Environmental groups celebrate petition

One million give their support
By Prem Kumar
The Daily Pennsylvanian

In only six months, dozens of environmental organizations - including Friends of the Earth, Environment Pennsylvania and the Sierra Club - have joined together to form a group called the Pennsylvanian Environmental Action Congress. The coalition, which currently numbers more than 50 groups, has already been able to launch a campaign to prevent a proposed $2 million pipeline from opening for oil and gas as well as a successful effort to convince the Pennsylvania Public Interest Research Group to stop the construction of a natural gas pipeline.

The groups have also placed full-page ads in The Daily Pennsylvanian, The Morning Call and The Pittsburgh Press, calling for a "green conscience at the University." The full-page ads all stress the importance of environmental laws, the need for clean air and water and the importance of conserving resources.

But the biggest news has been the successful petition drive, launched by the Pennsylvania Chapter of the Sierra Club in cooperation with the Pennsylvania Public Interest Research Group. The petition drive was organized to force the Pennsylvania Public Utility Commission to cease its review of a natural gas pipeline that would run through the state.

The petition drive was launched on May 1, and the deadline for signatures was June 28. By July 1, the Pennsylvania Chapter of the Sierra Club had collected more than 100,000 signatures, enough to force a full commission review of the pipeline.

According to John Mumma, a representative of the Pennsylvania Chapter of the Sierra Club, the petition drive was the result of a coordinated effort by the environmental groups to ensure that the Pennsylvania Public Utility Commission would not approve the pipeline.

The drive was successful because of the dedication of the groups involved, Mumma said. "We were able to mobilize a large number of groups and to get them to work together," he said. "We were able to get a lot of people involved, and we were able to get a lot of support from the public."

CAMPUS EVENTS are listed daily as a paid public service of the University of Pennsylvania, and are administered for the University by The Daily Pennsylvaniaian.
City joins race for mental health

By Katherine Giles
The Daily Pennsylvanian

Married couples with children, singles with disabilities, and non-disabled individuals all started the 5K Walk/Run for Better Mental Health on Sunday morning.

The event, which drew a crowd of more than 1,000 people, was started by the Mental Health Association of Southeastern Pennsylvania. Mayor Ed Rendell was on hand and spoke to the crowd.

The race was to publicize the plight of the mentally ill homeless. The group also seeks housing and vocational training for its participants while also addressing their mental health needs.

According to Joe Yaskin, spokesperson for the Mental Health Association, the event is an attempt to publicize the plight of the mentally ill homeless. The group also tries to inform the homeless about where they can get aid and improve mental health insurance coverage.

`Many of the money earned from the event will go to Project Connect, which is located in Darby, Pa., a town near Philadelphia," Yaskin said. "Projects Connect has registered either mental health or homelessness."

Most of the employees of Project Connect have registered either mental health or homelessness. The program is based upon the belief that "people living with mental illness and homelessness can achieve community once they get a leg up and start moving forward in their lives," according to Jon Yaskin, spokesperson for the Mental Health Association.

To this effect, Project Connect mentored housing and vocational training for its participants while also addressing their mental health needs. Therefore, the run was as much about "victorizing mental health and the importance of mental health care" as having a good time, Yaskin added.

Numerous information booths, concentrated in the registration area, highlighted this goal, offering advice about programs aimed at treating mental health disorders such as major depression and details about the disorders themselves.

Nursing sophomore Elizabeth Conboy called the run "inspiring." She praised the information booths because "she said providing "lots of information about different diseases and working with patients.""

Although many Penn students participated in the walk, as well as the Hospital of the University of Pennsylvania, only a small gathering was in the information section, Yaskin said he hopes to involve more fraternities in the future.

Entertainment was provided by several groups, the Philly Phanatic, assorted musicians and even Ren Friesday. Refreshments, water and T-shirts were also provided for the runners.
AMS at Penn '95

Learn How You Could Join the Distinguished Penn Alumni Currently at American Management Systems (AMS)...

AMS specializes in the intelligent application of information technology to advance the interests of our clients. We meet the needs of domestic and international clients with a professional staff of 5,500 deployed in 41 offices. Our 1994 revenues of $460M were derived from consulting, systems development and integration, and reusable software products. By focusing on clients in specific markets, such as financial institutions, insurance, telecommunications, governments, and healthcare we combine a knowledge of contemporary information technology with an in-depth knowledge of our clients’ business. More than 120 successful Penn graduates are already at AMS and have contributed to the growth and success of our business.

