Welcome

Dear Reader,

It's official. Twelve hours ago, Fagin takes over as the 8th President of the University replacing Sheldon Hackney, who, after last week's Senate hearing, is a virtual lock to head the National Endowment for the Humanities.

She replaces a man who, despite our many criticisms, has done an admirable job as president of this University. Fagin's dedication, hard work and wonderful fundraising have enabled our institution to prosper and grow.

But after experiencing twelve years of growth during the Hackney era, our next president should not come from an in-experienced or inexperienced institution.

The future we need to become more inclusive and supportive institutions, so that all students, regardless of their backgrounds and ideologies feel a strong sense of belonging.

The evaluation and improvement process, as our professor has suggested, should involve all members of the community.

As a result, we feel that it is imperative that students are made a welcome addition to the Commission on Strengthening the Community.

During the upcoming year we will also have the opportunity to be involved in perhaps our most basic duty--the policies and procedures that govern our institution.

There are other difficult decisions that we need to make as we go through this remarkable institution and improve many of its inefficiencies and eliminate many of its inequities.

Equally difficult decisions will be integral part of the review of our radical process but much, nevertheless, if made as we see fit.

Fagin has a unique opportunity to help the University grow internally, to make us feel at home, and to be a mentor to the student body.

So much, in fact, that a term becomes a turning point in our institution's history.

The Animal-Driven Carriage Bill ... requires horse riders and carriage drivers alike to either get licenses or get off the trail. The bill mandates that all carriage drivers, like their animal counterparts, pass a written exam and demonstrate proficiency in the basics of horse care and carriage handling.

"It is not a very business friendly bill," said Society Hill Carriage Company owner Sandy. "An additional $600 in fees per year would be placed on our company as a result of this bill." Howard Hackney, the only Councilperson who voted against the bill, said the bill had been done to death.

"It's time to take a fresh look at this, we must make it as easy as possible for them," he said, "If people come to visit Philadelphia, they will not know about the horse and buggy waiting at the gate to take you on a midnight stroll." That is, of course, if you first obtain a permit from the Philadelphia Department of Streets. Carriage owners have expressed their hearty reservations about the stiff $100 license fee and a yearly renewal fee, they say, is unfair.

The smart horse bill, as some councilpersons called it, also confines horse-drawn carriages to a fixed route through Society Hill and the Historic District during rush hour.

According to the "smart horse" bill, drivers would be free to travel anywhere on the streets around the clock, 7 days per week, 365 days per year.

"I am proud, I am very proud," he said.

After the orchestra finished, the crowd was treated to an unparalleled performance of Philadelphia rhythm and blues band Boyz II Men in addition to the performance of Philadelphia rhythm and blues legend Dorn

"The new City bill seeks to protect the horses in every possible way," Hackney said.

"If we want to attract out-of-towners, we must make it easy for them to understand what they are going to encounter," he said. Hackney also added that the bill would also help the City's tourism effort.

"It is a good bill, it is a good thing," he said, "But, we must make sure that the horses are treated as they should be treated."

Dead Heads – Dead Dreams

By JEREMY ZWEIG
Summer Sunscreen Summer Hygiene

We have huge hopes. We’re going to be swaddled in sheets, and feel the homeless. Anogenital proboscis and comb over to the morgue in tequila

Eve and I hope much those of the W-I. 

But today, it’s only the teens, and we’re coping with the clothes, the video- 

tures and the more puke a few much years ago.

Senses and coarse are most im- 

portant for their years, but much of today’s generation seems to be conscious. We’re well past the wild chase of alternative.

Indeed, we don’t like the environ- 

mentalist make.

So, many of today’s rebels, today’s social revolutionaries are unconventional and a little bit off. The Grand Dead would find it hard to play-

ning.

But when the band took the stage for the first time at the Old Forester Theater in Louisville, Kentucky, the audience was on their feet as they made their way to the stage. After the band played for over an hour, the audience remained on their feet, applauding and cheering for more.

King also played songs from previous albums and from the band’s upcoming album, which is set to be released next month. The audience remained on their feet, cheering and singing along as the band played.

The band’s performance was a testament to their dedication to their craft and their connection with their audience. They played with passion and energy, and the audience responded in kind, creating a truly memorable concert experience.

Meanwhile, the Grand Dead was also performing at another venue in the city. The band played a set of classic songs from their early days, and the audience was in awe.

Van Orton was sitting on the stage, watching the performance with a smile. He knew that the band was putting on an incredible show, and he was proud to have them on his label. The music was powerful and moving, and it was clear that the band was dedicated to their craft.

In conclusion, this was a memorable night for all involved. The Grand Dead and the Orlando band both put on incredible performances, and the audience was left in awe. It was a night that would be remembered for years to come.
Health care guru Hillary Rodham Clinton is fast at work preparing her comprehensive health care overhaul plan. Hopefully we'll see what it's all about soon. We received an anonymous listing of some of the First Lady's favorite terms and wanted to see what our readers think about them. If you can help her with her medical terminology please fill out the card below and send it back. Thanks for helping to save America!!!

Crew wins national title

By JAMES WHITMIRE

The Princeton University men's crew, led by coxswain Pete Shumaker, won the national championship in the four-man with coxswain race.

The team, which had been training for the last three years under the guidance of head coach Stan Bergman, won the title with a time of 6:53.74. The Princeton crew defeated Boston University by over a minute in the championship race.

The Princeton crew was made up of junior Sean Murphy in the stroke seat, sophomore Matthew Pete Shumaker in the two seat, senior Academic All-American Peter andr in the three seat, and senior varsity coxswain(ar) in the four seat. The team went undefeated through the entire season and finished first at the IRA Regatta in England. Last year, Princeton was second in the IRA and fifth at the Easterns National Championship.

This year's team was led by senior varsity coxswain Pete Shumaker, who has been on the team for four years. The team also included sophomore coxswain Matthew Pete Shumaker, who has been on the team for two years.

The Princeton crew's victory came after a season of hard work and dedication. The team trained for over 15 hours per week during the fall season and over 10 hours per week during the spring season. They also competed in over 20 races during the season.

The Princeton crew's victory was a testament to the hard work and dedication of the team and its coaches. The team's success was also a reflection of the strong support and dedication of the Princeton University community.
Hank Gathers League excites fans at Temple

BY JAMES WHITMIRE

The Peabody squad is perhaps the most intriguing team in the Hank Gathers League. They are comprised of reaper high school seniors who were highly recruited and sought after. Chief among those is the most respected coach in the league, Anthony T. McMillan. McMillan, who is known as "Coach," has been with the league for several years and his team, the Peabody, has consistently been one of the top teams in the league.

The Peabody team includes several high school stars, including a point guard who has been named the MVP in the league's first two seasons. The team is known for its fast-paced offense and strong defense, and has won several games in close quarters.

The league itself is an interesting concept. It brings together high school seniors from around the country, providing them with a chance to play against some of the best players in the nation. The games are televised on cable networks and attract a large audience.

Overall, the Hank Gathers League is a unique and exciting addition to the high school basketball scene. It provides a platform for talented players to showcase their skills and prepares them for future success in college and professional basketball.
