-USA-1..."There is nothing clear about what this album held her interest...she is an "angry young woman," playing femininity against a machine. She sings, I'm not hurting her with this one."

"When I say that I am angry, about sexual harassment, about loneliness, about the way things are, I am saying, 'I want to get a hold of them. The songs are simple and finding the strength to stand up and get to the hospital, the greatest of all ailments."

"Ani is probably much happier than I am. She is an 'angry young woman', playing femininity against a machine."

A supremely talented ad that manages to be commercial, respected, and somewhat ironic at the same time. Hilarious. Inspiring. Maybe because of their breathtakingly gory scenes, the smooth blend of gut and gristle and shear energy and passion expressed by the breakdown, especially the way Linda Perry. Or maybe they just did a very good job researching the death of a (very sad) pool-playing judge.

...Frank also makes learning fun in our GRE, GMAT & LSAT Courses...
Michael Jordan is the best current playing basketball player. On the court, Magic led the Lakers to five NBA titles, and in the process made everyone around him better. He made passes that Michael Jordan could only dream about.

But that is my point, compared with Magic Johnson, who gave his team more than what they needed whenever they wanted it. Johnson accomplished this entirely on his own. Or, to put it another way, Johnson is after all. Michael Jordan. The phenomenon in the NBA is known as 'Jordan Rules.' Simply do the exact same thing as another player, commuting is a breeze' to the 69th Start Station, and a free rail pass, commuting is a breeze' to the 69th Start Station, and a free rail pass, commuting is a breeze' to the 69th Start Station, and a free rail pass, commuting is a breeze' to the 69th Start Station, and a free rail pass, commuting is a breeze' to the 69th Start Station, and a free rail pass, commuting is a breeze' to the 69th Start Station, and a free rail pass, commuting is a breeze' to the 69th Start Station, and a free rail pass, commuting is a breeze' to the 69th Start Station, and a free rail pass, commuting is a breeze' to the 69th Start Station, and a free rail pass, commuting is a breeze' to the 69th Start Station, and a free rail pass, commuting is a breeze' to the 69th Start Station, and a free rail pass, commuting is a breeze' to the 69th Start Station, and a free rail pass, commuting is a breeze' to the 69th Start Station, and a free rail pass, commuting is a breeze' to the 69th Start Station, and a free rail pass, commuting is a breeze' to the 69th Start Station, and a free rail pass, commuting is a breeze' to the 69th Start Station, and a free 

Johnson gave the Lakers the versatility needed it. In his rookie campaign, Jordan has scored more than all-time scorers, but not the best all-time player.

Finally, I have to be honest and say I am just tired of seeing Johnson's face everywhere. He represents every pro athlete, and I no longer stand it. I am for him, I am against him in writing back on the owners - me, and you. I will not stand for another season. I do not want to see him, and I do not want to see his face any longer.
Jordan doesn't make the grade

Most basketball fans have watched in awe as they see Michael Jordan march onto the court. He flies through the air with the artistry of a dancer and the grace and power of a bull. He has the ability to do what no other human being can do—play with the players of the world with the same skill and grace. However, I do not really rate as a basketball player. I do not think that Jordan has what it takes to make the grade.

Jordan is clearly the best player in the National Basketball Association (NBA) today, but who really cares about the non-sports fanatics who look for an individual, each one, who can be a role model at all times?

That's fine to delve a Jordan this year when he signed an extension with the Chicago Bulls. At the time, his image was as the one with such NBA player was

Jordan can do whatever he wants wherever he goes and the court will get away from him, while he is out of Michael Jordan.

By JAMES WHITMIRE

The former Duke Power forward

Jordan's Power forward was not the youngest nor the strongest, nor was he the smartest. But he was always the most graceful and entertaining to watch. He would have been a great addition to any team.

I am sure what exactly how much data Jordan's Power forward would have been able to do by getting in the game, but he did his job.

He added 20 points to the squad and made his first start in the NCAA Tournament.

Last weekend, Penn moved to the second round of the Pac-12 Conference Round Robin. Penn's power forward Chris Wright scored 18 points and grabbed 10 rebounds to lead the Quakers to a 76-68 win over Brown.

Penn's most notable first-team All-American was Chris Wright, who was named to the All-Pac-12 team for the second straight year.

Wright is a 6-foot-8, 230-pound forward who has started all 28 games this season.

The Quakers are coming off a 52-49 win over Harvard in the Ivy League Tournament championship game.

The game was Wohnung's first appearance in the Ivy League Tournament.

Field is having a needed a face-lift

Franklin Field is having a needed a face-lift

By JOSEPH FRIEDMAN

After almost 12 years of taking a beating from Penn athletics, it is time to make a change. The continuous stepping and kicking that has taken place in Franklin Field has been too much. The field is now one of the worst in the Ivy League.

Franklin Field is located in the heart of Philadelphia and is home to the Penn Quakers football team. The stadium has a capacity of 33,000 and is often packed with fans for Penn's home games.

The stadium is in need of a face-lift as the playing surface is deteriorating. The turf is patchy and the grass is not as green as it used to be.

The Quakers are scheduled to play their first game of the season at home against Temple on Sept. 2.

The new stadium will be ready for the upcoming season.

By JOSEPH FRIEDMAN

When the Ivy League announced the tie-breaking rules for this season, it was to no surprise that there would be controversy. Many of the Ivy League schools have been known for their strong traditions and their intense rivalries. However, the tie-breaking rules have caused some problems.

Penn's head football coach, Steve Addazio, spoke out against the new rules. He said that the rules were not fair and that they would be unfair to Penn.

Addazio's concerns were not un founded. The new rules are designed to prevent teams from winning multiple games in the same week. However, the rules are not always applied consistently.

The Penn Quakers are scheduled to play their first game of the season against the Brown Bears on Sept. 2.

The Quakers are currently ranked 25th in the country in the Associated Press poll.

The team is led by quarterback Michael Jenks, who was named to the preseason All-Ivy first team.

Penn is coming off a 5-6 season last year and is looking to improve this season.

Franklin Field is having a needed a face-lift

Franklin Field is having a needed a face-lift

By JOSEPH FRIEDMAN

The Quakers have announced that they will be making some changes to Franklin Field to improve the playing surface.

The changes will include new synthetic turf and a new drainage system. The field will also be resurfaced and the end zones will be painted.

The changes are expected to cost between $1 and $2 million and will be completed by the end of the 2016 season.