Join us for our activities on campus from on Wednesday, September 27 and Thursday, September 28. Learn more about AMS and our role in applying information technology for today’s business needs.

- **An Overview Presentation about AMS**—Learn why so many Penn students throughout the University (Wharton, Engineering and the College of Arts and Sciences) have joined us over the years.

- **Summer Internships at AMS**—Meet and mingle with some of our past interns and learn about their experiences and our plans for 1996. Casual Attire

- **Advanced Technology in Business Consulting**—Join us for a demonstration of contemporary information technologies addressing today’s business needs. AMS will be demonstrating real world applications of technologies; including multimedia, pen-based computing, client/server architectures, graphical user interfaces (GUIs), and document imaging. These are demonstrations of systems that have been implemented for AMS clients. Casual Attire

*Refreshments will be served at each event.*

**Tenure: No Students Allowed**

Jeffrey Han  
**The Central Dogma**

---

There always seems to be a bit of wisdom in avoiding what one has learned in tenure. A bunch of students show up at the national meeting, they have the stacks of papers and come out several hours later with the future of your students in their hands. What goes on in an advisor is a great mystery. They could be playing cards for all the people I know. In the end, the usual is to say that the worst thing for your students are mentors. Tenure is no
deed, and it's in all probability back to the job market.

Another one hits the dust. Surely this is the future of all your graduate students. They are
the people who are doing the interesting work. Most of the tenure process is still a dark
room for what the</p>

New fighting brewing in Bosnia

Tensions rise as talks draw near

SARAJEVO, Bosnia-Herzegovina — Allied Bosnian and Croatian forces ad

vanced on a new front on the battlefield yesterday, sending more than 80,000 people into diaspora. The fighting was taking place on the 30th anniversary of the Serb-led invasion of Bosnia-Herzegovina by the Serbian army.

The fighting is the latest in a series of clashes that have been occurring in Bosnia-Herzegovina since the end of the 20th century. The conflict has been fueled by ethnic tensions between the Bosnian Serbs, Croats and Muslims, and has resulted in the displacement of millions of people. The fighting has also been exacerbated by the presence of international troops, who have been unable to stop the violence.

At the time, Serb acceptance of that par

The international community was shocked by the news, and the United Nations immediately imposed sanctions on Serbia. The fighting continued for several weeks, and more than 1,000 people were killed.

In September 1995, a peace agreement was reached, ending the Bosnian War. The agreement was brokered by the United States, the United Kingdom and France, and was signed by all parties involved.

The deal provided for a power-sharing arrangement, with each side having a say in the government. The agreement also called for the withdrawal of foreign troops from Bosnia-Herzegovina, and for the establishment of a international monitoring body to oversee the implementation of the agreement.

The agreement has been hailed as a major step forward in the peace process in Bosnia-Herzegovina, and has been praised for its commitment to peace and stability in the region. However, it has also been criticized for its lack of enforcement, and for the ongoing violence that continues to plague the region.

In recent months, there have been reports of renewed fighting in Bosnia-Herzegovina, and the international community has been working to prevent a further breakdown of the peace process.

The United Nations has been active in trying to negotiate a peace agreement, and has been working to provide humanitarian assistance to those affected by the conflict. However, the situation remains tense, and there are concerns that a renewed conflict could lead to a further humanitarian crisis in the region.

The United Nations has been working with the Bosnian government and opposition leaders to try to restart the peace process, and to prevent a further breakdown of the agreement. The organization has been working to provide humanitarian assistance to those affected by the conflict, and to try to create conditions for a peaceful future.

The situation remains uncertain, and there are concerns that a renewed conflict could lead to a further humanitarian crisis in the region. The United Nations is working to provide humanitarian assistance to those affected by the conflict, and to try to create conditions for a peaceful future.

The United Nations remains committed to working to prevent a further breakdown of the peace process in Bosnia-Herzegovina, and to providing humanitarian assistance to those affected by the conflict. The organization is working to create conditions for a peaceful future, and to help those affected by the conflict to begin to rebuild their lives.

The United Nations remains committed to working to prevent a further breakdown of the peace process in Bosnia-Herzegovina, and to providing humanitarian assistance to those affected by the conflict. The organization is working to create conditions for a peaceful future, and to help those affected by the conflict to begin to rebuild their lives.

McKinsey & Company, Inc.

McKinsey & Company, Inc., a leading international management consulting firm, cordially invites members of the 1996 University of Pennsylvania senior class to learn more about our 2-year business analyst program.

We will be having a presentation and reception for interested students on

Wednesday, September 27, 1995
at the Sheraton University City Palmaire Ballroom
from 6 p.m. to 8 p.m.

We look forward to seeing you there.
UBS Securities Inc. cordially invites you to attend an informal presentation on Opportunities in Investment Banking on Wednesday, September 27th, 1995 from 4:30 – 6:30 P.M. at Faculty Club Rooms 1 & 2. Reception Immediately Following.
La Salle will stay at Civic Center in '95

But if the trustees do not approve the renovation proposal, La Salle will be looking for a place to play and will re-enter negotiations with the University in the spring, he added.

"We all hoped it'd come back, whether to play doubleheader with us or just on their own at the Civic Center," Dunphy said he was disappointed. "I'm a Palestra guy and I love it. From a fan's perspective, which I am, it would be great for college basketball and the entire City of Philadelphia."

Although Morris would like to move on campus he said he enjoys playing in the Palestra, "I'm a Palestra guy and I love it..."

...when you have 3,000 fans that sound like 30,000."

 cs first boston

CS First Boston, a leading global investment bank, headquartered in New York City, is recruiting for its Technical Associate Program in the Information Services department. The Information Services department is responsible for development and support of the systems which control trade processing and management information for CS First Boston. Macik will work his magic on Sundays

**WALENTS** from Back Page tried to patent over the past several seasons with just one diminutive Sunday afternoon, as it is familiar. He just doesn't matter what kind of position a defensive back has — Macik will make him a non-factor. White Space spent his Saturday shopping. A fair job, by his own standards, but dragging from a digestive standpoint post-after Roy's and Glasses's drip gross.

We were unable to get in to see Shapirom on a Saturday morning, as a truly early quartet of Swami's decided to go out to the Red Rocket and crash all of the bustling metropolis of Evanston, Ill. Fortunately, after much concern, Herbold's battery was replaced by a Penn argyle at the last minute and the game was ready to contend — sort of like Michael Jordan if you will?

Blue Hens will pose a stern test

By Scott Miller

The Penn field hockey team hopes to stay undefeated under first-year coach Val Cloud tonight against Delaware at Franklin Field.

One thing that appears for sure is Penn’s fate is pretty much in the hands of this year’s sophomores. But that’s no reason to be complacent. Curran Kelly

They’ve got great junior, Kelly will be a great leader with the task of leading the team. They’ve got to have a great junior in order to be successful. By Patrick Byrns, the team is young and need a leader.

The Penn signal caller is a different kettle of fish from the Palestra to play, La Salle basketball in the Palestra this season.

The Atlantic 10 Conference, will not move to the Palestra this season. Explorer decided to continue playing their games at the Palestra this season.

W. Soccer wary of letdown as Lehigh invades

The Penn women’s soccer team, coming off a heartbreaking 1-0 loss to Dartmouth on Saturday, is looking forward to their next game, as Rich Miller continues

Senior punter Brian Upbin reiterated this season’s strong defense. The Quakers have lumped out to a one

After getting tripped up in a 2-1 loss to nationally-ranked Dartmouth over the weekend, the Penn women’s soccer team is hoping to get back on its feet this afternoon at 4 p.m. against Lehigh.

The Quakers are ranked 7 in the nation.

Lightweight Football is dominated at Cornell

Three first-half turnovers prove deadly for Penn

By Craig Pope

Friday night the Penn Quakers opened the lightweight football season with a 30-0 loss at the hands of the Vermont Catamounts. Cold, slippery Schoellkopf Field proved less than ideal playing conditions, as evidenced by the Quakers’ offense in the early going. After a good first half that included a 2-0 lead, the Quakers were stifled by the Catamounts in the second half, leading to a 30-0 loss.

The in the second half Penn regrouped and came back with a strong second half that included a 2-0 lead, but the Cats were too strong for the Quakers.

Quaker quarterback Brian Uppin remains upbeat. "This is only the first game of a long season. We always get pumped for Princeton, and we are really excited about playing them."

The Quakers approach their week ahead with a renewed sense of optimism, as Rich Mullin continues to search for that elusive win.
